**ORDER NO. 3
APPLICATION REMAINS DEFICIENT,
ESTABLISHING DEADLINES AND OPPORTUNITY TO CURE**

This Order addresses Commission Staff's August 30, 2017 recommendation on administrative completeness of the City of Austin's application. Commission Staff stated the City of Austin has not complied with Order No. 2 and the deadline of July 31, 2017 to cure the deficiencies in the application. Commission Staff stated the application remains deficient for the reasons specified in the pleading and the attached memorandum of Debbie Tamayo of the Commission's Water Utility Regulation Division. Commission Staff recommended that the City of Austin be given an opportunity to cure the identified deficiencies and proposed deadlines for continued processing of the application.

Consistent with Commission Staff's recommendation, the City of Austin's application is deemed deficient. Applications are not considered filed with the Commission until a determination of administrative completeness is made; thus, at this time the City of Austin's application is not considered filed with the Commission.

On or before September 20, 2017, the City of Austin shall amend the application to cure the deficiencies noted by Commission Staff. Processing of the application cannot proceed until the requested items are received and reviewed. If the deficiencies are not cured, dismissal of the application will be considered. On or before October 20, 2017, Commission Staff shall file a supplemental recommendation on the amended application.
