INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Trophy Club Municipal Utility District No. 1
Trophy Club, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Trophy Club Municipal Utility District No. 1 (the "District"), as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Trophy Club Municipal Utility District No. 1, as of September 30, 2014, and the respective changes in financial position, for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparisons, and retirement system funding information on pages 3-10 and 35-37 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Trophy Club Municipal Utility District No. 1's basic financial statements. The accompanying individual schedules and other supplementary information listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying individual schedules and other supplementary information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying individual schedules and other supplementary information are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 20, 2015, on our consideration of Trophy Club Municipal Utility District No. 1's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Trophy Club Municipal Utility District No. 1's internal control over financial reporting and compliance.

TROPHY CLUB MUNICIPAL UTILITY DISTRICT NO. 1
MANAGEMENT'S DISCUSSION AND ANALYSIS
September 30, 2014

Trophy Club Municipal Utility District No. 1, Texas (the "District") Management's Discussion and Analysis (MD&A) is a narrative overview and analysis designed to provide the reader a means to identify and understand the financial activity of the District and changes in the District's financial position during the fiscal year ended September 30, 2014.

The Management's Discussion and Analysis is supplemental to, and should be considered along with, the District's financial statements.

Financial Highlights

At the close of the fiscal year, the assets of the District exceeded its liabilities by \$16,804,343. Of this amount, \$2,961,240 is unrestricted net position and may be used to meet the District's ongoing commitments.

The District's net position increased by \$1,654,193 during 2014. The increase is mostly attributable to \$936,481 of developer capital contributions to the District's water and wastewater systems.

At the end of the fiscal year, the District's governmental type funds reported a combined fund balance of \$2,962,683. As of September 30, 2014, the unassigned fund balance of the General Fund was \$488,818.

Long-term debt activity for the District included debt principal repayments totaling \$1,040,991. No new debt was issued by the District during 2014.

Overview of the Financial Statements

The MD&A is intended to introduce the reader to the District's basic financial statements, which are comprised of three components: 1. Government-Wide Financial Statements, 2. Fund Financial Statements, and 3. Notes to Basic Financial Statements. The report also contains other required supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements – the government-wide financial statements are designed to provide the reader with a general overview of the District's finances in a way that is comparable with financial statements from the private sector.

TROPHY CLUB MUNICIPAL UTILITY DISTRICT NO. 1
MANAGEMENT'S DISCUSSION AND ANALYSIS

Overview of the Financial Statements – continued

The government-wide financial statements consist of two statements:

1. The Statement of Net Position – (Page 11) this statement presents information on all of the District's assets and liabilities; the difference between the two is reported as net position. Over an extended period, the increase or decrease in net position will serve as a good indicator of whether the financial position of the District is improving or deteriorating.
2. The Statement of Activities – (Page 12) gives information showing how the District's net position has changed during the fiscal year. All revenues and expenses are reported on the full accrual basis.

Fund Financial Statements - Fund financial statements provide detailed information about the most important funds and not about the District as a whole as in the government-wide financial statements.

The District uses fund accounting to demonstrate compliance with finance related legal requirements which can be categorized as governmental fund activities.

Governmental Funds – All of the District's activities are reported in governmental funds. They are used to account for those functions known as governmental activities. But unlike government-wide financial statements, governmental fund financial statements focus on how monies flow into and out of those funds and their resulting balances at the end of the fiscal year. Statements of governmental funds provide a detailed short-term view of the District's general government operations and the basic services it provides. Such information can be useful in evaluating a government's short-term financing requirements.

The District maintains three governmental funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances for the General Fund, Debt Service Fund and Capital Projects Fund.

The District adopts annual appropriated budgets for the General Fund and Debt Service Funds. A budgetary comparison statement is provided for each annually budgeted fund to demonstrate compliance with its budget.

Notes to the Basic Financial Statements – The notes provide additional information that is essential to a full understanding of the data presented in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 17-34.

Government-wide Financial Analysis

The Management's Discussion and Analysis highlights the information provided in both the Statement of Net Position and Statement of Activities in the government-wide financial statements. It may serve over an extended period of time, as a useful indicator of the District's financial position. At the end of the fiscal year, the District's assets exceeded liabilities by \$16,804,343. Of this amount, \$13,843,103 (82%) reflects the District's investment in capital assets (e.g., land, buildings, machinery and equipment, net of accumulated depreciation), less any related outstanding debt used to acquire those assets. The District uses these capital assets to provide service to the community; therefore these assets are not available for future spending.

Financial analysis of the District's funds

Governmental Funds - the main focus of the District's governmental funds is to provide information on the flow of monies to and from the funds, and to note the unassigned fund balance, which is a good indicator of resources available for spending in the near term. The information derived from these funds is highly useful in assessing the District's financial requirements. The unassigned fund balance may serve as a useful measure of the government's net resources available for use at the fiscal year-end.

At the end of the fiscal year, the District's governmental funds reported combined ending fund balances of \$2,962,683, of which 16%, or \$488,818, is unassigned and available to the District for future spending.

General Fund budgetary highlights

The most significant amendment to the General Fund 2014 budget involved increasing budgeted capital expenditures by \$868,681 for on-going water and wastewater system improvements.

Revenue: Revenues were \$65,521 (0.8%) less than budgeted

- Water and wastewater charges were \$120,058 (2.1%) more than budgeted.
- Utility fees were \$250,909 (43.1%) less than budgeted.

Expenses: Expenses were \$152,028 (1.8%) less than budgeted

- Water operations expenditures were \$394,226 (9.6%) less than budgeted.
- Non-departmental expenditures were \$394,226 (102.9%) more than budgeted and attributable to budget overruns for legal expenses.

Debt Service Fund:

- Debt Service Fund budget versus actual results were generally in line with expectations. The fund experienced a slight decrease in fund balance of \$3,126 due to a small 0.9% unfavorable budget variance for property tax revenue.

Capital Asset and Debt Administration

The District's investment in capital assets for its governmental activities as of September 30, 2014 amounted to \$19,849,794, net of accumulated depreciation. This represents a broad range of capital assets including, but not limited to land, buildings, improvements, machinery and equipment, vehicles, and water, wastewater treatment, and wastewater collection systems.

Capital assets increased 10% during 2014 primarily due to approximately \$1.3 million of on-going water and wastewater system improvements and \$936,481 of capital contributions. Additional information about capital assets may be found in Note 5 in the notes to financial statements.

Debt administration

Long-Term Liabilities – at the end of the current fiscal year, the District had \$6,031,304 of general obligation bonds, notes payable and accrued compensated absences, which is a decrease of 15.8% from the previous fiscal year. Of this amount, \$7,065,539 is backed by the full faith and credit of the government. No new debt was issued for the District during 2014.

Economic factors and next year's budgets and rates:

General fund fiscal year 2015 budgetary highlights:

Revenue: The District's 2015 operational revenue is budgeted to increase by \$1,298,499.

- Property tax revenue is budgeted to increase from \$1,026,805 for fiscal year 2014 to \$1,040,716 for fiscal year 2015.
- Water and wastewater revenue is budgeted to increase by \$2,099,396 due to an increase in the number of utility customers and to a rate increase that was effective July 1, 2014.
- Utility fee revenue is budgeted to decrease by \$398,109 due to slow down of expected new home construction in the Public Improvement District.
- Reserve funds of \$100,000 will be allocated to the Debt Service Fund.

Expenses: The District's 2015 operational expense is budgeted to increase by \$1,298,499. The wholesale water expense will increase by \$589,835 due to an increase in the cost of water purchased from wholesaler.

Overall:

The District's 2015 operational budget is anticipated to have expenses of \$9,862,873 and revenues of \$9,862,873.

Debt Service Fund 2015 budget:

- Debt service revenues are budgeted to increase from \$624,495 in fiscal year 2014 to \$1,078,256 in fiscal year 2015. This is an increase of \$453,761 and is needed to cover new debt service expenses.
- Property tax revenues are budgeted to increase by \$76,803 due to an increase in taxable property values.
- Reserve funds of \$100,000 will be allocated to the Debt Service Fund in fiscal year 2015.

TROPHY CLUB MUNICIPAL UTILITY DISTRICT NO. 1
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2014

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. General Statement

Denton County Municipal Utility District No. 1 (the District) was created by the Texas Water Rights Commission (later known as Texas Commission on Environmental Quality (TCEQ)) on March 4, 1975 and confirmed by the electorate of the District at a confirmation election on October 7, 1975. The Board of Director's held its first meeting on April 24, 1975. The Bonds were first sold on June 8, 1976. The District operates pursuant to Article XVI, Chapter 59 of the Texas Constitution and Chapter 54 of the Texas Water Code, as amended. Effective April 1, 1983, the District's name was officially changed by order from Denton County Municipal Utility District No. 1 to Trophy Club Municipal Utility District No. 1.

On May 9, 2009, citizens voted to consolidate the District and Trophy Club Municipal Utility District No. 2 (MUD2). As a result, the District reports consolidated activity and balances for the District and the entities formerly known as MUD2 and the Trophy Club Master District Joint Venture (a joint venture of MUD1 and MUD2).

The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for the District. The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units.

B. Financial Reporting Entity

As required by accounting principles generally accepted in the United States of America, these financial statements include the activities of the District and any organizations for which the District is financially accountable or for which the nature and significance of their relationship with the District are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it.

A primary government has the ability to impose its will on an organization if it can significantly influence the programs, projects, or activities of, or the level of services performed or provided by, the organization. A financial benefit or burden relationship exists if the primary government (a) is entitled to the organization's resources; (b) is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide financial support to, the organization; or (c) is obligated in some manner for the debt of the organization. Some organizations are included as component units because of their fiscal dependency on the primary government. An organization is fiscally dependent on the primary government if it is unable to adopt its budget, levy taxes, set

rates or charges, or issue bonded debt without approval by the primary government. Accordingly, the District has no component units.

C. Government-Wide and Fund Financial Statements

The government-wide financial statements (the statement of net position and the statement of activities) report information on all of the activities of the District, except for fiduciary funds. The effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The activities of the District are comprised only of governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given program and 2) operating or capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements

The District segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. These statements are required to present each major fund in a separate column on the fund financial statements. For fiscal year 2014, the major fund is the General Fund. The non-major funds are the Capital Projects Fund and Debt Service Fund.

Governmental funds are those funds through which most governmental functions typically are financed. The measurement focus of governmental funds is on the sources, uses and balance of current financial resources. The District has presented the following governmental funds:

General Fund

The General Fund is the main operating fund of the District. This fund is used to account for all financial resources not accounted for in other funds. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed charges and capital improvement costs that are not paid through other funds are paid from the General Fund.

Debt Service Fund

The Debt Service Fund is used to account for resources accumulated and payments made for principal and interest on the long-term debt of governmental funds.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

Capital Projects Fund

The Capital Projects Fund is used to account for funds received and expended for the acquisition and construction of infrastructure and other capital assets.

D. Measurement Focus and Basis of Accounting

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting.

The economic resources measurement focus means all assets and liabilities (whether current or non-current) are included on the statement of net position and the operating statements present increases (revenues) and decreases (expenses) in net total position. Under the accrual basis of accounting, revenues are recognized when earned. Expenses are recognized at the time the liability is incurred.

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual; i.e., when they become both measurable and available.

“Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The District considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year. Expenditures are recorded when the related fund liability is incurred. However, debt service expenditures are recorded only when payment is due.

The revenues susceptible to accrual are interest income and ad valorem taxes. All other governmental fund revenues are recognized when received.

E. Cash and Investments

The District’s cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments of three months or less from the date of acquisition.

E. Cash and Investments - Continued

The District's investment policy requires that all monies be deposited with the authorized District depository or in (1) obligations of the United States or its agencies and instrumentalities; (2) direct obligations of the State of Texas or its agencies; (3) other obligations, the principal of and interest on which are unconditionally guaranteed or insured by the State of Texas or the United States; (4) obligations of states, agencies, counties, cities, and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than A or its equivalent; (5) certificates of deposit by state and national banks domiciled in this state that are (A) guaranteed or insured by the Federal Deposit Insurance Corporation, or its successor; or, (B) secured by obligations that are described by (1) – (4); or, (6) fully collateralized direct repurchase agreements having a defined termination date, secured by obligations described by (1), pledged with third party selected or approved by the District, and placed through a primary government securities dealer.

All investments are recorded at fair value based on quoted market prices. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties.

F. Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the government-wide financial statements. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair market value on the date donated. Repairs and maintenance are recorded as expenses. Renewals and betterments are capitalized. Interest has not been capitalized during the construction period on property, plant and equipment.

Assets capitalized have an original cost of \$5,000 or more and over one year of useful life. Depreciation has been calculated on each class of depreciable property using the straight-line method. Estimated useful lives are as follows:

Buildings	50 Years
Improvements other than buildings	15 - 30 Years
Machinery and equipment	5 - 15 Years
Vehicles	6 - 12 Years
Water and wastewater systems	30 - 65 Years

G. Accumulated Vacation Time

Employees earn vacation pay based upon seniority that accrues at various rates up to a maximum four weeks per year. Upon termination, employees will be paid for their unused earned vacation. The District records a liability for the value of these compensated absences.

H. Organizational Costs

The District, in conformance with requirements of the TCEQ, capitalized costs incurred in the creation of the District. The TCEQ requires capitalization of organizational costs for the construction period, amortized bond premium and discount losses on sales of investments, accrued interest on investments purchased, attorney fees and some administrative expenses until construction and acceptance or use of the first revenue producing facility has occurred. The District amortizes the organizational costs using the straight-line method over a period of 22 to 45 years.

I. Net Position

Net position represents the difference between assets and liabilities. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislations adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

J. Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities, and the reported amounts of revenue and expenses/expenditures. Actual results could differ from those estimates.

K. Fund Balances

Governmental Accounting Standards Board (GASB) *Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54) defines the different types of fund balances that a governmental entity must use for financial reporting purposes in the fund financial statements for governmental type funds. It does not apply for the government-wide financial statements.

**TROPHY CLUB MUNICIPAL UTILITY DISTRICT NO. 1
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2014**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

K. Fund Balances - Continued

GASB 54 requires the fund balance amounts to be properly reported within one of the following fund balance categories:

Nonspendable - such as fund balance associated with inventories, prepaids, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed, or assigned)

Restricted - fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation,

Committed - fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Board of Directors (the district's highest level of decision-making authority),

Assigned - fund balance classifications are assigned by the District Manager with the intentions to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed, and

Unassigned - fund balance is the residual classification for the government's General Fund and includes all spendable amounts not contained in the other classifications, and other fund's that have total negative fund balances.

NOTE 2. CASH AND INVESTMENTS

The funds of the District must be deposited and invested under the terms of a contract, contents of which are set out in the Depository Contract Law. The depository bank places approved pledged securities for safekeeping and trust with the District's agent bank in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance.

At September 30, 2014, the carrying amount of the District's deposits (cash, certificates of deposit, and non-pooled savings accounts) was \$2,096,845 and the bank balance was \$2,078,148. The District's cash deposits at September 30, 2014, and during the year then ended were entirely covered by FDIC insurance, pledged securities, or by a letter of credit pledged by the District's agent bank in the District's name.

TROPHY CLUB MUNICIPAL UTILITY DISTRICT NO. 1
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2014

NOTE 2. CASH AND INVESTMENTS – CONTINUED

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas; (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity, allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit.

Statutes and the District's investment policy authorized the District to invest in the following investments as summarized below:

Authorized Investment Type	Maximum Maturity	Maximum Percentage of Portfolio	Maximum Investment In One Issuer
U.S. Treasury Obligations	2 years	50%	NA
U.S. Agencies Securities	2 years	50%	NA
State of Texas Securities	2 years	50%	NA
Certificates of Deposits	2 years	90%	NA
Money Market	2 years	90%	NA
Investment pools	2 years	90%	NA

The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

Cash and investments as of September 30, 2014 are classified in the accompanying financial statements as follows:

Statement of Net Position:

Primary Government:

Cash and cash equivalents	<u>\$ 3,431,448</u>
Total cash and investments	<u><u>\$ 3,431,448</u></u>

NOTE 2. CASH AND INVESTMENTS – CONTINUED

Cash and investments as of September 30, 2014 consist of the following:

Deposits with financial institutions	2,096,845
Texpool Investments	<u>1,334,003</u>
Total cash and pooled investments	<u>\$ 3,431,448</u>

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by investing mainly in investment pools which purchase a combination of shorter term investments with an average maturity of less than 60 days thus reducing the interest rate risk. The District monitors the interest rate risk inherent in its portfolio by measuring the weighted average maturity of its portfolio. The District has no specific limitations with respect to this metric.

As of September 30, 2014, the District had the following investment:

<u>Investment Type</u>	<u>Amount</u>	<u>Weighted Average Maturity</u>
TexPool	<u>\$ 1,334,003</u>	53 days
Total Investments	<u>\$ 1,334,003</u>	

As of September 30, 2014, the District did not invest in any securities which are highly sensitive to interest rate fluctuations.

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the Public Funds Investment Act, the District's investment policy, or debt agreements, and the actual rating as of year-end for each investment type.

**TROPHY CLUB MUNICIPAL UTILITY DISTRICT NO. 1

NOTE 2. CASH AND INVESTMENTS – CONTINUED

<u>Investment Type</u>	<u>Amount</u>	<u>Minimum Legal Rating</u>	<u>Rating as of Year End</u>
TexPool	<u>\$ 1,334,003</u>	AAAm	AAAm
Total Investments	<u>\$ 1,334,003</u>		

Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer. As of September 30, 2014, other than external investment pools, the District did not have 5% or more of its investments with one issuer.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The Public Funds Investment Act and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The Public Funds Investment Act requires that a financial institution secure deposits made by state or local governmental units by either 1) pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit), or 2) an irrevocable standby letter of credit with the District named as the beneficiary. The market value of pledged securities in the collateral pool or the value of the letter of credit must equal at least the bank balance less FDIC insurance at all times.

Investment in State Investment Pools

The District is a voluntary participant in TexPool. The State Comptroller of Public Accounts exercises responsibility over TexPool. This oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. TexPool operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. TexPool uses amortized costs rather than market value to report net assets to compute share prices. Accordingly, the fair value of the position in TexPool is the same as the value of TexPool shares.

Tax Revenue Bonds

The tax revenue bonds are payable from the proceeds of ad valorem taxes levied upon all property subject to taxation within the District, without limitation as to rate or amount, and are further payable from, and secured by a lien on and pledge of the net revenue to be received from the operation of the District's waterworks and sanitary sewer system.

The outstanding bonds are callable for redemption prior to maturity at the option of the District as follows:

Series 2010 - All maturities from 2021 to 2025 are callable in principal increments of \$5,000 on or after September 1, 2020 at par plus unpaid accrued interest to the fixed date for redemptions.

Series 2012 - All maturities from 2021 to 2023 are callable in principal increments of \$5,000 on or after September 1, 2020 at par plus unpaid accrued interest to the fixed date for redemptions.

Series 2013 – The Series 2013 bonds are not subject to redemption prior to their stated maturity.

Contractual obligations and notes payable are liquidated from the General Fund. Tax and revenue bonds are liquidated from the Debt Service Fund.

The provisions of the bond resolutions relating to debt service requirements have been met, and the cash allocated for these purposes was sufficient to meet debt service requirements for the year ended September 30, 2014.

NOTE 7. PROPERTY TAXES

Property taxes are levied as of October 1, on the assessed value listed as of the prior January 1, for all real and certain personal property located in the District. The appraisal of property within the District is the responsibility of Denton Appraisal District (Appraisal District) as required by legislation passed by the Texas legislature. The Appraisal District is required under such legislation to assess all property within the Appraisal District on the basis of 100% of its appraised value and is prohibited from applying any assessment ratios. The value of property within the Appraisal District must be reviewed every five years; however, the District may, at its own expense, require annual reviews of appraised values. The District may challenge appraised values established by the Appraisal District

through various appeals and, if necessary, legal action. Property taxes for the District are not limited as to rate or amount. In an election held October 7, 1975, the electorate of the District authorized the levy of up to \$0.25 per \$100 valuation for the operations and maintenance of the District. Property taxes attach as an enforceable lien on property as of January 1, following the levy date. Taxes are due by January 31, following the levy date.

Property taxes are recorded as receivables when levied. Following is information regarding the 2014 tax levies:

Adjusted taxable values		<u>\$ 1,275,127,821</u>
