**Re: Docket No. 45489 Application to Obtain CCN in
City of Gregory, San Patricio County, Texas**

To whom it may concern;

The City of Gregory has received interest for water/sewer services from landowners on the North Side of their ETJ. The Mayor is currently in discussion with a couple of landowners about wanting water/sewer services and has scheduled a meeting with them on Monday, June 25, 2018. We would like to request time to allow for the City to obtain documentation and maps from the interested landowners so that proper documentation can be submitted to the PUC. We are requesting additional time due to a change in administration at the beginning of this year, the Mayor having to figure out where the last administration left off on the CCN Application Process and the City still dealing with the after effects of Hurricane Harvey.

Any help on this matter would be greatly appreciated. Please feel free to contact me if you have any questions or require further information.

Respectfully,
LNV Engineering
