Dear Public Utility Commissioner,

My parents informed us of the PUC's proposal to install high electric power lines and big power station near the Wilco Park and our schools (Parkside Elementary and Stiles Middle School). We spend most of our time in the school and the Wilco Park and are worried that having these high electric power lines and power station near them will impact the quality of our and our friend's life.

We like the nice quite nature around the park and the school and are extremely worried that these power lines will destroy all that we enjoy around our neighborhood.

We kindly request that you reconsider the proposal to install the high power lines and power station near our schools and Wilco Park and relocate them to someplace else.

Sincerely

Pranav Pillai
