via fax to: (512) 936-7268

### **RESPONSE TO REQUEST FOR INFORMATION**

Cibolo RFI 4-9

Please identify the specific portion(s) of the Woods of St. Claire Subdivision Water Service Feasibility Study that you contend would be rendered useless or valueless by decertification of the service area colored in light blue in Attachment 1 to these Requests.

**RESPONSE:** 

GVSUD contends that its appraisal filed at the PUC on June 28, 2016 includes all real and personal property of GVSUD that would be rendered useless or valueless by the decertification as of the date of the Appraisal. Values identified in the appraisal will need to be updated as part of the second phase of this hearing.

GVSUD's appraisal does not include any dollars associated with GVSUD's Woods of St. Claire Subdivision Water Service Feasibility Study. This study examined the feasibility of water service to this subdivision, but subsequent units of this development will require retail public wastewater utility service from GVSUD. The Feasibility Study was provided to Mr. Korman to demonstrate that GVSUD's investments and steps taken to implement a wastewater system in its CCN area were made to meet the need for sewer service in GVSUD's CCN area. GVSUD witness Josh Korman used the Feasibility Study as a data point when performing GVSUD's appraisal.
