Protecting Texas by Reducing and Preventing Pollution

November 29, 2016

CERTIFIED MAIL 7015 1730 0001 9581 9991
RETURN RECEIPT REQUESTED

Mr. Benjamin F. Wiese, IV
Manager
Concho Rural Water Corporation
8174 US Highway 87 North
San Angelo, Texas 76901-7402

Re: Notice of Violation for the Comprehensive Compliance Investigation at:
Concho Rural Water-Pecan Creek, San Angelo, Tom Green County
Regulated Entity RN101281590; TCEQ PWS ID 2260057; Investigation 1369138

Dear Ms. Wiese:

On November 1, 2016, Ms. Linda White of the Texas Commission on Environmental Quality (TCEQ) San Angelo Region Office conducted an investigation of the above-referenced regulated entity to evaluate compliance with applicable requirements for a public water supply. Enclosed is a summary which lists the investigation findings. During the investigation, a concern was noted which was an alleged noncompliance that has been resolved as an Area of Concern based on subsequent corrective action. In addition, certain outstanding alleged violations were identified for which compliance documentation is required. Please submit to this office by **December 29, 2016** a written description of corrective action taken and the required documentation demonstrating that compliance has been achieved for the outstanding alleged violation concerning **the Tier II report**. Please submit to this office by **April 3, 2017** a written description of corrective action taken and the required documentation demonstrating that compliance has been achieved for the outstanding alleged violation concerning **nitrate/nitrite baseline monitoring**.

In the listing of the alleged violations, we have cited applicable requirements, including TCEQ rules. Please note that both the rules themselves and the agency brochure entitled *Obtaining TCEQ Rules* (GI 032) are located on our agency website at <http://www.tceq.state.tx.us> for your reference. If you would like a hard copy of this brochure mailed to you, you may call and request one from either the San Angelo Region Office at (325) 655-9479 or the Central Office Publications Ordering Team at (512) 239-0028.

The TCEQ appreciates your assistance in this matter. Please note that the Legislature has granted TCEQ enforcement powers which we may exercise to ensure compliance with environmental regulatory requirements. We anticipate that you will resolve the alleged violations as required in order to protect the State's environment. If you have additional information that we are unaware of, you have the opportunity to contest the violations documented in this notice. Should you choose to do so, you must notify the San Angelo Region Office *within 10 days from the date of this letter*. At that time, Mr. Christopher Mayben will

Re: Additional Compliance Documentation Needed for:
Concho Rural Water Water Valley, Water Valley, Tom Green County
RN101214344; TCEQ PWS ID 2260060; Investigation 1222443; Review 1248243

Dear Mr. Wiese:

The Texas Commission on Environmental Quality (TCEQ) San Angelo Region Office received the compliance documentation that you submitted May 5, 2015 for the alleged violations noted during the investigation of the above-referenced regulated entity conducted on February 12, 2015. The compliance documentation contained in your response appears to indicate that one of the problems documented during the investigation has been corrected. However, information is still needed for the alleged violation listed in the enclosed summary. Please submit to our office by **June 7, 2015** a written description of corrective action taken and the required compliance documentation demonstrating that the remaining alleged violation is resolved.

The TCEQ appreciates your assistance in this matter and your compliance efforts to protect the State's environment. We look forward to receiving your response for the remaining alleged violations. Please note that the Legislature has granted TCEQ enforcement powers, which we may exercise to ensure compliance with environmental regulatory requirements. If you or members of your staff have any questions, please feel free to contact Ms. Linda White in the San Angelo Region Office at (325) 655-9479.

Sincerely,

A handwritten signature in black ink, appearing to read "Chris Mayben", is written over a horizontal line.

CONCHO RURAL WATER VALLEY

Investigation #

, TOM GREEN COUNTY,

1248243
Investigation Date: 05/05/2015

Additional ID(s): 2260060

OUTSTANDING ALLEGED VIOLATION(S) ASSOCIATED TO A NOTICE OF VIOLATION

Track No: 564444 Compliance Due Date: 06/07/2015
30 TAC Chapter 290.42(I)

Alleged Violation:

Investigation: 1222443

Comment Date: 03/12/2015

Failure to provide an adequate Plant Operations manual. The water system files have some aspects of the manual, such as emergency telephone numbers and contact names, and such as a Monitoring Plan. However, it lacks information on routine maintenance and repair procedures, and emergency protocols.

Investigation: 1248243

Comment Date: 05/11/2015

On 05/08/2015, Mr. Wiese requested a one-month extension to the due date for preparing the Plant Operations Manual.

Recommended Corrective Action: Compile a thorough plant operations manual for operator review and reference. This manual should be of sufficient detail to provide the operator with routine maintenance and repair procedures, with protocols in the event of a catastrophe. Submit a copy of the manual to the TCEQ San Angelo Region Office, demonstrating compliance.

ALLEGED VIOLATION(S) NOTED AND RESOLVED ASSOCIATED TO A NOTICE OF VIOLATION

Track No: 564443
30 TAC Chapter 290.41(c)(3)(K)

Alleged Violation:

Investigation: 1222443

Comment Date: 03/12/2015

Failure to maintain a seal on a wellhead. A hole was in the top of the well casing on the west well (Well G2260060A).

Investigation: 1248243

Comment Date: 05/06/2015

See Resolution.

Recommended Corrective Action: Maintain the seal on the well. Submit photographic documentation to the TCEQ San Angelo Region Office, demonstrating compliance.

Resolution: On 05/05/2015, Mr. Wiese submitted documentation that demonstrates compliance.

Dear Mr. Wiese:

By letter dated March 18, 2015, the Texas Commission on Environmental Quality (TCEQ) San Angelo Region Office requested that you submit information to us by April 17, 2015 verifying that the outstanding alleged violation referenced in the letter has been corrected. The alleged violation was noted during the investigation of the above-referenced regulated entity conducted on February 12, 2015. Enclosed for your information is a copy of the letter. As of this date, we have not received from you a written description of corrective action taken and the required compliance documentation for these alleged violations. Please submit this information to us by no later than **June 7, 2015**.

The TCEQ appreciates your assistance in this matter and looks forward to receiving your response. Please note that the Legislature has granted TCEQ enforcement powers, which we may exercise to ensure compliance with environmental regulatory requirements. Description

Item 1

Additional Comments

Mr. Wiese made a statement indicating that a "fire hose" might be used at times when the water hauler cannot get close to the deliver water to the receiving tank. Make sure that only hoses that comply with National Sanitation Foundation (NSF) Standard 61 are used on the water hauler. 30 TAC 290.44(i)(2)(H)

Item 2

A Drought Contingency Plan might be required. In the past, the water hauler was not being used as a retail public utility, so a Drought Contingency Plan was not required. Recently, for a limited time the water hauler was used to provide water for a price to Barnhart WSC. The dates of delivery included 11/20/2013, 12/06/2013, 12/10/2013, 12/11/2013, and 12/12/2013. 30 TAC 288.20(a)

WATER UTILITY TARIFF

Docket Number: 43895

Concho Rural Water Corporation
(Utility Name)

8174 US Highway 87 North
(Business Address)

San Angelo, Texas 76901
(City, State, Zip Code)

(325) 658-2961
(Area Code/Telephone)

This tariff is effective for utility operations under the following Certificate of Convenience and Necessity:

11361

This tariff is effective in the following county:

Tom Green

This tariff is effective in the following cities or unincorporated towns (if any):

None

This tariff is effective in the following subdivisions or systems:

See attached list

TABLE OF CONTENTS

The above utility lists the following sections of its tariff (if additional pages are needed for a section, all pages should be numbered consecutively):

SECTION 1.0 -- RATE SCHEDULE.....	2
SECTION 2.0 -- SERVICE RULES AND POLICIES	4
SECTION 3.0 -- EXTENSION POLICY	11
SECTION 4.0 -- DROUGHT CONTINGENCY PLAN.....	15
APPENDIX A -- SAMPLE SERVICE AGREEMENT	
APPENDIX B -- APPLICATION FOR SERVICE	

SECTION 1.0 -- RATE SCHEDULE

Section 1.01 - Rates

5/8" or 3/4"	<u>\$30.00</u> (Includes 0 gallons)	<u>\$1.75</u> per 1000 gallons, 0-10,000 gallons
1"	<u>\$42.41</u>	<u>\$2.40</u> per 1000 gallons, 10,001-20,000 gallons
1 1/2 "	<u>\$80.59</u>	<u>\$2.90</u> per 1000 gallons, 20,001-30,000 gallons
2"	<u>\$126.59</u>	<u>\$3.40</u> per 1000 gallons, 30,001-40,000 gallons
3"	<u>\$234.20</u>	<u>\$3.90</u> per 1000 gallons, 40,001-50,000 gallons
4"	<u>\$279.00</u>	<u>\$5.25</u> per 1000 gallons, 50,001-over gallons

Upper Colorado River Authority \$2.25 per 1000 gallons
(for Pecan Creek Mobile Home Park and The Oaks Systems only)

FORM OF PAYMENT: The utility will accept the following form(s) of payment:

Cash X, Check X, Money Order X, Credit Card X, Other (specify): Bank Draft

THE UTILITY MAY REQUIRE EXACT CHANGE FOR PAYMENTS AND MAY REFUSE TO ACCEPT PAYMENTS MADE USING MORE THAN \$1.00 IN SMALL COINS. A WRITTEN RECEIPT WILL BE GIVEN FOR CASH PAYMENTS.

REGULATORY ASSESSMENT 1.0%
 PUC RULES REQUIRE THE UTILITY TO COLLECT A FEE OF ONE PERCENT OF THE RETAIL MONTHLY BILL AND TO REMIT TO THE TCEQ.

Section 1.02 - Miscellaneous Fees

TAP FEE \$750.00
 TAP FEE COVERS THE UTILITY'S COSTS FOR MATERIALS AND LABOR TO INSTALL A STANDARD RESIDENTIAL 5/8" or 3/4" METER. AN ADDITIONAL FEE TO COVER UNIQUE COSTS IS PERMITTED IF LISTED ON THIS TARIFF.

TAP FEE (Unique costs) Actual Cost
 FOR EXAMPLE, A ROAD BORE FOR CUSTOMERS OUTSIDE OF SUBDIVISIONS OR RESIDENTIAL AREAS.

TAP FEE (Large meter) Actual Cost
 TAP FEE IS THE UTILITY'S ACTUAL COST FOR MATERIALS AND LABOR FOR METER SIZE INSTALLED.

METER RELOCATION FEE Actual Relocation Cost, Not to Exceed Tap Fee
 THIS FEE MAY BE CHARGED IF A CUSTOMER REQUESTS THAT AN EXISTING METER BE RELOCATED.

SECTION 1.0 - RATE SCHEDULE (Continued)

PASS THROUGH PROVISION:

For utilities subject to changes in cost imposed by any non-affiliated provider of purchased water or sewer or a groundwater conservation district having jurisdiction over the Utility, these increases (decreases) shall be passed through as an adjustment to the gallonage charge according to the formula:

Adjusted Gallonage Rate (AG) = $G + [B / (1 - L)]$, Where:

AG = adjusted gallonage charge, rounded to nearest one cent;

G = approved gallonage charge, per 1,000 gallons;

B = change in fee (per 1,000 gallons);

L = water or sewer line loss for preceding 12 months, not to exceed 0.15 (15%)

To implement or modify the pass through provision, the utility must comply with all notice and other requirements of 30 TAC §24.21(b)(2).

SECTION 2.0 -- SERVICE RULES AND POLICIES**(B) Tap or Reconnect Fees**

A new customer requesting service at a location where service has not previously been provided must pay a tap fee as provided in Section 1. A customer requesting service where service has previously been provided must pay a reconnect fee as provided in Section 1. Any applicant or existing customer required to pay for any costs not specifically set forth in the rate schedule pages of this tariff shall be given a written explanation of such costs prior to request for payment and/or commencement of construction. If the applicant or existing customer does not believe that these costs are reasonable or necessary, the applicant or existing customer shall be informed of their right to appeal such costs to the PUC or such other regulatory authority having jurisdiction over the utility's rates in that portion of the utility's service area in which the applicant's or existing customer's property(ies) is located.

Fees in addition to the regular tap fee may be charged if listed specifically in Section 1 to cover unique costs not normally incurred as permitted by 30 TAC 24.86(a)(1)(C). For example, a road bore for customers outside a subdivision or residential area could be considered a unique cost.

(C) Easement Requirement

Where recorded public utility easements on the service applicant's property do not exist or public road right-of-way easements are not available to access the applicant's property, the Utility may require the applicant to provide it with a permanent recorded public utility easement on and across the applicant's real property sufficient to provide service to that applicant. Such easement(s) shall not be used for the construction of production, storage, transmission or pressure facilities unless they are needed for adequate service to that applicant.

Section 2.04 - Utility Response to Applications for Service

After the applicant has met all the requirements, conditions and regulations for service, the utility will install tap, meter and utility cut-off valve and/or take all necessary actions to initiate service. The utility will serve each qualified applicant for service within 5 working days unless line extensions or new facilities are required. If construction is required to fill the order and if it cannot be completed within 30 days, the utility will provide the applicant with a written explanation of the construction required and an expected date of service.

Except for good cause where service has previously been provided, service will be reconnected within one working day after the applicant has met the requirements for reconnection.

SECTION 2.0 -- SERVICE RULES AND POLICIES

All backflow prevention assemblies or devices shall be tested upon installation by a TCEQ certified backflow prevention assembly tester and certified to be operating within specifications. Backflow prevention assemblies which are installed to provide protection against health hazards must also be tested and certified to be operating within specifications at least annually by a certified backflow prevention assembly tester.

If the utility determines that a backflow prevention assembly or device is required, the utility will provide the customer or applicant with a list of TCEQ certified backflow prevention assembly testers. The customer will be responsible for the cost of installation and testing, if any, of backflow prevention assembly or device. The customer should contact several qualified installers to compare prices before installation. The customer must pay for any required maintenance and annual testing and must furnish a copy of the test results demonstrating that the assembly is functioning properly to the utility within 30 days after the anniversary date of the installation unless a different date is agreed upon.

Section 2.08 - Access to Customer's Premises

The utility will have the right of access to the customer's premises at all reasonable times for the purpose of installing, testing, inspecting or repairing water mains or other equipment used in connection with its provision of water service, or for the purpose of removing its property and disconnecting lines, and for all other purposes necessary to the operation of the utility system including inspecting the customer's plumbing for code, plumbing or tariff violations. The customer shall allow the utility and its personnel access to the customer's property to conduct any water quality tests or inspections required by law. Unless necessary to respond to equipment failure, leak or other condition creating an immediate threat to public health and safety or the continued provision of adequate utility service to others, such entry upon the customer's property shall be during normal business hours and the utility personnel will attempt to notify the customer that they will be working on the customer's property. The customer may require any utility representative, employee, contractor, or agent seeking to make such entry identify themselves, their affiliation with the utility, and the purpose of their entry.

All customers or service applicants shall provide access to meters and utility cutoff valves at all times reasonably necessary to conduct ordinary utility business and after normal business hours as needed to protect and preserve the integrity of the public drinking water supply.

Section 2.09 - Meter Requirements, Readings, and Testing

One meter is required for each residential, commercial, or industrial connection. All water sold by the utility will be billed based on meter measurements. The utility will provide, install, own and maintain meters to measure amounts of water consumed by its customers.

SECTION 2.0 -- SERVICE RULES AND POLICIES**Section 2.11- Payments**

All payments for utility service shall be delivered or mailed to the utility's business office. If the business office fails to receive payment prior to the time of noticed disconnection for non-payment of a delinquent account, service will be terminated as scheduled. Utility service crews shall not be allowed to collect payments on customer accounts in the field. Payment of an account by any means that has been dishonored and returned by the payer or payee's bank, shall be deemed to be delinquent. All returned payments must be redeemed with cash or valid money order. If a customer has two returned payments within a twelve month period, the customer shall be required to pay a deposit if one has not already been paid.

Section 2.12 - Service Disconnection**(A) With Notice**

Utility service may be disconnected if the bill has not been paid in full by the date listed on the termination notice. The termination date must be at least 10 days after the notice is mailed or hand delivered.

The utility is encouraged to offer a deferred payment plan to a customer who cannot pay an outstanding bill in full and is willing to pay the balance in reasonable installments. However, a customer's utility service may be disconnected if a bill has not been paid or a deferred payment agreement entered into within 26 days from the date of issuance of a bill and if proper notice of termination has been given.

Notice of termination must be a separate mailing or hand delivery in accordance with the PUC Rules.

(B) Without Notice

Utility service may also be disconnected without notice for reasons as described in the PUC Rules.

Section 2.13 - Reconnection of Service

Utility personnel must be available during normal business hours to accept payments on the day service is disconnected and the following day unless service was disconnected at the customer's request or due to a hazardous condition.

Service will be reconnected within 36 hours after the past due bill, reconnect fees and any other outstanding charges are paid or the conditions which caused service to be disconnected are corrected.

SECTION 3.0 -- EXTENSION POLICY

Section 3.01 - Standard Extension Requirements

Line Extension and Construction Charges: No Contribution in Aid of Construction may be required of any customer except as provided for in this approved extension policy.

The Utility is not required to extend service to any applicant outside of its certified service area and will only do so under terms and conditions mutually agreeable to the Utility and the applicant, in compliance with PUC rules and policies, and upon extension of the Utility's certified service area boundaries by the PUC.

The applicant for service will be given an itemized statement of the costs, options such as rebates to the customer, sharing of construction costs between the utility and the customer, or sharing of costs between the customer and other applicants prior to beginning construction.

Section 3.02 - Costs Utilities and Service Applicants Shall Bear

Within its certified area, the utility will pay the cost of the first 200 feet of any water main or distribution line necessary to extend service to an individual residential customer within a platted subdivision.

However, if the residential customer requesting service purchased the property after the developer was notified in writing of the need to provide facilities to the utility, the utility may charge for the first 200 feet. The utility must also be able to document that the developer of the subdivision refused to provide facilities compatible with the utility's facilities in accordance with the utility's approved extension policy after receiving a written request from the utility.

Residential customers will be charged the equivalent of the costs of extending service to their property from the nearest transmission or distribution line even if that line does not have adequate capacity to serve the customer. However, if the customer places unique, non-standard service demands upon the system, the customer may be charged the additional cost of extending service to and throughout their property, including the cost of all necessary transmission and storage facilities necessary to meet the service demands anticipated to be created by that property.

Unless an exception is granted by the PUC, the residential service applicant shall not be required to pay for costs of main extensions greater than 2" in diameter for water distribution and pressure wastewater collection lines and 6" in diameter for gravity wastewater lines.

Exceptions may be granted by the PUC if:

- adequate service cannot be provided to the applicant using the maximum line sizes listed due to distance or elevation, in which case, it shall be the utility's burden to justify that a larger diameter pipe is required for adequate service;

SECTION 3.0 -- EXTENSION POLICY (Continued)

When a developer wishes to extend the system to prepare to service multiple new connections, the charge shall be the cost of such extension, plus a pro-rata charge for facilities which must be committed to such extension compliant with the TCEQ minimum design criteria. As provided by 30 TAC 24.85(e)(3), for purposes of this section, commercial, industrial, and wholesale customers shall be treated as developers.

A utility may only charge a developer standby fees for unrecovered costs of facilities committed to a developer's property under the following circumstances:

- Under a contract and only in accordance with the terms of the contract; or
- if service is not being provided to a lot or lots within two years after installation of facilities necessary to provide service to the lots has been completed and if the standby fees are included on the utility's approved tariff after a rate change application has been filed. The fees cannot be billed to the developer or collected until the standby fees have been approved by the commission or executive director.
- for purposes of this section, a manufactured housing rental community can only be charged standby fees under a contract or if the utility installs the facilities necessary to provide individually metered service to each of the rental lots or spaces in the community.

Section 3.04 - Appealing Connection Costs

The imposition of additional extension costs or charges as provided by Sections 3.0 - Extension Policy of this tariff shall be subject to appeal as provided in this tariff, PUC rules, or the rules of such other regulatory authority as may have jurisdiction over the utility's rates and services. Any applicant required to pay for any costs not specifically set forth in the rate schedule pages of this tariff shall be given a written explanation of such costs prior to payment and/or commencement of construction. If the applicant does not believe that these costs are reasonable or necessary, the applicant shall be informed of the right to appeal such costs to the PUC or such other regulatory authority having jurisdiction over the utility's rates in that portion of the utility's service area in which the applicant's property(is) is located.

Section 3.05 - Applying for Service

The Utility will provide a written service application form to the applicant for each request for service received by the Utility's business offices. A separate application shall be required for each potential service location if more than one service connection is desired by any individual applicant. Service application forms will be available at the Utility's business office during normal weekday business hours. Service applications will be sent by prepaid first class United States mail to the address provided by the applicant upon request. Completed applications should be returned by hand delivery in case there are questions which might delay fulfilling the service request. Completed service applications may be submitted by mail if hand delivery is not possible.

SECTION 4.0 -- DROUGHT CONTINGENCY PLAN
(Utility must attach copy of TCEQ approved Drought Contingency Plan)

any major changes to the private water distribution facilities. The inspections shall be conducted during the Water System's normal business hours.

- C. The Water System shall notify the Customer in writing of any cross-connection or other potential contamination hazard which has been identified during the initial inspection or the periodic re-inspection.
- D. The Customer shall immediately remove or adequately isolate any potential cross-connections or other potential contamination hazards on his premises.
- E. The Customer shall, at his expense, properly install, test, and maintain any backflow prevention device required by the Water System. Copies of all testing and maintenance records shall be provided to the Water System.

IV. ENFORCEMENT. If the Customer fails to comply with the terms of the Service Agreement, the Water System shall, at its option, either terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expenses associated with the enforcement of this agreement shall be billed to the Customer.

DESIRED WATER METER SIZE WILL BE A 3/4" BY 5/8" UNLESS OTHERWISE SPECIFIED

****A COPY OF CUSTOMER DRIVERS LICENSE REQUIRED****

PURPOSE: Concho Rural Water. (CRWC) is responsible for protecting the drinking water supply from contamination or pollution which could result from improper private water distribution system construction or configuration and for providing water service in accordance with Texas Commission on Environmental Quality(TCEQ) rules and regulations. This service agreement is intended to notify each applicant of applicable plumbing restrictions to protect the public's health and welfare and to establish the terms under which retail water service will be provided.

AGREEMENT BETWEEN CRWC AND APPLICANT/CUSTOMER:

A. Each applicant must sign this agreement before CRWC will begin water service. In addition, when service to an existing connection has been suspended or terminated, CRWC will not reestablish service unless it has a signed copy of this agreement from the customer seeking to be reconnected and the customer has met all other lawful conditions required for the restoration of utility service.

B. CRWC agrees to sell and deliver water to the applicant/customer and the applicant/customer agrees to purchase and receive water from CRWC accordance with the rules and regulations of CRWC in its approved tariff on file with the TCEQ, Chapter 291 Regulations of TCEQ.

C. The application/customer grants CRWC the right to install the water meter and the pipe and appurtenances necessary to connect the meter on the property of the applicant/customer at a point mutually agreeable to CRWC and the applicant/customer. The applicant/customer will allow CRWC access at all reasonable times to its property and equipment located upon the applicant/customer's premises for the purpose of reading the water meter, repairing or replacing existing facilities.

D. The applicant/customer will install, at his own expense, a service line from water meter including a cutoff valve on the applicant/customer's side of the meter. The applicant/customer will be responsible for the maintenance and repair of this service line and will hold CRWC harmless from any claims/demands for damage to real or personal occurring beyond the point the applicant/customer connects to the water meter.

E. If the applicant/customer's property does not have a designated easement, the applicant/customer agrees to grant CRWC an easement/right of way for the purpose of installing, maintaining and operating such pipe lines, meter valves and any other equipment which may be deemed necessary for the provision of the utility and service to that applicant/customer. CRWC will restore the applicant/customer's property as nearly as possible to its original condition after installations or repairs. The applicant/customer agrees not to interfere with CRWC's employees in the discharge of their duties. The applicant/customer agrees not to tamper with or interfere with any of the equipment installed on the applicant/customer's premises.

F. Applicants for the water service where service has not been previously provided must submit a complete Customer Service Inspection certificate signed by a licensed inspector within 30 days after service is initiated to certify that there are no cross connections or other potential sources of contamination. Failure to submit the completed form is grounds for termination of service.

G. The applicant/customer shall grant CRWC access to his property during regular business hours to check the applicant/customer's facilities for illegal connections, unsafe plumbing practices, or cross connections in compliance with the Chapter 290- Regulations of the TCEQ when there is reason to believe that cross connection or other potential/contamination hazards exist, or after any alterations to the applicant/customer's plumbing system.

H. If CRWC notifies a applicant/customer in writing of any cross-connection or potential contamination hazard; the customer shall immediately remove or adequately isolate any cross-connections or potential contamination hazards. If a applicant/customer chooses to isolate potential hazard, the customer/applicant shall, at his/her expense, properly install, test and maintain a back-flow prevention device required by CRWC. Copies of all required testing and maintenance records shall be provided to CRWC for TCEQ review.

I. No application, agreement, or contract for service may be assigned or transferred without the written consent of CRWC.

J. Enforcement : If the applicant/customer fails to comply with terms of this Service Agreement, CRWC may terminate service in accordance with the Chapter 291 TCEQ Rules. If the customer violates the "RESTRICTIONS" below or if there are potential cross connections or other potential contamination hazards that the customer refuse to immediately remove or adequately isolate, CRWC at its option, may terminate service or install, test and maintain a back-flow prevention device at the service connection. Any cost with the installation, testing or maintenance of a back-flow device must be paid by the applicant/customer.

K. All water will be measured and billed by meters, furnished, installed, owned and maintained by CRWC. The meter and/or connection are for the sole use of the applicant/customer to serve water to one dwelling, business or property. The applicant/customer shall not share, resell, or sub-meter water to another dwelling business, property, etc without specific written authorization of CRWC and in compliance with applicable laws and regulations. All meters and water lines and other equipment furnished by CRWC(excepting the applicant/customer's individual service line from the point of connection to the applicant/customer's point of ultimate use) are and shall remain the sole property of CRWC. All Tap charges are for the privilege of receiving retail service from CRWC, not purchase of meters or lines.

RESTRICTIONS: The following unacceptable practices are prohibited by CRWC and Chapter 290, TCEQ regulations.

A. No direct connection between the public-drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by air-gap or an appropriate back-flow prevention device.

B. No cross connection between the public-drinking water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection of an air-gap or a reduced pressure-zone back-flow prevention device.

C. No connection which allows water to be returned to the public-drinking water supply, is permitted.

D. No pipe or pipe-fitting which contains more than 0.25% lead may be used for the installation or repair of plumbing connection, which provides water for human use.

E. No solder or flux which contains more than 0.2% lead can be used for the installation or repair of plumbing at any connection, which provides water for human use.

LIMITATION OF PRODUCT /SERVICE LIABILITY: Public water utilities are required deliver water to the customer's side of the meter or service connection which meets potability and pressure standards of TCEQ. CRWC will not be damaged by disruption of or fluctuations in water service whatever the cause. CRWC will not accept liability for injuries or damages persons or property due to disruption of water service caused by (1) acts of god (2) acts of third parties not subject to the control of the Utility if the Utility has undertaken such preventive measures as are required by TCEQ rules, (3) electrical power failures, or (4) termination of water service pursuant to its tariff and TCEQ rules.

FIRE PROTECTION: CRWC is not required by law and does not provide fire protection or firefighting services and does not accept liability for fire-related injuries or damages to persons or properties caused or aggravated by the availability (or lack thereof) of water or water pressure (or lack thereof) during fire emergencies. CRWC may (but is not required to) contract with individual applicants to provide water services capacities to their properties in excess of TCEQ's domestic water system regulations so that such water volumes and additional water service capacities shall be provided only in response to and according to plans and specifications prepared by the applicant's registered professional engineer. CRWC does not profess, state, warrant, guarantee, or imply that such additional water service capability is compliant with any state or local fire code or is adequate or sufficient for firefighting.

★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★★

The applicant has been shown a copy of the Utility's T.E.C.Q. 's approved tariff and agrees to pay the rates in the tariff and abide by the requirements in this application including Drought Contingency Plan.

Your utility service rates and fees cannot be changed by this application. If you are currently paying rates, those rates must remain in effect unchanged. Rates may only be increased if the utility files and gives notice of a separate rate change application.

A request for a public hearing must be in writing. You must state (1) your name, mailing address, and daytime telephone number; (2) the applicant's name, application number or another recognizable reference to this application; (3) the statement, "I/we request a public hearing"; (4) a brief description of how you or the persons you represent, would be adversely affected by the granting of the application for a CCN; and (5) your proposed adjustment to the application or CCN which would satisfy your concerns and cause you to withdraw your request for a hearing.

Persons who wish to intervene or comment should write the:

Filing Clerk
Public Utility Commission of Texas
1701 North Congress Avenue
P.O. Box 13326
Austin, Texas 78711-3326

within thirty (30) days from the date of this publication or notice. A public hearing will be held only if a legally sufficient hearing request is received or if the commission on its own motion requests a hearing. Only those individuals who submit a written hearing request or a written request to be notified if a hearing is set will receive notice if a hearing is scheduled.

If a public hearing is requested, the Commission will not issue the CCN and will forward the application to the State Office of Administrative Hearings (SOAH) for a hearing. If no settlement is reached and an evidentiary hearing is held, the SOAH will submit a recommendation to the commission for final decision. If an evidentiary hearing is held, it will be a legal proceeding similar to a civil trial in state district court.

IF A HEARING IS HELD, it is important that you or your representative attend to present your concerns. Your request serves only to cause a hearing to be held and is not used during the hearing.

If you are a landowner with a tract of land at least 25 acres or more, and is partially or wholly located within the proposed area, you may request to be excluded from the proposed area (or "opt out") by providing written notice to the commission within (30) days from the date that notice was provided by the applicant. All requests to opt out of the requested service area must include a scaled, general location map and a metes and bounds description of the tract of land.

Persons who meet the requirements to opt out, and wish to request this option should file the required documents with the:

Filing Clerk
Public Utility Commission of Texas
1701 North Congress Avenue
P.O. Box 13326
Austin, Texas 78711-3326

A copy of the request to opt out of the proposed area must also be sent to the applicant. Staff may request additional information regarding your request.

Your utility service rates and fees cannot be changed by this application. If you are currently paying rates, those rates must remain in effect unchanged. Rates may only be increased if the utility files and gives notice of a separate rate change application.

A request for a public hearing must be in writing. You must state (1) your name, mailing address, and daytime telephone number; (2) the applicant's name, application number or another recognizable reference to this application; (3) the statement, "I/we request a public hearing"; (4) a brief description of how you or the persons you represent, would be adversely affected by the granting of the application for a CCN; and (5) your proposed adjustment to the application or CCN which would satisfy your concerns and cause you to withdraw your request for a hearing.

Persons who wish to intervene or comment should write the:

Filing Clerk
Public Utility Commission of Texas
1701 North Congress Avenue
P.O. Box 13326
Austin, Texas 78711-3326

within thirty (30) days from the date of this publication or notice. A public hearing will be held only if a legally sufficient hearing request is received or if the commission on its own motion requests a hearing. Only those individuals who submit a written hearing request or a written request to be notified if a hearing is set will receive notice if a hearing is scheduled.

If a public hearing is requested, the Commission will not issue the CCN and will forward the application to the State Office of Administrative Hearings (SOAH) for a hearing. If no settlement is reached and an evidentiary hearing is held, the SOAH will submit a recommendation to the commission for final decision. If an evidentiary hearing is held, it will be a legal proceeding similar to a civil trial in state district court.

IF A HEARING IS HELD, it is important that you or your representative attend to present your concerns. Your request serves only to cause a hearing to be held and is not used during the hearing.

If you are a landowner with a tract of land at least 25 acres or more, and is partially or wholly located within the proposed area, you may request to be excluded from the proposed area (or "opt out") by providing written notice to the commission within (30) days from the date that notice was provided by the applicant. All requests to opt out of the requested service area must include a scaled, general location map and a metes and bounds description of the tract of land.

Persons who meet the requirements to opt out, and wish to request this option should file the required documents with the:

Filing Clerk
Public Utility Commission of Texas
1701 North Congress Avenue
P.O. Box 13326
Austin, Texas 78711-3326

A copy of the request to opt out of the proposed area must also be sent to the applicant. Staff may request additional information regarding your request.
