I am very disturbed by the possibility of one of the proposed utility routes crossing my home place. Also, on my property, I have a mobile home site that I intend to provide a home for my granddaughter to live in when she graduates. This mobile home is in the direct path of the proposal.

As a landowner, I will not benefit from this project, it will devalue my property. I am a widow and this property is all that I own of value.

Another huge concern of mine is the long-term risks that may accompany living so close to this type of utility transmission.

I urge you to take my concerns into consideration.
