Re: City of Austin
Application to Amend Certificates of Convenience and Necessity
Docket No. 45180
Motion for Extension

On Mach 4, 2016, the Public Utility Commission of Texas filed Order No. 6, stating that the application remains administratively incomplete and insufficient for filing due to mapping deficiencies. The Order states that the applicant must address the deficiencies by June 6, 2016.

Austin Water, the applicant, on behalf of the developer of the property in review, is requesting an extension of time for the above docket number. Because of a mapping issue, PUC staff and the developer's engineer met on Thursday June 2, 2016 to discuss and according to the developer's engineer the parties have determined the problem and the engineer is ready to address the mapping issue. The applicant is respectfully requesting a joint extension of 14 calendar days (until June 20, 2016). Mr. Jacob Lawler of the legal division has stated that he is not opposed to a time extension

If we can provide additional information, please call me at (512) 972-0232 or email me at phillip.jaeger@austintexas.gov.
