I Am writing you on behalf of myself And Family about Route A, Link 44. This proposed route is not only the longest so would affect the most land possible and there not making any more land.

I've got a older house approximately 375 feet from my property line which your powerline would be next too, which would greatly affect my family's future. This house is to be remodeled and given to my son for all his hard work on our farm. The only reason it has not already been finished is I suffered a head and neck injury while working for the Mesquite F.D.

After being off work for a year and having 3 major surgerys since last August, I am now retired after 32 years of service.

My family has over 100 years of farming and livestock production here, all our plans for now and the future should not be destroyed because of your powerline.
