§

Steven J. Beaty, a person known to me, after being duly sworn, deposes and states that he is a Regulatory Consultant for American Electric Power Service Corporation, acting on behalf of AEP Texas Central Company (TCC) and AEP Texas North Company (TNC), that in such capacity, he is qualified and authorized to file and verify information in Docket No. 46284, *Application of AEP Texas North Company and AEP Texas Central Company to Extend Facilities Rental Tariffs*, and hereby certifies that:

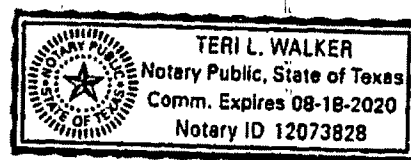

1. Notice was provided to all entities that have requested notice of petitions in Project No. 29053 on September 14, 2016, by sending them a copy of the notice by United States first-class mail. Texas Industrial Energy Consumers was the only party that filed a request in Project No. 29053.
2. Notice was provided to all retail electric providers (REP) who have been certified by the Public Utility Commission of Texas (PUCT) to provide electric service in TNC's and TCC's service areas. Notice was completed on September 14, 2016, by sending each a copy of the notice deposited in the United States first-class mail. Attachment A provides a list of REPs providing electric service and registered with the PUCT on the date in which the filing was made.
3. Notice was published once a week for two consecutive weeks in newspapers with general circulation throughout the service areas of TCC and TNC. Notice by newspaper publication was completed by September 15, 2016, except for the Paducah Post newspaper located in TNC's service area, which inadvertently dropped the second week of the original publication. The Paducah Post newspaper will complete publication on by October 10, 2016. Attachment B provides a list of newspapers publishing notice, the counties in which such newspapers have general circulation, and publication dates. Attachment C provides the publishers' affidavits and tear sheets verifying that notice was published.

4. Attachment D provides a copy of the notice provided to Project No. 29053 participants, REPs and published in newspapers.

Steven Beaty

Thoughts for Your Heart and Soul

by Vicki Johnson

FAITH

Faith is personal and mysterious and individualistic and undefinable.

The God you are searching for is not "out there", he's within us. You are not alone. Have faith. Faith is a more intimate relationship with God.

The discovery of God and our true self travel on parallel paths of Faith. We are loved by God.

If you spend five minutes with the spirit of God's love in the morning, he will guarantee he will be in charge of your thoughtfulness throughout the day. Faith will lead us there.

Faith is worth celebrating the huge, bold and beautiful everywhere or anywhere you find it. Faith shows:

1) God is with us.

2) God is for us (at all times, for us to flourish).

3) God is ahead of us (pulling you forward to do better).

To understand what we are, we need to stop, look and listen. We have become human beings instead of human beings. If we will slow down and stop, look and listen, every dream inside us is speaking to us. Every dream has a voice. We have callings or voices inside us. God put them there. Faith brings them out.

There is a supreme destiny in all of us. It is a God thing. When you are called, you will get there no matter what. The calling will pull you there. I call it Faith. We are a miracle in motion.

How do we know when we're on the right path? There is an innate peace inside of us that comes, even if there is turmoil around us, a peace that says this is where we're supposed to be. I am with you. (Psalms 23) Living a life of Faith

means never knowing where you are being led. But it does mean loving and knowing the One who is leading. It is literally a life of Faith, not of understanding and reason - a life of knowing Him who calls us to go.

When was your Faith tested the most?

Faith is not some weak and pitiful emotion, but is strong and vigorous confidence built on the fact God is holy love. Faith is the supreme effort of your life - total confidence in God.

"For we walk by Faith, not by sight." (2 Corinthians 5:7)

The Companies do not propose to change the terms of the tariffs or the current pricing in this docket. Sections 14.001, 39.001 and 39.051 of the Public Utility Regulatory Act and Sections 25.341 through 25.343 of 16 Tex. Admin. Code provide for the Commission to authorize a utility to petition to provide Facilities Rental Services if such services are not widely available to customers in an area. The Distribution Voltage Facilities Rental Services are contained in Section 6.1.2.3.6, 6.1.3.3.6 and 6.1.4.3.6 of the Companies' Tariffs for Retail Delivery Service.

The Companies have proposed an effective date of January 1, 2017, at which time the proposed tariffs will be deemed approved if no objection is filed with the Commission. 13 women are willing to testify against Cosby

Prosecutors say 13 women accusing Bill Cosby of drugging and sexually assaulting them over a four-decade span are willing to testify at his sex assault trial in Pennsylvania.

They include aspiring actresses, a flight attendant, a

waitress and a masseuse who say Cosby used his celebrity to win their trust before drugging and assaulting them.

Prosecutors asked a judge Tuesday to allow the women to testify as witnesses to a pattern of criminal behavior they say began in 1964. They're among 50 women who have come forward with allegations against the 79-year-old entertainer. Cosby has only been charged criminally in the case in Pennsylvania involving Andrea Constand, who says Cosby molested her in 2004.

A judge hasn't yet ruled on whether the women will be allowed to testify.

Rick Perry Flops In "Dancing With The Stars" Debut

The Texas Tribune

Former Gov. Rick Perry brought some Texas flair to the Season 23 premiere of "Dancing With The Stars," but his footwork brought few plaudits from the judges.

The show partnered Perry, who performed in an floral embroidered Western jacket, with professional dancer Emma Slater and the two cha cha'd to "God Blessed Texas" by Little Texas. All four of the show's judges — Len Goodman, Carrie Ann Inaba, Julianne Hough and Bruno Tonioli — gave the former governor a five out of 10 points, making Perry the lowest scoring contestant of the night.

Top scoring teams included race car driver James Hinchcliff and partner Sharna Burgess, and Olympic gymnast Laurie Hernandez and partner Val Chmerkovskiy. Both ended with a final score of 31 out of 40. And although Perry's low rankings may foreshadow his bowing out sooner rather than later, there are no couple eliminations for the show's first week, which means Perry still has a shot at winning.

Leaving home: No. 11 Texas won't be back for a month

AUSTIN, Texas (AP) — Winning at home was fun while it lasted. The surprising Texas Longhorns are about to test their mettle on the road.

After opening the season with home wins over Notre Dame and UTEP, the No. 11 Longhorns won't play at Royal-Memorial Stadium again for a month with three road games and bye week coming up. The road swing starts Saturday at California (1-1) with games at Oklahoma State and against No. 14 Oklahoma in Dallas after that.

That means no sleeping in their own bed the night before kickoff, no short bus trips to the stadium and no home crowd clink in burnt orange cheering "Texas Fight!"

No sweat, says freshman quarterback Shane Buechele, who has been impressive in his first two starts with 524 yards passing and six touchdowns.

"Same thing, just somewhere different," Buechele said. "I'm just excited to go out there and play somewhere else and see what it's like."

Youthful enthusiasm abounds at Texas these days. It did last year, too, until the first road game after a surprising thumping of Oklahoma was a 24-0 loss at Iowa State, a defeat sophomore line-backer Malik Jefferson called one of the "lowest" points of his life.

Texas was an awful road team in 2015. The Longhorns went 1-4 on opponent's home field last season and didn't win until beating Baylor in the final game. They were outscored in the four losses 150-30.

"Guys weren't ready last year," Jefferson said. "A lot of guys were down last year because they couldn't move past the past. We're more focused."

It's not just the road environments that will be a challenge. Texas faces three top quarterbacks in its next three games, starting with California's Davis Webb.

Webb has already passed for nine touchdowns and more than 900 yards in two games and will be eyeing a Texas secondary that was solid last week against UTEP's backup quarterback, but gave up five touchdowns passes to Notre Dame. The Texas depth chart lists 13 freshmen or sophomores on the two-deep roster.

"It's going to be a big challenge for our secondary," Texas coach Charlie Strong said. "You're taking a young team into a hostile environment. We're going to have to play incredible defense. We can take the crowd out of it with good defense."

Add in the time zone wrinkle — California is two hours behind Texas and the game won't start until 7:30 p.m. on the West coast — and the Texas could be playing a game that ends well after midnight back home.

SMU Ties UT, Baylor Passes Texas A&M in 2017 U.S. News College Rankings

The latest version of the U.S. News and World Report college rankings are good news for Texas private schools. Not so for the state's top public universities. All of them dropped in the influential list of the best schools in the country.

SMU is now tied with the University of Texas at Austin as the second-best university in the state. Meanwhile, Baylor University has surpassed Texas A&M University to become the No. 4 college in the state Rice University, which is ranked 15 nationally, remains the clear No. 1 in Texas. It climbed three spots from 18 last year. SMU and UT-Austin are far behind in a tie for 36. Last year, SMU was 61 and UT-Austin was 52. The biggest climber in the state was SMU, not counting Dallas Baptist University, which wasn't ranked last year but came in 214 this year. The biggest fall came from Texas Tech University, which dropped eight spots to 176.

Appeals court: No drug retests needed for Texas executions

Houston (AP) — A federal court has rejected, at least for now, a lawsuit by five Texas death row inmates who say the lethal drug to be used in their executions is tainted.

The lawsuit, filed Monday by a federal judge in Victoria, says the inmates will suffer if the state fails to retest the drug.

Lawyers for the five inmates argued to the 5th U.S. Circuit Court of Appeals that an agreement between the Texas Department of Criminal Justice and two other inmates to test the pentobarbital for their lethal injections should be extended to them. They say failure to do so would violate their constitutional right to equal protection under the law.

The appellate court said Monday it would not hear the federal judge's dismissal of the lawsuit.

It also said it will not hear the inmates' claim that the state's use of the lethal pentobarbital for executions is unconstitutional.

Mexican living in Houston gets life term for human smuggling

VICTORIA, Texas (AP) —

Prosecutors say a 36-year-old convicted human smuggler from Mexico linked to the deaths of two immigrants must live out his life in a U.S. prison.

Noe Aranda-Soto of San Carlos, Mexico, was sentenced Monday by a federal judge in Victoria.

Investigators say Aranda-Soto, who was in the U.S. illegally and lived in Houston, pleaded guilty in May to immigrant smuggling-related counts, including kidnapping resulting in death. He also pleaded guilty to conspiracy to transport immigrants for private financial gain resulting in death.

Aranda-Soto, in the plea deal, said some cases involved immigrants hidden in stash houses in Houston. Authorities say some female immigrants were held hostage.

Prosecutors say a 2010 rollover wreck near Victoria left one immigrant dead. Another immigrant died of exposure after being left in some brush.

Algae bloom known as red tide shows up along Texas coast

Algae bloom known as red tide shows up along Texas coast

CORPUS CHRISTI, Texas (AP) — Experts say the algae bloom known as red tide has been found along parts of South Texas.

The Texas Parks & Wildlife Department confirmed red tide in areas of the Rio Grande Valley and near Corpus Christi.

Agency officials say water samples Monday from Padre Island National Seashore, at Malibu Beach, found moderate concentrations. Some people reported mild respiratory issues. Red tide aerosols, locked up through wave action, can cause breathing troubles in humans.

The reddish bloom can kill fish and lead to shellfish poisoning in humans who consume it.

Agency officials say high to moderate concentrations of red tide were found in the lower Laguna Madre, along the beach from Beach Access 6 to the Brazos Santiago jetty. Moderate concentrations were at the Isla Blanca Park boat ramp.

This Sept. 14, 2016 photo provided by the Texas Parks and Wildlife Department shows a large red tide bloom along the shore of Padre Island National Seashore, at Malibu Beach, found moderate concentrations. Some people reported mild respiratory issues. Red tide aerosols, locked up through wave action, can cause breathing troubles in humans. The reddish bloom can kill fish and lead to shellfish poisoning in humans who consume it. Agency officials say high to moderate concentrations of red tide were found in the lower Laguna Madre, along the beach from Beach Access 6 to the Brazos Santiago jetty. Moderate concentrations were at the Isla Blanca Park boat ramp.

Notificación de la Solicitud para Prolongar las Tarifas de Arrendamiento de Instalaciones

El 12 de agosto de 2016, la AEP Texas Central Company (TCC) y la AEP Texas Norte Company (TNC) (conjuntamente, las Compañías) presentaron una solicitud ante la Comisión de Servicios Públicos de Texas (Comisión) para prolongar tres años más sus Tarifas de Arrendamiento de Instalaciones para Distribución de Voltaje, hasta el 1 de enero de 2020. Las Compañías no proponen cambiar los términos de las tarifas o los precios actuales en este expediente. Las Secciones 14.001, 39.001 y 39.051 de la Ley Reguladora de Servicios Públicos y de la Sección 25.341 hasta la 25.343 del Código Administrativo 16 de Texas, establecen que la Comisión autorice que un servicio haga la petición para proporcionar Servicios de Arrendamiento de Instalaciones, si tales servicios no están ampliamente disponibles para los clientes en un área. En el Expediente No. 41799, TCC y TNC recibieron aprobación de la Comisión para proporcionar tales servicios hasta el 1 de enero de 2017. Los Servicios de Arrendamiento de Instalaciones para Distribución de Voltaje se encuentran en las Secciones 6.1.2.3.6, 6.1.3.3.6 y 6.1.4.3.6 de las Tarifas para el Servicio de Entrega al Menudeo de la Compañía.

Las Compañías han propuesto que la fecha de inicio de la vigencia sea el 1 de enero de 2017, momento en que las tarifas propuestas se considerarán aprobadas si no se presentan objeciones ante la Comisión. Sólo los clientes que actualmente están recibiendo servicio con las tarifas existentes, así como los Proveedores Minoristas de Electricidad que brindan servicio a esos clientes, se verán afectados por esta solicitud. Esos clientes afectados cuentan con servicio de entrega bajo el Programa de Servicio de Distribución 6.1.1.1.4 del Servicio Primario de Voltaje, y se encuentran localizados en todas las áreas de servicio de TCC y TNC. Esta presentación ha sido asignada al Expediente No. 46284 de la PUC.

Long Green Line sets a number of personal records, claims third against 6A teams

The Long Green Line was invited to compete at the Southlake Carroll Dragon Invitational on Saturday. The course was wet and muddy, due to a couple of inches of rain that fell a few hours before the races, but that didn't stop the Eagles from competing at the highest level.

The Eagles ran in the 6A boys' Big School Division, which is 5K or 3.1 miles. There were 232 runners competing in the division, with 27 total teams.

The Long Green Line finished third, with a team score of 114. This

is an impressive feat, considering that two 6A teams in the meet are ranked in the Top 10 in the State and the defending 5A boys' State Champions also competed.

Buster Roberts finished sixth, with a time of 15:43.

The next 10 runners each set a personal record time.

Isaac Castillo finishing 10th with a time of 16:14. Peyton Roberts finishing 22nd with a time of 16:22. Edwin Zamudio finished 24th, with a time of 16:37.

Anthony Gonzalez recorded a time of 17:12, finishing 52nd. Leo Reyna finished 63rd, in 17:20. Johnny Castanon finishing 81st with a time of 17:36. Damien Padon finished 82nd with a time of 17:37. Raphael Deases finished in 10th, in 17:41. Aden Gonzales was 115th, with a time of 17:49. Thomas Roberts ran a 18:09, finishing in 142nd place.

And, Samuel Renteria rounded out the squad in 180th place, with a time of 18:34.

"We had numerous PR's (personal records) set this weekend and we

set a new school record for team average over the 5K distance," said Coach Mike Barnett. "We averaged 16:28 for 5K, and our previous best was 16:51."

"This was a good meet for us to gauge where we are in relation to some of the best in the State. We ran well, but we can run much better. I was proud of the way our kids competed and got after it. A big thank you to all the Long Green Line fans that made the trip up north in support of Luling 5A."

The Lady Eagles also competed in the Big

School 6A JV - 5K with 300+ runners. Luling placed 15th out of 20 teams with a score of 358.

Celina Hernandez placed 11th, with a time of 21:34. Brian Cruz finished in 23:59, placing 56th. Alex Campos finished 72nd, with a time of 24:12. Lindsey Lucas finished in 25:14 in 98th place. Maddy Ramirez finished a 26:07, for 111th.

"Our girls did a real nice job this weekend. We took a step in the right direction," said Coach Barnett. "We normally run the two mile distance because we are a small school, but the girls handled the jump

to the 5K distance really well."

The Long Green Line's next stop on the road to State comes this weekend, at the Texas A&M Islander Splash Invitational on Saturday, September 17. The meet will start at 8:15 a.m., with the Varsity Boys' Gold Division 5K, at the Islander Cross Country course on the grounds of the Dugan Track and Soccer Stadium, 700 Nile Street, Corpus Christi.

The Varsity Boys' 6A Big School Division will begin at 9:15 a.m.; and the Big School JV Girls Division 5K will kick off at 10:15 a.m.

Middle School & High School

This summer, teachers from Lasara High School participated in a summer externship project that was hosted by RGV LEAD in conjunction with Texas Workforce Solutions and Workforce Solutions Cameron. Through this program some of our teachers were hired by employers of high demand industry, so that they could experience, on a firsthand basis, what is required of their employees. In turn, they were then expected to return to their classroom in the Fall and prepare and present a lesson based on their experience. Some teacher's event went so far as to tie the lesson to the content which they taught. Through experiences such as these, our teachers are more aware of how classroom lessons directly impacts our community's

workforce.

Bulldogs suffer 30-7 bite

by Marina Wise

The massive surge of momentum from last week's huge win against the Progreso Red Ants just wasn't enough to carry the Lyford Bulldogs through Friday's encounter with the St. Joseph Academy Bloodhounds. After four hard-fought quarters, Lyford dropped the dog fight 30-7.

The Hounds were aggressive from the get-go. About three minutes in, they put up the first points of the game on a 28-yard touchdown pass by the PAT. After that, the offenses on both sides struggled to find their groove; neither team scored again until the next quarter. On the flip side, both defenses

proved to be almost impenetrable.

The second quarter saw a mixture of offensive attacks. St. Joe was quick to strike- after less than a minute, they kicked a field goal to make the score 10-0. Later in the quarter (3:05), the Bloodhounds followed up with a 51-yard run into the end zone and an extra point. The Bulldogs finally got their opportunity to respond with 17 seconds left on the clock- senior QB Chase Hinojosa hurried a 40-yard touchdown pass to junior WR Frank Moreno, and the kick was good. After squeaking by the buzzer, Lyford still lagged 17-7.

The Hounds didn't loosen their grip after halftime. Scoring

on a short one-yard rush in the third (XP good) and 26-yard pass in the fourth (XP no good). St. Joe sealed the game with a 30-7 victory.

Despite the loss, the Bulldogs did show some promise. Receivers Jacob Sanchez and Moreno each had over 50 yards, with Moreno chipping in a touchdown. Fellow WR Joaquin Gonzalez was just behind his teammates with 34 yards. Joseph Esparza and Hinojosa rushed for 36 yards apiece, and Hinojosa passed for 183 yards and a TD.

With a 1-1 record, Lyford hopes to recover this Friday in their away game against rival Raymondville.

Bearcats Fall to Gator Chomp

by Marina Wise

These last two weeks have not been easy for the Raymondville Bearcats, but they are remaining persistent as they try to dig out of their 0-2 rut. First dropping their season opener to the La Feria Lions, the Kats failed to redeem themselves this past Friday against the La Grulla Gators.

Grulla immediately came out strong, scoring two touchdowns and PATs in the first twelve minutes. On the contrary, Raymondville's historically effective run game just wasn't getting as well as it could've been. With a 14-0 deficit gleaming from the scoreboard as time ticked out for the first quarter, the Kats remained hope-

ful.

The Bearcats posted seven points on the board in the second quarter, but were outmatched by the Gators' 13. By the time halftime rolled around, Grulla held a 27-7 advantage over Raymondville.

Limping into the third quarter, things didn't get much better for the Bearcats. An unraveling defense allowed for two more Gator touchdowns, while the offense plateaued with only seven more points. In the final twelve minutes, the Kats began to clean up their defense and allowed Grulla to score only once more. Unfortunately, though, Raymondville's go-to rush attack and their secondary passing plan were not functioning

up to Gator speed. Unable to score any more, the Kats were dealt their 48-14 loss after the final buzzer sounded.

There were some bright spots throughout the match, though. For example, sophomore running backs Marcus Capetillo and Jacob Posas both performed well, rushing for 40 and 63 yards respectively. Posas also led the team in total tackles (10), while sophomore teammate Noe Zambrano came in a close second with eight.

The Bearcats are optimistic to turn their situation around next week, as they host Lyford and attempt to defend their standing as the year before last's Cotton Bowl champion.

Oil bust blamed as Texas budget outlook shrinks by \$1 billion

AUSTIN, Texas (AP) Texas officials say sagging oil prices has shrunk the budget outlook by nearly \$1 billion at a time when state agencies are already facing possible cuts next year.

Glenn Hegar said Wednesday that "prolonged weakness" in the oil and gas sector caused tax collections for fiscal year 2016 to finish even below his previously lowered expectations.

plenty of money to cover the current two-year budget after lawmakers left billions of dollars unspent in 2013. But the impact will be felt starting in January when the Legislature reconvenes.

Republican Gov. Greg Abbott told state agencies this summer to look for reductions in anticipation of tighter spending next session. Exceptions were made for border security, mental health and the state's troubled foster care system.

Apache may have struck big field with 3 billion barrels of oil in West Texas

By DAVID KOENIG
AP Business Writer

DALLAS (AP) A Houston driller is boasting of a big new oil and gas discovery in West Texas. Apache Corp. believes there could be 3 billion barrels of oil and 75 trillion cubic feet of natural gas in an area it calls Alpine High.

Apache shares are up 8 percent in midday trading.

Apache said it's accumulated more than 300,000 acres and drilled 19 wells in Alpine High, a small part of the sweeping and energy-rich Permian Basin of Texas.

CEO John Christmann says others have mistakenly overlooked the area.

The Companies do not propose to change the terms of the tariffs or the current pricing in this docket. Sections 14.001, 39.001 and 39.051 of the Public Utility Regulatory Act and Sections 25.341 through 25.343 of 16 Tex. Admin. Notificación de la Solicitud para Prolongar las Tarifas de Arrendamiento de Instalaciones

El 12 de agosto de 2016, la AEP Texas Central Company (TCC) y la AEP Texas Norte Company (TNC) (conjuntamente, las Compañías) presentaron una solicitud ante la Comisión de Servicios Públicos de Texas (Comisión) para prolongar tres años más sus Tarifas de Arrendamiento de Instalaciones para Distribución de Voltaje, hasta el 1 de enero de 2020. Las Compañías no proponen cambiar los términos de las tarifas ni los precios actuales en este expediente. Las Secciones 14.001, 39.001 y 39.051 de la Ley Reguladora de Servicios Públicos y de la Sección 25.341 hasta la 25.343 del Código Administrativo 16 de Texas, establecen que la Comisión autorice que un servicio haga la petición para proporcionar Servicios de Arrendamiento de Instalaciones si tales servicios no están ampliamente disponibles para los clientes en un área. En el Expediente No. 41799, TCC y TNC recibieron aprobación de la Comisión para proporcionar tales servicios hasta el 1 de enero de 2017. Las Compañías han propuesto que la fecha de inicio de la vigencia sea el 1 de enero de 2017, momento en que las tarifas propuestas se considerarán aprobadas si no se presentan objeciones ante la Comisión. Sólo los clientes que actualmente están recibiendo servicio con las tarifas existentes, así como los Proveedores Minoristas de Electricidad que brindan servicio a esos clientes, se verán afectados por esta solicitud. Los clientes afectados cuentan con servicio de entrega bajo el Programa de Servicio de Distribución 6.1.1.4 del Servicio Primario de Voltaje, y se encuentran localizados en todas las áreas de servicio de TCC y TNC. Esta presentación ha sido asignada al Expediente No. 46284 de la PUC.

Last week, he submitted a request for City Council to consider reforming the Planning Commission in an effort to make it more representative of the city. His proposal would allow Mayor Ivy Taylor and each council member to appoint a member to the commission.

Currently, nine members of the commission are appointed by council as a whole while four others are ex-officio members, meaning they became members because they hold another office such as the chairman of the Zoning Commission.

If commission members had closer ties to individual districts, it would be easier for council members to communicate with them about projects, Treviño said.

"We see this in District 1 happening all too often, and we need to find better ways to make sure that neighborhoods feel they're protected, that they're thought of, that they're included in the conversation about how the city's growing," he said.

Because the project is in a historic district, it will be subject to approval by the city Historic and Design Review Commission. The Planning Commission's decision on the

A gated community of single-family homes planned on 3.2 acres of green space next to Trinity University is facing opposition from Monte Vista residents who say it would violate the historic character of the neighborhood.

project isn't subject to City Council approval.

Treviño said he planned to reach out to the developers. The Planning Commission request was submitted by property owner Oblate Title Holding Group, and it's unclear whether another developer is involved in the project.

Oblate Title didn't respond to a request for comment Tuesday afternoon.

The property is zoned R-4, meaning the developers would be able to build single-family homes with a minimum lot size of 4,000 square feet without

seeking a zoning change.

San Antonio's near-downtown neighborhoods have been the focus of some fierce development battles over the past few years as demand for urban living has grown. Earlier this year, members of the Mainrock Park Neighborhood Association

faced off against a hair-stylist who opened a salon in a residentially zoned property. In the end, City Council rescinded the property, allowing the business to stay.

Job hunters take unique approach to standing out

BUSINESS MANAGEMENT DAILY

Job candidates realize that a great cover letter and résumé aren't always enough to land a coveted job. Indeed, job-seekers often need more to stand out from the competition.

"Unfortunately, what many aren't realizing is that the catch is making sure you do that in a professional, respectful way," said Rosemary Haefer, chief human resources officer for CareerBuilder.

In a new CareerBuilder survey, hiring managers gave these examples of unusual

tactics job-seekers used to stand out:

• Came dressed in a Halloween costume during a late October interview.

• Bought a first-class upgrade to sit next to the hiring manager on a transatlantic flight.

• Had his wife make homemade lavender soap bars for the hiring manager as a thank you for the interview.

• Sent a pair of embroidered socks to HR with a note saying he would knock the company's socks off if hired.

• Showed up in his camp

counselor attire with some children from the camp he worked at to show his leadership capabilities.

• Sent a shoe with a flower in it, plus a note saying "Trying to get my foot in the door."

• Arrived to the interview in a white limousine, an hour early, dressed in a three-piece suit. (The open position was middle-wage and had a casual dress code.)

• Kissed the hiring manager.

• Wore a tie that had the name of the company on it.

• Mailed the hiring manager an envelope with cash inside.

Job candidates realize that they may need to do something to stand out from the competition. One candidate came dressed in a Halloween costume during a late October interview.

Notificación de la Solicitud para Prolongar las Tarifas de Arrendamiento de Instalaciones

El 12 de agosto de 2016, la AEP Texas Central Company (TCC) y la AEP Texas North Company (TNC) (conjuntamente, las Compañías) presentaron una solicitud ante la Comisión de Servicios Públicos de Texas (Comisión) para prolongar tres años más las Tarifas de Arrendamiento de Instalaciones para Distribución de Voltaje, hasta el 1 de enero de 2020. Las Compañías no proponen cambiar los términos de las tarifas a los precios actuales en este expediente. Las Secciones 14.001, 38.001 y 38.003 de la Ley Reguladora de Servicios Públicos y de la Sección 25.341 hasta la 25.343 del Código Administrativo de Texas, establecen que la Comisión autoriza que el servicio haga la petición para proporcionar Servicios de Arrendamiento de Instalaciones, si tales servicios no están ampliamente disponibles para las compañías en su área. En el Expediente No. 47798, TCC y TNC recibieron aprobación de la Comisión para proporcionar tales servicios hasta el 1 de enero de 2017. Los Servicios de Arrendamiento de Instalaciones para Distribución de Voltaje se encuentran en las Secciones 6.1.2.2.3, 6.1.3.3.3 y 6.1.4.2.8 de las Tarifas para el Servicio de Entrega al Menor de la Comisión.

Las Compañías han propuesto que la fecha de inicio de la vigencia sea el 1 de enero de 2017, momento en que las tarifas propuestas se considerarán aprobadas si no se presentan objeciones ante la Comisión. Sólo las compañías que actualmente están recibiendo servicio con las tarifas existentes, así como los Proveedores Minoristas de Electricidad que brindan servicio a esos clientes, no serán afectados por esta solicitud. Esos clientes afectados cuentan con servicio de entrega bajo el Programa de Servicio de Distribución 6.1.1.1.4 del Servicio Primario de Voltaje, y se encuentran localizados en todas las áreas de servicio de TCC y TNC. Esta presentación no está sujeta al Expediente No. 46284 de la PUC.

Only customers currently taking service under the existing tariffs, as well as the Retail Electric Providers serving those customers, are affected by this application. Those affected customers take delivery service under Distribution Service Schedule 6.1.1.1.4-Primary Voltage Service, and are located throughout the service areas of TCC and TNC. This filing has been assigned PUC Docket No. 46284.

The Companies do not propose to change the terms of the tariffs to the current pricing in this docket. Sections 14.001, 39.001 and 39.051 of the Public Utility Regulatory Act and Sections 25.341 through 25.343 of 16 Tex. Admin.
