1. Introduction

The purpose of this Cost Allocation Manual ("CAM") is to document the cost allocation processes of SouthWest Water Company ("SouthWest") and its affiliates from recording the original transaction through the allocation of costs to entities receiving services from SouthWest and its affiliates. The CAM is to ensure that expenses are allocated as necessary to the appropriate entity. The process of properly allocating costs is important in setting just and reasonable rates as well as in minimizing the opportunity for cost subsidies among entities. There are three elements of cost allocations in SouthWest, namely; Corporate cost allocation, Utility Group Allocation, and Texas Utilities cost allocation. Those three types of cost allocations are discussed later in this CAM.

SouthWest will periodically evaluate its cost allocation methodologies to determine if changes to such processes are appropriate, and revise those methodologies as necessary.

1.1 Definitions

The following terms and abbreviations are used within this CAM document:

Cost allocation is the distribution of common cost to or from more than one activity.

Cost center is an account coding that denotes cost responsibility primarily for management purposes.

Direct costs are those costs that are specifically associated with an identified operating entity or group of identified operating entities. This means that it is known exactly to which operating entity or group of operating entities these costs relate.

Indirect costs are those costs that are not associated with an identified operating entity. This means that the costs indirectly support all entities or directly support the operation of SouthWest.

1.2 Process Used To Segregate Between Indirect And Direct Costs

Invoices are received by mail and/or electronically. They are distributed for approval and for coding by the appropriate persons. If the invoice includes charges directly traceable to a specific business unit, it is coded directly to the business unit. If the charges cannot be traceable or is related to corporate, the invoice is approved and coded to the responsible corporate area.

2. Corporate Cost Allocation

Currently, SouthWest affiliates are grouped under three major business segments. Those segments are:

- Suburban Water Systems (“Suburban”)—a regulated class A water utility in California
- Texas Utilities—regulated water and wastewater utilities and related customer service operations throughout Texas
- Southeast Utilities—representing water, wastewater, and to a much smaller extent operations and maintenance contracts in Alabama

Allocation of Parent Company expenses is based on a 3-factor allocation methodology as approved by the California Public Utilities Commission (“CPUC”) in Decision 14-12-038 “Decision Adopting Settlement between Suburban Water Systems and Office of Ratepayer Advocates (ORA) and Determining Unsettled Issues”. Calculations are in accordance with the general methodology described in the CPUC’s July 26, 1956, four-factor procedure “Allocation of Administrative and General Expenses and Common Utility Plant”. By “general methodology” we mean that the CPUC excluded the fourth factor, connections. Also, recently discontinued Blue Mound and soon to be discontinued Midway, are excluded. Below is the adopted computation of allocation percentages:

| Company | Direct Operating Expense | | Payroll | | Per Settlement Agreement with ORA | | | |
|------------------------------|--------------------------|--------------|------------------|--------------|-----------------------------------|--------------|---------------|-----------------|
| | Recorded 2012 | | Recorded 2012 | | End of Year Gross Plant | | Recorded 2012 | |
| | Amount, \$ | Percent | Amount, \$ | Percent | Amount, \$ | Percent | Total Percent | Average Percent |
| ALLOCATION FACTORS | | | | | | | | |
| Suburban Water Systems | 34,410,816 | 48.9% | 7,749,136 | 48.8% | 207,656,138 | 43.1% | 140.7% | 46.92% |
| Texas Utilities | | | | | | | | |
| <i>Monarch Utilities</i> | <i>17,907,380</i> | <i>25.4%</i> | <i>5,341,734</i> | <i>33.6%</i> | <i>127,303,317</i> | <i>26.4%</i> | <i>85.5%</i> | <i>28.48%</i> |
| Windmere | 4,181,215 | 5.9% | 448,906 | 2.8% | 44,439,171 | 9.2% | 18.0% | 6.00% |
| Hornsby Bend | 2,418,215 | 3.4% | 213,338 | 1.3% | 27,047,652 | 5.6% | 10.4% | 3.46% |
| Diamond | 892,938 | 1.3% | 318,840 | 2.0% | 3,811,625 | 0.8% | 4.1% | 1.36% |

| 11 Contracts (O&M) | 1,793,205 | 2.5% | 433,696 | 2.7% | | | 5.3% | 1.77% |
| | 70,408,780 | 100.0% | 15,887,080 | 100.0% | 481,808,327 | 100.0% | 300.0% | 100.0% |

SouthWest’s allocable indirect costs by functions are as follows:

1. Executive—the executive team and the Board of Directors responsible for providing strategic vision, business strategy, management oversight and overall direction to the company.
2. Legal—responsible for providing counsel on legal matters as well as litigation strategy and management.
3. Information Technology (“IT”)—responsible for operating and maintaining a uniform, efficient and flexible IT platform capable of addressing the increasingly complex current and future operational, financial, and business needs of SouthWest.

4. Finance—responsible for the accurate and timely accounting for corporate transactions, preparation of financial statements, preparation of budgets and forecasts, accounts payable, payroll, treasury, risk management, audit, tax, and providing management with the financial information necessary for informed operating and financial decision making.
5. Human resources—responsible for employment policies, practices and employee related matters; arranging for both company and employee-paid benefits such as medical, dental, vision, life, and disability insurance; and for managing the company's workers compensation obligations.
6. Facilities—responsible for expenses of the corporate office facilities such as lease, repairs & maintenance, supplies, utilities, and telecom voice lines.
7. Internal Audit—responsible for evaluating design and effectiveness of compliance with established policies and procedures.

Transaction flow for common costs to business units:

Invoices are received by mail and/or electronically. Invoices received without a PO number are distributed to the appropriate persons for coding and approval. Invoices with a PO number are forwarded to Accounts Payable (AP).

Corporate invoices (without a PO number) are coded and approved by the appropriate persons and forwarded to AP. AP reviews the invoice to verify authorization and documentation for adherence to DOA and stamped with the date of receipt. AP enters each invoice into SAP to (1) process for payment to vendor and (2) post into SAP general ledger per the coding.

Invoices with PO numbers are processed in alignment with the approved PO in SAP.

Salary and wages are posted directly into SAP when the payroll department executes payroll for each pay period. Corporate employees are set up in SAP by the Human Resources department under specific functional areas or costs centers described above. When the payroll department executes payroll each pay period, the salaries and wages are posted into the corporate cost centers.

Corporate expense items not included in an AP's entry that are entered into SAP may be manually accrued as part of the month end close process related to indirect costs.

Prepaid items are amortized by journal entry for corporate expense.

Once the invoices and manual journal entries for month end have been posted into SAP, the SAP general ledger is closed for the month.

Total corporate operating expense amounts (see listing above) are allocated by SAP each month to business units applying the 3-factor percentages to recorded corporate costs.

3. Texas Utilities (TXU) Cost Allocation

The Texas Utilities (TXU) is a business segment of SouthWest Water Company consisting of 9 PUCT-regulated utilities, one Oklahoma regulated water utility, one Oklahoma non-regulated wastewater utility, and one wholesale water supplier with rates determined by contractual agreement. The regulated utilities listed below show the type of service, whether rate-making is set by a regulator, and the states where the businesses operate:

| Company Name | Type | Rate-Making Regulated by PUC | State of Operations |
|--------------------------------|----------|------------------------------|---------------------|
| Tenkiller Utility Co. | Water | Yes | Oklahoma |
| Tenkiller Utility Co. | WW | No | Oklahoma |
| Diamond Water Co. | Water | Yes | Texas |
| Hornsby Bend Utility Co. | Water/WW | Yes | Texas |
| Huntington Utility Co., L.L.C. | Water | Yes | Texas |
| Inverness Utility Co, Inc. | Water | Yes | Texas |
| Mid-Tex Utilities, Inc. | Water/WW | Yes | Texas |
| Monarch Utilities I, LP | Water/WW | Yes | Texas |
| SW Utility Co. | Water | Yes | Texas |
| Water Services, Inc. | Water | Yes | Texas |
| Windermere Utility Co. | Water/WW | Yes | Texas |
| Metro H2O, LTD | Water | No | Texas |

Texas Utilities costs are allocated based on meter equivalent factors calculated using prior year end "active" connections. This method was developed to reasonably distribute these costs across each Texas utility with meter equivalents being a fair approach for allocating these expenses. Meter equivalents are based on active connections multiplied by each connection's meter equivalent using the standard published by the American Water Works Association ("AWWA"), as shown in the table below.

| Meter Size | Meter Equivalent factor based on 5/8" |
|------------|---------------------------------------|
| 5/8 inch | 1.00 |
| 3/4 inch | 1.50 |
| 1 inch | 2.50 |
| 1-1/2 inch | 5.00 |
| 2 inch | 8.00 |
| 3 inch | 15.00 |
| 4 inch | 25.00 |
| 6 inch | 50.00 |
| 8 inch | 80.00 |

Source: AWWA

Then, a spreadsheet is prepared showing all the meter equivalent ratios for the 12 utilities. Sources of Texas Utilities indirect costs are allocated to benefiting utilities based on each utility's percent of total meter equivalents.

Sources of Texas Utilities costs:

- Administration

Direct Overhead Costs consists of direct support of the following services, and allocated across all G/L accounts using total meter equivalent ratios:

- Management
- Information Technology (IT)
- Employee, Health and Safety (EHS)
- Financial Service Center (FSC)
- Customer Service Center (CSC)

| TXU Administration Direct Overhead Costs | | |
|--|--------------------|--------------------|
| Management and EHS CC 20000033, IT 2000903 | FSC CC 20000900 | CSC CC 20000034 |

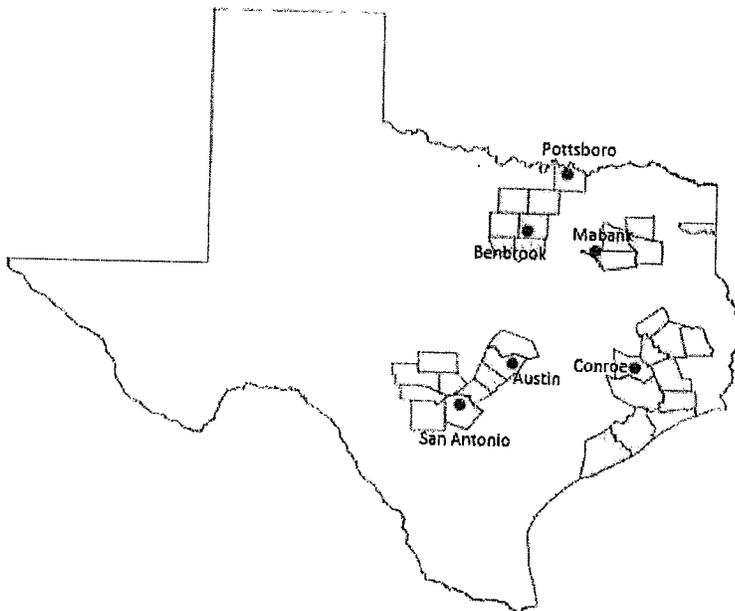

- **Field Offices (Operations)**

Direct Overhead Costs that are charged to shared field offices operations centers includes general employee costs, vehicles, supplies, office materials, rent, and other costs that are shared by the systems in these areas.

Direct Overhead Costs are captured using shared cost centers broken down by regional directors (East and West), and field work centers. East Region consists of Benbrook, Conroe, Mabank, and Pottsboro operations. West Region consists of Austin and San Antonio operations. Below is the summary of the field offices and its operations:

| TXU Shared Field Offices Direct Overhead Costs | |
|--|---|
| Regional Director East Shared | Regional Director West Shared |
| Benbrook Ops Shared | Austin Ops Shared |
| Conroe Ops Shared | San Antonio Ops Shared |
| Mabank Ops Shared | |
| Pottsboro Ops Shared | |

Texas Utilities companies serve customers in 32 counties across Texas and 1 in Oklahoma with the shared operations work centers indicated by blue dots.

East Shared—Cost from East Regional director and staff are allocated to the following utilities:

- a. Monarch
- b. SW Utility
- c. Tenkiller

| East Shared (CC 30200301) | | |
|-------------------------------|-----------------------|----------------------|
| Monarch Co 3020 Water & WW | SW Utility Co 2000 | Tenkiller Co 2000 |

Benbrook Ops Shared—Utilities in the Benbrook operations area (near Dallas/Fort Worth) share resources (employees, vehicles, etc.); therefore cost center 30200095 was established as the home for these costs until they are distributed each month to the various utilities in the service area.

| Benbrook Ops Shared (CC 30200095) | | |
|-----------------------------------|--|-----------------------|
| Monarch Co 3020 Water | | Monarch Co 3020 WW |

Conroe Ops Shared—Utilities in the Conroe operations area (north of Houston) share resources (employees, vehicles, etc.); therefore cost center 30200097 was established as the home for these costs until they are distributed each month to the various utilities in the service area.

| Conroe Ops Shared (CC 30200097) | | |
|---------------------------------|-----------------------|-----------------------|
| Monarch Co 3020 Water | SW Utility Co 2000 | Monarch Co 3020 WW |

Mabank Ops Shared—Utilities in the Mabank operations area (east Texas) share resources (employees, vehicles, etc.); therefore cost center 30200096 was established as the home for these costs until they are distributed each month to the various utilities in the service area.

| Mabank Ops Shared (CC 30200096) | | |
|---------------------------------|--|-----------------------|
| Monarch Co 3020 Water | | Monarch Co 3020 WW |

Pottsboro Ops Shared—Utilities in the Pottsboro operations area (Texas/Oklahoma border) share resources (employees, vehicles, etc.); therefore cost center 30200094 was established as the home for these costs until they are distributed each month to the various utilities in the service area.

| Pottsboro Ops Shared (CC 30200094) | | |
|------------------------------------|----------------------|-----------------------|
| Monarch Co 3020 Water | Tenkiller Co 2000 | Monarch Co 3020 WW |

West Shared—Cost from West Regional director and staff are allocated to the following utilities:

- a. Diamond
- b. Hornsby Bend
- c. Huntington
- d. Inverness
- e. Mid-Tex Utility

- f. Metro H2O
- g. Monarch
- h. Water Services
- i. Windermere

Austin Ops Shared—Utilities in the Austin operations area share resources (employees, vehicles, etc.); therefore cost center 20000277 was established as the home for these costs until they are distributed each month to the various utilities in the service area.

| Austin Ops Shared (CC 20000277) | | | | | | |
|---------------------------------|--------------------|-------------------|-------------------------|-------------------|----------------------------|--------------------|
| Hornsby Bend Co 2000 | Huntington Co 2000 | Inverness Co 2000 | Mid-Tex Utility Co 2000 | Metro H2O Co 5010 | Monarch Co 3020 Water & WW | Windermere Co 2000 |

San Antonio Ops Shared—Utilities in the San Antonio operations area share resources (employees, vehicles, etc.); therefore cost center 20000278 was established as the home for these costs until they are distributed each month to the various utilities in the service area.

| San Antonio Ops Shared (CC 20000278) | | |
|--------------------------------------|-----------------|------------------------|
| Monarch Co 3020 | Diamond Co 2000 | Water Services Co 2000 |

4. Utility Group Cost Allocation

In 2003, SouthWest created a new entity, Utility Group, to provide management, regulatory, and communications services to SouthWest's regulated affiliates that are currently located in: Texas, Alabama, California, and Oklahoma. Staffing for this entity are drawn from former employees of Suburban.

In 2010, four Utility Group employees were transferred to Suburban and one position was eliminated. Remaining in Utility Group are the Vice President of Regulatory Affairs, the Manager of Regulatory affairs, the Regulatory Analyst, and a currently vacant position for a Director of Regulatory Affairs. The Utility Group provides regulatory services to SouthWest's regulated affiliates.

Utility Group costs are allocated to other entities using the same 3-factor allocation methodology as described earlier for the corporate cost allocation.

Monarch Utilities I, L.P.
 Docket No. 45570
 Test Year Ending 6/30/2015
 Errata - WP/II-B-7.h (W & S)
 Witness: Carmelitha Bordelon-Taylor

Functionalization Factors
 0.400000000
 0.140000000

7/2014 - 6/2015 ACCOUNT RECEIVABLE LEDGER
