1 **DIRECT TESTIMONY OF WILL BROYLES**

2 **I. INTRODUCTION**

3 **Q. PLEASE STATE YOUR FULL NAME.**

4 A. My name is Roger Alan Whatley.

5 **Q. ON WHOSE BEHALF ARE YOU TESTIFYING IN THIS PROCEEDING?**

6 A. I am testifying on behalf of the North San Saba Water Supply Corporation.

7 **Q. WHAT IS YOUR PROFESSIONAL AND EDUCATIONAL**  
8 **BACKGROUND AND EXPERIENCE?**

9 A. I am a retired Electrical Engineer. I hold a BSEE and MSEE from Auburn  
10 University in Auburn, Alabama and an MBA from the University of Texas at  
11 Austin. I was Chief Technical Officer at SigmaTel in Austin from 2000 till 2004  
12 and before that I was with Motorola's Semiconductor Product Sector in Austin,  
13 which is now known as Freescale Semiconductor. I have been an electronics  
14 designer, a design manager, and a strategic marketing manager, VP of  
15 Engineering and CTO, and finally an independent consultant.

16 **Q. ARE YOU AN EMPLOYEE OF NSSWSC?**

17 A. No, I am not.

18 **Q. WHAT IS YOUR RELATIONSHIP TO NSSWSC?**

19 A. I purchased property in San Saba County in 2004, moved to that property in 2013,  
20 and joined the NSSWSC Board in March 2015. I recently became the President  
21 of the NSSWSC Board in March 2016. I serve voluntarily and without  
22 compensation, as do all the members of the NSSWSC Board of Directors.

1                                   **II. PURPOSE AND SCOPE OF TESTIMONY**

2   **Q.     WHAT IS THE PURPOSE OF YOUR DIRECT TESTIMONY IN THIS**  
3       **PROCEEDING?**

4   A.    My direct testimony will be regarding the NSSWSC rate increase last year, as I  
5        participated in the design and proposal of that rate increase to the board, and I  
6        believe the board's decision in this matter eminently sensible, necessary, properly  
7        responsive to the fiscal needs of the NSSWSC, and in the direct best interest of  
8        every member/customer of the NSSWSC who wishes the water continue to be  
9        available.

10 **Q.    HAVE YOU PREPARED ANY EXHIBITS OR SCHEDULES IN**  
11 **CONNECTION WITH YOUR TESTIMONY?**

12 A.    Yes. I have prepared, supervised the preparation of, or co-sponsored the exhibits  
13        listed in the table of contents to my testimony.

14                                   **III. TESTIMONY**

15 **Q.    DID YOU PLAY ANY PART IN DETERMINING NSSWSC'S**  
16 **INCREASED RATE?**

17 A.    Yes, I did.

18 **Q.    PLEASE DESCRIBE YOUR PART IN THAT PROCESS AND WHAT**  
19 **YOUR GOALS WERE IN DETERMINING WHAT THE RATE SHOULD**  
20 **BE.**

21 A.    As I said, I came on the board in March 2015. After being on the board for a few  
22        months, I had anecdotally noted that our monthly income tended to run around  
23        \$27,000 a month, but our expenses had tended to run around \$29,000 a month.

1 Water rates which are "sufficient, equitable, and consistent in application to each  
2 customer class and that are not unreasonably preferential, prejudicial, or  
3 discriminatory," as required by the Texas Water Code, would need to be some  
4 increment of the EXISTING rate structure, and those increases, in the aggregate,  
5 would need to be similar in magnitude to the change in CPI over the intervening  
6 period since the last rate increase over 5 years ago. We also wanted to factor  
7 several things into our consideration, those being the following:

8 1. In the aggregate, when the new rate structure is applied to the ongoing  
9 demand for water, or usage, the income to NSSWSC must reliably exceed about  
10 \$29,000 or so.

11 2. The rate change should preserve the principle of charging a base rate so  
12 that the many member/customers who are absentee landowners, or very often  
13 hunters who lease the land for hunting purposes, and who are only present  
14 seasonally, receive a base charge which reflects the costs to other  
15 member/customers of providing and maintaining infrastructure for a water service  
16 that is only seasonally used.

17 3. In the upper tiers of water demand volumes, the rate change should  
18 increase the progressiveness of the rates to encourage conservation and domestic-  
19 household water service – which was the original charter contemplation of  
20 NSSWSC, and to discourage profligate usage beyond that purpose for commercial  
21 reasons, such as watering entire pecan orchards.

22 4. The rate increase should provide for enough income to cover unusual  
23 infrastructure expenses with respect to TCEQ compliance and other ongoing legal

1 expenses, as well as to forestall any near-term need for another increase. We did  
2 not want to have to come back and revisit the possibility of another rate increase  
3 in a short span of time.

4 5. We wanted to increase the commercial fees in a consistent fashion.

5 To that end, we notified our members by letter in July 2015 of the proposed rate  
6 increase, listing for them the reasons it was necessary and providing the proposed  
7 rates.

8 **[NSSWSC OFFERS EXHIBIT RW-1 – NSSWSC Letter to Members, July 2015]**

9 **Q. WHAT WOULD BE AN APPROPRIATE METHODOLOGY TO**  
10 **DETERMINE JUST AND REASONABLE RATES FOR NSSWSC?**

11 A. I think an appropriate methodology would start with the current demand and the  
12 current rates and mathematically model the resulting current income. Then, the  
13 factors or conditions I mentioned previously would be applied to the rates and,  
14 through a mathematical model, yield a hypothetical new income. In an iterative  
15 manner, the rates can be adjusted, consistent with the factors/conditions  
16 mentioned earlier, until a sufficient expected income meets all conditions given.  
17 One difficulty with this methodology is in anticipating how future demand will  
18 respond to new rates. In fact, simply anticipating demand changes under the  
19 existing rate has proven to be perplexing. However, a given set of demand  
20 assumptions can be easily modeled.

21 **Q. WHAT REVENUE REQUIREMENT WOULD GIVE NSSWSC**  
22 **SUFFICIENT FUNDS TO PROVIDE ADEQUATE RETAIL WATER**  
23 **SERVICE?**

1 A. A sufficient income would need to meet the five factors I mentioned earlier. As I  
2 said, early last year I observed an anecdotal average of about \$29,000 a month in  
3 expenses for the NSSWSC. In addition to that number, we would need to include  
4 an amount sufficient to pay attorney's fees incurred in representing NSSWSC in  
5 litigation. We were already party to an unrelated suit, but since then we have  
6 become involved in two additional legal disputes, namely this PUC Hearing and a  
7 civil suit brought by NSSWSC against an engineer to recover damages from poor  
8 engineering of the water system overhaul which has resulted in two non-  
9 compliance issues with TCEQ. While that suit is ongoing, we are simultaneously  
10 and proactively trying to mitigate and fix the issues of non-compliance. All of  
11 these things have contributed to significant extra expense to NSSWSC.

12 Our previous rate structure, when applied to a hypothetical average month  
13 of demand in 2014, yielded an income of \$27,146 – a deficit of about \$1,854.  
14 The new rate structure applied to the same hypothetical average month in 2014,  
15 but with some assumptions of demand drop in the higher volume tiers, yielded a  
16 monthly income of \$34,032. This is a 25.4% increase. The CPI (less energy)  
17 increased approximately 19% over the 5-plus year period since the last rate  
18 increase.

19 This past month of February, our income was approximately \$32,000 and  
20 our expenses were \$50 higher than our income. That this income is less than the  
21 2014 calculated hypothetical average value of \$34,032 given above is attributable  
22 to a) seasonal variation, or lower demand in winter months, and b) misjudgment

1 in anticipating demand drop at higher rates in the higher tiers, or, in other words,  
2 water conservation by our heavier users.

3 All that being considered, I believe a monthly revenue requirement of  
4 \$34,000 would give NSSWSC the funds sufficient to continue to provide  
5 adequate retail service.

6 **Q. WHAT IS THE APPROPRIATE RATE DESIGN FOR EACH CLASS TO**  
7 **RECOVER NSSWSC'S REVENUE REQUIREMENT?**

8 A. I will explain my thought process and actions taken by myself and the board to  
9 determine the answer to that question and to design the rate increase.

10 In preparation for a meeting agenda last year which included action on a rate  
11 increase, I constructed an Excel Spreadsheet that modeled our monthly income  
12 based on a hypothetical average month in 2014.

13 **[NSSWSC OFFERS NSSWSC EXH. RW-2, NSSWSC 000307-NSSWSC 000327]**

14 I derived this hypothetical average month by separately averaging and then  
15 summing each member's water bill for a 2014 average. In this spreadsheet, I  
16 could then interactively change various parts of our water rate – the base or  
17 various tiered rates – and thus estimate the resulting change in monthly revenue. I  
18 also built-in assumptions about changes in demand in response to higher rates.  
19 The \$355,347 number is about \$29,612 a month. My starting point was my  
20 anecdotal observation that our income was running about \$27,000 a month and  
21 our expenses somewhat over about \$29,000 a month. I knew that we needed an  
22 increase that reliably exceeded the \$29,612 figure. I also knew that there was no

1 way to be sure what would happen to demand in response to increases, but I did  
2 include some guesstimated demand drops in the higher tiers.

3 I also knew that it had been 5 years since the previous increase, and it had  
4 been a traumatic experience for the board and for some members, not unlike the  
5 present situation. I also had board-member input that any proposed increase  
6 needed to eliminate any need for another increase for a few years in order to avoid  
7 that drama or trauma for a while.

8 So, my proposal to the NSSWSC Board was for a small increase in the  
9 base, none in the first tier, and large increases in the higher tiers for a total  
10 aggregate increase estimate of 19.4% to \$32,400 a month. This approximately  
11 matched the CPI price-inflation rate since the last increase.

12 The board accepted my proposal, but with a larger increase in the base, for  
13 a total aggregate increase estimate of 25.4% to \$34,032 a month. This  
14 accomplished a sense of "no need for another increase any time soon."

15 Keep in mind that these numbers are estimates at best. We had no way of  
16 accurately ascertaining how demand would react.

17 The 25.4% increase predicted a monthly income of \$34,032, or \$408,384  
18 annually. In the most recent board meeting, as I said, we observed our income  
19 was a little over \$32,000 a month and our expenses exceeded that by about \$50.

20 Our Previous Rate Structure is as follows:

21 Base Rate: \$70 a month or \$200 a month commercial

22 1000 to 4000 gallons - \$2.70 per gallon

23 4000 to 8000 gallons - \$3.38 per gallon

1           8000 to 20,000 gallons - \$4.05 per gallon

2           Over 20,000 gallons - \$4.73 per gallon

3                   Our new rate structure is as follows:

4           Base Rate: \$82 a month (17% increase) or \$400 a month commercial

5           1000 to 4000 gallons - \$2.70 per gallon (no change)

6           4000 to 8000 gallons - \$5.07 per gallon (50% increase)

7           8000 to 20,000 gallons - \$7.09 per gallon (75% increase)

8           Over 20,000 gallons - \$9.46 per gallon (100% increase)

9                   Our largest class, or tier, of member/customers uses less than 4000 gallons  
10          a month. With this new rate increase, their water bill went up \$12 a month for a  
11          17% increase since the last increase five years ago. That is less than the CPI (less  
12          energy) of approximately 19% over that same period. I believe that the new rate  
13          design is an appropriate one for each class.

14                  The income for NSSWSC must be sufficient to cover its monthly  
15          expenses, which are currently running at about \$33,000 per month, give or take,  
16          including various loan payments, salary for a part-time administrator, and  
17          compensation for a contracted operator.

18   **[NSSWSC OFFERS EXH. RW-3 – NSSWSC Letter to Members, Jan. 2016]**

19          The NSSWSC believes the current rates to be both sufficient, as well as just and  
20          reasonable as required by law. Any alternative rate structure proposal must meet  
21          the previously mentioned factors, or conditions, as well as comfortably provide  
22          for the current expense structure.

1           In setting the new rate design, the Board took action that it felt was  
2           necessary to take in order to continue to keep the Corporation operational. In our  
3           December meeting, however, I proposed that the Board revisit the rate increase  
4           issue in six months to determine the effect of the increase and to review and  
5           evaluate if any further action is necessary or if our rate increase was too severe.

6   **[NSSWSC OFFERS EXH. RW-4 – NSSWSC Board Minutes]**

7           Prior to the rate increase, we had no way of knowing how the increase would  
8           affect demand. I thought that revisiting this issue six months down the road  
9           would give us an opportunity to make sure that we had acted in the best manner  
10          possible to ensure that NSSWSC is able to afford to continue providing water  
11          services to its customers while at the same time ensuring that we are not charging  
12          our member/customers more than is necessary. It is important to understand that  
13          while the target of our decision is an adequate income, our only degree of  
14          freedom for an actual decision is to fix rates, not income. Thus, we decided we  
15          could revisit the matter six months into it to see how demand might have affected  
16          the outcome. That six month mark has not yet arrived.

17   **Q.   DO YOU BELIEVE THE COMMISSION SHOULD ESTABLISH OR**  
18       **APPROVE INTERIM RATES TO BE IN EFFECT UNTIL A FINAL**  
19       **DECISION IS MADE?**

20   **A.**   No. I believe that, considering all the facts that I have testified to so far, the  
21          current rates are just and reasonable.

22   **Q.   WHAT ARE THE REASONABLE EXPENSES THAT NSSWSC HAS**  
23       **INCURRED IN THIS PROCEEDING?**

1 A. The most significant area of expense that NSSWSC has incurred during this  
2 proceeding is its attorney's fees. As of the end of March, we have incurred over  
3 \$3,000 in attorney's fees in defense of this rate increase, as evidenced by invoices  
4 we have received.

5 [NSSWSC OFFERS EXH. RW-5, Invoices to NSSWSC for attorney's fees]

6 Q. SHOULD THE COMMISSION ALLOW RECOVERY OF THESE  
7 REASONABLE EXPENSES?

8 A. I believe it should, yes.

9 Q. WHAT WOULD BE THE APPROPRIATE RECOVERY MECHANISM?

10 A. I believe these expenses should be recovered by distributing the amounts between  
11 the members/customers of NSSWSC.

12 IV. CONCLUSION

13 Q. DOES THIS CONCLUDE YOUR TESTIMONY?

14 A. Yes.

## **EXH. RW-1**

### **NORTH SAN SABA WATER SUPPLY CORPORATION**

P.O. Box 598  
San Saba, Texas 76877  
325-372-5348

Date: July 17, 2015

Subject: Proposed Rate Increase

Dear Member,

In the time frame since our last water rates increase, over 5 years ago (December 2009), your North San Saba Water Supply Corporation (NSSWSC) Board has pursued a program of capital improvements for our water system in an effort to improve your water service reliability and quality, compliance with relevant State of Texas regulations, and overall value to our members. Approximately 35 miles of new 3 inch pipe has been laid to distribute water to members, replacing old, deteriorating and very often leaking pipes. In addition, about 8 miles of new 10 inch pipe has been laid along FM500. There has also been important facility improvements at both the Stingy Lane and FM500 stations with new pumps and automated control equipment installed, along with new water storage at both stations. Our Operator, who is normally repairing pipe leaks as soon as possible, has also replaced many older, worn, and leaky valves in the system. He has also moved meters to the nearest appropriate County Road and replaced worn out meters. Hopefully many of you as members have experienced a noticeable improvement in reliability and service as a result of these efforts and improvements.

These system improvements were financed thru a combination of loans and grants totaling about \$3million. The NSSWSC now services 3 loans totaling approximately \$6900 per month in loan payments. In addition, inflationary price increases on supplies and repairs, etc, to upkeep and maintain the water system are exacting a toll on our finances. In a recent accounting of our financial outlook, expenses are currently exceeding revenues by a significant margin and we have no choice but to consider a rate increase.

One additional side-note: the State of Texas is still experiencing effects of the recent drought and consequently there are very good general reasons to conserve water everywhere. A feature of the proposed new rate plan is to encourage voluntary water conservation by members.

#### **Proposed Rate Increases:**

Increase residential base rate by \$12.00 to \$82/mo. (\$0.40 per day increase).  
0 to 4,000 gallons - No Change, \$2.70 per thousand gallons  
4,001 to 8,000 gallons – increase from \$3.38 to \$5.07 per thousand gallons  
8,001 to 20,000 gallons – increase from \$4.05 to \$7.09 per thousand gallons  
20,001 plus gallons – increase from \$4.73 to \$9.46 per thousand gallons

## EXH. RW-1

The commercial base rate will increase from \$200 to \$400.

Here are some example water bills calculated under the new rates for various monthly metered residential water consumptions:

| Metered Water | Base Rate | 0-4000 gal | 4001-8000gal | 8001-20,000gal | 20,000 plus gal | State Tax | Monthly Bill |
|---------------|-----------|------------|--------------|----------------|-----------------|-----------|--------------|
| 2,000gal      | \$82      | \$5.40     |              |                |                 | \$ .44    | \$87.84      |
| 6,000gal      | \$82      | \$10.80    | \$10.14      |                |                 | \$ .51    | \$103.46     |
| 10,000gal     | \$82      | \$10.80    | \$20.28      | \$14.18        |                 | \$ .64    | \$127.90     |
| 22,000gal     | \$82      | \$10.80    | \$20.28      | \$85.08        | \$18.92         | \$ .85    | \$218.17     |
| 40,000gal     | \$82      | \$10.80    | \$20.28      | \$85.08        | \$189.20        | \$1.94    | \$389.30     |

The Board plans to approve a new rate plan at the next regular public meeting, August 11, 2015, Tuesday, beginning at 5:30pm in the Arrowhead Bank Conference Room. In the meantime we solicit comment and feedback from members regarding the above proposed new rates and, as always, members are welcome to attend the meeting and to speak to the Board.

Sincerely,  
The Board of Directors,

Kathy Gage, President

Kim Sprouse, Vice President

Brad Everett, Secretary-Treasurer

Jim Brozo

Diane Wood

Mike Moorehead

Roger Whatley

## EXH. RW-3

North San Saba Water Supply Corporation  
P. O. Box 598  
San Saba, Texas 76877  
325-372-5348

January 10, 2016

Dear Members,

Looking back on 2015; we find a mixed bag of successes and challenges.

Our successes include reduction in our water loss caused by leaks. We paid off the \$29,000 fine assessed by TCEQ for non-compliance. We welcomed two new Board Members, Roger Whatley and Diane Wood.

Our challenges include issues with some of the work/equipment that was installed during the construction project, continued work on the infrastructure of the water system, and increased expenses; due to loans totaling \$645,000 for the construction project.

A letter was sent out by your Board at that time explaining that the reason for an increase in rates was essentially that we were not taking in enough monthly revenue to pay our bills.

Amongst our expenses are loan payments in the vicinity of \$6,000/month, \$1,200/month salary for part-time office administrator (which is available full-time to take your calls), and \$7,500/month for our contracted operator. Some Members have attended Board meetings since the rate increase and complained (as is their right to do) that, in essence:

- 1) the increase is too large, and,
- 2) our expenses are not under good management.

These loans are the result of financial decisions made by a previous Board for maintaining and expanding our ability to deliver water within TCEQ regulations (construction project). Repayment of our loans is not an option, we must pay our loans. These loans have a term of thirty (30) years.

Our Licensed Class C Groundwater Operator's contract was recently renewed at \$90,000/yr. Our operator's annual expenses are about \$45,000/yr (capital equipment, hired helper, fuel and supplies), leaving a take-home of about \$45,000 before taxes. The Board has inquired locally and found this to be a very good deal for NSSWSC as compared to alternatives we have investigated.

For purpose of comparison, in 2010 the *then-operator* was contracted at \$92,000/year. The Consumer Price Index (less food and energy) between 2010 and the present changed by 18.75%, making \$92,000 in 2010 equivalent to \$109,250 currently.

([http://data.bls.gov/timeseries/CUUR0000SAOL1E?output\\_view=pct\\_12mths](http://data.bls.gov/timeseries/CUUR0000SAOL1E?output_view=pct_12mths).)

Thus, the current administrative salary plus contracted operator total \$104,400 year and compares favorably with the 2010 inflation-corrected expense of \$109,250 expressed in 2015 dollars.

January 10, 2016

Your Board is in the midst of proactively working to resolve several residual technical issues and potential TCEQ violations that are leftover issues from the recent major capital upgrade project. We are also pursuing legal action to reclaim costs from the project engineer for these oversights.

There are also two (2) other legal actions facing the Corporation which are causing added expense for the Members of NSSWSC:

- 1) Jana Childers, et al v. San Saba County, Allen Brown, Byron Theodosis, and NSSWSC;
- 2) Ratepayers' Appeal before the Public Utility Commission of Texas of the Decision by NSSWSC to Change Rates

We Members are all in this together; we need to work together to ensure we have water in the future. Many of you have invaluable experience that could enrich and inform the Board's decisions. The Board encourages Members to attend the monthly Board Meetings and to learn the full context of the issues as discussed by the Board and to comment before action is taken.

We need three (3) new Board Members. If you are interested; please contact Kim Sprouse at 623-5421 or any Board Member. Many of you have served in the past; however we only have about 290 Members on the system. It may be time for you to think about serving again.

The Annual Meeting will be Tuesday, March 22, 2016. Please mark your calendar to attend.

Finally, I would like to thank the Board of Directors, Cindy Hibler and Will Broyles for the great job they have done in 2015.

Sincerely,

Kathy Gage, President

Board of Directors:  
Kathy Gage, President  
Kim Sprouse, Vice President  
Brad Everett, Secretary-Treasurer  
Jim Brozo  
Mike Moorehead  
Roger Whatley  
Diane Wood

## **EXH. RW-4**

**North San Saba Water Supply Corporation**  
Directors Meeting  
January 12, 2016  
5:30 p.m.  
Arrowhead Bank Board Room

The Board of Directors of the North San Saba Water Supply Corporation met in a Director's Meeting, Tuesday, December 8, 2015 at the Arrowhead Bank Board Room.

**Director's Present:**

Kathy Gage  
Kim Sprouse  
Brad Everett  
Roger Whatley  
Jim Brozo  
Dianne Wood

Meeting called to order by Kathy Gage at 5:30 p.m.

Kim Sprouse read the Minutes from the last meeting. Motion was made by Roger Whatley to approve, seconded by Kim Sprouse. Motion passed.

Kathy Gage read the Treasurer's Report. Motion was made by Kim Sprouse to approve, seconded by Diane Wood. Motion passed.

Roger Whatley commented that Evaluation of the rate increase required no action at this time. He suggested reviewing in 6 months. The impact of the rate increase with financials there is not enough money for expenses so there was a rate increase. It is hard to know how the demand will be affected. Motion was made by Roger Whatley to review and evaluate at the end of June and compare 2015 to 2014. Trudy Gage said that the water system must be kept in tack. Milton Gage said that he agreed it would be a good idea to wait 6 months to re-evaluate. Jim Brozo seconded the motion. Motion passed.

Jim Brozo made the comment that at the age of 65 taxes were frozen. We may want to consider freezing the rate at age 65. Roger Whatley commented that nothing could be done about that tonight. He also stated that for the benefit of those that were not here for the rate increase- we did consider the impact it would have on some of our members. There are Texas State Agency programs for those having trouble paying their utility bills.

Motion was made by Kim Sprouse to approve and pay the bills, seconded by Diane Wood. Motion passed.

Roger Whatley addressed some of the concerns raised about NSSWSC expenses. Right now we pay \$400.00 per month for rent. A total of \$4800.00 per year. Office space at Arrowhead Bank would be \$3000.00 per year but then we would have to buy a printer, copier, desk, chairs,

## EXH. RW-4

file cabinets, a full time employee at \$21,000.00 per year, benefits at \$3000.00 per year. Net proposal – savings -\$8864.00 – estimate. Barbara Horn stated that we buy our own equipment we wouldn't have to pay rent for them. Bill Hardy stated a 3 year lease.

Kathy Gage mentioned the NSSWSC indebtedness. Roger Whatley stated Will Broyles compensation not CPA – 2 engineer Degrees, Master Business Degree from U.T. Licensed Operator. It was mentioned that Richland Springs pays \$50,000.00 per year for their operator. Bill Hardy was asked if that was right and he replied yes. Will's expenses are \$40 - \$46, 000. Will's contractor business now takes home about \$45,000.00 - less than the Richland Springs operator. If we change Will to an employee it would be an \$8,000 - \$18,000 per year increase on our expenses.

Trudy Gage mentioned with the old operator, members were out of water a lot of times for hours and hours.

Roger Whatley stated 80% more water than billing, today approx. 20%. 97,000 – not billing, fines \$30,000 TCEQ. \$92,000 – 2010 - \$ CPI – Consumer Price Index today's dollar 18.7% inflation so \$92,000 from 2010 is \$109,250 now.

Trudy Gage stated that we can't keep good help if we don't pay them.. Roger stated doesn't feel unqualified to do this. Milton Gage stated the Board was doing an excellent job tackling/ solving problems. He felt that the rate increase would not bankrupt anyone. He also felt the operator was doing an excellent job. Would hate to see Will leave his job. Trudy Gage stated the Will can't work for nothing.

Barbara Horn asked about work ethic or quality.

Linda Kelly answered lots of questions.

Bob Hardy asked about the water smelling.

Linda Kelly suggested that anyone could get a water filtration system that takes out Radium – cost \$1500 - \$2000.

Roger Whatley mentioned 3 problems

1. Cavitation – pumps wearing themselves out
2. New pumps – Engineered – 2 options – one is more expensive than the other
3. Shaw Bend elevated storage – TCEQ

Restrictor plate – fabricated, bored holes 1.15" hole - bolt \$60.00 for \$340.00 cost of other plate.

Motion was made by Roger Whatley to adjourn, seconded by Diane Wood.

Meeting adjourned at 6:51 p.m.
