WATER COMPANY

December 29, 2016

Public Utility Corporation State of Texas

Re: Class B Water Company Annual Report 2015

Sirs:

Crystal Springs Water Company has never used the NARUC Uniform System of Accounts for its annual report. We are now acquiring a software program to add this system to our regular accounting procedures.

Crystal Springs Water Company has not ever had a WWTP rate change. We installed our Timberland WWTP and established a tariff that is still in effect. Martin Realty & Land, Inc. was previously shown as owner of our Timberland system and the Country West WWTP that was constructed in the 80's. Crystal Springs Water Company was separated from Martin Realty & Land, Inc. in 2012, and is a totally separate water and sewer corporation, with Martin Realty & Land, Inc. having no ownership.

Crystal Springs Water Company is planning on requesting a rate increase for its WWTP operations but with a lack of cost records or dates of installation for much of the installation/remodel/expansion for both the Country West and Timberland plants, we. have employed Water Engineers, Inc. of Houston, Texas to retro-engineer and evaluate the original costs of the systems/expansions so we can update these systems and evaluate/depreciate all phases bringing their costs/values up to date through 2015, including them in the NARUC Uniform System of Accounts.

Our 2015 Crystal Springs Water Company income tax return, included in the 2015 Annual Report, reflects a large outside construction process with TxDot on the Grand Parkway (Highway 99) Toll Road Project.

Crystal Springs Water Company, Inc. P.O. Box 603, Porter, TX 77365

Office: (281) 354-5136 * Fax: (281) 354-0549.

www.cswci.com * support@cswci.com 179

The toll road was constructed directly through the middle of our Timberland water and sewer systems. TxDot contracted with Crystal Springs Water Company to build over a million dollars in water and sewer infrastructures, connecting both sides of Timberland Estates. (The toll way went right through the middle of Timberland.)

This construction caused Crystal Springs Water to lose 88 connections and hundred of thousands of dollars of infrastructure previously installed. TxDot then ruled that Crystal Springs Water Company would not be reimbursed for our lost connections, infrastructure, etc. because we are a "municipal" type system, and by law they do not have to reimburse Crystal Springs Water Company for the lost facilities.

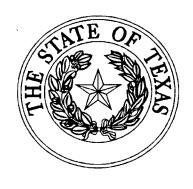

Litigation is pending for Crystal Springs Water Company to recover sizable monetary damages from TxDot. Our legal advisors requested that we do not try to evaluate these facilities until legal action is finalized.

We will bring all the Crystal Springs Water Company water and sewer systems into our NARUC Accounting System in 2017. Hopefully, we will be able to file our 2016 Annual Report late in 2017 with all data current.

Sincerely,

President/CEO

Crystal Springs Water Company

Add National Association of Regulatory Utility Commissioners (NARUC) accounts as needed, and if not shown above

Note: Sewer Plant in service is being retro-engineered back to 1984 to determine total system cost basis less depreciation. Crystal Springs Water Company has never asked for a sewer rate increase so this cost basis will be determined in 2017 with our NARUC Accounting System in place. PUC Water Annual Report

1. Carried over from Statements of Revenues

* Federal Income Taxes are not reflected because Crystal Springs Water Company, Inc. is a Subchapter "S" Corporation, with income tax liabilities passed through to stockholders. We will review this with PUC officials and determine how to reflect Federal Income Taxes on our 2016 Annual Report.

RE:

Crystal Springs Water Co., Inc.

US Income Tax Return "S" Corporation 2015

Sirs;

Crystal Springs Water Co., Inc. 2015 US Income Tax Return shows a total of \$4,852,858 total income. \$1,443,159 of this is non operating systems revenue from a contract with TxDot for a highway project (Grand Parkway, Highway 99) that separated our entire water and sewer system for Timberland, ID1700612, requiring extensive boring, relocating lift stations, water and sewer lines, etc. in Timberland Estates, reflecting \$974,163 income, less many accounting adjustments for that project. Crystal Springs Water Co., Inc's income for our operating systems was \$267,977.

This is a complicated return due to the fact that our Timberland system lost 88 connections, hundreds of thousands of dollars in infrastructure, etc.

TxDot refused to compensate Crystal Springs Water Co., Inc. for the lost connections, infrastructure, etc because they regarded Crystal Springs Water Co., Inc. as a "municipal" system and by state law, they were not required to compensate Crystal Springs Water Co., Inc.

Crystal Springs Water Co., Inc. has pending litigation against TxDot to recover these lost assets. We cannot evaluate our lost infrastructure to determine our basis for a rate of return until this case is settled. Hopefully, we will settle it in 2017 and can return to a completed annual report.

Sincerely,

Tom A. Martin, CEO

Crystal Springs Water Co., Inc.
