ORDER NO. 6
ORDER EXTENDING ABATEMENT AND REQUIRING FILINGS

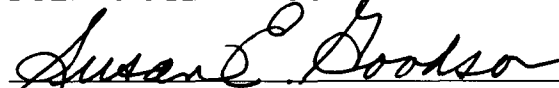

This Order addresses Commission Staff's October 5, 2017 status report and request to extend the abatement in this proceeding. This proceeding was abated for 3 months, until October 5, 2017, in Order No. 5. Staff now requests an extension of the abatement for another 3 months, until January 5, 2018, allowing the City of Haslet additional time to complete the application process with the Texas Commission on Environmental Quality (TCEQ).

Commission Staff's request is granted. The abatement in this proceeding is extended as requested. However, Haslet is advised that lengthy abatements are not appropriate and 6 months is too long. It may be more appropriate for this matter to be dismissed and for Haslet to refile at a later date with a complete application.

On November 5, 2017, December 5, 2017, and January 5, 2018, Haslet shall file a status update indicating its efforts to obtain the necessary approvals from TCEQ. Failure to file the required updates could result in dismissal. On or before January 12, 2018, Commission Staff shall comment on the status of the application, propose additional procedural schedule for continued processing of this application, if appropriate, and indicate if dismissal is appropriate.

Signed at Austin, Texas the 6th day of October 2017.
