Re: PUC Docket No. 45624; Application of the City of Garland, Texas, for a Certificate of Convenience and Necessity for the Proposed Rusk to Panola Double-Circuit 345-KV Transmission Line in Rusk and Panola Counties, Texas

Dear Mr. ____:

The City of Garland (Garland), doing business as Garland Power & Light (GP&L), has filed an application with the Public Utility Commission of Texas (PUC) to amend its Certificate of Convenience and Necessity (CCN) to construct a proposed double circuit, 345-kV transmission line that will begin at a new Oncor Electric Delivery Company switching station in Rusk County and extend eastward for approximately 37-40 miles to a new GP&L switching station in Panola County near the Texas/Louisiana state line. Garland, together with Rusk Interconnection LLC, is developing the Rusk - Panola Transmission Project (Project) to interconnect the Electric Reliability Council of Texas transmission grid to the Southern Cross Transmission Project, which will in turn connect to the southeastern United States.

The routing options for this project range from approximately 37 miles to 40 miles in length. The estimated cost of the routing options range from approximately \$103,779,478 million to \$109,925,443 million. Garland plans to construct the transmission line primarily on steel monopole structures.

Garland provides this notice in accordance with the requirements of 16 TEX. ADMIN. CODE § 22.52. Garland has filed an application with the PUC in Docket No. 45624, *Application of the City of Garland, Texas, for a Certificate of Convenience and Necessity for the Proposed Rusk to Panola Double-Circuit 345-KV Transmission Line in Rusk and Panola Counties, Texas*.
