I don't believe a rate increase is necessary every year to improve water quality for customers. My friend works for #811 "call before you dig," tells me of daily findings of water wastefulness throughout various counties in our areas. Also contractors diggers who are careless or don't care when they hit pipes or lines on repairs! Water, elect gas, phone, cable companies eat that cost + pass it on to us customers!

I am requesting to INTERVENE in this proceeding. As an INTERVENOR, I understand that: I am a party to the case; I am required to respond to all discovery requests from other parties; I may be required to attend hearings, and if I file testimony, I may be cross-examined in the hearing; if I file any documents in the case, I must provide a copy to every other party in the case; and I acknowledge that I am bound by the Procedural Rules of the PUC and the State Office of Administrative Hearings (SOAH).
