Brookeland Independent School District offers programs in Family & Consumer Sciences, Career Connection, Automotive, Business Computer Information Systems. Admission to these programs are based on student interest and availability of space in each program.

It is policy of Brookeland ISD not to discriminate on the basis of race, color, national origin, age six, or handicap in its Career and Technology programs, services, or activities as required by Title VI of the Civil Rights Act of 1964, as amended; Title IX of the Education Amendments of 1972; and Section 504 of the Rehabilitation Act of 1973, as amended.

It is the policy of Brookeland ISD not to discriminate on the basis of race, color, national origin, sex, handicap, or age in its employment practices as required by Title VI of the Civil Rights Act of 1964, as amended; Title IX of the Education Amendments of 1972, the Age Discrimination Act of 1975, as amended; and Section 504 of the Rehabilitation Act of 1973, as amended.

Brookeland ISD will take steps to assure that lack of English language skills will not be a barrier to admission and participation in all educational and vocational programs.

For more information about your rights or grievance procedures, contact the Title IX Coordinator, Randy Bridges at 187 Wildcat Walk, Brookeland, Texas 75931, (409) 698-2-113, and/or the Section 504 Coordinator, Charlotte Odom, at the same address and phone number listed above.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, EnergyTexas Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47415, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System ("AMS") Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In this most recent regular session the Texas Legislature approved Senate Bill 1145, which extended many customers that surrounded Entergy's AMS to ETI's service area and ETI elects to deploy AMS in that area. ETI therefore is submitting its application for Commission review and approval consistent with the enactment and definition of the Legislature's action in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the next five years of the surcharge period are as follows:

Residential	$1.18
Small General Service	$1.79
General Service	$1.74
Large General Service	$4.50
Large Industrial (per transmission only)	$4.78

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $2.20 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.05
Digital non-communicating meter requested before AMS rollout	$157.05
Digital non-communicating meter requested after AMS rollout	$224.00
Recurring monthly fee	$29.71 per month

Persons with questions or who want more information regarding the application may contact EnergyTexas, Inc. Attn: Customer Service – AMS Application, PO Box 2951, Beaumont, Texas 77704 or call 1-800-368-3749 (select option 1 then press 0 then press 4, then press 1 during normal business hours). A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought should mail their requests to intervene or their comments (along with 10 copies of them) to the Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, PO Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in the proceeding is 45 days after the application is filed, and the Commission should receive letters requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones (TTY) may contact the Commission at (512) 936-7136.

LEGAL NOTICES - ENTERGY DOCKET #47416

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 15, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Meternat System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service.

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed:	$157.05
Digital, non-communicating meter requested after AMS installed:	$204.60
Recurring monthly fee:	$20.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 for the option (when prompted, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

LEGAL NOTICE - ENTERGY DOCKET # 47416

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who have elected transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service.

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards:	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77701, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136

LEGAL NOTICE - ENTERGY DOCKET # 47416

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$158

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be 50.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future one schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.130 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed:	$157.05
Digital, non-communicating meter requested after AMS installed	$201.60
Recurring monthly fee	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136

LEGAL NOTICE - ENTERGY DOCKET # 47416

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extends mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards:	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meters requested after AMS installed	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

LEGAL NOTICE - ENTERGY - DOCKET# 32915

NOTICE TO IMPLEMENT REVISED FIXED FUEL FACTOR

Entergy Texas Inc. hereby publishes NOTICE that, Pursuant to Section 36.203 of the Public Utility Regulatory Act (codified in Tex. Util. Code) and 16 Tex. Admin. Code § 25.235(b), it filed with the Public Utility Commission of Texas (the "Commission") on August 17, 2017 a tariff to implement a revised fixed fuel factor. All of Entergy Texas' retail customers whose fuel charges are calculated under the Texas fixed fuel factor tariff – including but not limited to Residential, Small General Service, Large General Service, Large Industrial Power Service, and Street and Outdoor Lighting Service – will be affected by the Commission's approval of the revised fixed fuel factor. The revised fixed fuel factor, if approved, will affect only the fuel portion of the rates charged by Entergy Texas and will have no effect on non-fuel base rates.

Entergy Texas seeks Commission approval to revise the fixed fuel factor effective with the first billing cycle of the September 2017 billing month. Entergy Texas proposed that the fixed fuel factor be changed pursuant to a semi-annual filing to be made each February and August, with revised fuel factors to be effective with the first billing cycle of the March and September billing months, pursuant to a methodology that changes the fuel factor based upon changes in the published Price of natural gas. This methodology was authorized for use in Docket No. 32915.

The revised fixed fuel factor, differentiated by voltage level, is as follows:

FACTOR BY VOLTAGE LEVELS

Delivery Voltage	Fixed Fuel Factor
Secondary	$0.0302202 per kWh
Primary	$0.0294475 per kWh
69kV/138kV	$0.0287153 per kWh
230kV	$0.0282374 per kWh

The revised fuel factor would result in a decrease in Entergy Texas' annual Texas retail fuel and purchased power revenues by approximately $93.1 million, or 15% on an annual basis. Compared to the fixed fuel factor approved by the Commission effective March 2017, a residential customer using 1000 kilowatt-hours (kWh) of electricity per month would see an approximate decrease of 15.1% annually, or $5.37 on average per month, on his/her electric bill. The fixed fuel factor rate is designed to pass through to customers the actual fuel costs incurred by Entergy Texas to serve customers. Entergy Texas is not allowed to make a profit on fuel costs. Amounts collected from affected customers pursuant to the revised fixed fuel factor will be subject to final review by the Commission in Entergy Texas' next applicable fuel reconciliation proceeding before the Commission. Entergy Texas expects the revised fixed fuel factor to be in effect for the billing period of September 2017 through February 2018.

Persons with questions or who want more information on this petition may contact Entergy Texas at Attn: Customer Service – Fuel Factor, 350 Pine Street, Beaumont, Texas 77701, or call (1-800-368-3749 (once you hear "Welcome to Entergy," select option 1, then press 5, then press 7) during normal business hours. A complete copy of this petition is available for inspection at the address listed above.

The Commission has assigned Docket No. 47520 to this proceeding. Persons who wish to formally participate in this proceeding, or who wish to express their comments concerning this petition should contact the Public Utility Commission of Texas, Office of Customer Protection, P.O. Box 13326, Austin, Texas 78711-3326, or call (512) 936-7120 or toll-free at (888) 782-8477. Hearing and speech-impaired individuals with text telephones (TTY) may call (512) 936-7136 or use Relay Texas (toll-free) 1-800-735-2989.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. Pursuant to recent legislative session, the Texas Legislature approved Senate Bill 1145, which extended enactments that support deployment of AMS in ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $4.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service rates for residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service.

Non refundable, one time up-front fees	
Existing meter that meets applicable accuracy standards:	$342.95
Digital, non-communicating meter requested before AMS installed.	$157.05
Digital, non-communicating meter requested after AMS installed.	$204.60
Recurring monthly fee	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136 and refer to docket number 47416.

NOTICE OF PUBLIC MEETING TO DISCUSS BUDGET AND PROPOSED TAX RATE

The Liberty Independent School District will hold a public meeting at 6:00 PM on August 15, 2017 at the Liberty ISD Board Room, 1600 Grand Avenue, Liberty, Texas. The purpose of this meeting is to discuss the school district's budget that will determine the tax rate that will be adopted. Public participation in the discussion is invited.

The tax rate that is ultimately adopted at the meeting could be anywhere in a range from no new revenue to a higher rate, but it may not exceed the proposed rate that will be published as required unless the district publishes a revised notice containing the same information and complies with all other requirements applicable to the tax rate that is ultimately adopted.

Maintenance Tax	$1.060000/$100 (Proposed rate for maintenance and operations)
School Debt Service Tax Approved by Local Voters	$0.334000/$100 (Proposed rate to pay bonded indebtedness)

Comparison of Proposed Budget with Last Year's Budget

The applicable percentage increase or decrease (or difference) in the amount budgeted in the preceding fiscal year and the amount budgeted for the fiscal year that begins during the current tax year is indicated for each of the following separate categories.

Maintenance and operations	$000.00% increase	or	% (decrease)
Debt service	0.0% increase	or	-0.700000 % (decrease)
Total expenditures	$000.00% increase	or	% (decrease)

Total Appraised Value and Total Taxable Value
(as calculated under Section 26.04, Tax Code)

	Preceding Tax Year	Current Tax Year*
Total appraised value* of all property	$ 1,134,191,283	$ 1,170,835,978
Total appraised value* of all new property**	$ 33,261,391	$ 13,418,755
Total taxable value*** of all property	$ 1,040,868,496	$ 1,058,147,987
Total taxable value*** of new property**	$ 29,382,789	$ 12,967,353

*"Appraised value" is the amount shown on the appraisal roll and defined by Section 1.04(8), Tax Code
**"New property" is defined by Section 26.01 2(7), Tax Code.
***"Taxable value" is defined by Section 1.04(10), Tax Code

Combined Indebtedness

Total amount of outstanding and unpaid bonded indebtedness*	$38,839,995

*Outstanding principal

Comparison of Proposed Rate with Last Year's Rate

	Maintenance & Operations	Interest & Sinking Fund*	Total	Local Revenue Per Student	State Revenue Per Student
Last Year's Rate	$1.060000	$0.344000*	$1.404000	$6,621	$3,727
Rate to Maintain Same Level of Maintenance & Operations Revenue & Pay Debt Service	$1.071040	$0.314810*	$1.385850	$5,378	$4,245
Proposed Rate	$1.060000	$0.334000*	$1.394000	$6,251	$4,245

*The Interest & Sinking Fund tax revenue is used to pay for bonded indebtedness on construction, equipment, or both. The bonds, and the tax rate necessary to pay those bonds, were approved by the voters of this district.

Comparison of Proposed Levy with Last Year's Levy on Average Residence

	Last Year	This Year
Average Market Value of Residences	$ 112,991	$ 120,271
Average Taxable Value of Residences	$ 85,599	$ 93,526
Last Year's Rate Versus Proposed Rate per $100 Value	$ 1.404000	$ 1.394000
Taxes Due on Average Residence	$ 1,201.80	$ 1,303.75
Increase (Decrease) in Taxes	$ 0.00	$ 101.95

Under state law, the dollar amount of school taxes imposed on the residence homestead of a person 65 years of age or older or of the surviving spouse of such a person, if the surviving spouse was 55 years of age or older when the person died, may not be increased above the amount paid in the first year after the person turned 65, regardless of changes in tax rate or property value.

Notice of Rollback Rate: The highest tax rate the district can adopt before requiring voter approval at an election is 1.415200. This election will be automatically held if the district adopts a rate in excess of the rollback rate of 1.415200.

Fund Balances

The following estimated balances will remain at the end of the current fiscal year and are not encumbered with or by a corresponding debt obligation, less estimated funds necessary for operating the district before receipt of the first state aid payment:
Maintenance and Operations Fund Balance(s) $11,211,372
Interest & Sinking Fund Balance(s) $474,721

or upon the written request of said defendants or their attorney, a sufficient portion thereof to satisfy said judgment for delinquent property taxes, penalties, interest and cost of suit and sale; subject, however, to the right of redemption by the defendants or any person having an interest therein, to redeem said property, or their interest therein, in the manner provided defendants as anyone interested therein may be entitled under the provisions of law. Said sale to be made by me to satisfy the judgment rendered in the above styled and numbered cause, together with interest, applied to the satisfaction thereof, and the remainder, if any, to be applied as the law directs.

Purchasers at this tax foreclosure sale will receive an ordinary type of Sheriff's Deed which is without warranty, express or implied.

The purchaser will be required to produce an unexpired written statement from the Liberty County Tax Assessor-Collector that there are no delinquent ad valorem taxes owed by them to the county, school district or municipality. The tax assessor will send the request to the municipalities and school district if the tax assessor does not collect for those entities.

This sale includes taxes through all tax years which were delinquent at the date of judgment. This may or may not include the most recent tax year. You must inquire as to which tax years are included on the property you are interested in purchasing. You will be required to pay the taxes for the tax years which became due since the date of judgment.

At the time the sale begins, all bidders at the sale must be registered with the Officer who conducts the sale.

Dated at Liberty, Texas, this the 3rd day of August, 2017

Bobby Rader, Sheriff
Liberty County, TX

Ruben Arellano
Deputy #64

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130 for interim recovery during the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees associated with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other AMS customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
For existing meter that meets applicable accuracy standards:	$142.95
Digital, one-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn. Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing-and-speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

NOW HIRING
Hardin, Texas
FULL TIME MAINTENANCE – SEWER EMPLOYEE

The City of Hardin is currently seeking applicants for the position of Maintenance - Sewer Employee. The Maintenance-Sewer Employee will assist the Sewer Supervisor with daily tasks; perform equipment & lawn maintenance; and other duties and any other tasks necessary for the City of Hardin.

REQUIRED SKILLS:
- Qualified applicants should have knowledge of minor repairs to motors, gearboxes and other general equipment

REQUIRED EDUCATION / QUALIFICATIONS:
- Applicant must be able to lift over 50 lbs
- A Texas Driver's License with a good motor vehicle record
- Dependable Transportation with Proof of Insurance
- Clear Background check with No Criminal History

SALARY: Depends on Experience
Must be willing to take certification classes and test

CONTACT INFORMATION:
City of Hardin, Texas P O Box 32 (1412 CR 2010)
Hardin, Texas 77561 936-298-2117

Application deadline is June 4; however, all necessary requirements must be received by the close of business in the City of Hardin no later than September 1, 2017

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, And Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non Standard Metering Service Fees*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25 130 Investment recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows.

Residential	$3 18
Small General Service	$4 79
General Service	$4 74
Large General Service	$4 96
Large Industrial (non-transmission only)	$4 58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1 73 per month and the other surcharge rates listed above would be $0 00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018 The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25 133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service.

Non-refundable, one-time up front Fees	
Existing meter that meet applicable accuracy standards	$142 95
Digital, non-communicating meter requested before AMS is installed	$159 05
Digital, non-communicating meter requested after AMS installed	$204 60
Recurring monthly fee	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn Customer Service – AMS Application, P O Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N Congress Avenue, P O. Box 13326, Austin, Texas 78711-3326 The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136

Workshop to focus on Cedar Bayou watershed

By Paul Schattenberg
AgriLife Today

A Texas Watershed Steward workshop on water quality related to the Cedar Bayou watershed will be from 1 p.m. Sept. 13 at the Don McLeod Recreation Center, 10777 Langston Drive in Montgomery.

The free workshop is presented by the Texas A&M AgriLife Extension Service and the Texas State Soil and Water Conservation Board in cooperation with the Houston-Galveston Area Council.

"This workshop is designed to assist watershed residents in improving and protecting their water resources by becoming involved in watershed protection and management activities for Cedar Bayou," said Michael Kuitu, AgriLife Extension program specialist and coordinator for the Texas Watershed Steward program, College Station. "The workshop is open to anyone interested in improving water quality in the region."

Courtesy photo | Jerry Jones
The Devil's Elbow section of Cedar Bayou

Participants are encouraged to preregister at the Texas Watershed Steward website at http://twsteward.tamu.edu.

The workshop will include a discussion of watershed systems, types and sources of water pollution, and ways to improve and protect water quality. There also will be a group discussion on community-driven watershed protection and management.

"The workshop will include an overview of water quality and watershed management in Texas, but will primarily focus on area water quality, including current efforts to help improve and protect Cedar Bayou," said Tyler Fitzgerald, AgriLife Extension agent for Chambers County.

Fitzgerald said the program addresses issues related to locally water resources, but will also be applicable to other watersin the region.

Cedar Bayou is a critical resource for the area, said Houston-Galveston Area Council watershed coordinator Justin Bower.

"Cedar Bayou flows into Galveston Bay and supports oyster production, commercial fishing and other economic activity," Bower said. "Its estuaries are a critical wildlife habitat area and is a popular recreational waterway."

Workshop attendees will receive a copy of the Texas Watershed Steward Handbook and a certificate of completion. The Texas Watershed Steward program offers four continuing education units in soil and water management for certified crop advisors, four units for professional engineers and certified planners, four credits for certified teachers and two credits for nutrient management specialists. A total of four professional development hours are available for professional geoscientists.

In addition, three general continuing education units are offered for Texas Department of Agriculture pesticide license holders, and four for certified landscape architects. Four continuing education credits are provided to certified floodplain managers. Four continuing education credits are also offered for each of the following Texas Commission on Environmental Quality occupational licenses: wastewater system operators, public water system operators, on-site sewage facility installers and landscape irrigators.

"Participating in the Texas Watershed Steward program is a great opportunity to get involved and make a difference in your watershed," Fitzgerald said.

The Texas Watershed Steward program is funded through a Clean Water Act nonpoint source grant from the Texas State Soil and Water Conservation Board and U.S. Environmental Protection Agency.

For more information on the Texas Watershed Steward program and to preregister, go to http://twsteward.tamu.edu or contact Kuitu at (979) 862-4457, mkuitu@tamu.edu; or Fitzgerald at 409-371-2123, tsfitzgerald@ag.tamu.edu.

For information on the watershed protection efforts for the Cedar Bayou watershed, contact Bower at 713-499-6663, justin.bower@h-gac.com.

WATER DISTRICT NOTICE OF PUBLIC HEARING ON TAX RATE

The Liberty County Water Control Improvement District #5 will hold a public hearing on a proposed tax rate for the year 2017, on August 30, 2017 at 5:30 p.m. at 818 Milam Street, Liberty, Texas 77575. Your individual tax rate may increase or decrease, depending on the change in the taxable value of your property in relation to the change in taxable value of all other property and the tax rate that is adopted. A tax rate of $0.0001 per $100.00 valuation has been proposed.

For the proposal: James K Leonard, President Walter Patterson, Board Member
Gary Raggio, Vice President James Patterson, Board Member
Victor Lonelle, Secretary

Against the proposal:

Present and not voting:

Absent:

The following table compares taxes on an average residence homestead in this taxing unit last year to taxes proposed on the average home valued this year.

	Last Year	This Year
Total tax rate (per $100 of value)	$0.0197/$100	0.0017/$100
	Adopted	Proposed
Difference in tax rate per $100 of value	$0.00047	
Percentage increase/decrease in tax rates (+/-)	0.00787%	
Average appraised value	$113,881	$126,694
General exemptions applicable (excluding senior citizen's or disabled Person's exemptions)	$3,484	$3,851
Average taxable value	$135,397	$123,843
Tax on average residence homestead	$44.89	$74.52
Annual increase/decrease in taxes if		
Proposed tax rate is adopted (+/-)	$5.64	
And percentage of increase (+/-)	8.1724%	

First Hearing - August 30, 2017 at 5:30 p.m. at Liberty County WCID #5 Office at 818 Milam Street Liberty, TX 77575

NOTICE OF TAXPAYERS' RIGHT TO ROLLBACK ELECTION

If taxes on the average residence homestead increase by more than eight percent, the qualified voters of the water district by petition may require that an election be held to determine whether to reduce operation and maintenance tax rate to the rollback tax rate under Section 49.236(d), Water Code.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI asked, and received approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be implemented each year. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharges will be reviewed by the Commission in a reconciliation proceeding to be held in the future one schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer (or those to receive electric service through non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse, via affidavit or an advance decline or any other refusal, customer whose existing meter is standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards.	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed:	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's limousine office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their request to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing and speech impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

INVITATION TO OFFERORS

Sealed proposals, in duplicate, addressed to Freese and Nichols, Inc., will be received in the office of Freese and Nichols, Inc., 10-187 Town and Country Way, Suite 600, Houston, Texas 77024 (Phone: 713-000-6300) until 2:00 PM, local time on September 12, 2017, at which time all proposals will be opened and publicly read for the furnishing of all material, equipment, labor and supervision reasonably or incidental to "Liberty County WCID #6 Levee Repairs." The project is further subdivided into "FEMA Project ID No. 4223" and "NRCS Project ID No. 6102".

Scope of Project.

FEMA Project ID No 4223

1. Removal and replacement of the two (2) existing 24-inch diameter steel pipes equivalent to approximately 130 LF and affiliated vent pipes.
2. Removal of two (2) existing 48-inch diameter corrugated metal pipes and affiliated flap gates.
3. Removal of a 4-feet by 5-feet and 5-feet by 7-feet reinforced concrete box (RCB) culverts and affiliated flap gates
4. Removal of headwall structure and flared wing the aforementioned pipes and culverts.
5. Placement of three (3) new 8 feet by 8-feet RCBs equivalent to approximately 240 LF and fitted stainless steel flap gates.
6. Approximately 198 CY of reinforced concrete to construct the proposed concrete intake structure
7. Approximately 274 CY of reinforced concrete to construct the proposed concrete discharge structure
8. Establishment of approximately 75 CY of reinforced concrete slope pavement for the proposed gravity outfall structure
9. Approximately 4,000 CY of compacted Zone 1 select earth fill within the levee segment impacted by the replacement of the proposed gravity outfall structure
10. Removal of Water affiliated with the project.

NRCS Project ID No 6102

1. Approximately 55 CY of reinforced concrete to enlarge the existing diesel pump station outlet structure
2. Installation of a sheet pile key for the existing diesel pump station outlet structure.
3. Approximately 3,050 CY of compacted Zone 2 select earth fill within the levee segment impacted by the slope failures
4. Removal of Water affiliated with the project.

Proposals received after the closing time will be returned unopened.

A MANDATORY Pre-proposal conference will be held at the Liberty County WCID #6 office located at 818 Milam Road, Liberty, TX 77575 on Wednesday, August 30, 2017 at 10:00 AM. Attendance by each prospective Offeror or its representative at the pre-proposal conference is MANDATORY and no Proposal will be opened unless the Offeror or representative was present at the pre-proposal conference.

Plans, specifications and bid documents will be available at www.civcastusa.com

A cashier's check or bid bond in the amount of 5% of the total proposed Contract Price must accompany each bid. The successful bidder will be required to provide performance, payment and maintenance bonds for the full amount of the contract. The Owner reserves the right to reject any or all proposals.

NOTICE TO IMPLEMENT REVISED FIXED FUEL FACTOR

Entergy Texas, Inc. hereby publishes NOTICE that, pursuant to Section 36.203 of the Public Utility Regulatory Act (codified in TEX. UTIL. CODE) and 16 Tex. Admin. Code § 25.235(b), it filed with the Public Utility Commission of Texas (the "Commission") on August 17, 2017 a tariff to implement a revised fixed fuel factor. All of Entergy Texas' retail customers whose fuel charges are calculated under the Texas fixed fuel factor tariff – including but not limited to Residential, Small General Service, Large General Service, Large Industrial Power Service, and Street and Outdoor Lighting Service – will be affected by the Commission's approval of the revised fixed fuel factor. The revised fixed fuel factor, if approved, will affect only the fuel portion of the rates charged by Entergy Texas and will have no effect on non-fuel base rates.

Entergy Texas seeks Commission approval to revise the fixed fuel factor effective with the first billing cycle of the September 2017 billing month. Entergy Texas proposed that the fixed fuel factor be changed pursuant to a semi-annual filing to be made each February and August, with revised fuel factors to be effective with the first billing cycle of the March and September billing months, pursuant to a methodology that changes the fuel factor based upon changes in the published price of natural gas. This methodology was authorized for use in Docket No. 32985.

The revised fixed fuel factor, differentiated by voltage level, is as follows:

FACTOR BY VOLTAGE LEVELS

Delivery Voltage	Fixed Fuel Factor	
Secondary	$0.0302202	per kWh
Primary	$0.0291475	per kWh
69kV/138kV	$0.0287153	per kWh
230kV	$0.0282374	per kWh

The revised fuel factor would result in a decrease in Entergy Texas' annual Texas retail fuel and purchased power revenues by approximately $93.1 million, or 15%, on an annual basis. Compared to the fixed fuel factor approved by the Commission effective March 2017, a residential customer using 1000 kilowatt-hours (kWh) of electricity per month would see an approximate decrease of 15.1% annually, or $5.37 on average per month, on his/her electric bill. The fixed fuel factor rate is designed to pass through to customers the actual fuel costs incurred by Entergy Texas to serve customers. Entergy Texas is not allowed to make a profit on fuel costs. Amounts collected from affected customers pursuant to the revised fixed fuel factor will be subject to final review by the Commission in Entergy Texas' next applicable fuel reconciliation proceeding before the Commission. Entergy Texas expects the revised fixed fuel factor to be in effect for the billing period of September 2017 through February 2018.

Persons with questions or who want more information on this petition may contact Entergy Texas at Attn: Customer Service – Fuel Factor, 350 Pine Street, Beaumont, Texas 77701, or call 1-800-368-3749 (once you hear: "Welcome to Entergy" select option 1, then press 5, then press 7) during normal business hours. A complete copy of this petition is available for inspection at the address listed above.

The Commission has assigned Docket No. 47520 to this proceeding. Persons who wish to formally participate in this proceeding, or who wish to express their comments concerning this petition should contact the Public Utility Commission of Texas, Office of Customer Protection, P.O. Box 13326, Austin, Texas 78711-3326, or call (512) 936-7120 or toll-free at (888) 782-8477. Hearing and speech-impaired individuals with text telephones (TTY) may call (512) 936-7136 or use Relay Texas (toll-free) 1-800-735-2989.

LEGAL NOTICE | LEGAL NOTICE | LEGAL NOTICE

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of the application is Docket No. 47416, Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.

ETI is seeking approval from the Commission for its AMS deployment plan established with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS. If ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to retire or customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.16
Small General Service	$4.70
General Service	$4.74
Large General Service	$4.86
Large Industrial (non-transmission only)	$4.56

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The rate is recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.130 to recover the costs associated with providing the non-standard metering service. If a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time, up-front fees Existing meter that meets applicable accuracy standards:	$142.05
Digital, non-communicating meter requested before AMS installed	$157.00
Digital, non-communicating meter requested after AMS installed	$204.00
Recurring monthly fee.	$28.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in the proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

MADISONVILLE CONSOLIDATED INDEPENDENT SCHOOL DISTRICT NOTIFICATION TO PRIVATE SCHOOLS AND HOME SCHOOLS

Invitation to Participate in IDEA Funded Programs for Children with Disabilities

The purpose of this notice is to inform you of the conditions under the Individuals with Disabilities Education Act (IDEA) through which special education and related services may be provided to children with disabilities voluntarily enrolled by their parents in private schools, including religious and home schools.

Child Find

Madisonville Consolidated Independent School District (MCISD) has a child find system for identifying, locating, and evaluating all children with disabilities (birth through 22) residing in the school district, including children with disabilities attending private and home schools, regardless of the severity of their disabilities, and who are in need of special education and related services.

If you have a child or children whom you suspect of being disabled, you may initiate a referral for a full and individual evaluation by notifying Mr. C. Keith Smith at 348-2797.

Services to Parentally Placed Private School Children with Disabilities

The law does not require that services be provided to all children with disabilities voluntarily enrolled for private schools, including home schools, or to every private school. However, every effort will be made to provide appropriate services with proportionate IDEA funds.

If your private or home school has a child or children with disabilities for whom you are now providing basic instructional services, and who are in need of special education services, please let MCISD know.

A meeting will be held at MCISD Central Office on August 4, 2017, at 9:00 a.m. to allow representatives of parentally placed private and home schooled students with disabilities to express their views concerning which of the above students will receive services, what services will be provided, and how the services will be evaluated.

If you would like to attend this meeting or have any questions, please contact Mr. C. Keith Smith at 348-2797.

Draft Environmental Assessment (EA) and Finding of No Significant Impact (FNSI) available for public review and comment

The U.S. Army Reserve, 63d Regional Support Command (RSC) has recently completed a Draft EA and FNSI to support immediate Maslen Essential Task List training requirements and enduring operational training of the 1-158th Assault Helicopter Battalion (AHB) at a UH-60A/L (Blackhawk) AHB. The required training operations would include helicopter landing to perform maneuvers and sling-load operations on several landing zones and an adjacent/connected Terrain Flight Operations Area to support low-altitude helicopter flight training. The 63d RSC would lease Texas Department of Criminal Justice land located approximately 40 miles north of the Conroe Army Reserve Center/Assist on Support Facility 62, located at the Conroe-North Houston Regional Airport, Conroe, TX. The EA has been prepared as required under the National Environmental Policy Act of 1969. The EA has been made available to the public for review and comment in accordance with 32 CFR 651.36. It can be found online at https://bit.ly/2xGKxEB. Hard copies are available for review at four public libraries: Conroe - Central Library, Montgomery County Memorial Library System; Huntsville Public Library Central Library; Madison County Library Central Library; and the Blanche K. Werner Public Library in Trinity. A 30-day public comment period will begin on August 3, 2017, and comments may be submitted to nepa@spaceforce.com.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47418, Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.95
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fee: Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$204.80
Recurring monthly fee	$20.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

Public Notice

TheMid-EastTexasGroundwater Conservation District will hold a Public Hearing on the proposed budget for fiscal year 2017-2018 and the proposed fee rate(s) to fund said budget. The fiscal year for the District begins September 1, 2017.

The Public Hearing will be held on Tuesday, August 22nd, 2017 at 6:00 p.m. at the Madison County Courthouse, 101 West Main, Madisonville TX. After the public hearing ,the Board will reconvene to consider action on the 2017-2018 Budget and Fee rate(s).

NOTICE TO IMPLEMENT REVISED FIXED FUEL FACTOR

Entergy Texas, Inc. hereby publishes NOTICE that, pursuant to Section 36.203 of the Public Utility Regulatory Act (codified in Tex. Util. Code) and 16 Tex. Admin. Code § 25.235(b), it filed with the Public Utility Commission of Texas (the "Commission") on August 17, 2017 a tariff to implement a revised fixed fuel factor. All of Entergy Texas' retail customers whose fuel charges are calculated under the Texas fixed fuel factor tariff – including but not limited to Residential, Small General Service, Large General Service, Large Industrial Power Service, and Street and Outdoor Lighting Service – will be affected by the Commission's approval of the revised fixed fuel factor. The revised fixed fuel factor, if approved, will affect only the fuel portion of the rates charged by Entergy Texas and will have no effect on non-fuel base rates. Entergy Texas seeks Commission approval to revise the fixed fuel factor effective with the first billing cycle of the September 2017 billing month. Entergy Texas proposed that the fixed fuel factor be changed pursuant to a semi-annual filing to be made each February and August, with revised fuel factors to be effective with the first billing cycle of the March and September billing months, pursuant to a methodology that changes the fuel factor based upon changes in the published price of natural gas. This methodology was authorized for use in Docket No. 32915.

The revised fixed fuel factor, differentiated by voltage level, is as follows:

FACTOR BY VOLTAGE LEVELS

[redacted]	[redacted]
Secondary	$0.0302202 per kWh
Primary	$0.0294675 per kWh
69 kV / 138 kV	$0.0287853 per kWh
230 kV	$0.0282374 per kWh

The revised fuel factor would result in a decrease in Entergy Texas' annual Texas retail fuel and purchased power revenues by approximately $93.1 million, or 15%, on an annual basis. Compared to the fixed fuel factor approved by the Commission effective March 2017, a residential customer using 1000 kilowatt-hours (kWh) of electricity per month would see an approximate decrease of 15.1% annually, or $5.37 on average per month, on his/her electric bill. The fixed fuel factor rate is designed to pass through to customers the actual fuel costs incurred by Entergy Texas to serve customers. Entergy Texas is not allowed to make a profit on fuel costs. Amounts collected from affected customers pursuant to the revised fixed fuel factor will be subject to final review by the Commission in Entergy Texas' next applicable fuel reconciliation proceeding before the Commission. Entergy Texas expects the revised fixed fuel factor to be in effect for the billing period of September 2017 through February 2018. Persons with questions or who want more information on this petition may contact Entergy Texas at Attn: Customer Service – Fuel Factor, 350 Pine Street, Beaumont, Texas 77701, or call [1-800-368-3749 (once you hear, "Welcome to Entergy" select option 1, then press 5, then press 2)] during normal business hours. A complete copy of this petition is available for inspection at the address listed above. The Commission has assigned Docket No. 47520 to this proceeding. Persons who wish to formally participate in this proceeding, or who wish to express their comments concerning this petition should contact the Public Utility Commission of Texas, Office of Customer Protection, P.O. Box 13326, Austin, Texas 78711-3326, or call (512) 936-7120 or toll-free at (888) 782-8477. Hearing and speech impaired individuals with text telephones (TTY) may call (512) 936-7136 or use Relay Texas (toll-free) 1-800-735-2989.

ENTERGY TEXAS, INC.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47418, Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1146, which extended mechanisms that support deployment of AMS. If ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1146.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.16
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.08
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fee Existing meter that meets applicable accuracy standards:	$142.96
Digital, non-communicating meter requested before AMS installed:	$157.05
Digital, non-communicating meter requested after AMS installed:	$204.60
Recurring monthly fee	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in the proceeding or comment upon the action sought, should mail their request to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones (TTY) may contact the Commission at (512) 936-7136.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47418, Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS. If ETI and direct of it will ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and lower their costs. ETI is therefore submitting its application for Commission review and approval consistent with the request and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.70
General Service	$4.74
Large General Service	$4.98
Large Industrial (non-transmission only)	$4.56

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharges rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.130 to recover the costs associated with providing the non-standard metering service from the customers who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fee: Existing meter that meets applicable accuracy standards.	$142.95
Digital non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$304.80
Recurring monthly fee	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

2017 USDA ECWAG Water Treatment Plant Improvements

Sealed Bids will be received by City of Marlin at Marlin City Hall, 101 Fortune Street, Marlin, Texas 76661, until 2:00 PM local time on August 23, 2017 for the construction of the following project:
2017 USDA ECWAG WATER TREATMENT PLANT IMPROVEMENTS
US Department of Agriculture (USDA) and Central Texas Resource Conservation & Development (RC&D) Council Grant funded Water Treatment Plant Improvements to include, but not limited to, clarifier rehabilitation, piping and valving modifications and electrical improvements.

Bids must be submitted on the complete project. Bids must be enclosed in a sealed envelope, addressed to Sandra Herring, City Secretary, and the outside of the envelope must be marked BID ENCLOSED - 2017 USDA ECWAG WATER TREATMENT PLANT IMPROVEMENTS. All bids must be made on blank forms provided and included in the bound document. The name and address of the Bidder must be plainly marked thereon.

Each bid must be accompanied by cash or a certified cashier's check, drawn on a bank or trust company authorized to do business in the State of Texas, payable to City of Marlin in an amount at least equal to
five percent (5%) of the total amount of the bid, as a guarantee that a contract will be entered into. In lieu of cash or a certified check, the Bidder may submit a Bid bond on the form included in the Bidding Documents.

A non-mandatory pre-bid conference will be held on August 15, 2017 at 2:00 PM at City of Marlin, Marlin City Hall located at 101 Fortune Street, Marlin, Texas 76661.

Bidding Documents are on file and may be examined at Marlin City Hall located at 101 Fortune Street, Marlin, Texas 76661. To purchase Bid Documents, contact MRB/GRAY Engineers, LLC at (585) 381-9250. Bidding Documents may be obtained upon payment to the Engineer, accompanied with a non-refundable check in the amount of $20.00 per CD set (shipping cost included). Checks are to be made payable to MRB/Gray Engineers. Bids not accompanied by cashier's check or bid bond will not be considered.

The right is reserved to reject any or all bids, to waive informalities, and to award contract or contracts which, in the opinion of the Owner, appear to be in its best interest. The Owner reserves the right to hold any or all bids for the period of time from the opening of bids as specified in Section 004116.10, Bid Form.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416 *Application of Entergy Texas Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.56

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $3.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who have served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.130 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customers who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$151.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their request to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

From page 6

He had a 22-year career at Safeway where he served as the meat market manager. After retirement he went to work for a locally owned meat market. He loved cooking, cattle ranching and farming, once he even drove his father's tractor in the creek, but his true love was his family. Mr. Woltman was a member of the VFW, the Paratrooper Association and St. John UCC since 1961.

He was preceded in death by his parents, Arthur G. and Rosa E. (Neumann) Woltman; first wife, Ola Mae Winans; sister, Mary Katherine Smith; daughter, Jennifer Marie Woltman and his grandson, Arthur Emil Woltman, Jr.

Survivors include his wife, Mary Woltman; son, Arthur E. Woltman; daughters, Juanita Haven and her husband, Jean Marie, Jessie Fisher and her husband, Stephen, Joan Kostiha and Janet Anderson and her husband, Scott; stepson, Joe Trdy and his wife Karon; stepdaughter Janet Frye and her husband Robert, sister, Florence Wellman and her husband, Donald, Thirteen grandchildren: Isabelle, Gregory, Francois, Nicole, Courtney, Jessica, Jacob, Hannah, Phillip, Aaron, Morgan, Angelia, Amy; four step-grandchildren, Lance Trdy, Heather (Trdy) Nodler, RJ and Curtis Frye; Sixteen great grandchildren, Adrianna, Will, Brian, Kyle, Kaylee, Kevin, Kaiden, Judy, James, Sephora, Alyssa, Avery, Layla, Judd, Addie Mae, Stella Marie, and 4-step great grandchildren, Landon and Grace Trdy and Hudson and Olivia Nodler.

In lieu of flowers, please make a donation to the St. Paul Cemetery.

Carolyn Kay Swinnea Fairbairn

Carolyn Kay Swinnea Fairbairn, passed away July 26, 2017 in Baylor Hospital, Dallas.

Funeral services were at 2:00 p.m. Saturday, July 29, 2017 at the First United Methodist Church in Kosse. Interment followed at Stranger Cemetery.

The family received friends from 5:00 p.m. until 7:00 p.m. on Friday, July 28 at Adams Funeral Home.

Mrs. Fairbairn was born on April 26, 1943 in Marlin, Texas to Charles Grover Swinnea and Kathryn Johnson Swinnea.

She married Bill Fairbairn on June 5, 1965 in Fort Worth. Mrs. Fairbairn graduated Northside High School in Fort Worth in 1961, Texas Wesleyan College in 1965 and earned a Master's Degree from Baylor University in 1975.

Carolyn taught first and second grade for 41 years (33 years in Marlin) and is remembered with gratitude and affection by her former students.

After her retirement she was active in Falls County Retired Teachers Association as an officer, organizer of local meetings and representative to the State Association. She was also active in the Presbyterian Women's Prayer Fellowship and was instrumental in continuing the Fellowship and its service to the former members and the large community after the First Presbyterian Church in Marlin closed.

Carolyn was a member of Lott Presbyterian Church and was active in the First United Methodist Church of Kosse and Stranger Community Church.

When time permitted, she enjoyed reading, quiet time watching sunrises and sunsets, listening to the sounds of nature, and camping in the mountains of Colorado.

Carolyn was known for her beautiful singing voice, her sweet and gentle disposition her loving and supportive nature as well as her organizing skills. She is preceded in death by her father, Charles and a nephew, Shane.

Survivors include her husband, Bill; mother, Kat of Kosse; brother, Charles Gary Swinnea of Fort Worth; sisters, Charylott Swinnea of Rockwall and Jan Claeys of Horse Shoe Bay; as well as neces, Heather, Sharla and Stephanie; nephews, Nic, Matt and Bryan. Her extended family included Bills family, James and Carol Fairbairn, Mary Fairbairn, Sherri, Jimmy (Alice) Elizabeth (Scott), Alice (Mike), Karen, Mason, Jack, Roman, Have, Austin, Brianna and Savana.

Contributions in her memory may be made to Stranger Cemetery, c/o Linda Scott, Marlin, Texas, 76661, Lott Presbyterian Church, c/o Gail Palmore, 1412 Overlook Ridge Dr., Belton, Texas, 76513, First United Methodist Church, P.O. 26, Kosse, Texas, 76653 or your favorite charity.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the new meters as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is thereafter submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in Place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.38
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.71 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and assesses fees consistent with Commission Rule 25.130 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-fit and fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed.	$157.05
Digital, non-communicating meter requested after AMS installed.	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of any letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephone ("TTY") may contact the Commission at (512) 936-7136

PUBLIC NOTICE PUBLIC NOTICE PUBLIC NOTICE PUBLIC NOTICE

NOTICE OF PUBLIC MEETING TO DISCUSS BUDGET AND PROPOSED TAX RATE

The Rosebud-Lott ISD will hold a public meeting at 6:00 pm, Monday, August 21, 2017 in Board Room, Administration Building, 1788 US HWY 77 Lott, Texas. The purpose of this meeting is to discuss the school district's budget that will determine the tax rate that will be adopted. Public participation in the discussion is invited.

The tax rate that is ultimately adopted at this meeting or at a separate meeting at a later date may not exceed the proposed rate shown below unless the district publishes a revised notice containing this same information and complies in all respects with all notice and hearing requirements specified by state law and the governing body of the district sets the date, time and place for a subsequent meeting at which the governing body intends to adopt a tax rate for the tax year indicated in this notice. That meeting is scheduled for September 11, 2017 at 6:00 pm at Board Room, Administration Building, 1788 US HWY 77 Lott, Texas.

The proposed tax rate is not greater than the voter-approval tax rate. The governing body of the district proposes to use revenue attributable to the tax rate in excess of the lower of the voter-approval tax rate or the no-new-revenue tax rate to fund maintenance and operations expenditures.

The no-new-revenue tax rate is not greater than the voter-approval tax rate. The governing body of the district proposes to use revenue attributable to the tax rate in excess of the lower of the voter-approval tax rate or the no-new-revenue tax rate to fund maintenance and operations expenditures.

The district proposes to use revenue attributable to the tax rate in excess of the lower of the voter-approval tax rate or the no-new-revenue tax rate to pay debt service.

The district's debt service fund is not supported by property taxes.

The district is not scheduled to receive state assistance with its debt payments for the next year.

The district is not delinquent on the repayment of any loans from the Texas Water Development Board.

Maintenance Tax	$ 1.0874 /$100 (Proposed rate for maintenance and operations)
School Debt Service Tax Approved by Local Voters	$ 0.2780 /$100 (proposed rate to pay bonded indebtedness)

Comparison of Proposed Budget with Last Year's Budget

The applicable percentage increase or decrease for difference in the amount budgeted in the preceding fiscal year and the amount budgeted for the fiscal year that begins during the current tax year is indicated for each of the following expenditure categories.

Maintenance and operations	% increase	or	1.7 % (decrease)
Debt service	100 % increase	or	% (decrease)
Total expenditures	6.97 % increase	or	% (decrease)

Total Appraised Value and Total Taxable Value (as calculated under Tax Code Section 26.04)

	Preceding Tax Year	Current Tax Year
Total appraised value* of all property	$ 237,581,366	$ 252,378,648
Total appraised value* of new property**	$ 2,467,892	$ 7,857,815
Total taxable value*** of all property	$ 181,488,366	$ 208,579,393
Total taxable value*** of new property**	$ 2,766,970	$ 8,766,970

* "Appraised value" is the amount shown on the appraisal roll and defined by Tax Code Section 1.04(8).
** "New property" is defined by Tax Code Section 26.012(17).
*** "Taxable value" is defined by Tax Code Section 1.04(10).

Bonded Indebtedness

Total amount of outstanding and unpaid bonded indebtedness * $ 11,555,480

* Outstanding principal

Comparison of Proposed Rates with Last Year's Rates

	Maintenance & Operations	Interest & Sinking Fund*	Total	Total Revenue Per $100 Value	State Revenue Per $100 Value
Last Year's Rate	$ 1.08740	$ 0.00000*	$ 1.08740	$ 3.898	$ 7.777
Rate to Maintain Same Level of Maintenance & Operations Revenue & Pay Debt Service	$ 1.10518	$ 0.03079*	$ 1.08287	$ 4.834	$ 7.876
Proposed Rate	$ 1.08740	$ 0.27800*	$ 1.30740	$ 4.167	$ 7.876

* The interest & sinking fund tax revenue is used to pay for bonded indebtedness on construction, equipment, or both. The bonds, and the tax rate necessary to pay those bonds, were approved by the voters of this district.

Comparison of Proposed Levy with Last Year's Levy on Average Residence

	Last Year	This Year
Average Market Value of Residences	$ 71,250	$ 88,907
Average Taxable Value of Residences	$ 46,378	$ 56,573
Last Year's Rate Versus Proposed Rate per $100 Value	$ 1.0874	$ 1.3074
Taxes Due on Average Residence	$ 488.10	$ 804.30
Increase (Decrease) in Taxes		$ 316.20

Under state law, the dollar amount of school taxes imposed on the residence homestead of a person 65 years of age or older or of a surviving spouse of such a person, if the surviving spouse was 55 years of age or older when the person died, may not be increased above the amount paid in the first year after the person turned 65, regardless of changes in tax rates or property values.

Notice of Rollback Rate: The highest tax rate the district can adopt before requiring voter-approval at an election is $ 1.4138. This election will be automatically held if the district adopts a tax rate higher than this rate.

Fund Balances

The following estimated balances will remain at the end of the current fiscal year and are not encumbered with checks or corresponding debt obligations, less unrated funds necessary to operate the district before receipt of the first state aid payment.

Maintenance and Operations Fund Balance (1)	$ 4,864,179
Interest & Sinking Fund Balance (2)	$ 188,436

Deficiency - The Texas Commission on Environmental Quality (TCEQ) has notified the Rosebud-Lott ISD TX0730025 that the drinking water being supplied to customers had exceeded the Maximum Contaminant Level (MCL) for haloacetic acids (group of five). The U.S. Environmental Protection Agency (U.S. EPA) has established the MCL for haloacetic acids (group of five) to be 0.060 milligrams per liter (mg/L) based on locational running annual average (LRAA) and has determined that it is a health concern at levels above the MCL. Analysis of drinking water in your community for haloacetic acids (group of five) indicates a compliance value in quarter two of 2017 of 0.076mg/L for DBP2-02 and 0.061mg/L for DBP2-01

Haloacetic acids are a group of volatile organic compounds that are formed when chlorine, added to the water during the treatment process for disinfection, reacts with naturally-occurring organic matter in the water.

Some people who drink water containing HAA5 in excess of the MCL over many years may have an increased risk of getting cancer.

You do not need to use an alternative water supply. However, if you have health concerns, you may want to talk to your doctor to get more information about this may affect you.

Corrective Action – Rosebud-Lott ISD maintenance department will begin frequent flushing of all water lines located at the High School campus on a regular basis through out the school year and summer months.

Public Notice

INTENT OF IMPLEMENTATION OF COUNTY INDIGENT HEALTH CARE PROGRAM (AS MANDATED UNDER: SENATE BILL 1-INDIGENT HEALTH CARE AND TREATMENT ACT)

Effective September 1, 2017, Falls County will be providing any health care, which is deemed medically necessary to eligible residents as specifically, provided by the County Indigent Health Care Program.

The FALLS County Indigent Health Care Program will follow the established eligibility and service standards, application, documentation, and verification procedures contained in the County Indigent Health Care Handbook provided by the Texas Department of State Health Services. Applications will be available upon request at the following location:

Falls County Indigent Health Care

322 Coleman Street

Marlin, Texas 76661

Telephone (254)803.3561 ext 2529

Assistance will be available upon request for completing applications. Applicants are responsible for providing information, for correctly filling out the application, and for providing all requested verification. The county will notify the applicant in writing within 14 days from the receipt of completed application of applicant's eligibility. Applicant has the right to appeal eligibility decisions within 90 days from the receipt of written notice of eligibility.

Falls County is liable for 8% of its General Revenue Tax Levy and 10% of all expenditures exceeding the amount as long as State matching funds are available. In the event that Falls County spends 8% of its G.R.T.L. and State funds are exhausted, the program will be discontinued until such time that further State funds are available or September 1 of the next fiscal year.

Indigent Health Care Coordinator Falls County

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS in ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $3.71 per month and the other surcharge rates listed above would be $6.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard meter service from customers who elect to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards:	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed.	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77701, or call 1-800-368-3749 (for option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

SPECIAL EDUCATION PROGRAMS AVAILABLE

The Falls Education Co-op offers an appropriate program for all handicapped students that qualify for special services. The programs are offered at Co-op member campuses of the Chilton, Hallsburg, Marlin, Mart, Riesel, Rosebud-Lott, and Westphalia schools.

Approximately 500 students are served, ranging in ages from 3 to 21. Programs for these students include pre-school, speech therapy, life skills, and vocational adjustment classes. Related services such as counseling, occupational therapy (OT), and physical therapy (PT) are also available.

Anyone with a child between the ages of 3 and 21, suspected of being developmentally delayed, speech impaired or having any other disability and not already in a special education program, should contact our office at 3162 State Hwy. 6 Bypass in Marlin, Texas, phone number 254/883-2634, for additional information.

Anyone with a child between the ages of 0 and 21, suspected of being audiorally impaired or having a visual impairment and not already in a special education program, should contact our office for additional information at the above address and number.

Steve Holland, Director

NOTICE

Notice is hereby given that Falls Education Co-op intends to destroy special education records of students who received special education services from Chilton ISD, Hallsburg ISD, Marlin ISD, Mart ISD, Riesel ISD, Rosebud-Lott ISD and Westphalia ISD prior to June 1, 2010. These records are located at the Falls Education Co-op office at 3162 State Hwy 6 Bypass, Marlin, Texas. Transcripts of special education students will remain at the student's high school. Special education records frequently are needed when dealing with the Social Security Administration. If a student received special education services after 2010, copies of the records may be requested now. The legal parent/guardian or adult student may request these records by contacting the Special Education Department at 3162 State Hwy 6 Bypass, Marlin, Texas, 76661, or by calling (254) 883-2634 or (254) 803-2045 by September 15, 2017.

LEGAL NOTICE:

INTENT OF IMPLEMENTATION OF COUNTY INDIGENT HEALTH CARE PROGRAM (AS MANDATED UNDER: SENATE BILL 1-INDIGENT HEALTH CARE AND TREATMENT ACT)

Effective September 1, 2017, Falls County will be providing any health care, which is deemed medically necessary to eligible residents as specifically, provided by the County Indigent Health Care Program.

The FALLS County Indigent Health Care Program will follow the established eligibility and service standards, application, documentation, and verification procedures contained in the County Indigent Health Care Handbook provided by the Texas Department of State Health Services. Applications will be available upon request at the following location:

Falls County Indigent Health Care

322 Coleman Street

Marlin, Texas 76661

Telephone (254)803-3561 ext 2529

Assistance will be available upon request for completing applications. Applicants are responsible for providing information, for correctly filling out the application, and for providing all requested verification. The county will notify the applicant in writing within 14 days from the receipt of completed application of applicant's eligibility. Applicant has the right to appeal eligibility decisions within 90 days from the receipt of written notice of eligibility.

Falls County is liable for 8% of its General Revenue Tax Levy and 10% of all expenditures exceeding the amount as long as State matching funds are available. In the event that Falls County spends 8% of its G.R.T.L. and State Funds are exhausted, the program will be discontinued until such time that further State funds are available or September 1 of the next fiscal year.

Elaine Truett

Indigent Health Care Coordinator Falls County

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which established mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$47.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that the AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77701, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones (TTY) may contact the Commission at (512) 936-7136.

Draft Environmental Assessment (EA) and Finding of No Significant Impact (FNSI) available for public review and comment

The U.S. Army Reserve, 63d Regional Support Command (RSC) has recently completed a Draft EA and FNSI to support immediate Mission Essential Task List training requirements and enduring operational training of the 1-158th Assault Helicopter Battalion (AI-IB) as a UH-60A/L (Blackhawk) AHB. The required training operations would include helicopter landing to perform maneuvers and sling-load operations on several landing zones and an adjacent/connected Terrain Flight Operations Area to support low-altitude helicopter flight training. The 63d RSC would lease Texas Department of Criminal Justice land located approximately 40 miles north of the Conroe Army Reserve Center/Aviation Support Facility 62, located at the Conroe-North Houston Regional Airport, Conroe, TX. The EA has been prepared as required under the National Environmental Policy Act of 1969. The EA has been made available to the public for review and comment in accordance with 32 CFR 651.36. It can be found online at https://bit.ly/2vGXqEB. Hard copies are available for review at four public libraries: Conroe - Central Library, Montgomery County Memorial Library System; Huntsville Public Library, Central Library; Madison County Library Central Library; and the Blanche K Werner Public Library in Trinity. A 30-day public comment period will begin on August 3, 2017, and comments may be submitted to nepe@specprosvcs.com.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it: shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be 50.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who receive service at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Skirting meter that meets applicable accuracy standards.	$142.95
Digital, non-communicating meter requested before AMS installed:	$157.05
Digital, non-communicating meter requested after AMS installed:	$304.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

NOTICE OF SALE

STATE OF TEXAS *
* BY VIRTUE OF A ORDER OF SALE
COUNTY OF MONTGOMERY *

DATED June 27, 2017, and issued pursuant to a judgment decree(s) of the 284th District Court of Montgomery County, Texas, by the Clerk of said Court; on July 21, 2017, to me directed and delivered, and as Constable of said County, I have on the 21st day of July, 2017, noticed, levied upon, and will on the first Tuesday in September, 2017, the same being the 5th day of said month, at the Courthouse door of said County, in the City of Conroe, Texas, beginning at or about 10:00 a.m., on said day, within legal hours of 10:00a.m. and 4:00p.m. as prescribed by law, proceed to sell for cash to the highest bidder all the right, title and interest of the defendants in such suit in and to the following described real estate levied upon as the property of said defendants, the same lying and being situated in the County of Montgomery, and the State of Texas, to-wit:

Suit No. 16-12-13987-CV; Riverwalk Property Owners Association vs. Saul Herrera & Arnold Lopez

Lot Five (5), Block Two (2), Riverwalk, Section Three (3), a subdivision of 61.92 acres of land located in the George Mason Survey, abstract 341 and the Thomas Vanhorn Survey, abstract 587, of Montgomery County, Texas, according to the Map or Plat thereof recorded in Cabinet M, Sheets 164 thru 171 of the Map Records of Montgomery County, Texas more commonly known as 19171 Superior Drive, Porter, TX 77365 (property).

Said sale to be made by me to satisfy the judgment rendered in the above styled and numbered cause, together with interest and costs applied to the satisfaction thereof, and the remainder, if any, to be applied as the law directs.

This real property will be sold in its present condition "AS IS", and no warranties of any kind will be made or given. The sale will be subject to all valid and subsisting covenants, conditions, restrictions, reservations, exceptions, rights-of-way, easements, encumbrances and ad valorem taxes affecting and assessed against the real estate as of the date of sale. A full metes and bounds legal description of the real estate may be obtained from the Deed Records of Montgomery County, Texas.

Purchaser at this sale will receive an ordinary type of Constable's Deed which is without warranty, express or implied.

The purchaser will be required to produce an unexpired written statement from the Montgomery County Tax Assessor-Collector that there are no delinquent ad valorem taxes owed by them to the county, school district or municipality. The tax assessor will send the request to the municipalities and school district if the tax assessor does not receive it for these entities.

At the time the sale begins, all bidders at the sale must be registered with the officer who conducts the sale.

Dated at Montgomery County, Texas, this the 9th day of August, 2017

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and costs it upon. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the recoverable and customary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing this non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fee	
Existing meter that meets applicable tariff requirements:	$142.95
Digital, non-communicating meter requested before AMS installed:	$157.05
Digital, non-communicating meter requested after AMS installed.	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-Commission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (opt-out/manual) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fee	
Meter that meets applicable accuracy standards:	$142.95
Digital, non-communicating meter requested before AMS installed:	$157.05
Digital, non-communicating meter requested after AMS installed:	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing-and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

If you or your attorney does not file a written answer with the clerk who issued this citation by 10:00 a.m. on the Monday next following the expiration of forty-two days after the date of issuance of this citation and petition, a default judgment may be taken against you."

TO: HEIRS AT LAW OF BRANDI R. BROUSSARD, DECEASED

You are hereby commanded to appear by filing a written answer to the Plaintiff's Original Petition at or before 10:00 A.M. of the Monday next after the expiration of forty-two days after the date of issuance of this citation the same being Monday on this the 18th day of September, 2017 before the 284th Judicial District Court of Montgomery County, Texas at the Courthouse of said County in Conroe, Texas. Said Plaintiff's Original Petition was filed in said court on this the 9th day of November, 2017, in this case, numbered 18-11-13088-CV on the docket of said court.

The names of the parties in the cause are as follows:

U.S. Bank N.A., Successor Trustee to Bank of America, N.A., Successor to La Salle Bank, N.A. as Trustee, on Behalf of the Holders of the Washington Mutual Mortgage PassThrough Certificates, WMall Series 2006-6 are Plaintiffs and

Brandi R. Broussard and the Heirs at Law of Brandi R. Broussard, Deceased are Defendants

A brief statement of the nature of this suit is as follows, to wit:

LEGAL LEGAL LEGAL LEGAL

The Petition seeks an order to foreclose the lien on the property and assert a claim in the property located at 721 Argonne Drive, Conroe, Texas 77302, and legally described as: LOT 3 NINETY-FOUR (94), AND NINETY FIVE (95), OF RIVER PLANTATION, SECTION TEN (10), A SUBDIVISION IN MONTGOMERY COUNTY, TEXAS, ACCORDING TO THE MAP OR PLAT THEREOF, RECORDED IN CABINET A, SHEET 26, OR THE MAP RECORDS OF MONTGOMERY COUNTY, TEXAS.

as is more fully shown by Plaintiff's Original Petition on file in this suit.

The officer executing this writ shall promptly serve the same according to requirements of law, and the mandates thereof, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Conroe Texas, this on this the 3rd day of August, 2017.

Barbara Gladden Adamick, District Clerk
Montgomery County, Texas

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN AND SURCHARGE AND TO ADJUST UNIBAND METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 19, 2017, Entergy Texas Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of its Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The filed application is Docket No. 47481, Application of Entergy Texas, Inc. for Approval of an Advanced Metering System Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees. The docket application is docketed as PUC Docket No. 47481.

ETI is seeking approval for the Commission to: (1) adopt the proposed AMS deployment as set forth in the Direct Testimony of Ms. Linda Ashlock and Mr. Jeremy Hodges; (2) approve the AMS Surcharge as set forth in the Direct Testimony of Mr. Jeremy Hodges; and (3) approve the proposed tariff for Uniband Metering Service Fees as set forth in the Direct Testimony of Mr. Jeremy Hodges.

ETI proposes to deploy AMS meters throughout its service territory. The proposed AMS meters will be installed over a four-year period beginning in 2018 and ending in 2021. The proposed AMS meters will be installed on a region-by-region basis. ETI proposes to recover the costs associated with the AMS deployment, including the costs of the AMS meters, through a monthly AMS Surcharge. The proposed AMS Surcharge would be applied to each retail customer's bill. The proposed AMS Surcharge would be in addition to the customer's existing base rates. The proposed AMS Surcharge would be as follows:

Residential	$3.56
Small General Service	$6.79
General Service	$16.74
Large General Service	$149.96
Large Industrial Power Service	$1,432.00

ETI proposes to adjust the AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur to deploy the AMS meters and the AMS network, as well as to reconcile the costs recovered through the AMS Surcharge with the actual costs incurred. ETI proposes to adjust the AMS Surcharge annually, beginning in 2018. The proposed AMS Surcharge would be in effect for twelve months. ETI proposes that each AMS Surcharge would be calculated for each rate class by dividing the total AMS Surcharge revenue requirement for that class for the first year by the number of billing units for that class for the first year, and the AMS Surcharge would be as follows:

Residential	$3.56
Small General Service	$6.79
General Service	$16.74
Large General Service	$149.96
Large Industrial Power Service	$1,432.00

In addition to the recovery of the AMS Surcharge, ETI proposes to recover the reasonable and necessary costs that ETI will incur to deploy the AMS meters and the AMS network, as well as to reconcile the costs recovered through the AMS Surcharge with the actual costs incurred. ETI proposes to recover these costs through a monthly AMS Surcharge. The proposed AMS Surcharge would be in effect for twelve months. ETI proposes that each AMS Surcharge would be calculated for each rate class by dividing the total AMS Surcharge revenue requirement for that class for the first year by the number of billing units for that class for the first year, and the AMS Surcharge would be as follows:

Residential	$3.56
Small General Service	$6.79
General Service	$16.74
Large General Service	$149.96
Large Industrial Power Service	$1,432.00

Under the proposed AMS Surcharge, the monthly bill for a residential customer using 1,000 kWh would increase by $3.56, or 2.5%. The proposed AMS Surcharge would be in addition to the customer's existing base rates. The proposed AMS Surcharge would be as follows:

Residential	$3.56
Small General Service	$6.79
General Service	$16.74
Large General Service	$149.96
Large Industrial Power Service	$1,432.00

ETI proposes to allow customers to choose to receive their service from a non-standard meter instead of a standard meter. The proposed Uniband Metering Service Fees would be as follows:

Non-refundable one-time up-front fees	
Existing meter to be converted to a Uniband meter	$82.95
Digital non-communicating meter converted to Uniband meter	$85.05
Digital non-communicating meter to be removed and Uniband installed	$95.00
Recurring monthly fee	$29.71 per month

Persons who wish to intervene in this proceeding or want more information about this application should contact Entergy Texas, Inc., Attn: Customer Service, 9400 Ojo de Agua, PO Box 951, Beaumont, Texas 77704. Persons should refer to PUC Docket No. 47481 when inquiring about this application. A complete copy of the application is available for inspection at ETI's Beaumont office located at 9400 Ojo de Agua, Beaumont, Texas 77704.

Persons who wish to intervene in this proceeding or want more information about this application should contact the Public Utility Commission, P.O. Box 13326, Austin, Texas 78711-3326, or call the Commission at (512) 936-7120 or (888) 782-8477. Hearing and speech-impaired individuals with text telephones (TTY) may contact the Commission at (512) 936-7136. Deadline for intervention in this proceeding is August 28, 2017. If you plan to intervene in this proceeding, you should notify the Commission as soon as possible. Hearing and speech-impaired individuals with text telephones (TTY) may contact the Commission at (512) 936-7136.

THE STATE OF TEXAS

To The Sheriff of Any County of The State of Texas, Greetings:

On May 8, 2017, US Bank National Association as Trustee for Saxon Mortgage Loan Trust 2006-WF2 recovered a Judgment in the 506th Judicial District Court of Grimes County, Texas, against **The Unknown Heirs of the Estate of Robert Odom a/k/a Robert B. Odom at 14997 CR 328, Navasota, Texas 77868** for the money or property as set forth below, plus costs of Court as evidenced by the bill of costs attached to this writ, Cause No. 33355.

The principle amount of $800,787.34 plus any per diem charges under the loan accrued prior to final judgment, together with interest on such total amount at the rate of five percent (5%) per annum from the date of this Final Judgment is signed until date of sale, plus cost of court.

THEREFORE, YOU ARE COMMANDED that out of the property of **The Unknown Heirs of the Estate of Robert Odom a/k/a Robert B. Odom, Deceased** subject to execution your cause to be made the sum of $800,787.34 plus any per diem charges under the lead accrued prior to Final Judgment together with interest on such total amount at the rate of five percent (5%) From Date of Judgment until paid.

You shall seize the Property, sell the Property as under execution, and apply proceeds therefrom to government fees and costs and then to the payment and full satisfaction of the Final Judgment. You shall execute this writ according to its terms and according to law. You shall have the sums of money described in the writ, together with the writ itself, showing how you have executed it, before the 506th Judicial District Court of Grimes County Texas, within ninety (90) days from this date.

GIVEN under my hand and the seal of the Court at my office in Anderson, Grimes County, Texas, on the 21st Day of June, 2017

CLERK'S FEES

(1) For each bail bond, recognizance or appeal bond in the inferior court	$282.00
(2) For issuing each citation or other writ or process not otherwise provided for including one (1) copy thereof when requested at time a suit or action is filed	$ 48.00
(3) Constable's Fees for service of citation or other writ	$200.00
Total Clerk Fees	$530.00

RECAPITULATION

(1) Clerk's Fees Brought Down	$530.00
(2) Attorney's Fees	$ 0.00
Total	$530.00

I certify that the above and foregoing Bill of Costs, amounting to $530.00 is a true bill of the costs adjudged against the defendant in the above numbered and entitled cause this, wherein it is writ of execution is issued this 21st Day of June, 2017

/s/ Diane Jeffers
District Clerk Grimes County, Anderson, Texas
By: /s/ Kourtney Heustler, Deputy Clerk

TEXAS DEPARTMENT OF TRANSPORTATION
SH 249 EXTENSION
DISCLOSURE OF FINANCIAL INFORMATION

Disclosure of Financial Information: Pursuant to the authority granted in Texas Transportation Code Chapter 223, Subchapter F, the Texas Department of Transportation (TxDOT) has solicited proposals and recommended selection of developers to enter a series of a design-build agreement (DBA) and the associated comprehensive development agreements (CDAs) to design, construct, operate, maintain and finance approximately 21 miles of a new tolled mainlane facility in Montgomery and Grimes Counties. The project consists of two Segments, all in Texas. Segment 1 is a segment initially located on new tolled facility from FM 1774 in Pinehurst (Montgomery County) to FM 1774 north of Todd Mission (Grimes County). Segment 1 Base Scope consists of a four-lane divided toll facility from FM 1774 in Pinehurst to just west of FM 1486 and a Section 2 Base Scope is each directed on either the four-lane divided toll facility from Junction 1 at FM 149 to FM 1774 north of Todd Mission. Segment 2 is also approximately 10 miles, one lane (one lane in each direction) non-tolled facility from FM 1774 north of Todd Mission to SH 105 near Navasota (Grimes County). The DBA also includes two options (Options 1 and 2) for the design and the operation, maintenance, rehabilitation, reconstruction, and replacement (collectively, the "Work") of the Segment 1 Option 1 consists of a four-lane divided toll facility from just south of FM 1486 in Magnolia (Montgomery County) to FM 1774 near Todd Mission. Option 2 consists of a four-lane divided toll facility from FM 1774 to FM 1774 near Todd Mission (Option 2 need only be constructed in conjunction with Option 1 Work). Any options will be exercised prior to construction.

The Segment 1 and 2 Base Scope will be operated by and the tolls collected by TxDOT through the TxDOT project known as Project Number 0134-02-070 in Grimes County, Texas. On May 29, 2017, acting on Order 114900, the Texas Transportation Commission (TTC) determined that the proposal submitted by a "ROCL LLC (DB Contractor) provides the Apparent Best Value to TxDOT and authorized TxDOT to commence a rulemaking with respect to tolling SH 249 in Montgomery and Grimes Counties.

Under the DBA, Segment 1 construction work will begin in late 2017 or early 2018 and is scheduled to be complete and open to traffic in late 2020. Segment 2 construction work will begin in late 2018 or early 2019 and is also scheduled to be complete and open to traffic in late 2020. TxDOT owns a right-of-way inventory of most of the right-of-way.

Pursuant to Transportation Code Chapter 371, Subchapter D, TxDOT is providing the following information regarding the proposed toll project and policies that will be implemented by the Texas Transportation Commission.

Project Financing. TxDOT intends to fund the SH 249 Extension with federal and state funding sources such as Category 2 funds and the design-build contract with Segment 1 and Segment 2 will be supplemented by TxDOT Segment 2 debt. The project will not be tolled if the total amount of debt that has been or will be assumed by TxDOT to secure right-of-way costs across U.S. 290 and the Segment 1 & 2 projects is to be approximately $325 million. Until TxDOT's bond advisor can issue bonds through toll revenues generated from the operation of the toll lanes on SH 249 Segment 1, the debt will be repaid over a term of up to 40 years from the date of financial close (estimated late fall/winter). The projected annual toll revenue available will be 2% by TxDOT on the first day, approximately $780 million in terms of the financing. TxDOT does not anticipate assuming a pre-tolling operation period, as does for the SH 249 Extension.

Operation of Tolling. TxDOT will collect tolls on Segment 1 to offset the operation, design, and construction costs. Tolling will continue during Segment 1 after the first ten years.

Method for Setting Toll Rates. Design-Build SH 249 Segment 1 as a toll facility as accepted by TTC Minute Order 114900 dated June 29, 2017. The toll rates and annual escalation per cycle for Segment 1 is anticipated to be announced in the Harris County Toll Road Authority (HCTRA) policies and escalation rates on the adjacent SH 249 toll lanes in Harris County.

Toll Rates. Based on the assumptions, options and methodologies for Segment 1 as the anticipated toll rates are as follows:

Project Status	Year	Estimated $ Rate
Initial Toll Rates	2020	$0.271
End of 1st CPI/ATerm	2025	$0.302
End of 2nd CPI/ATerm	2030	$0.337
End of 3rd CPI/ATerm	2035	$0.376

Methodology for escalating toll rates. Toll rates for Segment 1 will be stated (not the "springboard" rate) in Texas dollars) and the rate shall be adjusted annually on January 1st of each year, commencing on January 1st, 2021 (the "Adjustment Date"), by the greater of (a) 2.5% or (b) the percentage increase in the Consumer Price Index for All Urban Consumers (CPI-U) for the most recently published twelve month period ending prior to the Adjustment Date, rounded to the nearest $0.01 (the "Annual Adjustment"). Notwithstanding the foregoing, the Annual Adjustment shall not exceed 5.0%. Toll rates will be adjusted on the Adjustment Date in accordance with the Annual Adjustment.

Operation & Tolling. There are no terms in the DBA that relate to operation of toll lanes, other than the operation of the Segment 1 and 2 toll lanes during the construction period.

Termination for Convenience. TxDOT has the right to terminate the DBA at any time without cause. If TxDOT elects to exercise this right, TxDOT must pay the DB Contractor for the design and construction work already performed under the DBA, the cost of demobilizing its work forces, and other costs incurred by the DB Contractor.

Concession Payments. There will be no concession payments.

Public Hearings. TxDOT will hold two public hearings concerning the disclosure of financial information for the toll project – one in Montgomery County and one in Grimes County. Hearings will be held at the following dates, times, and locations:

Montgomery County:		Grimes County:	
Date:	Thursday, August 24, 2017	Date:	Wednesday, August 23, 2017
Time:	5:00 pm - 8:00 pm	Time:	6:00 pm - 8:00 pm
Location:	Montgomery County Courthouse 501N. Thompson Courtroom No. 402 Conroe, Texas 77301	Location:	Anderson Community Center 414 N 3 Street Anderson, Texas 77830

Oral or written comments concerning the financial information will be accepted by TxDOT at the public hearings.

Comments and correspondence may also be submitted to the Department by U.S. mail addressed to Mr. Mark Bloomer, P.E., Texas Department of Transportation, 7600 Washington Avenue, Houston, Texas 77007, or email to mbloomer@txdot.gov or fax to (512) 486-5220. Please reference SH 249 Extension. These comments will be accepted until 5 p.m. Thursday, September 7, 2017. Copies of the DBA will be made available for review at the Texas Department of Transportation, 7600 Washington Avenue, Houston, Texas 77007, and at TxDOT's Bryan District office located at 2591 North East Loop 410, Bryan, Texas 77803-5190, and can be accessed on TxDOT's website at www.txdot.gov/projects/projectdetails/sh249-segment1.html. Copies of the DBA also may be purchased from TxDOT's Houston District office at the cost of reproduction. TxDOT will compile responses to questions and comments made and questions asked during the public hearings. Persons who wish to speak at the hearings should indicate this when they register at the hearings. Time limits may be imposed on speakers at the hearings to ensure that all persons desiring to speak have an opportunity to do so. Speakers may also be requested to submit written copies of their comments.

Persons interested in attending any of the hearings who have special communication or accommodation needs are encouraged to contact Rhonda Madden, Agenda Coordinator, at TxDOT Houston, at (713) 686-7037. Requests should be made at least 72 hours prior to the public hearing. Every reasonable effort will be made to accommodate these needs. Persons who prefer to make their comments in Spanish may do so at the hearings. Please contact Rhonda Madden, Agenda Coordinator, at TxDOT Houston, at (713) 686-7037. Requests should be made at least 72 hours prior to the public hearing. Every reasonable effort will be made to accommodate these needs.

NOTICE TO IMPLEMENT REVISED FIXED FUEL FACTOR

Entergy Texas, Inc. hereby publishes NOTICE that, pursuant to Section 36.203 of the Public Utility Regulatory Act (codified in TEX. UTIL. CODE) and 16 Tex. Admin. Code § 25.235(h), it filed with the Public Utility Commission of Texas (the "Commission") on August 17, 2017 a tariff to implement a revised fixed fuel factor. All of Entergy Texas' retail customers whose fuel charges are calculated under the Texas fixed fuel factor tariff – including but not limited to Residential, Small General Service, Large General Service, Large Industrial Power Service, and Street and Outdoor Lighting Service – will be affected by the Commission's approval of the revised fixed fuel factor. The revised fixed fuel factor, if approved, will affect only the fuel portion of the rates charged by Entergy Texas and will have no effect on non-fuel base rates.

Entergy Texas seeks Commission approval to reset the fixed fuel factor effective with the first billing cycle of the September 2017 billing month. Entergy Texas proposed that the fixed fuel factor be changed pursuant to a semi-annual filing to be made each February and August, with revised fuel factors to be effective with the first billing cycle of the March and September billing months, pursuant to a methodology that changes the fuel factor based upon changes in the published price of natural gas. This methodology was authorized for use in Docket No. 32915.

The revised fixed fuel factor, differentiated by voltage level, is as follows:

FACTOR BY VOLTAGE LEVELS

Delivery Voltage	Fixed Fuel Factor
Secondary	$0.0302202 per kWh
Primary	$0.0294475 per kWh
69kV/138kV	$0.0287153 per kWh
230kV	$0.0282374 per kWh

The revised fuel factor would result in a decrease in Entergy Texas' annual Texas retail fuel and purchased power revenues by approximately $93.1 million, or 15%, on an annual basis. Compared to the fixed fuel factor approved by the Commission effective March 2017, a residential customer using 1000 kilowatt-hours (kWh) of electricity per month would see an approximate decrease of 15.1% annually, or $5.37 on average per month, on his/her electric bill. The fixed fuel factor rate is designed to pass through to customers the actual fuel costs incurred by Entergy Texas to serve customers. Entergy Texas is not allowed to make a profit on fuel costs. Amounts collected from affected customers pursuant to the revised fixed fuel factor will be subject to final review by the Commission in Entergy Texas' next applicable fuel reconciliation proceeding before the Commission. Entergy Texas expects the revised fixed fuel factor to be in effect for the billing period of September 2017 through February 2018.

Persons with questions or who want more information on this petition may contact Entergy Texas at Attn. Customer Service – Fuel Factor, 350 Pine Street, Beaumont, Texas 77701, or call 1-800-368-3749 (once you hear "Welcome to Entergy" select option 1, then press 5, then press 7) during normal business hours. A complete copy of this petition is available for inspection at the address listed above.

The Commission has assigned Docket No. 47520 to this proceeding. Persons who wish to formally participate in this proceeding, or who wish to express their comments concerning this petition should contact the Public Utility Commission of Texas, Office of Customer Protection, P.O. Box 13326, Austin, Texas 78711-3326, or call (512) 936-7120 or toll-free at (888) 782-8477. Hearing and speech impaired individuals with text telephones (TTY) may call (512) 936-7136 or use Relay Texas (toll-free) 1-800-735-2989.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 14, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees. The unit of deployment is limited to the "Application of Entergy Texas, Inc. for Approval of an Advanced Metering System ("AMS") Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees."

ETI is seeking expenditure authorization to deploy advanced meter communication technology to approximately 425,000 residential and small commercial customers in its service area. The Texas legislature approved Senate Bill 1064, which extended incentives that support deployment of AMS to ETI and other utilities. ETI elected to deploy its AMS installation by the end of 2019. ETI is proposing to collect the costs of its AMS deployment through a monthly AMS surcharge over a period of ten years. Under ETI's proposal, the AMS surcharge would be applied to all customers, with the exception of customers who have elected to opt out of AMS deployment and pay a one-time charge and a monthly charge for non-standard metering service. ETI proposes to allow customers who elect to have a non-standard meter. The following is a list of all of the costs associated with non-standard meter and meter service options that ETI proposes to implement, if approved by the Commission:

Non-recurring, one-time up-front fees	
Customer-requested, one-time upgrade to a standard meter	$102.95
Digital meter with an electromechanical (dial) register	$86.75
Digital meter with an electronic (pulse) dial register	$52.60
Returning monthly fee	$29.41 per month

Persons with questions or who want more information on this application may contact Entergy Texas, Inc., Attn: Customer Service – AMS, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749. Persons who wish to intervene in this proceeding should contact the Public Utility Commission of Texas, P.O. Box 13326, Austin, Texas 78711-3326. Any request for intervention must be received by the Commission no later than September 5, 2017. Hearing and speech impaired individuals with text telephones (TTY) may contact the Commission at (512) 936-7136.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas Inc for Approvals for an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3 88
Small General Service	$4 79
General Service	$4 74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4 58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0 00 per month ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018 The AMS Surcharge will apply to electric service to residential customers and non-residential classes, other than those who are served at transmission voltage or take unmetered service The costs recovered through the AMS Surcharge will be reconciled by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission

Furthermore, ETI proposes to allow a customer who chooses to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157 05
Digital, non-communicating meter requested after AMS installed.	$204 60
Recurring monthly fee.	$29 71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press then press 3 during normal business hours A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to Public Utility Commission of Texas, Central Records, Attn Filing Clerk, 1701 N Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477, Hearing-and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136

Texas A&M Study: Mango Consumption Has Positive Impact On Inflammatory Bowel Disease

Initial results of a study by researchers in the department of nutrition and food science at Texas A&M University show mango consumption has a positive impact on people with inflammatory bowel disease

Dr Susanne Talcott, Texas A&M AgriLife Research scientist, and others recently investigated the use of fresh mangoes as an adjuvant to conventional therapy in mild to moderate inflammatory bowel disease

"Inflammatory bowel disease presents a major risk factor for colon cancer with the most common forms of this disorder being Crohn's disease and ulcerative colitis," Talcott said. "Previous studies indicate that IBD affects about 1 5 million individuals in the U.S., about 2.2 million in Europe and many more in other countries."

The American Cancer Society estimated in 2016 there were 134,490 new cases of colorectal cancer in the U.S and those were responsible for 49,190 deaths

"Colorectal cancer can develop from precursor lesions that can be caused by inflammatory bowel disease over periods of 10-15 years, which provides an extended time for preventive measures," she said

Talcott said multiple studies have demonstrated the health benefits of secondary plant compounds in fruits and vegetables including pomegranate, citrus and curcuminoids, and polyphenolics have been found to reduce inflammatory processes in chronic diseases such as cardiovascular disease, cancer and inflammatory bowel diseases.

"However, few human clinical studies using polyphenolics in the treatment of inflammatory bowel disease have been conducted," she said.

Mangos are rich in gallotannins, a group of large molecular polyphenols that can be broken down to small, absorbable, bioactive molecules by certain intestinal bacteria

To investigate the impact of mango polyphenolics on humans, Talcott's team, which included husband Dr. Stephen Talcott, also an AgriLife Research scientist, designed a clinical trial conducted at Texas A&M. Trial subjects were recruited in the College Station area and at the Ertan Digestive Disease Center at the Memorial Hermann Hospital in Houston under the direction of Dr. Andrew Dupont, MD. The research was funded in part by the National Mango Board.

The study was designed as a controlled clinical pilot trial in subjects with mild-to-moderate active Crohn's disease or mild-to-moderate ulcerative colitis. Subjects ate mango as an adjunct to their common drug treatment for mild-to-moderate IBD.

Male and female individuals from 18-78-years old with Crohn's disease or ulcerative colitis were enrolled in the study. Those included were individuals undergoing current or previous IBD drug treatment within the past six months and those on a stable drug regimen for at least three weeks before the start of the treatment phase of the study

Excluded from the study were those with chronic health conditions or recurrent hospitalizations, as well as those who smoked more than one pack of cigarettes per week, had a current liver or renal dysfunction, were pregnant or lactating or had a known lactose intolerance, gluten sensitivity or celiac disease. Also excluded were those with planned or scheduled IBD-related surgery, current IBD-related intestinal stricture, current infection with C difficile or a previous bowel resection

"All subjects who completed the study stated they would continue to consume mangoes," Talcott said

Pet Talk: Toxic Plants Could Harm Pets

By The Texas A&M University College of Veterinary Medicine & Biomedical Sciences

Havings plants in your home can make your space more decorative, or even calming However, certain plants also can be toxic to pets Dr. Christine Rutter, clinical assistant professor at the Texas A&M University College of Veterinary Medicine & Biomedical Sciences, described some of the potentially dangerous plants in our homes.

"The plants in our homes that are toxic to pets are often colorful and showy," Rutter said "The plants that are the most goodly, especially to cats, are true lilies of the family Liliaceae All portions of the plant, including pollen, are considerably toxic "

In addition, Rutter said oleander and sago palms, a favorite decorative palm, also are dangerous to pets if consumed

"All parts of sago palms are toxic, especially the seeds," Rutter continued. "Dogs commonly eat the seeds, which can cause both immediate and delayed life-limiting effects."

Though we try our best to keep our pets safe, we never know when a pet may accidentally ingest something toxic.

Symptoms of toxic plant ingestion include salivating, pawing at the mouth, vomiting, diarrhea, weakness, altered mentation, and agitation. It is also possible that an animal may act normal for one to two days after ingestion before the signs of illness are apparent.

If you think your pet has ingested a poisonous plant, Rutter recommended contacting the ASPCA animal poison control (APC) In addition, she said to take your pet to see a veterinarian immediately.

"There is a small fee for contacting the ASPCA APC, but it provides great information on many levels," Rutter said. "It not only helps owners decide whether or not treatment is necessary, but it is also an ongoing resource for veterinarians because it provides the most up-to-date toxin database and treatment recommendations."

While plants may look beautiful in our homes, it is important to make sure they will not harm our pets To be sure a plant is safe, Rutter recommended following the ASPCA's online list of toxic and non-toxic plants Be sure to research any plant before bringing it home.

Water Conservation Tips - Summertime Water Saving

It's back! Summertime is here once again, and that means our water use is going to skyrocket. It is estimated that during the summer we use between two and four times as much water as we do the rest of the year. Overall, depending on where you live and how much watering you do, 30-70 percent of all the water we use at home is used outdoors. The best way to be sure you aren't wasting water is to follow some simple guidelines. If you don't, you may be wasting up to 50 percent of the water you are using due to inefficient watering methods Keep these tips in mind when using water outdoors

• Don't water your lawn or garden at the wrong time of the day During the hottest part of the day you can lose a significant amount of the water you are applying to evaporation.

•Water the lawn only when it needs it. Most lawns only need one inch of water each week Pay attention to the weather and keep a rain gauge in the yard to help monitor how much water you are getting. One way to tell if your lawn needs water is to step on the grass and see if it springs back. If it does you needn't worry about watering Also, let the grass grow a little By letting it grow longer it will shade the ground and roots and slow the evaporation rate.

• In the garden, be sure to utilize mulch around your vegetable plants A good layer of ground cover will allow the water to seep deeper into the soil and reduce loss due to evaporation

• Pools are very susceptible to evaporation, up to an inch and a half per day It is not uncommon to have to add 2,000 gallons a month to a pool due to evaporation. The use of a pool cover can reduce evaporation as much as 90 percent.

Another way to conserve water and reduce your water bill is to install a rain collection system and/or a drip irrigation system. These two systems alone or in tandem can save you thousands of gallons of water. Both of these two options can be kept simple or made as high tech and complex as you would like

• Never waste water by "swooping" the drive with the hose A lowing hose can easily waste 10 gallons of water per minute.

• When washing your vehicles be sure the hose has a nozzle on it. No sense letting 10 gallons a minute flow down the driveway

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees The style of this application is Docket No. 47416, *Application of Entergy Texas Inc for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25 130 In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs ETI is therefore submitting its application for Commission review and approval consistent with these support and direction of the Legislature as provided In Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan The proposed AMS Surcharge would be in place for twelve years ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$1.79
General Service	$4.73
Large General Service	$4 96
Large Industrial (non-transmission volt.)	$4 58

After the first five years of the sun hange period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018 The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that request installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142 95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$203 61
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc , Attn Customer Service - AMS Application, P O Box 2951, Beaumont, Texas 77701, or call 1-800-368-3749 (select option 1, then press 0, then press 4 then press 3) during normal business hours A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701

Persons who wish to intervene in this proceeding or comment upon the action sought should mail their request to intervene or their comments (along with 10 copies of your letter) to Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326 The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at 1512) 936-7120 or (888) 782-8 177. Hearing-and speech-impaired individuals with text telephones ("TTY") may contact the Commission at 1512) 936.7136

NOTICE OF PUBLIC MEETING TO DISCUSS BUDGET AND PROPOSED TAX RATE

The Newton Independent School District will hold a public meeting at 3:30 PM (Local) on [illegible] at the Administration Building, located at 412 2nd Street, Newton, Texas 75966. The purpose of this meeting is to discuss the school district's budget that will determine the tax rate that will be adopted. Public participation in the discussion is invited.

The tax rate that is ultimately adopted at this meeting or at a separate meeting at a later date may not exceed the proposed rate shown below unless the district publishes a revised notice containing the same information and complies with certain other public meeting and notice requirements that govern the revenue tax rate.

*Maintenance Tax	$1.170000 ($1.00 proposed rate for maintenance and operations)
Schools Insurance Tax *Proposed by Local Voters	$0.170000 ($0.00 proposed rate to pay bonded indebtedness)

Comparison of Proposed Budget with Last Year's Budget

The percentage increase (or decrease) in the amount budgeted with the preceding fiscal year and the amount budgeted for the fiscal year beginning next year is calculated for each of the following categories:

*Maintenance and operations	9.00 % increase
Debt Service	0.00 % increase
Total expenditures	8.52 % increase

Total Appraised Value and Total Taxable Value
(as calculated under Section 26.04, Tax Code)

	Preceding Tax Year	Current Tax Year
Total appraised value* (all property)	$767,019,290	$772,049,000
Total appraised value* (new property) **	$3,365,310	$3,112,252
Taxable value (net of all exemptions)	$218,663,297	$230,635,041
Total taxable value*** (all property) **	$2,469,843	$2,406,811

* Appraised value is the amount shown on the appraisal roll and defined by Section 1 04(8), Tax Code
** "New property" is defined by Section 25.012(a)(7), Tax Code
*** Taxable value is defined by Section 1.04(10), Tax Code

Bonded Indebtedness

Total amount of outstanding and unpaid bonded indebtedness* $4,795,000

*Outstanding principal

Comparison of Proposed Rates with Last Year's Rates

	Maintenance & Operations	Interest & Sinking Fund*	Total	Local Revenue Per Student	State Revenue Per Student
Last Year's Rate	$1.170000	$0.170000	$1.340000	$3423	$8 226
Rate to Maintain same Level of Maintenance & Operations Revenue & Pay Bond Service	$1.170000	$0.330000*	$1.500000	$3 849	$8.034
Proposed Rate	$1.170000	$ 0.170000*	$1.340000	$3 379	$8 034

*The interest & sinking fund tax rate is used to pay for bonded debt through a debt service, maintenance agreement, or both. The bonds and the tax maintenance agreement to pay those bonds were approved by the voters at this district.

Comparison of Proposed Levy with Last Year's Levy on Average Residence

	Last Year	This Year
Average Taxable Value of Residences	$80,500	$78 629
Average Taxable Value of Residences	$87,500	$85 436
Last Year's Rate versus Proposed Rate per $100 Value	$1.330000	$1.33 0000
Taxes Due on Average Residence	$493 00	$513 89
Percent Decrease in Taxes		$1733

Under state law, the dollar amount of school taxes imposed on the residence homestead of a person 65 years of age or older or of the surviving spouse of such a person, if the surviving spouse was 55 years of age or older when the person died, may not be increased above the amount paid in the first year after the person turned 65, regardless of changes in tax rate or property value.

Notice of Rollback Rate: The highest tax rate the district can adopt before requiring voter-approval at an election is $0. This election will be automatically held if the district adopts a tax rate equal to or greater than $0.2 9000

Fund Balances

The following estimated balances will remain at the end of the current fiscal year and are not encumbered with or by a corresponding debt obligation, less estimated funds necessary for operating the district before receipt of the first state aid payment

*Maintenance and Operations Fund Balance(s)	$3,344 541
Interest & Sinking Fund Balance(s)	$59 679

North Texas Encouraged to Support Their Local First Responders at Annual Memorial

The Dallas 9/11 Memorial Stair Climb is an annual remembrance that uniquely honors fallen first responders while supporting the families that are left behind

Choreographed around the events of September 11, 2011, the climb incorporates incredible symbolism in an intensely physical setting The event begins with an opening ceremony steeped in traditional fire and police memorial service elements

A moment of silence at 8:48 a m. marks the time Flight 11 hit the North Tower immediately following, 343 firefighters, 70 law enforcement, and 9 EMS personnel begin their trek up the stairs - 110 floors - equivalent to the height of the former World Trade Center Twin Towers. Each climber carries the name, picture, and accountability tag of a firefighter or police officer who was killed at "Ground Zero" on September 11, 2001.

Once finished, participants place the name of the individual they climbed for on an accountability board Local fallen public safety officers are acknowledged and honored as well

The event is family-oriented and open to the public There will be activities (such as an obstacle course, trying on bunker gear, and touring different first responder vehicles) and vendor areas during the climb.

The 7th annual Climb will occur Saturday, September 9th, 2017 at the Renaissance Tower, 1201 Elm Street in downtown Dallas. The opening ceremony will begin at approximately 8a m with a group photo of the 422 climbers. Immediately thereafter, a ceremony involving traditional public safety tributes will take place.

The general public is welcome and encouraged to attend the opening ceremony and event to show their support

More information on the Dallas 9/11 Memorial Stair Climb can be found at: www.dallasstairclimb.com

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas Inc for Approval of an Advanced Metering System ("AMS") Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers access to better management energy use and conservation. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed Deployment plan The proposed AMS Surcharge would be in place for twelve years ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.15
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission volt)	$4.98

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $3.73 per month and the other surcharge rates listed above would be $0.00 per month ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018 The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who have served at transmission voltage or take unmetered service The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.123 to recover the costs associated with providing the non-standard metering service from an customer who elects to take a non-standard meter The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customers who request non-standard metering service

Non-refundable, one-time up-front fees	
Existing meter that is not applicable, or accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee.	$20.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77701, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3 during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to Public Utility Commission of Texas-Central Records Attn: FilingClerk , 1701 N. Congress Avenue P.O. Box 13326, Austin, Texas 78711-3326 The proposed deadline for intervention in this proceeding is 45 days after the application was filed and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477 Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136

How to Help Your Child Prepare for Kindergarten

(StatePoint) Kindergarten is an exciting time for children, but it can also be a stressful time of change - not just for little ones, but for parents,too. Although each child is unique and develops at his orher own pace, most educators and experts agree that four key areas of development are essential for further growth and achievement in school

To help your child prepare for kindergarten and make a smooth transition, here are a few ways to support these key areas of development at home

• Vocabulary and Oral Language Development. Encourage your child to communicate through words. Have your child tell you a story, asking questions that invite description. For example, if your child says a dog was chasing a stick, ask what color was the dog? Did he run fast or slowly? Was the stick big or small? In public, give your child opportunities to speak for him or herself or make requests. If he or she is asked what they want to eat and drink at a restaurant, let your child reply, even if you know the answer.

• Social-Emotional Skills: Children will use social-emotional skills every day once in kindergarten, whether they're asking a teacher for help, being polite to classmates or following instructions. Scheduling a fun, unstructured play date is a great way to let children interact with peers, helping them learn to share and express themselves through play.

• Small Motor Control: Developing small motor skills can be as easy as coloring with your child and cutting with scissors - anything that gets those fingers and toes moving! Other great activities include putting puzzles together, building with blocks, throwing, catching and kicking a ball, riding a tricycle as well as activities like running, jumping and climbing

• Attention to Sensory and Visual Detail: Paying attention to one's senses is a mindful practice that can help prepare children for the academic world of kindergarten. Noticing textures, smells and tastes, and using language to describe these details, fosters vocabulary development and encourages children to compare and contrast their experiences. At snack time, ask your child to describe the food with words like sweet or sour, crunchy or juicy, rough or smooth When playing with puzzles, ask your child to sort the puzzle pieces and then describe what colors, patterns, edges, or other visual details the pieces share.

Parents may find certain tools useful towards helping children learn core school and life skills For example, LeapFrog's LeapStart Learning System gets kids excited about counting, learning to read, problem solving and more with fun, ro-play bloactivities An ergonomic stylus reads invisible dots on every page, triggering questions, challenges, songs, jokes and more. Engaging new content featuring popular children's characters and the availability of LeapFrog's acclaimed Learn to Read series give children the tools they need to build tomorrow's skills today

Don't worry if your child hasn't mastered all his or her letters, sounds and numbers by the time school starts. Children come to kindergarten at many different levels The teacher will practice those skills with your child throughout the school year, but you can help by continuing to reinforce them at home.

Texas Big Game Awards Announces New Rules for 2017-18 Season

Celebrating its 27th year, the Texas Big Game Awards (TBGA), a partnership of Texas Parks and Wildlife Department (TPWD) and the Texas Wildlife Association (TWA), continues to be the leader in recognizing the contributions that landowners, land managers and responsible hunters make to managing and conserving wildlife and wildlife habitat on Texas' private and public lands.

To kick off the 2017-2018 hunting season, the TBGA has re-established the program's objectives and modified entry requirements. The purpose of the TBGA is to make everyone aware of the important role ethical hunting and habitat management play in the lives of our young people, and to the ecosystem over which we must be responsible stewards.

To do that, the TBGA's objectives are to recognize:

1. The importance of our hunting heritage.
2. The landowners who work to achieve healthy habitats.
3. The quality of big game animals in Texas.
4. The achievements of young and new hunters.
5. The hunters who harvest these animals.

In an effort to refocus on the TBGA's objectives, the program will no longer accept "scored entries" from release sites for five (5) years following the last release date. This will affect all properties with pen-raised, Trap/Transport/Transplant (TTT), and/or Deer Management Permit (DMP) deer released after March 1, 2017. Also new for this season is the addition of the javelina to the Texas Slam award category. And finally, hunters will now be limited to one Texas Slam award per harvest means (rifle and archery only) in their lifetime.

About the Texas Big Game Awards

Under the Texas Big Game Awards (TBGA) program, awards are given to all "Scored Entries" that meet minimum regional requirements, and there are no entry fees. Deadline to enter is a postmark date of March 1, 2018. Hunters who harvest a white-tailed deer, mule deer, pronghorn antelope, javelina, or desert bighorn sheep this season meeting the minimum Boone and Crockett (B&C) net score requirements for their respective Region may be eligible to receive recognition in the "Scored Entry" category, as well as the landowner of the property from which the trophy was taken.

Hunters of any age who harvest their first big game animal in Texas are eligible for the "First Big Game Harvest" category. Hunters who harvest a white-tailed deer, mule deer, javelina, or pronghorn antelope are eligible whether they harvest a buck or doe, regardless of score of the animal in this category.

And, any youth hunter (under 17 years of age when they purchase their hunting license) with a Special Resident Hunting License who harvests a white-tailed deer, mule deer, javelina, or pronghorn antelope is eligible for the "Youth Division," whether they harvest a buck or doe, regardless of score.

For more information on the Texas Big Game Awards, certified scorers list, entry rules and minimum scores visit www.TexasBigGameAwards.com. The website also features photos

Legal Notice

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharges and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial Time-Transmission Level	$4.58

After the first five years of the surcharge period and for the remainder of the surcharge period, the residential surcharge rate would be $5.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or at a unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service.

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed.	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951 Beaumont, Texas 77701, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with the caption of your letter) to Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

LEGAL NOTICE

The Texas Lottery Commission scratch ticket game will close on September 29, 2017. You have until March 26, 2018, to redeem any tickets for this game. #1872 Double Match ($2) overall odds are 1 in 4.47. These Texas Lottery Commission scratch ticket games will close on October 25, 2017. You have until April 23, 2018, to redeem any tickets for those games. #1447 Money Craze ($1) overall odds are 1 in 3.55, #1755 Easy Money ($5) overall odds are 1 in 3.42, #1831 Lucky 7 Flip Multiplier ($5) overall odds are 1 in 3.95, #1833 Lucky No. 7 ($5) overall odds are 1 in 4.17, #1779 Super Break The Bank ($20) overall odds are 1 in 3.40. Prizes of $600 or more must be claimed in person at a lottery claim center or by mail, with a completed Texas Lottery® claim form, however, instant prizes or prizes over $2,500,000 must be claimed in person at the Commission Headquarters in Austin. Call Customer Service at 800-375-6886 or visit the lottery website at txlottery.org for more information and location of nearest claim center. The Texas Lottery is not responsible for lost or stolen tickets, or for tickets lost in the mail. Tickets, transactions, players and winners are subject to, and players and winners agree to abide by, all applicable laws, Commission rules, regulations, policies, directives, instructions, conditions, procedures and final decisions of the Executive Director. A scratch ticket game may continue to be sold even when all the top prizes have been claimed. Must be 18 years of age or older to purchase a Texas Lottery ticket. The Texas Lottery supports Texas education and veterans. PLAY RESPONSIBLY. For help with a gambling problem, ncpgambling.org. ©2017 Texas Lottery Commission. All rights reserved.

DPS Urges Preparedness as Hurricane Season Continues

August and September are peak months

With four months remaining in the 2017 hurricane season, the Texas Department of Public Safety (DPS) is reminding residents to evaluate their emergency plans and tune in to weather forecasts for potential hurricanes and tropical storms. Historically, August and September are the more active months during hurricane season. Hurricane season began June 1 and continues through November 30.

"As we approach the peak months of hurricane season, residents should remain vigilant and keep a watchful eye on weather reports and forecasts for their area," said DPS Director Steven McCraw. "The time to prepare for a hurricane or tropical storm is now, and we are reminding Texans to develop a hurricane plan and assemble an emergency kit before a storm takes aim on our state."

All Atlantic and Gulf of Mexico coastal areas are subject to hurricanes or tropical storms. It is possible for a storm to severely impact our state, even prior to or without making direct landfall in Texas. Additionally, the rain bands associated with a tropical system have an extremely wide reach, so monitoring changing weather conditions during hurricane season is critically important for all Texans.

Hurricanes can cause catastrophic damage to coastlines, and winds can vary from 74 to 157 miles per hour (or higher) in addition, hurricanes and tropical storms can also spawn tornadoes, create dangerous coastal water conditions, including storm surges along the coast, and cause extensive damage from flooding.

Here are several measures residents can take now to prepare for potential storms:

- Assemble an emergency kit that includes essential documents, supplies and provisions.
- Review hurricane evacuation maps, and select a route for you and your family.
- Plan how all family members and pets will evacuate safely.
- Consider any special needs for individuals with disabilities or the elderly.
- Stay informed about changing weather conditions in and around your area.
- Follow the instructions of local officials if a storm develops.

Residents are also encouraged to review their property's flood risk and current insurance coverage, and to consider whether a separate flood policy should be part of their home protection plan. (Remember most flood policies have a 30 day waiting period before taking effect.) For more information, visit http://www.tdi.texas.gov/consumer/flood-insurance.html

PUBLIC NOTICE

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas Inc for Approval of an Advanced Metering System (AMS) Deployment Plan AMS Surcharge and Non-Standard Metering Service Fees*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front Fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing-and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System ("AMS") Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards:	$142.95
Digital, non-communicating meter requested before AMS installed:	$157.05
Digital, non-communicating meter requested after AMS installed:	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing-and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

PUBLIC NOTICE

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from us to customers who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees

Existing meter that meets applicable accuracy standards:	$142.95
Digital, non-communicating meter requested before AMS installed:	$157.05
Digital, non-communicating meter requested after AMS installed:	$203.60

Recurring monthly fee: $29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn. Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 4, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

PUBLIC NOTICE

NOTICE TO IMPLEMENT REVISED FIXED FUEL FACTOR

Entergy Texas, Inc. hereby publishes NOTICE that, pursuant to Section 36.203 of the Public Utility Regulatory Act (codified in TEX. UTIL. CODE) and 16 Tex Admin. Code §25.235(b), it filed with the Public Utility Commission of Texas (the "Commission") on August 17, 2017 a tariff to implement a revised fixed fuel factor. All of Entergy Texas' *retail customers whose fuel charges are calculated under the Texas fixed fuel factor tariff* – including but not limited to Residential, Small General Service, Large General Service, Large Industrial Power Service, and Street and Outdoor Lighting Service – will be affected by the Commission's approval of the revised fixed fuel factor. The revised fixed fuel factor, if approved, will affect only the fuel portion of the rates charged by Entergy Texas and will have no effect on non-fuel base rates.

Entergy Texas seeks Commission approval to revise the fixed fuel factor effective with the first billing cycle of the September 2017 billing month. Entergy Texas proposed that the fixed fuel factor be changed pursuant to a semi-annual filing to be made each February and August, with revised fuel factors to be effective with the first billing cycle of the March and September billing months, pursuant to a methodology that changes the fuel factor based upon changes in the published price of natural gas. This methodology was *authorized for use in Docket No. 32915.*

The revised fixed fuel factor, differentiated by voltage level, is as follows:

FACTOR BY VOLTAGE LEVELS

Delivery Voltage	Fixed Fuel Factor	
Secondary	$0.0302202	per kWh
Primary	$0.0294475	per kWh
69kV/138kV	$0.0287153	per kWh
230kV	$0.0282374	per kWh

The revised fuel factors would result in a decrease in Entergy Texas' annual Texas retail fuel and purchased power revenues by approximately $93.1 million, or 15%, on an annual basis. Compared to the fixed fuel factor approved by the Commission effective March 2017, a residential customer using 1000 kilowatt-hours (kWh) of electricity per month would see an approximate decrease of 15.1% annually, or $5.37 on average per month, on his/her electric bill. The fixed fuel factor rate is designed to pass through to customers the actual fuel costs incurred by Entergy Texas to serve customers. Entergy Texas is not allowed to make a profit on fuel costs. Amounts collected from affected customers pursuant to the revised fixed fuel factor will be subject to final review by the Commission in Entergy Texas' next applicable fuel reconciliation proceeding before the Commission. Entergy Texas expects the revised fixed fuel factor to be in effect for the billing period of September 2017 through February 2018.

Persons with questions or who want more information on this petition may contact Entergy Texas at Attn: Customer Service – Fuel Factor, 350 Pine Street, Beaumont, Texas 77701, or call [1-800-368-3749 (once you hear: "Welcome to Entergy" select option 1, then press 5, then press 7)] during normal business hours. A complete copy of this petition is available for inspection at the address listed above.

The Commission has assigned Docket No. 47520 to this proceeding. Persons who wish to formally participate in this proceeding, or who wish to express their comments concerning this petition should contact the Public Utility Commission of Texas, Office of Customer Protection, P.O. Box 13326, Austin, Texas 78711-3326, or call (512) 936-7120 or toll-free at (888) 782-8477. Hearing and speech-impaired individuals with text telephones (TTY) may call (512) 936-7136 or use Relay Texas (toll-free) 1-800-735-2989.

ENTERGY TEXAS, INC

PUBLIC NOTICE

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.79
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who *requests non-standard metering service:*

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards:	$142.95
Digital, non-communicating meter requested before AMS installed:	$157.05
Digital, non-communicating meter requested after AMS installed:	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 5, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

Public Notices

Public Notices

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE AND NON-STANDARD METERING SERVICE, PUCT DOCKET NO. 47416 BEFORE THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 10, 2017 Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and does not limit ETI's ability to deploy AMS. It will help the environment as it enables ETI to make safe and low-emissions electric energy use and natural gas. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge was designed to be in place for twelve years. ETI has proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (same as voltage only)	$4.58

After the first five years of the surcharge period and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates would also change. ETI proposes that its AMS Surcharge will go into effect on the first billing cycle of January 2018. The AMS Surcharge is illustrative of the rates to residential customers and non-residential customers other than those who are served at transmission voltage or take unmetered service. The costs incurred through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing this non-standard metering service from a customer who elects to have a non-standard meter. The following fees will apply at the time customers that refuse installation of an advanced meter or any other retail customer who requests a non-standard metering service:

Non-refundable, one-time up-front fee	
Initial fee that covers applicable one-way transmission	$162.95
Digital, non-communicating meter requested before AMS installed	$157.06
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee	$20.71 per month

Persons with questions or who would like information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service - AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (voice option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in or otherwise participate in this proceeding should mail their requests to intervene or other comments (along with a copy of your letter to Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing and speech-impaired individuals with telephones ("TTY") may contact the Commission at (512) 936-7136.

CITY OF GRANGE, TEXAS
ADVERTISEMENT FOR BIDS

NOTICE IS HEREBY GIVEN THAT sealed proposals, addressed to the City of Orange, will be received at the office of the City Secretary, City Hall, 803 W. Green, Room 203, P.O. Box 520, Orange, Texas 77630 until 2:00 PM on August 30, 2017 and will be then received will thereafter be opened and read aloud, in the Office of the City Secretary, City Hall, 803 W Green, Room 203, Orange, Texas, for the Pre-Manufactured Construction for Portable Electric Commercial Manufacturing services for the City of Orange.

Any bid received after closing time will be returned unopened.

Copies of the Proposal and other contract Documents are on file at the City Hall, City of Orange, at the Office of the City Secretary and are open for public inspection as to their character. A set of such Documents may be withdrawn from such office upon making a non-refundable deposit of $0.00

A Performance Bond of One Hundred Thousand Dollars ($100,000.00) is required for this contract.

If awarded the Contract, the bidder will promptly enter into a Contract and execute Bonds as required and in the manner provided in attached bidder Specifications and instructions to Bidders.

Attention is called to the fact that this is a Contract for construction of public works and that there must be paid at not less than the general prevailing wage rates which have been established by the City Council of the City of Orange, Texas, pursuant to Texas Revised Civil Statutes Annotated Art. 5159a (Vernon Supplement 1966) and which are set out in detail in the Contract Documents. The CONTRACTOR shall forfeit as a penalty, to the City of Orange, Texas [sum] but not less than $60.00 for each laborer or mechanic employed, for each calendar day, or portion thereof, if such laborer, worker or mechanic is paid an amount less than the said prevailing rates for any work done under this Contract. The Davis-Bacon Act is applicable to this Contract, and the prevailing wage rates established pursuant to said Act are made a part of this Contract. Copies of such current wage schedules included in the Contract Documents and any applicable change in such wage schedule shall be furnished and Equal Employment Opportunity requirements must be met.

CONTRACTOR'S attention is also directed to the equal opportunity requirements of this Contract, Title VI, Sec 3 and EO 11246.

General Contractor of Record shall perform 51% or more of work for the Project

This Contract is issued by an organization which qualifies for exemption pursuant to the provisions of Section 151.309 of the Texas Limited Sales, Excise and Use Tax Act as codified in Chapter 151 of the Texas Tax Code. However, the Amendments to Section 151.311 of the Tax Code made by Senate Bill 74 (77th Texas Legislature, 1st C.S., Acts 1999, 1st called session, Chapter 1, Section 1.07) and Senate Bill No. 113, 72nd Leg., 1st C.S., Acts 1991, 1st called session, Chapter 1, Section 1.08, provide that certain items incorporated pursuant to this Contract are taxable items. Therefore, the Contractor is responsible for paying sales tax on all taxable items incorporated into this project. Additionally, the Contractor is responsible for paying sales tax on all taxable items which he uses or consumes during the performance of this Contract, unless specifically provided otherwise in the Contract Documents.

The City will issue to the CONTRACTOR a sales tax exemption certificate for this Contract in order that he does not have to pay taxes on qualifying materials, supplies, or other tangible personal property purchased for and permanently incorporated into City realty in performing this Contract. The CONTRACTOR performing this Contract must in all respects act exactly as conform to and comply with all applicable State Comptroller's rulings, along with a copy of the certificate issued to him by the City.

Lump sum contracts in which the above enhanced charges are not separated, do not qualify for the sales and use tax exemption.

This Contract is for a Pre-Manufactured Contract to furnish [illegible] manufactured construction services for the City of Orange. The contract will only be accepted when deemed best suited by the City of Orange and can be a partial or non-made decision. Each proposal will be rejected by the City unanimously. Successful Bidder shall be required to attend Pre-Construction Conference.

BIDDER IS CAUTIONED TO READ AND INITIAL ALL CONTRACT DOCUMENTS. WHERE REQUIRED, BEFORE SUBMITTING BID, ESPECIALLY ITEM 3 (SEALED BID) NOTICE OF THIS NOTICE TO BIDDERS. ALL BIDDERS ARE REQUIRED TO ATTEND A MANDATORY PRE-BID MEETING ON MONDAY AUGUST 21, 2017 AT 3:00 P.M. CST. AT THE CITY OF ORANGE CENTRAL FIRE STATION, 201 N. 9TH STREET, ORANGE, TEXAS 77630.

The City of Orange reserves the right to reject any and all bids and to waive informalities.

THE CITY OF ORANGE

BY: Patricia Anderson
City Secretary

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non transmission only)	$4.58

After the first five years of the surcharge period and for the remainder of the surcharge period, the residential surcharge rate would be $1.72 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take interruptible service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.130 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests one standard metering service.

Non-refundable, one-time up-front fee:
Existing meter that meets my existing accuracy standards: $142.95
Digital, non-communicating meter requested before AMS installed: $157.05
Digital, non-communicating meter requested after AMS installed: $204.60

Recurring monthly fee: $29.75 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service - AMS Application, P. O. Box 2951, Beaumont, Texas 77703, (toll 1 800 368-3749 [when replied, then press 0 to operator & then press 2] during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail or hand deliver a request to intervene and seven copies (along with 10 copies of your letter) to Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

Public Notices

NOTICE OF APPLICATION FOR APPROVAL OF AN AMS DEPLOYMENT PLAN, AMS SURCHARGES, AND NON-STANDARD METERING SERVICE, TEXAS PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI" or the "Company") filed with the Public Utility Commission of Texas ("PUCT" or "Commission") an Application for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System Deployment Plan, AMS Surcharges and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended much-needed support during the AMS roll out and directed that ETI elect to deploy AMS. It shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI has filed a subsequent application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The Company's AMS Surcharge would be in place for twelve years. ETI proposed monthly AMS Surcharge rates for each rate class in the first five years of the new charge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to *electric service to residential customers and non-residential customers*, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.130 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service.

Non-refundable, one-time up-front fee	
Initiating event that meets applicable ambiguity standards.	$141.93
Digital, non-communicating meter requested before AMS installed:	$157.05
Digital, non-communicating meter requested after AMS installed:	$301.10
Recurring monthly fee	$2.91 per month

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their request to intervene or their comments within thirty days of the date of this notice to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive all requests for intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing and speech impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

Public Notices

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") deployment, AMS Surcharge, and Non-Standard Metering Service fees. The style of this application is Docket No. 47418, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System ("AMS") Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment filed pursuant to Commission Rule 25.130. This rule requires regulated utilities in Texas (Texas legislature approved Senate Bill 1125, which has amended certain provisions of that section) deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network in such a way as practical to allow customers the ability to manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the request and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years, if the rule change is not suspended, are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transitional only)	$4.56

After the first five years of the surcharge period, and for the remainder of the surcharge period, if a residential surcharge rate would be $3.33 or more than the above surcharge rates listed above, it would be $0.03 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers other than those who have served or in such a location voluntarily take investment service. The recovery proposed through the AMS surcharge will be reviewed by the Commission in each annual base rate proceeding to be held in the future or as otherwise determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess five consecutive 60-Cent installment fees ($3.33 in one year) to cover costs associated with providing the non-standard metering service from a customer who elects to have a non-standard service. The fees given above will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service.

Non-refundable, one-time up-front fee:	
Existing meter that meets applicable accuracy standards:	$142.95
Digital, non-communicating meter requested before AMS is installed:	$157.08
Digital, non-communicating meter requested after AMS is installed:	$230.80
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service - AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (voice) or (toll free) 1-800-368-3749 (voice) or (toll free) 1-800-368-3749 (voice) or (toll free) 1-800-368-3749 (voice) or (toll free). Persons who have a disability may request an alternative method of obtaining a copy of the application. For the hearing impaired, an ETI representative can be located at 4701 Pine Street, Beaumont, Texas 77701.

Persons have the right to intervene in this proceeding by requesting from the action sought, should mail their request to Intervene at their current address within 60 days of receipt of the application. Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervening is a date not less than 15 days after the application was filed, and the Commission may administratively approve requests to intervene filed after that date. Further information may be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing and speech impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

Public Notices

NOTICE TO IMPLEMENT REVISED FIXED FUEL FACTOR

Entergy Texas, Inc. hereby publishes NOTICE that, pursuant to Section 36.210 of the Public Utility Regulatory Act (Texas Utilities Code, Title 3, Subtitle B) and 16 Texas Administrative Code § 25.236(f) as filed with the Public Utility Commission of Texas (the "Commission") on August 17, 2017 a tariff to implement a revised fixed fuel factor. All of Entergy Texas' retail customers whose fuel charges are calculated under the Texas fixed fuel factor tariff – including but not limited to residential, Small General Service, Large General Service, Large Industrial Power Service, and Outdoor Lighting Service – will be affected by the Commission's approval of the revised fixed fuel factor. The revised fixed fuel factor, if approved, will reflect only the full recovery of the costs incurred by Entergy Texas and will have no effect on mark-fuel base rates.

Entergy Texas' market commission-approved electric utility service tariff does not allow the Entergy Texas' August 2017 billing month (August) Texas power distribution and fuel factor will be changed pursuant to a semi-annual filing to be made each February and August with revised fuel factors to be effective with the first billing cycle of the March and September billing months, pursuant to a methodology that changes the fuel factor based upon changes in the public price of natural gas. This methodology was set forth and for use in Docket No. 37915.

The revised fixed fuel factor differentiated by voltage level is as follows:

Delivery Voltage	Fixed Fuel Factor
Secondary	$0.030702 per kWh
Primary	$0.029457 per kWh
69kV/138kV	$0.028795 per kWh
230kV	$0.028274 per kWh

The revised fuel factor would result in a decrease in Entergy Texas' annual Texas retail fuel and purchased power recovery by approximately $35.4 million, or 4.9%, on an annual basis. Compared to the fixed fuel factor approved by the Commission effective March 2017, residents of customers using 1000 kilowatt hours (kWh) of electricity per month would see an approximate decrease of 15.1% annually, or $5.37 on average for a month, for bi-weekly bill. The fixed fuel factor rate is designed to pass through to customers the actual fuel costs incurred by Entergy Texas to serve customers. Entergy Texas is not allowed to make a profit on fuel costs. Amounts collected from customers in excess of fuel costs incurred by Entergy Texas will be subject to a final true-up by the Commission in Entergy Texas' next applicable fuel reconciliation proceeding before the Commission. Entergy Texas expects the true-up balance of fuel factor collected to the billing period of September 2017 through February 2018.

Persons with questions or who want more information on this petition may contact Entergy Texas at Attn: Customer Service - Fuel Factor, 350 Pine Street, Beaumont, Texas 77701, or call (1) 800-368-3749 (voice) or (toll free) 1-800-368-3749 (voice) or (toll free) 1-800-368-3749 (voice) or (toll free) 1-800-368-3749 (voice) or (toll free). Persons who wish to intervene in this proceeding should mail their request to Intervene at Entergy Texas at the above address within 60 days of receipt of the application. The proposed deadline for intervening is a date not less than 15 days after the application was filed, and the Commission may administratively approve requests to intervene filed after that date. Further information may be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing and speech impaired individuals with text telephones (TTY) may contact the Commission at (512) 936-7136 or use Relay Texas (toll free) 1-800-735-2989.

Orangefield ISD is working with local agencies to identify all children who are categorically and program eligible Orangefield ISD will notify the households of these children that they do not need to complete an application. Any household that does not receive a letter and feels it should have should Texas Department of Orangefield ISD Media Release Agriculture July 31, 2017 contact Brian Ousley, 735-2285, or bousley@orangefield.net. Any household that wishes to decline benefits should contact Brian Ousley, 735-2285, bousley@orangefield.net.

Applications may be submitted anytime during the school year. The information *households provide on the application* will be used for the purpose of determining eligibility. Applications may also be verified by the school official's at any time during the school year.

Determining Eligibility

Under the provisions of the free and reduced-price meal policy, Brian Ousley, Director, will review applications and determine eligibility. Households or guardians dissatisfied with the Reviewing Official's eligibility determination may wish to discuss the decision with the Reviewing Official on an informal basis. Households wishing to make a formal appeal for a hearing on the decision may make a request either orally or in writing to Dr. Stephen Patterson, 735-5337, spatterson@orangefield.net.

Unexpected Circumstances

If a household member becomes unemployed or if the household size increases, the household should contact the school. Such changes may make the children of the household eligible for benefits if the household's income falls at or below the attached current income eligibility guidelines.

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, sex, disability, age, or reprisal or retaliation for prior civil rights activity in any program or activity conducted or funded by USDA. Persons with disabilities who require alternative means of communication for program information (e.g. Braille, large print, audiotape, American Sign Language, etc.), should contact the Agency (State or local) where they applied for benefits. Individuals who are deaf, hard of hearing or have speech disabilities may contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English. To file a program complaint of discrimination, complete the USDA Program Discrimination Complaint Form, (AD-3027) found online at http://www.ascr.usda.gov/complaint_filing_cust.html, and at any USDA office, or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, (2) fax: (202) 690-7442, or (3) email: program.intake@usda.gov. This institution is an equal opportunity provider.

LCMCISD registration open for new, returning students

Online registration for students returning to Little Cypress-Mauriceville CISD will begin on August 1. New student registration will be held for the LCM District on August 1, 2, and 3. Parents should report to the school in which their student will be enrolled: five campuses - Mauriceville Elementary and Middle Schools, Little Cypress Elementary and Intermediate schools and LCM High School, will be open from 8 a.m. to 3:00 p.m. Little Cypress Junior High will be open from 8 a.m. to 12 noon and from 1 to 4 p.m. A birth certificate, social security number, immunization record, and Proof of residency will be required of new students registering. Those who have been enrolled in another district should present their latest report card, immunization record, and Proof of residency at the time of registration. To be eligible for pre-kindergarten, a student must be four years old on or before September 1, 2015, and qualify for the free lunch program or be unable to speak the English language. To determine eligibility for the free lunch program, parents should report to the food service department at the LCM Administration building, 6566 FM 1130. For the current food stamp program, you must have the benefits award letter or the last four consecutive pay stubs. Mauriceville Elementary students will hold "Meet the Teacher" on August 21, from 1:30 to 3:30 p.m. "Meet the Teacher" for Little Cypress Intermediate and Little Cypress Elementary will be on August 25. LCI students may meet their teachers from 9:00 to 2:30 p.m. and LCE students may visit their teachers from 2 to 3:30 p.m.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System ("AMS") Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In the most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$12.74
Large General Service	$41.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.71 per month, and the other surcharge rates listed above would be 50% permanently. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$301.00
Recurring monthly fees	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704 or call 1-800-368-3749 (select option 1 then Press 0, then press 4, then Press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, 7th Floor, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

TPWD graduates wardens, officers

The Texas Parks and Wildlife Department graduated the 61st Texas game warden and state park police officer cadet class Aug. 1 at the Texas State Capitol. The class included 31 game wardens and seven state park police officers, including Orange County Game Warden Hani (Haj) Araya.

Following their seven month preparation at the TPWD Game Warden Training Center in Hamilton County, the newly-commissioned state peace officers were recognized during a special ceremony that included a keynote speaker, oath of office and commissioning by senior level department staff and TPWD Executive Director Carter Smith.

"Every one of you game wardens and park police officers, you've got a mighty fine office, and with that mighty fine office comes great privileges and awesome responsibilities," Smith told the class. "So as you move forward to your charge let me be unambiguous as to what our expectations are of all of you – we the state of Texas, we the Texas Parks and Wildlife Department, we the members of the communities where you will live, work, serve and raise your families, always expect you to be pillars of strength and leadership, resolute character and virtue, fair beyond reproach, and unfailing in times of disaster and duress."

The graduates will begin their new careers stationed in counties and state parks throughout the state.

The duties of a Texas game warden include the enforcement of all state laws, but primarily hunting, fishing and water safety regulations. As fully commissioned state peace officers, they respond to emergencies, assist other law enforcement agencies and work to educate the public about conservation issues.

The 2017-2018 school year has officially begun for St. Mary Catholic School employees. All staff from the schools in the Diocese of Beaumont gathered together at St. Anthony Cathedral Basilica to celebrate a Convocation Mass with Bishop Curtis Guillory to begin the new school year. Teachers will be in trainings and meetings the remainder of the week and beginning of next week. On Wednesday, August 9th the Meet & Greet will take place and classes begin the next day. Pictured are Dr. Cynthia Jackson-Principal with her staff.

Arlanxeo Performance Elastomers recently contributed nearly half a million dollars to a Skills Development Fund at Lamar State College-Orange. The grant funding through the Texas Workforce Commission provides skills training for more than 200 employees at the Arlanxeo's Orange location.

Arlanxeo Performance Elastomers funds Skills Development grant

Focused on improving the local workforce, Lamar State College – Orange recently announced a Skills Development Fund grant worth $469,913 with Arlanxeo Performance Elastomers.

The grant funding through the Texas Workforce Commission provides skills training for more than 200 employees at the Arlanxeo Orange location.

The types of training ranges from beginner spreadsheets to highly specialized, industrial equipment training.

Over the course of the grant, the Orange County area receives a $1.4 million return on investment as local businesses participate in the training and the average hourly wage of Arlanxeo employees rises to $31.

Juhan Alvarez, commissioner at the Texas Workforce Commission, spoke at the check signing presentation and stated how impressed he was that a small, rural community like Orange received this competitive grant.

"This grant and the partnership of Arlanxeo and Lamar State College benefits the state two-fold – offering advanced training to Texans and providing Texas industries with skilled employees," said State Rep. Dade Phelan.

Skills Development Fund grants are available to businesses with no more than 100 employees.

For more information about these grants, please contact Lamar State College – Orange Workforce Development at 409-882-3917.

One day a week for a two-year degree

In an effort to provide learning opportunities to the busiest people, Lamar State College – Orange is reaching out to another category of non-traditional students.

Starting in the Fall 2017 semester, students have the chance to complete an Associate's degree program by attending hybrid classes only one day a week.

Cleverly dubbed "One Day a Week for a Two-Year Degree," the courses are for any one with a demanding schedule but who still desires to enhance their skills and earn a degree.

The Division Director for Arts, Humanities, and Social Sciences at Lamar State College – Orange, Andrew Preslar, said that the goal is to allow full-time employees, stay-at-home parents, and similar non-traditional students all a life where they can work Monday through Thursday and attend classes on Friday.

"Anyone from local business and industry employees to teacher's aides and janitorial staff at local schools desire to pursue our target students," Preslar said. "We want to fill the gaps that students have in order to recover and stay on track to complete their degrees."

Each semester, the structured progression of classes advances the students closer to completing their degree in one of the three programs: Associate of Arts in Liberal Arts, Associate of Science in Business, or Associate of Arts in Teaching.

Award-winning instructors will teach the courses, giving the students the best LSC-O has to offer.

The Friday hybrid course offerings for the Fall semester include English Composition 1301, Speech 1315, American History 1301, Computer Science 1301, Texas Government 2306, and Developmental Math 0302.

Students will attend the 75-minute classes from 8 a.m. to 1:15 p.m. and complete additional work online during the week.

Gina Sieur, the Dean of Health Science and Workforce Technology, explained that the hybrid courses – half in class and half online – give students who might be nervous about fully online classes a middle ground to learn from instructors face-to-face as well as become comfortable working independently online.

"Some students want the engagement and reassurance of being in a classroom with their instructor," she said.

Once students complete the 60 hours of academic work and earn their Associate's degree, students who want to continue their education can transfer the credits to any public Texas university or college and be half way finished with a Bachelor's degree.

Registration is open for the Fall 2017 semester and now is the time to lock in a spot to come to Lamar State College – Orange for "One Day a Week for a Two-Year Degree."

For more information, contact Andrew Preslar at Andy.Preslar@lsco.edu or 409-882-3027.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47536, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1125, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1125.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.10
Small General Service	$4.79
General Service	$47.11
Large General Service	$496
Large Industrial (non-transmission only)	$458

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that the AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to all active service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.130 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service.

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed.	$157.05
Digital, non-communicating meter requested after AMS installed	$203.60
Recurring monthly fee.	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 1350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 15 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. For the information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones (TTY) may contact the Commission at (512) 936-7136.

NOTICE OF PUBLIC MEETING TO DISCUSS BUDGET AND PROPOSED TAX RATE

The D.R.G.I.C.I.S.D. will hold its public meeting at 6:00 P.M. on the 12th day of September, 2017 at the Bridge City I.S.D. Administration Building, 1531 W. Roundbunch Road, Bridge City, Texas. The purpose of this meeting is to discuss the school district's budget that will determine the tax rate that is adopted. Public participation in the discussion is invited.

The tax rate that is proposed for adoption may be changed. Any member of the public may attend this meeting and express his or her views at the meeting. The governing body is not required to discuss or respond to these views.

Maintenance Tax	$1.043100 (the rate needed to maintain current operations)
Bond Debt Service Tax	$0.133500 (the rate needed to pay bonded debt)
Approved by Local Voters	

Comparison of Proposed Budget with Last Year's Budget

The applicable percentage increase or decrease (or both) in the amount budgeted in the preceding fiscal year and the amount budgeted for the fiscal year that begins during the current tax year is calculated for each of the following categories of budget disbursements:

Maintenance and operations	3.65% decrease
Debt service	2.01% decrease
Total expenditures	4.46% decrease

Total Appraised Value and Total Taxable Value
(as calculated under Section 26.04, Tax Code)

	Preceding Tax Year	Current Tax Year
Total appraised value of all property	$1,225,241,702	$1,280,243,179
Total appraised value of new property*	$ 17,329,913	$ 23,149,197
Total taxable value of all property	$ 747,479,472	$ 773,215,531
Total taxable value of new property**	$ 14,492,836	$ 8,351,443

* "Appraised value" is the property value on which the appraisal roll and the Section 26.04(c) Tax Code Section 1.04(11)

** "New property" is defined by Tax Code Section 26.012(17)

*** "Taxable value" is defined by Tax Code Section 1.04(10)

Bonded Indebtedness

Total amount of outstanding principal of bonded indebtedness* $13,830,000

* Outstanding principal

Comparison of Proposed Rates with Last Year's Rates

	Maintenance & Operations	Interest & Sinking Fund*	Total	Actual Revenue Per Student	Revenue Per Student
Last Year's Rate	$1.04360	$0.16,959	$1.18,459	$6,259	$5,956
Rollback Tax Rate Level of Maintenance & Operations Revenue & Pay Debt Service	$1.04283	$0.13944	$1.17877	$6,259	$5,941
Proposed Rate	$1.04300	$0.13,500	$1.17,800	$6,259	$5,946

* The Interest & Sinking Fund tax revenue is used to pay for bonded indebtedness on construction, equipment, or both.

The bonds and/or tax notes paid from property taxes were approved by the voters of this district.

Comparison of Proposed Levy with Last Year's Levy on Average Residence

	Last Year	This Year
Average Market Value of Residences	$ 128,327	$ 134,680
Average Taxable Value of Residences	$ 110,511	$ 114,865
Last Year's Tax Rate Versus Proposed Rate per $100 Value	$ 1.18	$ 1.17
Taxes Due on Average Residence	$ 1,304.32	$ 1,453.59
Increase (Decrease) in Taxes		$ 117.27

Under state law, the dollar amount of school taxes imposed on the residence homestead of a person 65 years of age or older or the surviving spouse of such a person, if the surviving spouse is 55 years of age or older when the person died, may not be increased above the amount paid in the first year after the person turned 65, regardless of changes in tax rate or property value.

Notice of Voter-Approval Tax Rate: The highest tax rate the district may adopt before requiring voter-approval at an election is $1.18. This election will be automatically held if the district adopts a tax rate higher than the voter-approval tax rate of $1.1969.

Fund Balances

The following estimated balances will remain in the I&S fund as of the end of the current fiscal year. These balances are estimated to be sufficient to make the next regularly scheduled debt service payment, which will be paid on the following dates:

Feb. 15 and Aug. 15	$2,268,750
Interest & Sinking Fund Balance	$ 200,000

Don't let summertime fun become a nightmare

Emergency room workers would just as well not see you but they also know that when the weather starts heating up, so do a host of health hazards that can quickly turn a festive day at the beach into a disaster. Here are the things that bring summer revelers into the emergency room most often -- and how you can enjoy the warm weather while escaping the same fate.

Boating Accidents

People's biggest mistake by far is drinking and boating. People get out there and drink alcohol all day in the sun, and you end up with the same accidents you have with driving -- with the added risk of falling out of boats, getting hit by propellers, and drowning.

It's also easy to get lax about life jackets. Kids need to have them on all the time. Even if having them under the seat fulfills the law, in an accident, chances are any one who doesn't know how to swim won't be able to get to them in time.

When you are going to be out on a boat or at the beach with a child, basic life-saving skills are a must, not a luxury.

You can find first aid, cardiopulmonary resuscitation (CPR), and other emergency life-saving courses near you with the American Heart Association's ECC (Emergency Cardiovascular Care) Class Connection tool online at americanheart.org.

Mower Injuries

Every homeowner loves the sight of a pristine, mostly mowed yard. But in their haste to get that lawn in shape, some people forget to take precautions.

To be safer:

Wear closed-toed shoes -- preferably with a steel toe -- when you mow, along with goggles or sunglasses, gloves, and long pants that will protect you from flying debris.

Keep kids away from the push mower and off the riding mower. Riding mowers are not just another ride-on toy.

Get a professional to service your mower or learn how to do it properly. Important: Disconnect the spark plug to prevent it from accidentally starting. Turning a push mower's blade manually can ignite the engine.

Dehydration Disasters

You've romped outdoors with the kids all day, and your water bottle ran dry long ago. Suddenly you feel dizzy and light-headed, and your mouth tastes like cotton. You're dehydrated -- meaning you haven't taken in enough fluids to replace those you've been sweating out.

People can get dehydrated any time of year, but it's much more common in the summer months, when they are active outdoors in the warm sun. Heatstroke is the most severe form of dehydration. That's when your internal temperature rises to dangerously high levels. Your skin gets hot, but you stop sweating. Someone with heat stroke may pass out, have hallucinations, or suffer seizures.

Preventing dehydration and heatstroke couldn't be easier. Drink plenty of fluids, especially water, take regular breaks in the shade, and try to schedule your most vigorous outdoor activities for times when the heat isn't so strong, such as early morning or late afternoon.

For persons suffering more serious dehydration or heatstroke, get them indoors, have them lie down, and cool them off with ice packs and cool clothes. Someone who is seriously affected by the heat may need intravenous fluids in the ER.

Sunburn Snafus

With all the skin cancer warnings, you'd think Americans would be getting fewer sunburns, not more. But you'd be wrong. The percentage of adults nationwide who got at least one sunburn during the preceding year rose from 31.8 percent in 1999 to 33.7 percent in 2004, according to the CDC.

Your risk for melanoma doubles if you've had just five sunburns in your life.

In addition to practicing "safe sun" -- wearing sunscreen that protects against both UVB and UVA rays, long sleeved shirts, and wide-brimmed hats; and staying out of blistering midday rays.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN; AMS SURCHARGE; AND NON STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 28, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non Standard Metering Service Fees. The style of this application is Docket No. 47816, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS in ETI and directed that if ETI elects to deploy AMS, it shall deploy them to such as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its Proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.16
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$304.60
Recurring monthly fee	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of any letter to the Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, or if the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

Pictured, from left, are Sarah Boehme, Rotary member; Brenna Manasco, Director of Library Services, Orange Public Library, and Mike White, Orange Rotary vice president, meet at Orange Public Library for book donation.

Rotary Club donates annual book to Orange Public Library

The Rotary Club of Orange, Texas has donated a book to the Orange Public Library, as part of its annual donations to the Library.

Rotary supports book acquisitions in honor of speakers at its meetings. Mike White, Vice President of Orange Rotary, presented a copy of the book Branding the American West: Paintings and Films, 1500-1950 to Brenna Manasco, Director of Library Services.

Branding the American West and other Stark Museums of Art projects were the topics of a talk to the Orange Rotary.

Sarah E. Boehme, curator, and Jennifer Restauri Dickinson, curator of education, presented background on the book, exhibition and educational programs.

The Rotary Board of Directors voted to purchase and donate a copy to the book to the Library in thanks for their presentation.

Each year the Orange Rotary gives three hundred dollars to the Orange Public Library to purchase books in honor of the speakers who give programs at Rotary.

Library staff members choose the publications. Speakers' names are inscribed in book plates in the selected books.

Orange Rotary is part of Rotary International, which brings together a global network of volunteer leaders dedicated to tackling the world's most pressing humanitarian challenges. Rotary connects 1.2 million members of more than 35,000 Rotary clubs in over 200 countries and geographical areas.

The network improves lives at both the local and international levels, from helping families in need in their own communities to working toward a polio-free world. Rotary supports education for all children and literacy for children and adults.

TPWD website or by phone at (800) 895-1218. Call center hours are Monday through Friday, 8 a.m. to 6 p.m. and there is a required $5 admin fee for each phone or online transaction. The online transaction system is available 24/7.

Hunting and fishing regulations for the new season can be found in the 2017-2018 Outdoor Annual, available in print form at license retailers, online and in the free Outdoor Annual mobile app available for Apple and Android devices.

In addition to a hunting license, anyone born after Sept. 1, 1971, must successfully complete a hunter education training course. Those under 17 and those 17 and older who purchase a one-time deferral license may hunt legally in Texas if accompanied by a licensed hunter 17 years or older who has passed hunter education or who is otherwise exempt. Accompanied means being within normal voice control. The TPWD Hunter Education certification is valid for life and is honored in all other states and provinces. More information on hunter education certifications is available online.

A Migratory Game Bird endorsement and Harvest Information Program (HIP) certification are also required to hunt dove. HIP certification involves a brief survey of previous year's migratory bird hunting success and is conducted at the time licenses are purchased.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.14
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees

Existing meter that meets applicable accuracy standards:	$142.95
Digital, non-communicating meter requested before AMS installed:	$157.05
Digital, non-communicating meter requested after AMS installed	$264.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn. Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77703.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

Orange County Drainage District
Notice of Public Hearing on Tax Rate

The Orange County Drainage District will hold a public hearing on a proposed tax rate for the tax year 2017 on September 5, 2017 at 10:00 a. m. at the OCDD Administration Building, 6081 Old Highway 90, Orange, Texas, 77630. Your individual taxes may increase or decrease, depending on the change in the taxable value of your property in relation to the change in taxable value of all other property and the tax rate that is adopted.

FOR the proposal	Kenneth Pigg J.B. Arrington Randy Fuselier	Hal LaPray Brent Pevato
AGAINST the proposal	None	
PRESENT and not voting:	None	
ABSENT:	None	

The following table compares taxes on an average residence homestead in this taxing unit last year to taxes proposed on the average residence homestead this year.

	Last Year	This Year
Total tax rate (per $100 of value)	$0.11126/$100	$0.11136/$100
	Adopted	Proposed
Difference in rate per $100 of value	$0.0000/$100	
Percentage increase/decrease in rates (+/-)	0.00000%	
Average appraised value	$105,910	$113,866
General exemptions available (excluding senior citizen's or disabled person's exemptions)	$21,182	$22,773
Average taxable value	$84,728	$91,093
Tax on average residence homestead	$94.27	$101.35
Annual increase/decrease in taxes if proposed tax rate is adopted (+/-) and percentage of increase (+/-)	$7.08 7.51%	

NOTICE OF TAXPAYERS' RIGHT TO ROLLBACK ELECTION

If taxes on the average residence homestead increase by more than eight percent, the qualified voters of the district by petition may require that an election be held to determine whether to reduce the operation and maintenance tax rate to the rollback tax rate under Section 49.236(d), Water Code.

NOTICE TO IMPLEMENT REVISED FIXED FUEL FACTOR

Entergy Texas, Inc. hereby publishes NOTICE that, pursuant to Section 36.203 of the Public Utility Regulatory Act (codified in Tex. Util. Code) and 16 Tex. Admin. Code § 25.235(b), it filed with the Public Utility Commission of Texas (the "Commission") on August 17, 2017 a tariff to implement a revised fixed fuel factor. All of Entergy Texas' retail customers whose fuel charges are calculated under the Texas fixed fuel factor tariff – including but not limited to Residential, Small General Service, Large General Service, Large Industrial Power Service, and Street and Outdoor Lighting Service – will be affected by the Commission's approval of the revised fixed fuel factor. The revised fixed fuel factor, if approved, will affect only the fuel portion of the rates charged by Entergy Texas and will have no effect on non-fuel base rates.

Entergy Texas seeks Commission approval to revise the fixed fuel factor effective with the first billing cycle of the September 2017 billing month. Entergy Texas proposed that the fixed fuel factor be changed pursuant to a semi-annual filing to be made each February and August, with revised fuel factors to be effective with the first billing cycle of the March and September billing months, pursuant to a methodology that changes the fuel factor based upon changes in the published price of natural gas. This methodology was authorized for use in Docket No. 32815.

The revised fixed fuel factor, differentiated by voltage level, is as follows:

Delivery Voltage	Fixed Fuel Factor
Secondary	$0.0302202 per kWh
Primary	$0.0294475 per kWh
69kV/138kV	$0.0287163 per kWh
230kV	$0.0282374 per kWh

The revised fuel factor would result in a decrease in Entergy Texas' annual Texas retail fuel and purchased power revenues by approximately $93.1 million, or 15%, on an annual basis. Compared to the fixed fuel factor approved by the Commission effective March 2017, a residential customer using 1000 kilowatt-hours (kWh) of electricity per month would see an approximate decrease of 15.1% annually, or $5.37 on average per month, on his/her electric bill. The fixed fuel factor rate is designed to pass through to customers the actual fuel costs incurred by Entergy Texas to serve customers. Entergy Texas is not allowed to make a profit on fuel costs. Amounts collected from affected customers pursuant to the revised fixed fuel factor will be subject to final review by the Commission in Entergy Texas' next applicable fuel reconciliation proceeding before the Commission. Entergy Texas expects the revised fixed fuel factor to be in effect for the billing period of September 2017 through February 2018.

Persons with questions or who want more information on this petition may contact Entergy Texas at Attn: Customer Service – Fuel Factor, 350 Pine Street, Beaumont, Texas 77701, or call 1-800-368-3749 (once you hear: "Welcome to Entergy" select option 1, then press 5, then press 7) during normal business hours. A complete copy of this petition is available for inspection at the address listed above.

The Commission has assigned Docket No. 47520 to this proceeding. Persons who wish to formally participate in this proceeding, or who wish to express their comments concerning this petition should contact the Public Utility Commission of Texas, Office of Customer Protection, P.O. Box 13326, Austin, Texas 78711-3326, or call (512) 936-7120 or toll-free at (888) 782-8477. Hearing-and speech-impaired individuals with text telephones (TTY) may call (512) 936-7136 or use Relay Texas (toll-free) 1-800-735-2989.

ENTERGY TEXAS, INC.

NOTICE OF ADVERTISEMENT FOR BIDS

PROJECT: PORT OF ORANGE - ALABAMA STREET AND WATER TOWER ROAD REPAIRS

OWNER: Orange County Navigation and Port District, dba Port of Orange

Location: Port of Orange Administration Building
1201 Childers Road
Orange, Texas 77630

BID DEADLINE: Thursday, September 7, 2017 at 10:00 A.M., Local Time
Location: Port of Orange Administration Building
1201 Childers Road
Orange, Texas 77630

BID OPENING: Thursday, September 7, 2017 at 10:05 A.M. Local Time
Location: Port of Orange Administration Building - Boardroom
1201 Childers Road
Orange, Texas 77630

SEALED BIDS in duplicate, clearly marked and addressed to Port of Orange Attention: Alabama Street and Water Tower Road Repairs, Project Administrator, Orange County Navigation and Port District (the "Owner") will be received at the Port of Orange Administration Office, 1201 Childers Road, Orange, Texas, 77630 until 10:00 A.M., local time on Thursday, September 7, 2017; and then publicly opened and read aloud in the Port of Orange Administration Office Boardroom, 1st Floor, for "Alabama Street and Water Tower Road Repairs". Bids received after 10:00 A.M., local time will be returned unopened. Project is located in Orange County, Texas along Alabama Street and Water Tower Road.

The Alabama Street and Water Tower Road Repairs Project consists of a BASE BID and BID ALTERNATE consisting of the furnishing of all materials, equipment, tools, labor, supervision, services, and performance of operations in connection with the construction. The BASE BID consists of rehabilitation of 1,620 feet of Alabama Street and 300 feet of Water Tower Road including grinding of the existing asphalt and 2-inch hot mix asphalt surface on Alabama Street. Work for the BASE BID also includes removal of areas of existing asphalt, installation of subbase, gravel, grading and compaction, placement of a 1" chip seal (2 layers) on Water Tower Road. The BID ALTERNATE consists of rehabilitation of 2,300 feet of Alabama Street and 700 feet of Water Tower Road including placement of gravel base course over portions of the existing roadway, grinding of the existing asphalt and a 3 ½ inch hot mix asphalt surface on Alabama Street. Work for the BID ALTERNATE also includes removal of areas of existing asphalt, installation of subbase, gravel, grading and compaction, placement of 1 inch hot mix asphalt surface, cleaning and grading of the existing ditch and placement of erosion mat and riprap on Water Tower Road. Bids are to also include any other work associated with the road repairs located at the Port of Orange as more specifically set forth in the Alabama Street and Water Tower Road Repairs Project Construction Plan released by the Port of Orange dated July 2017 ("Alabama Street and Water Tower Road Repairs").

A mandatory Pre-Bid Conference will be held at the Port of Orange Administration Office located at 1201 Childers Road Orange Texas 77630 at 10:00 A.M. local time on Thursday, August 24, 2017. All prime contractors are required to be in attendance at the Pre-Bid Conference. Overviews pertaining to the project and bidding procedures will be discussed. The bid packets will be available at the mandatory pre-bid conference and a job site inspection will be offered to interested attendees.

Each bid shall be accompanied by a CERTIFIED or CASHIER'S CHECK, payable without recourse to the order of the Orange County Navigation and Port District, or a BID BOND for at least five percent (5%) of the total amount bid, and the bid bond or banking company issuing the same shall be responsible therefore to the Orange County Navigation and Port District in the event such successful bidder shall fail or refuse to enter into proper contract therefore or shall fail or refuse to furnish bond as therefore required by law and as hereafter mentioned within ten (10) days afternoon (after) NOTICE of AWARD. If a surety of all except the three (3) lowest responsible Bidders will be returned when award is made; when the contract is executed, the surety of the two (2) remaining unsuccessful Bidders will be returned; that of the successful Bidder will be returned when formal contract, bonds and insurance are approved, and work has commenced within the time specified.

The successful bidder must furnish PERFORMANCE and PAYMENT BONDS on the forms furnished with the bid documents, in the amount of one hundred percent (100%) of the total contract price. All insurance companies issuing PERFORMANCE and PAYMENT BONDS and any reinsurance companies utilized by such insurance companies, in order to issue PERFORMANCE and PAYMENT BONDS to the Owner, shall have at least an "A" rating according to the Best's Key Guide and must be authorized to transact business in Texas. Additionally, such insurance companies shall be on the current list of "Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and as Acceptable Reinsuring Companies" as published in Circulars 570 (as amended) by the Audit Staff, Bureau of Government Financial Operations and United States Treasury Department.

Bidder is hereby advised that the work shall be subject to equal employment opportunity requirements, local prevailing wage rates, and Executive Order No. 11246 as amended. In performance with applicable statutes, the general prevailing wage rates in the locality in which the work is to be performed have been ascertained, and such rates shall be minimum paid for labor employed upon this project.

In accordance with Texas State law, including Local Government Code Chapter 176, each BIDDER MUST COMPLETE AND SUBMIT WITH ITS BID A COPY OF THE VENDOR'S CONFLICT OF INTEREST QUESTIONNAIRE CONTAINED IN THE PLANS AND SPECIFICATIONS.

The Owner is a sales tax-exempt government entity. A sales tax exemption notice will be issued to the Contractor when the contract is awarded in order that he does not have to pay sales taxes on labor and/or materials utilized in or consumed in connection with the Owner's project.

The Contractor performing this contract must issue to his suppliers an exemption certificate in lieu of the tax, said exemption certificate complying with all applicable State Comptroller's rulings along with a copy of the sales tax exemption notice issued to him by the Owner.

The Orange County Navigation and Port District reserves the right to reject any or all bids and to waive informalities in bidding to the fullest extent permitted by law. In case of ambiguity or lack of clearness in stating the price in any bid, the OWNER reserves the right to consider and accept the most advantageous construction thereof, or to reject the bid.

For inspection of the existing roadways contact Gene Boudreaux, Port Director and CEO at (409) 883-4363. For technical information, including drawings and specifications for the requested repairs and work, contact Charles Caraway, PE, Collins Engineers, Inc., at (757) 873-0251. The Port of Orange reserves the right to reject any and all bids and waive any formalities.

Horoscopes for the week

ARIES – Mar 21/Apr 20
Aries, help out around the house or the office this week and the effort will benefit both you and the people with whom you interact. Reinforce close relationships.

TAURUS – Apr 21/May 21
Taurus, when you set your mind to something, the results are often spectacular. Stick with what you have been doing of late and keep enjoying the great results.

GEMINI – May 22/Jun 21
Change may be all around you this week, Gemini. You may not be overly excited about all the things that are unfolding, but realize this change of pace is essential to your career.

CANCER – Jun 22/Jul 22
Cancer, if you are willing to put in extra effort this week, the results will be well worth it. Hunker down and commit to going the extra mile in the days ahead.

LEO – Jul 23/Aug 23
Leo, romance is on your mind, so you have to make sure you get together with that special person in the next few days. Otherwise, the mood may pass.

VIRGO – Aug 24/Sept 22
Virgo, a surprise visit from a friend or family member lifts your spirits in the coming days. Enjoy this chance to catch up and share a few laughs with a loved one.

LIBRA – Sept 23/Oct 23
Libra, unless someone helps you focus your focus, your energy is bound to spread all over the place. Find a friend who can keep you on the right track.

SCORPIO – Oct 24/Nov 22
Scorpio, expect to expend a lot of energy this week if you want the job to get done correctly. You're not one for slacking, so this shouldn't be a problem.

SAGITTARIUS – Nov 23/Dec 21
Focus on the bigger picture, Sagittarius. With the end goal in mind, you can better map out the steps that need to be taken to get to the finish line.

CAPRICORN – Dec 22/Jan 20
Serve as a sounding board and let a friend vent his or her frustration without interrupting, Capricorn. Your patience and willingness to listen will be noted and appreciated.

AQUARIUS – Jan 21/Feb 18
Many people need your help, Aquarius. Direct all of your good energy toward assisting others for the time being. This help will eventually be reciprocated.

PISCES – Feb 19/Mar 20
Pisces, you need to figure out how to turn great ideas into work. Ask help regarding that will earn you some money. Start drafting that plan.

Public Notices

The CITY OF CORRIGAN will hold a meeting at 06:00 PM on August 15, 2017 at 101 W Den Franklin ST, Corrigan, TX 75939 to consider adopting a proposed tax rate for tax year 2017. The proposed tax rate is $ 0.406100 per $100 of value.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$47.41
Large General Service	$496
Large Industrial (non-transmission only)	$4,458

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service for residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.130 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, PO Box 2951, Beaumont, Texas 77704 or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, PO Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

"The making of a 'Mean Green' champion".....continued from page one

I honestly don't have a lot to say about those schools but I am grateful for them giving me a chance to further my career.

Any advice about recruiting or the recruiting process that you might want to pass on to other student athletes?

I would say to other athletes to enjoy the process and not to worry yourself on being recruited because as long as you take care of business on and off the field meaning in the class room as well you will be found

Why did you decide to go with UNT?

I decided to go to UNT because it felt like home Everything is relatively close to one another and the people there treat you like family and not just another athlete at UNT.

What is this new "leadership council" that you were selected to and what do you guys do?

I was recently selected to the leadership council for our team and am the youngest player on the council. This council was selected by our head strength and conditioning coach and you were selected based upon your work ethic and leadership skills. To be a part of this council means that you are a leader on the team and know how to work hard and are the standard for the team. There are 12 members on this council and we are all labeled as compelled by our coaching staff.

We make decisions for the rest of the team and are the first guys selected to speak on the behalf of our team. We are the guys that are present at any of the functions that require the presence of football players It is a great honor to be a part of this council. It means a lot to me to see my hard work and effort being noticed by the people around me.

What do you believe sets you apart from the rest?

My determination to get better and my work ethic sets my apart from the rest. Many people also don't love the game like I do. I wake up every day excited to work and play the game I love.

Your great smile and attitude says volumes about you and your personality. What do think they say about you?

Every day I get told by people at UNT that it is amazing how I can keep a smile on my face through the good times and the bad. They say they wish they could be more like me. They say I enlighten the mood of people around me without even knowing it just by my presence and the positive vibe I carry with me.

"I wake up every day excited to work and play the game I love."– LaDarius "Hambone" Hamilton

Where do you see yourself in five years?

In five years I see myself on the highest stage. The NFL is within reach and I am working every day to achieve that goal of mine.

****

We also asked Hambone's proud parents a few questions about their son's "awesomeness" and to share their insight and memories.

Is there something you can share about parenting skills?

Kim: As a parent I feel that you should always be your child's parent first and friend second. I am no better than the next parent. I was raised old school and that's how I chose to raise my children because it provided structure, discipline, responsibility and respect.

Carlous: I tried to make sure all my kids had the tools they needed to be successful.

Were you an "in your face" mom and dad making sure to know where, when, how, and what your kids are doing at all times?

Kim: Yes, that's exactly the type of parent I was. My children understood my reasoning behind being that type of parent. Not that I didn't trust them because I did. Anything can happen at any given moment and not knowing where when how and what they were doing makes your job as a parent harder. You have to know the type of people your children are going to be hanging out with on a daily basis. I always asked my children about their friends. They may not have liked all the questions or they have thought I was a mean parent not wanting them to experience life but now as young adults I'm sure they are very appreciative of the way I raised them. I have always told my children that the things you do in life don't just go away they can and will follow you into adulthood and cause you to miss out on opportunities or things that you really had plans on doing when they became older. It's like the old saying says "Trouble is easy to get into but hard to get out of". My children heard me say that a lot. I love my kids more than anything and only want what's best for them.

Carlous: Yes,I would check on him cause trouble is easy to find.

Anything you would like to state about helping a young man or woman finding the right school and hopefully right professional team to play for?

Kim: I can speak from what it took to get my child to where he is now. It was a huge sacrifice for me and his dad. Once we saw that he was the type of athlete he was we began putting him in camps when he was in 8th grade. From little league up until he graduated he showed us that he was very passionate about every sport he played and that's why we made the sacrifices we did investing in his future. We never allowed him to quit or give up. To any child that is wanting to pursue their dreams of playing at the college level of any sport you have to want it and have it in your heart that that is what you want to do. It's not easy and there will be times you want to just through in the towel but you have to hang in there no matter what.

La'Darius as a young pee wee football. *Courtesy of Kim Benjamin*

You as a parent you have to expose your child and make sure your child does his/her school work and make good grades. Your child also has to be coachable, respectful and well mannered. You have to have conversations about what it is they want to do in life at a young age and if they continue to give you the same answer then start looking into how you can assist them in reaching that goal in their life. We all know that children change their minds a lot. No matter what mistakes your child may make in life you can always redirect them sometimes it takes tough love to keep a child on the right path.

Carlous: Always stay positive don't give up on your decision

Hambone was recently picked to be on the leadership council. How did this make you feel?

Kim: La'Darius being chosen to be a part of the leadership council was a very exciting moment for us as his parents. We are very proud of him and all of his accomplishments thus far. La'Darius is a great motivator and always willing to help others. He has always demonstrated his dedication and love for the game. He keeps a positive attitude win or lose. He's assertive and is willing to listen and his team is always a priority. They are his "family". We are very proud of him.

Carlous: Very supportive and proud.

Any last words of wisdom about parenting?

Kim: Parenting is never easy and doesn't come with a manual. Honestly all I can say is trust your instincts more than what others will tell you is the right thing to do for your child. Being a parent requires you to have lots of patience Your kids will not always be happy with you. You have to say NO to certain things they feel they should be able to do but stick with it. Being your child's biggest FAN is the most important because when they know they can count on you to be there cheering for them from the stands or whatever it is they may be doing really means a lot to them. Always, always love your child no matter what.

I was raised in the church and I made sure that my children were as well. La'Darius loves being a Christian and understands what it means to be a Christian. One of his favorite scriptures is Philippians 4.13 " I can do all this through Christ who strengthens me" and that is where he gets his determination for excellence knowing that as long as he keeps God 1st as the head of his life "the sky is the limit" he can accomplish anything he sets his mind to. He also understands how and what it means to pray and trust in God

Carlous: Never let him give up on himself.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non Standard Metering Service Fees. The style of this application is Docket No. 47486, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as Provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.48

After the first five years of the surcharge is paid, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or who are metered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.85
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc. Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

PUBLIC NOTICES

NOTICE TO IMPLEMENT REVISED FIXED FUEL FACTOR

Entergy Texas Inc. hereby publishes NOTICE that, pursuant to Section 36.203 of the Public Utility Regulatory Act (codified at Tex. Util. Code Ann.) and 16 Tex. Admin. Code § 25.235(b), it filed with the Public Utility Commission of Texas (the "Commission") on August 17, 2017 a tariff to implement a revised fixed fuel factor. All of Entergy Texas' retail customers whose fuel charges are calculated under the Texas fixed fuel factor tariff – including but not limited to Residential, Small General Service, Large General Service, Large Industrial Power Service, and Standard Outdoor Lighting Service – will be affected by the Commission's approval of the revised fixed fuel factor. The revised fixed fuel factor, if approved, will affect only the fuel portion of the rate charged by Entergy Texas and will have no effect on non-fuel base rates.

Entergy Texas seeks Commission approval to make the fixed fuel factor effective with the first billing cycle of the September 2017 billing month. Entergy Texas proposed that the fixed fuel factor be changed pursuant to a semi-annual filing to be made each February and August, with revised fuel factors to be effective with the first billing cycle of the March and September billing months, pursuant to a methodology that changes the fuel factor based upon changes in the published prices of natural gas. This methodology was authorized for use in Docket No. 32915.

The revised fixed fuel factor, differentiated by voltage level, is as follows:

FACTOR BY VOLTAGE LEVELS		
Delivery Voltage	Fixed Fuel Factor	
Secondary	$0.0302202	per kWh
Primary	$0.0294475	per kWh
69kV/138kV	$0.0287153	per kWh
230kV	$0.0282374	per kWh

The revised fuel factor would result in a decrease in Entergy Texas' annual Texas retail fuel and purchased power revenues by approximately $103.1 million, or 15% on an annual basis. Compared to the fixed fuel factor approved by the Commission effective March 2017, a residential customer using 1000 kilowatt-hours (kWh) of electricity per month would see an approximate decrease of 15.1% annually, or $5.37 on average per month, on his/her electric bill. The fixed fuel factor rate is designed to pass through to customers the actual fuel costs incurred by Entergy Texas to serve customers. Entergy Texas is not allowed to make a profit on fuel costs. Amounts collected from affected customers pursuant to the revised fixed fuel factor will be subject to final review by the Commission in Entergy Texas' next applicable fuel reconciliation proceeding before the Commission. Entergy Texas expects the revised fixed fuel factor to be in effect for the billing periods of September 2017 through February 2018.

Persons with questions or who want more information on this petition may contact Entergy Texas at Attn: Customer Service – Fuel Factor, 350 Pine Street, Beaumont, Texas 77701, or call 1-800-368-3749 (once you hear "Welcome to Entergy" select option 1, then press 5, then press 7) during normal business hours. A complete copy of this petition is available for inspection at the address listed above.

The Commission has assigned Docket No. 47520 to this proceeding. Persons who wish to formally participate in this proceeding, or who wish to express their comments concerning this petition should contact the Public Utility Commission of Texas, Office of Customer Protection, P.O. Box 13326, Austin, Texas 78711-3326, or call (512) 936-7120 or toll free at (888) 782-8477. Hearing and speech-impaired individuals with text telephones (TTY) may call (512) 936-7136 or use Relay Texas (toll-free) 1-800-735-2989.

ENTERGY TEXAS, INC.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47486, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that ETI elect to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$1.79
General Service	$1.74
Large General Service	$1.06
Large Industrial (non-transmission only)	$4.98

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 thereon for the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, PO Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their request to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, PO Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

PUBLIC NOTICES

PUBLIC NOTICE

Without public notices in the newspaper, you're left guessing.

Public notice is your right to know about the issues that directly affect your life. And, you can easily find public notices in your local newspaper. Without public notices in the newspaper, you're left to guess about what the government is doing in your community and how elected officials are spending your tax dollars.

Your local newspaper fulfills an essential role in serving your right to know. After all, it shouldn't be your responsibility to know how to look ... where to look ... when to look ... and even what to look for in order to be informed about public information. It is the government's responsibility to notify you of public information, and your local newspaper is the most accessible place to find it.

PUBLIC NOTICES IN NEWSPAPERS.
Where public information is accessible to the public.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$1.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service for residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$201.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees The style of this application is Docket No. 47416. *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows

Residential	$3.18
Small General Service	$4.20
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $000 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.130 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards.	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed.	$204.60

Recurring monthly fee: $29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, PO Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their request to intervene or their comments (along with 10 copies of your letter) to Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, PO Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-1477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136

PUBLIC NOTICES

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$47.4
Large General Service	$419.6
Large Industrial (non-transmission only)	$458

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.130 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

ATTORNEY FOR INDEPENDENT EXECUTOR

NOTICE TO IMPLEMENT REVISED FIXED FUEL FACTOR

Entergy Texas, Inc. hereby publishes NOHCE that, pursuant to Section 36.203 of the Public Utility Regulatory Act(codified in Tx .. Utn. Code)and 16 Tex Admin Code § 25.235(h), it filed with the Public Utility Commission of Texas (the' Commission")on August 17, 2017 a tariff to implementa revised fixed fuel factor All of Entergy Texas' retail customers whose fuel charges are calculated under the Texas fixed fuel factor tariff including but not limited to Residential, Small General Service, Large General Service, Large Industrial Power Service, and Street and Outdoor Lighting Service – will be affected by the Commission's approval of the revised fixed fuel factor. The revised fixed fuel factor, if approved, will affect only the fuel portion of the rates charged by Entergy Texas and will have no effect on non-fuel base rates.

Entergy Texas seeks Commission approval to revise the fixed fuel factor effective with the first billing cycle of the September 2017 billing month Entergy Texas proposed that the fixed fuel factor be changed pursuant to a semi-annual filing to be made each February and August, with revised fuel factors to be effective with the first billing cycle of the March and September billing months, pursuant to a methodology that changes the fuel factor based upon changes in the published price of natural gas This methodology was authorized for use in Docket No 32915

The revised fixed fuel factor, differentiated by voltage level, is as follows

FACTOR BY VOLTAGE LEVELS	
Delivery Voltage	Fixed Fuel Factor
Secondary	$0.0302202 per kWh
Primary	$0.0294475 per kWh
69kV/138kV	$0.0287153 per kWh
230kV	$0.0283374 per kWh

The revised fuel factor would result in a decrease in Entergy Texas' annual Texas retail fuel and purchased power revenues by approximately $93.4 million, or 15% on an annual basis. Compared to the fixed fuel factor approved by the Commission effective March 2017, a residential customer using 1000 kilowatt-hours (kWh) of electricity per month would see an approximate decrease of 15.1% annually, or $5.37 on a usage per month, on his/her electric bill. The fixed fuel factor rates designed to pass through to customers the actual fuel costs incurred by Entergy Texas to serve customers Entergy Texas is not allowed to make a profit on fuel costs Amounts collected from affected customers pursuant to the revised fixed fuel factor will be subject to final review by the Commission in Entergy Texas' next applicable fuel reconciliation proceeding before the Commission Entergy Texas expects the revised fixed fuel factor to be in effect for the billing period of September 2017 through February 2018

Persons with questions or who want more information on this petition may contact Entergy Texas at Attn: Customer Service - Fuel Factor, 350 Pine Street, Beaumont, Texas 77701, or call 1-800-368-3749 (once) on hear "Welcome to Entergy" select option 1, then press 5, then press 7)[during normal business hours A complete copy of this petition is available for inspection at the address listed above

The Commission has assigned Docket No 47520 to this proceeding Persons who wish to formally participate in this proceeding, or who wish to express their comment on, concerning this petition should contact the Public Utility Commission of Texas, Office of Customer Protection, P O Box 13326, Austin, Texas 78711-3326, or call (512) 936-7120 or toll-free at (888) 782-8477. Hearing and speech-impaired individuals with text telephones (TTY) may call (512) 936-7136 or use Relay Texas (toll-free) 1-800-735-2989

ENTERGY TEXAS, INC

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees The style of this application is Docket No 47486, *Application of Entergy Texas Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25 130 In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to shift or manage energy use and control costs ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan The proposed AMS Surcharge would be in place for twelve years ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows

Residential	$3.18
Small General Service	$4.79
General Service	$17.41
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be 50.00 per month ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25 133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.05
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc, Attn Customer Service – AMS Application, PO Box 2951, Beaumont, Texas 77701 or call 1-800 368 3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701

Persons who wish to intervene in or is proceeding or comment upon the action s ught, should mail their requests to intervene or their comments (along with 10 copies of your letter) to Public Utility Commission of Texas, Central Records, Attn Filing Clerk, 1701 N Congress Avenue, PO Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in it is proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that d,ate Further information may also be obtained by contacting the Public Utility Commission at (512)9 36-7120 or (888) 782-8477 Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47486, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting *its application for Commission review and approval consistent with the support and direction* of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.88
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmissiononly)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates *listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into* effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.130 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc. Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

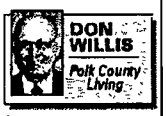
Local woman's death will be felt by many



"The fear of the Lord is the beginning of knowledge; fools despise wisdom and instruction."– Proverbs 1 7.

"Trust in the Lord with all your heart, and do not rely on your own insight. In all your ways, acknowledge him, and he will make straight your paths. Do not be wise in your own eyes; fear the Lord, and turn away from evil. It will be healing for your flesh and refreshment for your soul." –Proverbs 3 5-8

Last week, I was asked to give encouraging words in the worship service for Mary Hazel Jones Landers at the Cochran Funeral Home. My wife Joyce and I had formed a great relationship with Mary Hazel. Joyce said to me so many times, "We need to go by the store." I would ask, why. Joyce replied, "We are not going to see Mary Hazel empty handed." The last years of her life, Mary Hazel had a serious illness, so she was in a nursing home. Before her illness, Mary Hazel had an active life.

Joyce and I enjoyed making trips with her. We enjoyed the activities of our church. We kept up with her through her brother and his wife, Wanl and Billie Jones. Her niece Mary Beth Wood was her chief caregiver. Mary Beth, who is Wanl and Billie's daughter, is married to Brother Kevan Wood, minister of music at the First Baptist Church of Livingston. The Jones family and the Wood family are kind people

Mary Hazel worked as a lifetime employee of the State of Texas as a librarian. Her last working years, she served as head high school librarian for the Texas City High School. She joined the First United Methodist Church of Livingston after she retired. She knew our son Rev. Fred Willis who was her pastor at the First United Methodist Church of Texas City. She endeared herself to me because she gave glowing reports of Fred's work there.

Mary Hazel loved to read and encouraged others to read. There was a group of ladies whom met regularly. Mickey Bennett was part of that group. They were always inviting, if it only was to Lufkin. Mary Hazel was a Christian woman who had a sense of humor and who was wise. We will all miss her.

It is hard to believe that both college and public schools will soon begin. Senator Robert Nichols announced that we need to mark our calendar for this year's sales tax holiday, Aug. 11-13. The law exempts most clothing, footwear, school supplies and backpacks priced under $100 from sales and use taxes. It is quite a bit of saving for families.

I am a great believer in the power of the Holy Spirit. God with us and in us. God answers prayer. The Holy Spirit helps to do things we could not do on our own. One of the things that bothers me is when politicians try to take too much credit for what God is doing. The resounding defeat of the health program is a wakeup call from God. It is time for Republicans and Democrats to work together for the good of the American people. God is the God of all the nations. God is the leader of this nation. People are not willing for God to lead us. We need to listen more.

We are praying that God will bless and favor you in his plan. God bless America! God save America! Lord, deliver us from this heat. We hope that you will have a great summer.

Voice contest auditions set Sept. 9 & 16

LIVINGSTON – Auditions for the Polk County Super Star voice competition will be held on Saturday, Sept. 9, and Saturday, Sept. 16 starting at noon at The Bradford at Brookside on W. Park Drive behind the CHI St. Luke's Health Memorial hospital.

The audition entry fee is $25. The competition winner will receive a $500 prize. The competition will be held at 7 p.m. Saturday, Oct. 7, at the Livingston Intermediate School.

The voice competition is being held as fund raising event for Polk County R.E.A.D., the local branch of Dolly Parton's Imagination Library, which provides free, age-appropriate books to children from birth to the age of five.

For more information go to READpolkcounty.com; call Brenda at 936-328-5021 or email READPolkCounty@gmail.com. To enter the competition sign up at the Milam Street Coffee Shop and Bakery in downtown Livingston or call Brenda at 936-328-5021.

Sheriff's sale set for September

NOTICE OF SHERIFF'S SALE (REAL ESTATE)

BY VIRTUE OF A EXECUTION issued out of the 411th District Coun of Polk County, Texas, in a certain cause numbered CIV30268. On the 10th day of July A.D. 2017, styled: Lake Livingston Village Improvement Association, Inc. vs Kenneth Ison, to me, as Deputy directed and delivered, I have levied upon this 14th day of July A.D. 2017 and will between the hours of 10:00A.M and 4:00 P.M. at approximately 10.45 o'clock am., on the first Tuesday in September A.D. 2017, it being the 5th of said month, at Polk County Courthouse of said Polk County, proceed to sell at public auction to the highest bidder, for cash in hand, all right, title and interest, if any, which the defendant had on the 14th day of July A.D. 2017, or at any time thereafter, of and in the following described property. Lot 22 being 0.0688 acres, Lot 25 being 0.0659 acres, Lot 26 being 0.0688 acres of Section 5 of the Lake Livingston Village Subdivision, Polk County, Texas and further described according to the plat or map recorded in the office of the Polk County Clerk, Polk County, Texas.

Said property is levied on as the property of Kenneth Ison and will be sold to satisfy the judgment for $11,540.32 Dollars. NOTICE: This property may have other liens, taxes due or encumbrances, which may become the responsibility of the successful bidder.

GIVEN UNDER MY HAND on this 14 day of July A.D. 2017. Kenneth Hammack, Sheriff Polk County, Texas
By:/s/ Gary Wright, Deputy

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47436, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the networks rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be 50.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service for residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of our letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

BULLETIN BOARD

Special run honors fallen military heros

HEMPSTEAD -- People run for a variety of reasons including exercise, fresh air or just for fun. Others run to remember.

The Watermelon Run for the Fallen is a run for all, including friends and family, to remember those who have given their lives in their dedication to our country's freedoms and our protection. This run, held every August in Hempstead, has become the nation's largest 5K walk/run/roll dedicated to recognizing the sacrifices of the military members of all branches lost because of current conflicts around the world.

This year's event is scheduled for Saturday, Aug 19, starting at Hempstead High School.

It is an opportunity for everyone to join hands and hearts in showing appreciation for the military members who have given the ukimate gift for American freedoms and it is an opportunity for all to show the friends and families of those fallen that we care about their own grief in their loss.

Pam Moore of Livingston understands that loss more than others. Her son, PFC Stuart Moore, was serving in the Army for the defense of his country in Iraq when, in 2003, an IED (improvised explosive device) took his life. While attending the Watermelon Run for the Fallen one year, the Moores were presented with a small statue showing a rifle and army boots which now has the place of honor in front of Pam's business, Moore Travel where she works as travel agent and owner.

Pam has served the Livingston community as a travel agent for almost 30 years and still loves her job.

"I love helping people create memories," she stated. She knows her clients and helps them to select the dream vacations that will best meet their dreams. "I know the ins and outs as well as the current promotions and great deals. I also serve my clients by being their problem-solving connection while they are on vacation. After they return home, I always follow up with them to see how they enjoyed their time away and if there was anything that I could have done better."

Near her desk on the wall is the picture of her son in military uniform, overseeing her daily activities.

Pam has also helped to begin an event in Livingston to remember her son in April of every year, the month of his birth, called the Freedom Climb which commemorates Stuart's love of climbing. Here anyone over 9 years of age can experience the climbing tower, the zip line, the inclined log, and the multi-line traverse. For the younger set, there are blow up toys, face painting, field games, and other activities.

More than anything, Mrs. Moore wants citizens to remember that freedom isn't free -- some gave their lives for the freedoms that are enjoyed everyday in this country. And they deserve to be remembered for that huge personal sacrifice.

For more information about the Hempstead Watermelon Run for the Fallen held in August of each year, go to http://watermelonrftf.org/

For more information about the Freedom Climb held in April of each year, go to https://www.facebook.com/

Fruit and vegetable conference planned

OVERTON -- The annual East Texas Fruit and Vegetable Conference will offer pmfessional and amateur producers tips on everything from production and marketing to critter and pollinator management.

The event will be Aug. 18 at the Texas A&M AgriLife Research and Extension Center, 1710 Farm-to-Market Road 3053, Overton. There is a $30 fee for individuals and $50 for couples. The deadline to register is Aug. 11. There is an additional $5 charge for late registration.

The program offers five Texas Department of Agriculture continuing education units including three general and two integrated pest management.

Registration for the Texas A&M AgriLife Extension Service program begins at 7:30 a.m. followed by sessions starting at 8:30 a.m. Lunch and snacks are included.

On-site registration with cash or checks is accepted. To pre-register, please make checks to "East Texas Fruit and Vegetable Conference" and mail to Chad Galley, AgriLife Extension office Smith County, 1517 W. Front St., Room 116, Tyler, Texas 75702.

Speakers and topics include:

– Dr. Joe Masabni, AgriLife Extension small-acreage horticulturist, Overton, Garden Disease Identification.

– Keith Hansen, retired AgriLife Extension horticulturist, Smith County, Critter Management.

– Dr. George Philly, retired AgriLife Extension plant pathologist, Overton, Peach Production.

– Dr. Dave Creech, director of Stephen F. Austin University Gardens, Nacogdoches, Tree Fruit and Berry Production.

– Dawn Stover, research associate, Mast Arboretum, Stephen F. Austin State University, Pollinator Management.

– Monte Nesbitt, AgriLife Extension program specialist – horticultural sciences, College Station, Cover Crops for Fruit Trees.

The sessions will be followed by a tour of Masabni's aquaponic greenhouse.

Masabni said the event was organized to meet the growing demand for information about fruit and vegetable production for home gardeners and established commercial growers.

"It's a wonderful opportunity to learn some tips and tricks from our specialists and growers on how to be successful," he said. "It's a chance to see what successful producers are doing to grow better quality and quantities of fruit and vegetables and how to safely manage critters and, most importantly, pollinator health."

Back-to-school movie, dinner hosted by church

LIVINGSTON -- The Beacon Bay Baptist Church will host a back-to-school movie night at 6 p.m. Sunday, Aug. 13.

A dinner will be served and will be followed by the movie "God's Club."

Door prizes will be given away to anyone who memorizes Mark 11:25 or brings a friend.

The church is located at 7249 FM 3126 at FM 350 South. For information call 936-967-0445.

The public is invited to attend and make comment.

Signed the 26th day of July, 2017. /s/ Kaycee Jones
Kaycee Jones, 411th District Judge, PRESIDING ADMINISTRATIVE JUDGE

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47446, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge are listed as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.98

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service for residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

Tomato trials reveal fertilization is key to success

OVERTON—Statewide tomato trials revealed a fertilization program can help plants reach their production potential, in some locations over 30 pounds of fruit per plant, said a Texas A&M AgriLife Extension Service specialist.

Dr. Joe Masabni, an AgriLife Extension small-acreage horticulturist in Overton, has concluded his 2017 tomato trial investigating grafted versus non-grafted plants and fertilization programs pertaining to yields.

Comparable trials were conducted by specialists in College Station, Lubbock, Uvalde and Weslaco.

Masabni said the research indicates commercial producers and home gardeners can improve yields by implementing fertilization programs and by grafting plants.

The trial included two tomato varieties – DANI' Hot, which was developed as a heat-tolerant summer variety, and Tycoon, a 2011 Texas Superstar variety, Masabni said.

Varieties were grafted with Estamino and Multifort rootstock for their disease-resistance characteristics.

Masabni said grafting is usually done to prevent soil diseases from stunting or killing susceptible tomato varieties.

"Grafting certainly helped the tomatoes' performance," he said. "I was pleasantly surprised to see that grafting improved yields in those two varieties."

Tycoon without grafts produced 13 pounds of tomatoes per plant during the growing season, he said. Grafted Tycoons produced 18 pounds per plant on Multifort root stock and 20 pounds per plant on Estamino.

Similar yield trends were tracked at the other trial locations, Masabni said.

The most important aspect of tomato production is fertilization, he said.

Masabni said tomatoes can require twice as much fertilization as squash or cucumbers each season.

"Tomato production can be tricky because they are heavy feeders," he said. "They require a lot of fertilizer to reach their potential."

By providing the correct amounts of nitrogen, potassium and phosphorous at the right development stage for the plant, Masabni said producers should expect 20 pounds of tomatoes per plant at minimum.

For optimal production, Masabni recommends 150 pounds of nitrogen, 80 pounds of potassium and 100 pounds of phosphorous per acre per season. He also recommends fertilizing every 10 days and basing fertilizer selection on the plant's production stage.

"Using different fertilizers at different stages of growth can help the plant reach its maximum potential," he said.

For example, Masabni said pre plant starter fertilizer is high in phosphorus, which encourages root development for seedlings. Triple 10 or Triple 13 fertilizer is more good for vegetative growth. Flowering plants need additional calcium nitrate, which prevent blossom end rot, and potassium, which helps with fruit development, taste, luminescence and ripening.

A good source of calcium nitrate is eggshells, Masabni said. Grind one eggshell per plant to a powder and add vinegar to the powder overnight. The vinegar-eggshell solution promotes faster absorption of calcium by the plant.

"Just remember that N is for leaves, P is for roots and K is for fruit," he said.

Producers can complete the fertilization regimen two to three weeks before the growing season ends if the plants appear to have one more harvest left, Masabni said.

Another important production practice is tracking yields and making notes of how the plants perform under the fertilization program.

Masabni said many gardeners do not track yields and are content with whatever the plants produce.

"Some gardeners are happy with 10 pounds of tomatoes per plant," he said. "But they shouldn't be content. I was happy with 20 pounds per plant, but other researchers at other locations were getting double that amount, so I know I can do better."

Voice contest auditions planned

LIVINGSTON -- Auditions for the Polk County Super Star voice competition will be held on Saturday, Sept. 9, and Saturday, Sept. 16 starting at noon at The Bradford at Brookside on W. Park Drive behind the CHI St. Luke's Health Memorial hospital.

The audition entry fee is $25. The competition winner will receive a $500 prize.

The competition will be held at 7 p.m. Saturday, Oct. 7, at the Livingston Intermediate School.

This vocal competition is being held as fund raising event for Polk County READ., the local branch of Dolly Parton's Imagination Library, which provides free, age appropriate books to children from birth to the age of five.

Sponsors are being asked to place a business card ad in the show program for $25.

For more information go to READpolkcounty.com; call Brenda at 936-328-5021 or email READPolkCounty@gmail.com.

Together the competition sign up at the Milam Street Coffee Shop and Bakery in downtown Livingston or call Brenda at 936-328-5021.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47486, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the meters in a reasonably appropriate fashion to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$47.41
Large General Service	$494.96
Large Industrial (non-transmission only)	$4,458.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from new customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee.	**$29.71 per month**

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 15 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.71
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service.

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones (TTY) may contact the Commission at (512) 936-7136.

NOTICE TO IMPLEMENT REVISED FIXED FUEL FACTOR

Entergy Texas, Inc. hereby publishes NOTICE that, pursuant to Section 36.203 of the Public Utility Regulatory Act (codified in Tex. Util. Code) and 16 Tex. Admin. Code § 25.235(h), it filed with the Public Utility Commission of Texas (the "Commission") on August 17, 2017 a tariff to implement a revised fixed fuel factor. All of Entergy Texas' retail customers whose fuel charges are calculated under the Texas fixed fuel factor tariff – including but not limited to Residential, Small General Service, Large General Service, Large Industrial Power Service, and Street and Outdoor Lighting Service – will be affected by the Commission's approval of the revised fixed fuel factor. The revised fixed fuel factor, if approved, will affect only the fuel portion of the rates charged by Entergy Texas and will have no effect on non-fuel base rates.

Entergy Texas seeks a Commission approval to revise the fixed fuel factor effective with the first billing cycle of the September 2017 billing month. Entergy Texas proposed that the fixed fuel factor be changed pursuant to a semi-annual filing to be made each February and August, with revised fuel factors to be effective with the first billing cycle of the March and September billing months, pursuant to a methodology that changes the fuel factor based upon changes in the published price of natural gas. This methodology was authorized for use in Docket No. 32935.

The revised fixed fuel factor, differentiated by voltage level, is as follows:

FACTOR BY VOLTAGE LEVELS	
Delivery Voltage	Fixed Fuel Factor
Secondary	$0.0302202 per kWh
Primary	$0.0294475 per kWh
69kV/138kV	$0.0287153 per kWh
230kV	$0.0282374 per kWh

The revised fuel factor would result in a decrease in Entergy Texas' annual Texas retail fuel and purchased power recoveries by approximately $93.1 million, or 15% on an annual basis. Compared to the fixed fuel factor approved by the Commission effective March 2017, a residential customer using 1000 kilowatt-hours (kWh) of electricity per month would see an approximate decrease of 15.4% annually, or $5.37 on average per month, on his/her electric bill. The fixed fuel factor rate is designed to pass through to customers the actual fuel costs incurred by Entergy Texas to serve customers. Entergy Texas is not allowed to make a profit on fuel costs. Amounts collected from affected customers pursuant to the revised fixed fuel factor will be subject to final review by the Commission in Entergy Texas' next applicable fuel reconciliation proceeding before the Commission. Entergy Texas expects the revised fixed fuel factor to be in effect for the billing period of September 2017 through February 2018.

Persons with questions or who want more information on this petition may contact Entergy Texas at Attn: Customer Service – Fuel Factor, 350 Pine Street, Beaumont, Texas 77701, or call 1-800-368-3749 (once you hear "Welcome to Entergy" select option 1, then press 5, then press 7) during normal business hours. A complete copy of this petition is available for inspection at the address listed above.

The Commission has assigned Docket No. 47520 to this proceeding. Persons who wish to formally participate in this proceeding, or who wish to express their comments concerning this petition should contact the Public Utility Commission of Texas, Office of Customer Protection, P.O. Box 13326, Austin, Texas 78711-3326, or call (512) 936-7120 or toll-free at (888) 782-8477. Hearing and speech-impaired individuals with text telephones (TTY) may call (512) 936-7136 or use Relay Texas (toll-free) 1-800-735-2989.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47406, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. Into most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$1.18
Small General Service	$1.79
General Service	$4.71
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees:	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed.	$157.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

Public Notices

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 10, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47186, *Application of Entergy Texas, Inc. For Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. Units most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge, for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be 50.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non advanced) meter and to assess Fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc. Attn: Customer Service – AMS Application, PO Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, PO Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

CITY OF SHEPHERD
NOTICE OF CLOSE-OUT PUBLIC HEARING

The City of Shepherd will hold a Public Hearing at 5:00 P.M. on Thursday, August 24, 2017, at City Hall. The purpose of the hearing is to review program performance and receive citizen comments pertaining to the City's 2015 Texas Community Development Program street improvements project (Contract No. 7215471). The construction portion of the project is complete. Construction took place on Dogwood Street and Red Bud Lane. All interested citizens are urged to attend the Public Hearing to provide comments related to the project and to receive a report on the final cost and accomplishments of the project.

Public Notices

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47446, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the networkas rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$47.25
Large General Service	$490
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $000 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service for residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.130 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$201.60
Recurring, monthly fee.	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 3, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

Box 490 Cleveland, Texas 77328 Telephone: 281-592-5243 Facsimile: 281-592-5244 ATTORNEYS FOR THE EXECUTOR

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47318, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1125, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the meters on as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1125.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$47.41
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.79 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$112.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 35 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

House passes bills to give retired teachers relief from rising costs

House passes bills to give retired teachers relief from rising costs

AUSTIN – The Texas House on Aug. 1 approved House Bill 20, legislation appropriating $212.7 million from the "rainy day" reserve fund to help defray rising healthcare costs for retired school employees.

Primary authors of HB 20 include: Trent Ashby, R-Lufkin; Drew Darby, R-San Angelo, Gary VanDeaver, R-New Boston; John Zerwas, R-Katy; and Donna Howard, D-Austin.

The House also approved HB 80, legislation that through the Teacher Retirement System of Texas would make one-time cost-of-living adjustment to the retirement benefits paid to certain retirees, disability retirees and survivors. To be eligible for the increase, the annuitant must have retired between Aug. 31, 2004 and Aug. 31, 2015.

Primary authors of HB 80 include: Rep. Darby, Ryan Guillen, D-Rio Grande City; Rene Oliveira, D-Brownsville; and Bobby Guerra, D-McAllen.

Speaker Joe Straus, who presides over the House, applauded the action, saying, "Since the end of the regular session, House members across the state have heard from retirees whose are concerned about some significant increases in premiums and deductibles. Based on the feedback we've heard back home, the House cast an overwhelming vote (Aug. 1) to help retired teachers who are facing very steep increases in their monthly expenses."

In other news, the House passed HB 25, which would appropriate $34 million from the state's $11 billion rainy day fund and $45 million in federal funds for fiscal year 2018, plus another $36 million from the rainy day fund and $48.3 million in federal funds for fiscal year 2019 to the Health and Human Services Commission for Medicaid acute care therapy services.

Primary authors of HB 25 include: Sarah Davis, R-Houston, Walter "Four" Price, R-Amarillo; Rep. Guerra; Rep. Darby; and Matt Krause, R-Fort Worth.

These and all House bills, however, must be approved by the Senate in order to move forward to the governor's desk for final consideration.

Former governor dies

Mark White, who served as governor of Texas from 1983 to 1987, died Aug. 5 at age 77. He was the last living Democrat to have held the post.

White also served as Texas attorney general from 1979 to 1983, and as Texas secretary of state from 1973 to 1977.

Gov. Abbott ordered flags statewide to be lowered to half-staff in honor of Gov. White. "Mark White cared deeply about Texas, and he devoted his life to making our state even better, particularly when it came to educating our children," Abbott said.

White served as governor, the Texas Legislature passed the "no-pass, no-play" law affecting secondary school athletes. Lawmakers also passed a tax to fund teacher pay-raises.

Plans are for White's body to lie in state in the Capitol Rotunda. Burial will be in the state cemetery.

Tax revenue increases

Texas Comptroller Glenn Hegar on Aug. 1 announced that state sales tax revenue totaled $2.56 billion in July, 7.9 percent more than in July 2016.

Sales tax receipts from all major economies sectors were up compared to last year and total sales tax revenue for the three months ending in July 2017 is up 7.3 percent compared to the same period a year ago, Hegar said.

"The most notable increases were from oil- and gas-related industries, as spending on well development continues to rebound. Despite the recent uptick, sales tax revenue remains in line with recent estimates from my office," he added.

Railroad funding arrives

The U.S. Department of Transportation on Aug. 3 announced the Texas Department of Transportation has received a $7 million federal grant to help rebuild the Presidio-Ojinaga, Mexico, International Rail Bridge and 72 miles of track on the state-owned South Orient Rail Line that runs from the border to near Coleman.

Texas Transportation Commission Chairman Tryon Lewis hailed the "FAST-LANE" grant as a critical investment in the West Texas oil and gas industry.

"Cross-border trade is the lifeblood of many communities in my district," commented U.S. Rep. Will Hurd, R-San Antonio, whose congressional district includes the affected area. "As one of five border crossings between Texas and Mexico, these repairs are vital to Texas' economy," he added.

Hurricane briefing is held

Gov. Abbott on Aug. 4 announced that he joined President Donald Trump, heads of federal agencies and other governors from across the country via teleconference for a 2017 White House Hurricane Briefing.

"Texas is in a constant state of hurricane preparedness and the safety of Texans is our top priority," Abbott said.

Ecumenically Speaking

Bad Things Happen

By Leroy Brown

Alexander and the terrible, horrible, no good very badday. He went to sleep with gum in his mouth and woke up with gum in his hair. When he got out of bed, he tripped over his skateboard and by mistake dropped his sweater in the sink while the water was running. He could tell it was going to be a terrible, horrible, no good, very bad day. Nothing at all was right. Everything went wrong, right down to lima beans for supper and kissing on TV. Judith Viorst.

WHY DO BAD THINGS HAPPEN TO GOOD PEOPLE?

First, we need to understand what the Bible says about people. The simple answer is... "There is none righteous, no not one "... for all have sinned and fall short of the glory of God." Romans 3:10; 23.

Our problem,

1. Moral Evil. Often the actions of others directly impact our lives through no direct fault of our own. EX. Drivers, shooters

2. Natural Evil. Nature at times will do things that influence us through no direct fault of our own. EX. Wrong place at the wrong time; placing our entire focus in the natural path of a known possible crisis.

3. Direct results of others as they are acting out behavior detrimental to themselves and others.

4. Being in the proximity of unseen carriers of disease or infectious in the air, water or objects we handle or have contact.

5. Direct assaults by the master wicked one to attempt to destroy our testimony or influence

6. Rare occasions when God will allow certain problems to influence our lives to mature us

"No temptation has overtaken you except such as is common to man; but God is faithful, who will not allow you to be tempted beyond what you are able, but with the temptation will also make a way of escape, that you may be able to bear it." I Corinthians 10:13.

Local boy wins Bible Story Telling Award

Jamarian Corley won first place in Bible story telling at the ABCGT Youth Convention held in Houston, Texas on July 25-27th. He told the story of Zacchaeus the Tax Collector (Luke 19:1-10). He is the son of Raynika Hamilton and the late Joey Corley. Also, great support from his grandparents, Rev Ray and Embralia Hamilton and Nathaniel and Tess Corley. Jamarian is a member of Mary's Chapel MB Church under pastor Nathaniel Jenkins Sr. Special thanks to Embralia Hamilton, Youth Matron, for long hours teaching Jamarian Bible story telling. Jamarian will enter the fourth grade this year.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, EntergyTexas, Inc ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47486, *Application of Entergy Texas, Inc for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 935, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$1.79
General Service	$474
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who take service at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.130 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service.

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$261.60
Recurring monthly fee	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, PO Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, PO Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

EDITORIAL & OPINION

Julia's Tidbits

an article about local happenings from Julia McMichael

I can't believe that August is half-way over August is the eighth month of the year, but used to be called Sextilis and was the sixth numth of the year in the Ancient Roman Calendar Sextilis was re-named August in honor of Augustus Caesar in the year 8 BCE, and the month-ly position was changed to eight in eron.

August does not start on the same day of the week as any oth-er numth in the year in common years, but ends on the same day of the week as November every year During leap years August starts on the same day as Febru-ary and still ends on same day as November. The above in-formation was found on the Internet on Google. The birth flower of August is gladiolus or poppy, and the birthstone is the per-dotor onyx. August has 31 days.

August is the busi-est time for tourism because it falls in the main school summer holi-day period August is seasonal equivalent to February in the Northern hemisphere. Do you remember when the educators started having local schools start the first two weeks in August and the parents and businesses went ballistic? Eventually the Texas Legislature had to pass a bill to p-ohibit schools from opening until the third week in August unless you had special permission from the State The loss of revenue for the hotels, motels, resorts, vacation areas and beaches, and the parents protests were louder that the needs of the educators.

August has and will continue to be an eventful month for me. First main event, was on August 2, when the Trinity Peninsula Chamber of Commerce was moved to its new location at 103 Stadium Street It will be awhile before we are operational as you know it takes time to acquire electricity, water, and sewage. Thanks to the city and the Trinity Economic Develop-ment Commitee who voted, I to donate $10,000 to move and restore the 35 year old facility for a better future.

The Chamber building was built in 1985/6 by the male leaders in the membership and has been a source of inspira-tion and encouragement to the citizens and businesses of Trinity for 68 years The Trin-ity Chamber of Commerce was chartered in 1949 and sponsored most of the organizations and events in the community during these 68 years than any other entity However, due to growing pains, they had to re-organize into separate groups, like the Fair Association, to meets the needs of the community

On August 5, my youngest son, Larry, got engaged to Kari Hart-mann Some will remember him for playing on the first golf team as a sin district for Trinity High School in 1999. On August 19th I will celebrate 40 years with Mr McMichael, better known as King George.

On August 16, Irene Sanders will celebrate her 93rd birthday. We are going to celebrate with her at the Trinity Lions Club meeting at Noon on Wednesday at Joseph's Cafe. The public is invited to attend. Irene is still mad that Elvis Presley died on her birthday. She was only 53 years old at the time, and has had to celebrate his death on her birthday for forty years On Au-gust 24, the Trinity Lions Club will be 88 years old.

Don't forget "Meet the Teach-ers Night" on August 24 at each campus

Second inaines-t we will be the starting of School on August 28. Volleyball, Football, Band, cheerleaders and others start their new school year with great anticipation and hopefully with-out too many 100 degree days. Un-air conditioned buses and practice after school is miserable for everyone, Also the school district is still needing School Bus Drivers Please, contact 936-594-3569 for information

Third event is the Wildwood Sisters Vintage sale on August 31, September 1 and September 2, from 9 a m until 4 pm down-town.

Now for some September in-formation

Valera Corner Store will open on September 2, and is now hir-ing on-line. I called the number on the sign at the Riverside Corner Store and the person was so helpful and courteous, I almost applied myself.

The new Trinity Nursing Facil-ity will open in the middle of September and has a waiting list for patients

Trinity Cafe will open around September 15, 2017

SAAFE House Denim to Diamond Bingo Bash Tickets will go on sale next week. If you reserve a table in advance, you can pay at the door with a check, cash, or credit card on Septem-ber 16, 2017. Minimum table reservation is eight.

Congratulations to our new editor. I hope I can measure up to her expectations See you around Trinity, Julia

Ecumenically Speaking *By Leroy Brown*

Read Revelation 6:9-11 as it describes the souls of those who had been slain for their faith crying out to God for remedy because their lives had been forfeited in faith They said "how long, O Lord, holy, and true, until You judge and avenge our blood on those who dwell on the earth ?" (10 These martyrs are instructed that" they should rest a little while longer, until both the number of their fellow ser-vants and their brethren , who would be killed as they were, was completed "

Although our communities are sometimes disturbed by violence, there are very few reports even in our larger cities of individuals being persecuted for their faith I am thankful our nation has not responded to this level as yet, but we may see it in the near future Most of the reported persecution and deaths are carried out in the name of some religious belief that we consider off track

I have been a Christian for nearly seventy years and the majority of those years I have served in the center of a religious organizations in normal communities I have never been confronted in a rude or abusive way, nor have I ever feared for my safety If you should live in some of the mid East countries there would be every reason to be cautious The question is does your faith mean enough to you that you would risk your life in order to express that faith?

Now the answer to that question raises another issue Does my faith mean enough that I would risk life or limb to express myself? Now we have another issue Jesus in-dicated that if I am unwilling to confess Him, he will not confess me before the Father in heaven And sit before my computer screen writing this article, I can freely confess my faith in Him However that is not the question is it? There is no pressure here All of us must examine our selves to see if we stand or fall in the faith. The story is told of a gathering of believers in Russia meeting in secret for fear of the government While they were singing their songs and expressing their faith, two uniform soldiers broke into the front door They both were heavily armed and they asked the gathered believ-ers if they believed in Jesus Christ to move to the end of the building Quietly the con-gregation moved as one to take their place at the end of the building When the move-ment stopped, the officers announced they were inter-ested in finding a real group of believers to unite in faith

A Fox news report indicates the center for studies on re-ligious persecution in 2006, 90,000 Christians were mar-tyred (killed) for their faith An additional 600 million Christians were prevented from practicing their faith

As fast as our world is now moving I have little doubt that we are approaching the day when faith will become more costly Pray for our lead-ers, our president and every church that meets faithfully to teach God's word We are drawing to the end of events I checked the last pages in "The Book"! Check it for yourself! See what you think

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non Standard Metering Service Fees The style of this application is Docket No 47486, *Application of Entergy Texas Inc for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25 130 In its most recent regular session, the Texas Legislature approved Senate Bill 1145 which extended mechanisms that support deployment of AMS in ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan The proposed AMS Surcharge would be in place for twelve years ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows

Residential	$3 48
Small General Service	$4 79
General Service	$4 74
Large General Service	$4 96
Large Industrial (non-transmission only)	$4 58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1 73 per month and the other surcharge rates listed above would be $0 00 per month ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018 The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25 133 to recover the costs associated with providing the non-standard metering service From a customer who elects to have a non-standard meter The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142 95
Digital, non-communicating meter requested before AMS installed	$157 05
Digital, non-communicating meter requested after AMS installed	$204 60
Recurring monthly fee:	$29 71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc. Attn Customer Service – AMS Application, PO Box 2951 Beaumont, Texas 77704, or call 1 800 368-3749 (select option 1, then press 0, then press 4 then press 3) during normal business hours A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to Public Utility Commission of Texas, Central Records, Attn Filing Clerk, 1701 N Congress Avenue, PO Box 13326, Austin, Texas 78711-3326 The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477 Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136

NOTICE OF 2017 TAX YEAR PROPOSED PROPERTY TAX RATE FOR City of Trinity

A tax rate of $0.659600 per $100 valuation has been proposed by the governing body of City of Trinity.

PROPOSED TAX RATE	$0.659600 per $100
PRECEDING YEARS TAX RATE	$0.657100 per $100
EFFECTIVE TAX RATE	$0.659600 per $100

The effective tax rate is the total tax rate needed to raise the same amount of property tax revenue for City of Trinity from the same properties in both the 2016 tax year and the 2017 tax year.

YOUR TAXES OWED UNDER ANY OF THE ABOVE RATES CAN BE CALCULATED AS FOLLOWS:

Property tax amount = (rate) x (taxable value of your property) / 100

For assistance or detailed information about tax calculations, please contact

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service.

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$1,570.5
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, PO Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, PO Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

NOTICE OF 2017 TAX YEAR PROPOSED PROPERTY TAX RATE FOR TRINITY COUNTY

A tax rate of $0.650000 per $100 valuation has been proposed for adoption by the governing body of TRINITY COUNTY. This rate will exceed the lower of the effective or rollback tax rate, and state law requires that two public hearings be held by the governing body before adopting the proposed tax rate.

The governing body of TRINITY COUNTY proposes to use every cent attributable to the tax rate increase for the purpose of The governing body of Trinity County proposes to use the revenue attributable to the tax rate increase for the purpose of funding current needs in our going operations, debt service, personnel and infrastructure.

PROPOSED TAX RATE	$0.650000 per $100
PRECEDING YEAR'S TAX RATE	$0.650000 per $100
EFFECTIVE TAX RATE	$0.637833 per $100
ROLLBACK TAX RATE	$0.676529 per $100

The effective tax rate is the total tax rate needed to raise the same amount of property tax revenue for TRINITY COUNTY from the same properties in both the 2016 tax year and the 2017 tax year.

The rollback tax rate is the highest tax rate that TRINITY COUNTY may adopt before voters are entitled to petition for an election to limit the rate that may be approved to the rollback rate.

YOUR TAXES OWED UNDER ANY OF THE ABOVE RATES CAN BE CALCULATED AS FOLLOWS:

property tax amount= (rate) x (taxable value of your property)/100

You are urged to attend and express your views at the following public hearings on the proposed tax rate:

First Hearing: September 21, 2017 at 09:00 AM at Trinity County Courthouse, First Floor, Commissioners Courtroom, 162 W 1st St, Groveton TX

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.98
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, PO Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, PO Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

Subject: Trinity paper error

Sheila,

I apologize for Trinity not running the correct Energy legal on 8/31, they ran the one for revised fuel factor instead of the one for the AMS deployment plan. I'm not sure why they didn't run the correct one, they had it in house so it was their error not yours. Again, my apologies.

Pam,

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the new ork as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meet applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$320.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4 then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND *NON-STANDARD METERING SERVICE FEES* FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees The style of this application is Docket No 47486, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan AMS Surcharge and Non-Standard Metering Service Fees*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25 130 In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs ETI is therefore submitting this application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan The proposed AMS Surcharge would be in place for twelve years ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows

Residential	$3.18
Small General Service	$4.79
General Service	$17.41
Large General Service	$49.96
Large Industrial (non-transmission only)	$249.88

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $000 per month ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018 The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25 133 to recover the costs associated with providing the non standard metering service from a customer who elects to have a non standard meter The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non standard metering service

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.05
Digital, non-communicating meter requested before AMS installed	$157.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4 then press 3) during normal business hours A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326 The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477 Hearing- and speech-impaired individuals with text telephones (TTY) may contact the Commission at (512) 936-7136

Warren ISD Notice of Non Discrimination in Career and Technology Programs

WARREN INDEPENDENT SCHOOL DISTRICT (PUBLICATION NOTIFICATION OF NONDISCRIMINATION IN CAREER AND TECHNOLOGY EDUCATION PROGRAMS) 2017-2018 School Year August 18, 2017 Warren Independent School District offers career and technology education programs in home economics, vocational agriculture, and all Technology Application Courses. It is the policy of Warren ISD not to discriminate on the basis of sex, handicap, race, color, religion, and national origin in its educational and Career and Technology Programs, activities, or employment as required by Title IX, Section 504, and Title VI. Warren ISD will take steps to assure that lack of English language skills will not be a barrier to admission and participation in all educational and vocational programs. For information about your right or grievance procedures, contact the Title IX or Section 504 coordinator, Brad McEachern, at Warren ISD, P.O. Box 69, Warren, Texas 77664 – Telephone 547-2241. (34-1t-b)

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47446, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $4.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed.	$157.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

Digital, non communicating meter requested before AMS installed	$167.08
Digital, non communicating meter requested after AMS installed	$204.60
Recurring monthly fee	$29.91 per month

Persons with questions or who want more information concerning the application may contact Entergy Texas, Inc., Attn: Customer Service - AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street Beaumont Texas 77701.

Persons who wish to intervene in this proceeding or comment upon it or action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The requested deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or 1-888-782-8477. Hearing and speech impaired individuals with texts telephones (TTY) may contact the Commission at (512) 936-7136.

SABINE NECHES NAVIGATION DISTRICT TAYLOR'S BAYOU NAVIGATION LOCKS PAINTING PROJECT
ADVERTISEMENT FOR BIDS
Sealed lump sum BIDS will be received by the Sabine Neches Navigation District of Jefferson County, Texas at the Sabine Neches Navigation District Office, 8180 Anchor Drive, Port Arthur Texas 77642 until 10:00 a.m. Local Time on Friday, August 25, 2017 for Taylor's Bayou Navigation Lock's Painting Project in Jefferson County, Texas, for the Sabine Neches Navigation District, at which time the BIDS will be opened publicly and read aloud. BIDS received after 10:00 a.m. on Friday, August 25, 2017 will be returned unopened.
Each BID must be submitted in a sealed envelope, addressed to Mr. Randall Reese, General Manager at Sabine Neches Navigation District. Each sealed envelope containing a BID must be plainly marked on the outside as BID for Taylor's Bayou Navigation Locks Painting Project and the envelope should bear on the outside the name of the BIDDER, his address, and his license number (if applicable). If forwarded by overnight or express mail, the sealed envelope containing the BID must be enclosed in another envelope addressed to Mr. Reese, Sabine Neches Navigation District, 8180 Anchor Drive, Port Arthur, Texas 77642. Overnight or express mail must be received in the Sabine Neches Navigation District's office no later than 10:00 a.m. Local Time on August 25, 2017. For purposes of express mail forms, the District's telephone number is (409) 728-1386.
A mandatory pre-bid meeting will be held at the Sabine Neches Navigation District Office, 8180 Anchor Drive, Port Arthur, Texas 77642 at 10:00 a.m. Local Time on Friday, August 11, 2017. Following the pre-bid meeting will be a mandatory site visit. Attendance at the pre-bid meeting AND site visit is a prerequisite to a bidder being awarded the bid.
Bidders should contact Larry Fountain, Operations Manager, Sabine-Neches Navigation District, at (409) 728-1386 to arrange site visit (other than the mandatory visit on August 11, 2017) to view proposed work.
Each BID must include a BID BOND equal to five percent (5%) of the amount of the BID. BID BONDS of unsuccessful BIDDERS will be returned.
Project includes, but is not necessarily limited to, the following items in accordance with the TECHNICAL SPECIFICATIONS:
- Perform site preparation
- Mobilization and Demobilization
- Removal of the Navigation Locks Structure
- Surface Preparation
- Painting of Navigation Locks Structure
- Reinstall the Navigation Locks Structure

The BID PACKAGE can be downloaded from our website, www.sabinepilotdistrict.com as of Tuesday, August 1, 2017.
In accordance with Texas State law, including Local Government Code Chapter 176, each BIDDER MUST COMPLETE AND SUBMIT WITH THEIR BID A COPY OF THE VENDOR'S CONFLICT OF INTEREST QUESTIONNAIRE CONTAINED IN EXHIBIT O
The OWNER reserves the right to reject any or all BIDS and to waive formalities in BIDDING. In case of ambiguity or lack of clearness in stating the prices in any BID, the OWNER reserves the right to consider the most advantageous BID thereof, or reject the BID.
Equal Opportunity in Employment – All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, age, handicap, or national origin. Bidders on this work will be required to comply with the President's Executive Order No. 11246, as amended by Executive Order 11375, and as supplemented in Department of Labor regulations 41 CFR Part 60.
SABINE NECHES NAVIGATION DISTRICT
Randall Reese
General Manager

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*
ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.
ETI requests approval of an AMS Surcharge for recovery of the reasonable and reservary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.79 per month and for other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non residential customers, other than those who are served at transmission voltage or take unmetered service. The costs approved through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.
Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non standard (non advanced) meter and to assess fees consistent with Commission Rule 25.130 to recover the costs associated with providing the non standard metering service from a customer who elects to have a non standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non standard metering service.

Non-refundable, one-time up-front fee	
Latest meter that meets applicable meter my samples	$142.93
Digital, non-communicating meter requested before AMS installed	$157.03
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee	$2.91 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service - AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800 368 3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.
Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to, Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, PO Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing and speech impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

Public Notices

August 25, 2017 for Taylor's Bayou Navigation Lock's Painting Project in Jefferson County, Texas, for the Sabine Neches Navigation District, at which time the BIDS will be opened publicly and read aloud. BIDS received after 10:00 a.m. on Friday, August 25, 2017 will be returned unopened.
Each BID must be submitted in a sealed envelope, addressed to Mr. Randall Reese, General Manager at Sabine Neches Navigation District. Each sealed envelope containing a BID must be plainly marked on the outside as BID for Taylor's Bayou Navigation Locks Painting Project and the envelope should bear on the outside the name of the BIDDER, his address, and his license number (if applicable). Public Notices

December 18, 2016
TO: ALL POTENTIALLY INTERESTED PARTIES:
RE: City of Port Arthur (CWSRF Project No. 73688) – Main Wastewater Treatment Plant Rehabilitation
The attached document is being provided for your information. This is not a permit application. No action is required from your agency.
The attached document is an environmental determination issued by the Texas Water Development Board (TWDB) for a proposed project to be funded through the TWDB. Pursuant to the environmental assessment requirements of 31 Texas Administrative Code (TAC) Section 375.61, the Executive Administrator of the TWDB has determined that the proposed action described in the attached documents may be exempted from formal environmental review requirements. A review by TWDB staff included a consideration of potential environmental impacts and permitting requirements. If there were any concerns about particular regulations or permits, the appropriate regulatory agency would have been contacted for clarification, and this would be described in the attached environmental determination.
Comments regarding this determination may be submitted to the Director of Regional Water Project Development, Texas Water Development Board (TWDB), P.O. Box 13231, Austin, Texas 78711-3231.

December 18, 2016
CATEGORICAL EXCLUSION TO ALL INTERESTED AGENCIES AND PUBLIC GROUPS:
As provided by the state environmental review process adopted in the rules of the Texas Water Development Board (TWDB) 31 Texas Administrative Code (TAC) Chapter 375, subchapter E, for projects to be funded through the Clean Water State Revolving Fund (CWSRF) Non-Equivalency Program and consistent with the National Environmental Policy Act, 42 U.S. Code §4321, et seq., the Executive Administrator of the Board has determined that the proposed action identified below may be exempted from formal environmental review requirements:
City of Port Arthur, Jefferson County, Texas
Main Wastewater Treatment Plant Rehabilitation
CWSRF Project No. 73688
Total TWDB Commitment: $6,196,000 (L1000298)
The City of Port Arthur (City) is proposing to use funding from a $6,955,000 CWSRF loan (L1000298) to rehabilitate the Main Wastewater Treatment Plant (WWTP) and the Main Outfall Lift Station. Specifically, the City is proposing to rehabilitate the following components: bar screen, headworks, primary clarifiers, trickling filters, solids contact aeration, aeration basin blower building, secondary clarifiers, effluent lift station, chlorine feed building, chlorine contact basin, main and digester blowers or generators, post-aeration blower building, sludge thickener, sludge digesters, sludge dewatering, office/laboratory building, maintenance-storage building, stormwater screening and grit removal, and stormwater clarifier. In addition, the project will require adequate isolation valves, fittings, and all necessary appurtenances. This project will not result in increases in the facility's permitted volumes at discharge. All work will be performed within existing facility sites.
According to the Texas Historical Commission's Archaeological Sites Atlas, there are no previously-recorded significant or potentially significant sites on or adjacent to the project site, nor is the site within a protected area surrounding an historic cemetery, structure, or district. Therefore, the project is not likely to impact sensitive cultural resources.
According to a desktop review of the United States Geological Survey, National Hydrography Dataset, no wetlands or potentially jurisdictional waters are located within the existing WWTP site. The project will not adversely impact wetlands or waters of the U.S. that are under the jurisdiction of the U.S. Army Corps of Engineers. The existing WWTP and existing lift station sites have been disturbed and primarily consists of mowed grass. Rehabilitation within the existing facility sites is not expected to impact threatened or endangered species or habitat.
This decision is allowed because the specified project elements should not entail significant adverse impacts to the quality of the human environment. Documentation supporting this determination is on file at the TWDB.
This determination shall be revoked if it is found that:
(1) the project no longer meets the requirements for a CE as a result of changes in the project;
(2) the project involves extraordinary circumstances as described in 31 TAC Chapter 375, Subchapter E; or
(3) the project may violate or has violated federal, state, local, or tribal laws.
The project also must comply with the following conditions:
• Standard emergency condition for the discovery of cultural resources, and;
• Standard emergency condition for the discovery of threatened and endangered species.
Comments regarding this determination may be submitted to the Director of Regional Water Project Development, Texas Water Development Board, P.O. Box 13231, Austin, Texas 78711-3231.

Public Notices

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 14, 2017 Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non transmission only)	$4.54

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be 30.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.130 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that initiate installation of an advanced meter or any other retail customer who requests non-standard metering service.

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards	$142.95
Digital, non-communicating meter requested before AMS installed	$457.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fees	$29.71 per month

Persons with questions or who need more information concerning the application may contact Entergy Texas, Inc. Attn: Customer Service - AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in and participate in a contested case upon the application should mail their requests to intervene or their comments (along with a copy of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing and speech-impaired individuals with text telephones (TTY) may contact the Commission at (512) 936-7136.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017 Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non Standard Metering Service Fees. The style of this application is Docket No. 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which executed amendments that support deployment of AMS to ETI and ensured that if ETI elects to deploy AMS, it shall deploy the network in rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.39
General Service	$4.74
Large General Service	$4.96
Large Industrial (non transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding or be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non advanced) meter and to insert fees consistent with Commission Rule 25.130 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non standard metering service.

Non-refundable, one-time up-front fee:	
Existing meter that must meet applicable meter requirements	$143.95
Digital, non-communicating meter (required for non-AMS locations)	$117.05
Digital, non-communicating meter requested after AMS installed	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service - AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1 800 368 3749 (when prompted, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's customer office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought should file their request to intervene or their comments (along with 10 copies of your letter) to Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing and speech impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non refundable, one-time up-front fees

Existing meter that meets applicable accuracy standards: $142.95

Digital, non-communicating meter requested before AMS installed: $157.05

Digital, non-communicating meter requested after AMS installed: $204.60

Recurring monthly fee: $29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should all their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date.

Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR TPDES PERMIT FOR INDUSTRIAL WASTEWATER AMENDMENT

PERMIT NO. WQ0002699000

APPLICATION AND PRELIMINARY DECISION. Luminant Mining Company LLC, 1601 Bryan Street, EP-27, Dallas, Texas 75201, which operates Oak Grove Lignite Mining Area, a surface lignite coal mine, has applied to the Texas Commission on Environmental Quality (TCEQ) for a major amendment with renewal of Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0002699000 to authorize the addition of Outfalls 009 and 010 to the Kosse Mining Area; the addition of Outfalls 013, 018, 019, 020, and 021 to the Bremond Mining Area; the addition of Outfalls 011M/R and 017M/R to the draft permit; and the addition of mine drainage as an authorized wastestream being discharged from active mining areas. The draft permit authorizes the discharge of active mining drainage, groundwater seepage, mine pit dewatering, and stormwater runoff from the Kosse active mining areas via Outfalls 001M – 010M on an intermittent and flow-variable basis; active mining drainage, groundwater seepage, mine pit dewatering, and stormwater runoff from the Bremond active mining areas via Outfalls 011M – 021M on an intermittent and flow-variable basis; and stormwater runoff from the Kosse and Bremond post-mining areas via Outfalls 001R – 021R on an intermittent and flow-variable basis. The TCEQ received this application on December 21, 2016.

The facility is located at 4731 State Highway 7 East, in the City of Kosse, Texas 76653. The effluent is discharged from the Kosse Mining Area via Outfalls 001M/R and 003M/R to an unnamed tributary of Steele Creek; via Outfall 002M/R to Heads Creek; via Outfalls 004M/R, 005M/R, and 009M/R to Willow Creek; via Outfall 006M/R to Cox Creek; via Outfalls 007M/R and 008M/R to Owens Creek; via Outfall 010M/R to an unnamed tributary; thence to Willow Creek; thence all outfalls to Steele Creek; thence to Navasota River Below Lake Limestone in Segment No. 1209 of Brazos River Basin. The discharge route for the effluent discharged from the Bremond Mining Area is via Outfalls 011M/R, 012M/R, 013M/R, 015M/R, and 019M/R to unnamed tributaries of Walnut Creek; via Outfalls 014M/R, 016M/R, 017M/R, and 018M/R to unnamed tributaries, thence to Gnats Creek; via Outfall 020M/R to Beck Creek; via Outfall 021M/R to Willson Creek; thence all outfalls to Walnut Creek; thence to Little Brazos River; thence to Brazos River Above Navasota River in Segment No. 1242 of the Brazos River Basin. The unclassified receiving waters have minimal aquatic life use for the unnamed tributary of Steele Creek, the unnamed tributary of Gnats Creek; Beck Creek, and Willson Creek; limited aquatic life use for Heads Creek, Willow Creek, Cox Creek, Owens Creek; and high aquatic life use for Steele Creek, Walnut Creek, and Gnats Creek. The designated uses for Segment Nos. 1209 and 1242 are high aquatic life use and primary contact recreation.

In accordance with Title 30 Texas Administrative Code Section 307.5 and the TCEQ implementation procedures (June 2010) for the Texas Surface Water Quality Standards, an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminarily determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. A Tier 2 review has preliminarily determined that no significant degradation of water quality is expected in Walnut Creek, Steele Creek, or Gnats Creek, which has been identified as having high aquatic life uses. Existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received.

The TCEQ executive director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The executive director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, executive director's preliminary decision, and draft permit are available for viewing and copying at the Limestone County Clerk's Office, 200 W. State Street, Suite 102, Groesbeck, Texas, and the Robertson County Clerk's Office, 103 East Morgan Street, Franklin, Texas. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. For the exact location, refer to the application. http://www.tceq.texas.gov/assets/public/hb610/index.html?lat=31.292777&lng=-96.483888&zoom=13&type=r

PUBLIC COMMENT/PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit written or oral comment or to ask questions about the application. Generally, the TCEQ will hold a public meeting if the executive director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for public comments, the executive director will consider the comments and prepare a response to all relevant and material, or significant public comments. The response to comments, along with the executive director's decision on the application, will be mailed to everyone who submitted public comments or who requested to be on a mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the executive director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period; and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the executive director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period.

EXECUTIVE DIRECTOR ACTION. The executive director may issue final approval of the application unless a timely contested case hearing request or a timely request for reconsideration is filed. If a timely hearing request or request for reconsideration is filed, the executive director will not issue final approval of the permit and will forward the application and requests to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the executive director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request to be added to: (1) the permanent list for a specific applicant name and permit number; and (2) the mailing list for a specific county. If you wish to be placed on the permanent and the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.

All written public comments and public meeting requests must be submitted to the Office of the Chief Clerk, MC 105, TCEQ, P.O. Box 13087, Austin, TX 78711-3087 or electronically at www.tceq.texas.gov/about/comments.html within 30 days from the date of newspaper publication of this notice.

INFORMATION AVAILABLE ONLINE. For details about the status of the application, visit the Commissioners' Integrated Database at www.tceq.texas.gov/goto/cid. Search the database using the permit number for this application, which is provided at the top of this notice.

AGENCY CONTACTS AND INFORMATION. Public comments and requests must be submitted either electronically at www.tceq.texas.gov/about/comments.html, or in writing to the Texas Commission on Environmental Quality, Office of the Chief Clerk, MC-105, P.O. Box 13087, Austin, Texas 78711-3087. Any personal information you submit to the TCEQ will become part of the agency's record; this includes email addresses. For more information about this permit application or the permitting process, please call the TCEQ Public Education Program, Toll Free, at 1-800-687-4040 or visit their website at www.tceq.texas.gov/airquality. Si desea información en Español, puede llamar al 1-800-687-4040.

Further information may also be obtained from Luminant Mining Company LLC at the address stated above or by calling Mr. Gary Spicer at 214-875-8299.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees

Existing meter that meets applicable accuracy standards: $142.95

Digital, non-communicating meter requested before AMS installed: $157.05

Digital, non-communicating meter requested after AMS installed: $204.60

Recurring monthly fee: $29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should all their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date.

Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

NOTICE OF PUBLIC MEETING TO DISCUSS BUDGET AND PROPOSED TAX RATE

The Calvert ISD will hold a public meeting at 6:00 PM August 22, 2017 in Calvert High School Library. The purpose of this meeting is to discuss the school district's budget that will determine the tax rate that will be adopted. Public participation in the discussion is invited.

Tax rate that is not greater than or equal to the sum of the effective maintenance and operations rate and the effective debt service rate will require approval at an election to be held on November 7, 2017. If the governing body does not adopt a tax rate that is greater than or equal to the sum of the effective maintenance and operations rate and the effective debt service rate before September 30, 2017, the governing body must reduce the tax rate to the lower of the effective maintenance and operations rate or the effective debt service rate.

Maintenance Tax	$1.1696/$100 (proposed rate for maintenance and operations)
Debt Service Tax	$0.1700/$100 (proposed rate to pay bonded indebtedness)
Adopted Tax Rate	$1.3396/$100 (proposed rate per $100 of taxable value)

Comparison of Proposed Budget with Last Year's Budget

The appropriations and revenue estimates for the proposed budget are greater than last year's adopted budget by 4.2 percent, and expenditures are projected to increase by 4.2 percent. Last year's budget was decreased by 0.0 percent from the preceding year's budget. Proposed spending is described as follows:

Maintenance and operations	4.2% increase
Debt Service	0.0%
Total expenditures	0.2% increase

Total Appraised Value and Total Taxable Value (as calculated under Section 26.04, Tax Code)

	Previous Tax Year	Current Tax Year
Total appraised value* of all property	$121,613,535	$126,286,357
Certified appraised value of new property**	$963,395	$601,100
Total taxable value of new improvements	$112,875,075	$115,644,771
Certified taxable value** of new property**	$932,202	$581,504

*Appraised value is the amount shown on the appraisal roll and does not include the value of property under a tax deferral (Section 23.23(1), Tax Code), property under a special appraisal method (Section 23.21 et seq., Tax Code), or property temporarily exempt because of a pending protest. Taxable value is calculated after subtracting these amounts.

**Certified value as calculated by chief appraiser.

Bonded Indebtedness

Total amount of outstanding and unpaid bonded indebtedness*: $0

*Debt ending principal

Comparison of Proposed Rates with Last Year's Rates

	Maintenance & Operations	Interest & Sinking Fund*	Total	Local Revenue Per Student	State Revenue Per Student
Last Year's Rate	$1.1696	$0.1700	$1.3396	$1,171	$3,583
Rate to Maintain State Level of Public Education Operations Revenue & Per Student Revenue	$1.1221	$0*	$1.1221	$2,903	$4,305
Proposed Rate	$1.1696	$0.1700	$1.3396	$1,171	$3,583

*The Interest & Sinking Fund tax revenue is used to pay for bonded indebtedness and maintenance, equipment, or both. The bonds, and the tax rate necessary to pay those bonds, are approved by a majority of the district's voters.

Comparison of Proposed Levy with Last Year's Levy on Average Residence

	Last Year	This Year
Average Market Value of Residence	$49,367	$51,091
Average Taxable Value of Residence	$26,630	$27,572
Last Year's Rate Versus Proposed Rate per $100 Value	$1.3396	$1.3396
Taxes Due on Average Residence	$3,171	$3,693
Increase (Decrease) in Taxes		$522

Under state law, the dollar amount of school taxes imposed on the residence homestead of a person 65 years of age or older or of the surviving spouse of such a person, if the surviving spouse was 55 years of age or older when the person died, may not be increased above the amount paid in the first year after the person turned 65, regardless of changes in tax rate or property value.

Notice of Rollback Rate: The highest tax rate that the district may adopt before requiring greater approval at an election is $0.1639. This election will be automatically held if the district adopts a rate in excess of the rollback rate of $1.1639.

Fund Balances

The following estimated balances will remain at the end of the current fiscal year and are not encumbered with or by a corresponding debt obligation, liability, or other fund balance that will be used to pay debt service after the end of the current fiscal year.

Maintenance & Operations Fund Balance(s)	$ 1,023,316
Interest & Sinking Fund Balance(s)	$0

NOTICE OF 2017 TAX YEAR PROPOSED PROPERTY TAX RATE FOR CITY OF HEARNE

A tax rate of $0.7019 per $100 valuation has been proposed by the governing body of City of Hearne.

PROPOSED TAX RATE	$0.7019 per $100
PRECEDING YEAR'S TAX RATE	$0.7019 per $100
EFFECTIVE TAX RATE	$0.7227 per $100

The effective rate is the total tax rate needed to raise the same amount of property tax revenue for City of Hearne from the same properties in both the 2016 tax year and the 2017 tax year.

YOUR TAXES OWED UNDER ANY OF THE ABOVE RATES CAN BE CALCULATED AS FOLLOWS:

property tax amount = (rate) x (taxable value of your property) / 100

PUBLIC NOTICE PUBLIC NOTICE PUBLIC NOTICE PUBLIC NOTICE PUBLIC NOTICE PUBLIC NOTICE PUBLIC NOTICE PUBLIC NOTICE

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No 47416, Application of Entergy Texas, Inc for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service.

Non-refundable, one-time up-front fees

Existing meter that meets applicable accuracy standards: $142.95

Digital, non-communicating meter requested before AMS installed: $157.05

Digital, non-communicating meter requested after AMS installed: $204.60

Recurring monthly fee: $29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should ailther requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date.

Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136

NOTICE OF PUBLIC MEETING TO DISCUSS BUDGET AND PROPOSED TAX RATE

The Hearne I.S.D. will hold a public meeting at 6:00 PM, August 28, 2017, in Hearne ISD Administration Office. The purpose of this meeting is to discuss the school district budget that will determine the tax rate that will be adopted. Public participation in the discussion is invited.

The tax rate that is ultimately adopted at this meeting or at a separate meeting at a later date may not exceed the proposed rate shown below unless the district publishes a revised notice containing the same information and comparisons set out below and holds another public meeting to discuss the revised notice.

Maintenance Tax	$1.04000/$100 (proposed rate for maintenance and operations)
School Debt Service Tax Approved by Local Voters	$0.23000/$100 (proposed rate to pay bonded indebtedness)

Comparison of Proposed Budget with Last Year's Budget

The applicable percentage increase or decrease (or difference) in the amount budgeted to the preceding fiscal year and the amount budgeted for the fiscal year that begins during the current tax year is listed next to or under each of the following expenditure categories:

Maintenance and Operations	-2.74 % decrease
Debt Service	0.24% decrease
Total expenditures	-2.54% decrease

Total Appraised Value and Total Taxable Value (as calculated under Section 26.04, Tax Code)

	Preceding Tax Year	Current Tax Year
Total appraised value* of all property	$428,196,565	$447,734,607
Total appraised value* of new property**	$2,103,422	$5,036,954
Total taxable value*** of all property	$282,859,134	$296,905,465
Total taxable value*** of new property)**	$1,337,851	$5,036,954

*Appraised value is the amount shown on the appraisal roll and defined by Section 1.04(8), Tax Code
** "New property" is defined by Section 26.012(17), Tax Code.
*** "Taxable value" is defined by Section 1.04(10), Tax Code

Bonded Indebtedness

Total amount of outstanding and unpaid bonded indebtedness* $9,065,000

*Outstanding principal.

Comparison of Proposed Rates with Last Year's Rates

	Maintenance & Operations	Interest & Sinking Fund*	Total	Local Revenue Per Student	State Revenue Per Student
Last Year's Rate	$1.01000	$0.23000*	$1.27000	$6,124	$5,324
Rate to Maintain Same Level of Maintenance & Operations Revenue & Pay Debt Service	$0.97218	$0.26324*	$1.23542	$5,802	$6,530
Proposed Rate	$1.04000	$0.23000*	$1.27000	$5,993	$6,530

*The interest & Sinking Fund tax revenue is used to pay for bonded indebtedness on construction, equipment, or both. The bonds, and the tax rate necessary to pay those bonds, were approved by the voters of this district.

Comparison of Proposed Levy with Last Year's Levy on Average Residence

	Last Year	This Year
Average Market Value of Residences	$53,707	$63,283
Average Taxable Value of Residences	$21,818	$29,619
Last Year's Rate Versus Proposed Rate per $100 Value	$1.27000	$1.27000
Taxes Due on Average Residence	$277.34	$376.42
Increase (Decrease) in Taxes		$79.08

Under state law, the dollar amount of school taxes imposed on the residence homestead of a person 65 years of age or older or of the surviving spouse of such a person, if the surviving spouse was 55 years of age or older when the person died, may not be increased above the amount paid in the first year after the person turned 65, regardless of changes in the rate or property value.

Notice of Rollback Rate: The highest tax rate the district can adopt before requiring voter approval at an election is $1.31185. This election will be automatically held if the district adopts a rate in excess of the rollback rate of $1.29155.

Fund Balances

The following estimated balances will remain at the end of the current fiscal year and are not encumbered with or by a corresponding debt obligation, less estimated funds necessary for operating the district (cash flow requirements) until the first taxes are collected.

Maintenance and Operations Fund Balance(s)	$1,934,923
Interest & Sinking Fund Balance(s)	$991,276

COUNTY INDIGENT HEALTH CARE PROGRAM

On September 1, 2017 Robertson County begins its Thirty Second year implementing their responsibility under the Texas Indigent Health Care and Treatment Act. This Act defines who is indigent, assigns the responsibility for the indigent health care, and identifies medical services that eligible people may receive.

Robertson County's compliance with the Act is through County Indigent Health Care Program (CIHC) Program outlined in the CIHC handbook established by the Texas Department of Health as administered by the Brazos Valley Council of Governments (BVCOG). The County establishes the limits within the program for the BVCOG to administrate

Briefly, the rules for the Program are:

- Applicants must be a resident of the county in which they make application, with intent to stay
- Application forms must be completely filled out (some assistance is provided)
- Applicants must furnish information required for verification and documentation of residency, income, resources and size of family
- Applicant's net income cannot exceed approximately 21% of the Federal Poverty Guidelines. Other factors may apply such as size of household.
- *Applicant's assets (resources) cannot exceed $2000.00, for a family of one, after exemptions.*
- The resources for a family of two (husband & wife) cannot exceed 3,000 after exemptions
- Providers are reimbursed for the Eligible Services according to average Medicaid Payment
- Standards and Diagnostic Related Group (DRG) rates
- Clients must use approved physicians

Applications for the CIHC Program are available by writing or calling the Brazos Valley Council of Governments, P.O. Drawer 4128, Bryan, Texas 77805, (979) 595-2801 ext 2267. Assistance with the Program is available in Robertson County on the Second Monday of the month from 1:00 p.m. to 2:30 p.m. at the Region 7 Public Health Clinic, 101 Cedar St., Hearne, Texas

PUBLIC NOTICE PUBLIC NOTICE

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47416, Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.96
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect these customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees	
Existing meter that meets applicable accuracy standards:	$142.95
Digital, non-communicating meter requested before AMS installed:	$157.05
Digital, non-communicating meter requested after AMS installed:	$204.60
Recurring monthly fee:	$29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should all their requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date.

Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

PUBLIC NOTICE PUBLIC NOTICE PUBLIC NOTICE PUBLIC NOTICE

NOTICE OF 2017 TAX YEAR PROPOSED PROPERTY TAX RATE FOR CITY OF CALVERT

A tax rate of $0.45736 per $100 valuation has been proposed by the governing body of City of Calvert.

PROPOSED TAX RATE	$0.45736 per $100
PRECEDING YEARS TAX RATE	$0.48000 per $100
EFFECTIVE TAX RATE	$0.45736 per $100

The effective tax rate is the total tax rate needed to raise the same amount of property tax revenue for City of Calvert from the same properties in both the 2016 tax year and the 2017 tax year.

YOUR TAXES OWED UNDER ANY OF THE ABOVE RATES CAN BE CALCULATED AS FOLLOWS

property tax amount = (rate) x (taxable value of your property) / 100

For assistance or detailed information about tax calculations, please contact:

Michael Brewer

NOTICE TO IMPLEMENT REVISED FIXED FUEL FACTOR

Entergy Texas, Inc. hereby publishes NOTICE that, pursuant to Section 36.203 of the Public Utility Regulatory Act (codified in Tex. Util. Code) and 16 Tex. Admin. Code § 25.235(b), it filed with the Public Utility Commission of Texas (the "Commission") on August 17, 2017 a tariff to implement a revised fixed fuel factor. All of Entergy Texas' retail customers whose fuel charges are calculated under the Texas fixed fuel factor tariff – including but not limited to Residential, Small General Service, Large General Service, Large Industrial Power Service, and Street and Outdoor Lighting Service – will be affected by the Commission's approval of the revised fixed fuel factor. The revised fixed fuel factor, if approved, will affect only the fuel portion of the rates charged by Entergy Texas and will have no effect on non-fuel base rates.

Entergy Texas seeks Commission approval to revise the fixed fuel factor effective with the first billing cycle of the September 2017 billing month. Entergy Texas proposed that the fixed fuel factor be changed pursuant to a semi-annual filing to be made each February and August, with revised fuel factors to be effective with the first billing cycle of the March and September billing months, pursuant to a methodology that changes the fixed fuel factor based upon changes in the published price of natural gas. This methodology was authorized for use in Docket No. 32915.

The revised fixed fuel factor, differentiated by voltage level, is as follows:

FACTOR BY VOLTAGE LEVELS

Delivery Voltage	Fixed Fuel Factor	
Secondary	$0.0302202	per kWh
Primary	$0.0294475	per kWh
69kV/138kV	$0.0287153	per kWh
230kV	$0.0282374	per kWh

The revised fuel factor would result in a decrease in Entergy Texas' annual Texas retail fuel and purchased power recovery by approximately $93.1 million, or 15%, on an annual basis. Compared to the fixed fuel factor approved by the Commission effective March 2017, a residential customer using 1000 kilowatt-hours (kWh) of electricity per month would see an approximate decrease of 15.1% annually, or $5.37 on average per month, on his/her electric bill. The fixed fuel factor rate is designed to pass through to customers the actual fuel costs incurred by Entergy Texas to serve customers. Entergy Texas is not allowed to make a profit on fuel costs. Amounts collected from affected customers pursuant to the revised fixed fuel factor will be subject to final review by the Commission in Entergy Texas' next applicable fuel reconciliation proceeding before the Commission. Entergy Texas expects the revised fixed fuel factor to be in effect for the billing period of September 2017 through February 2018.

Persons with questions or who want more information on this petition may contact Entergy Texas at Attn: Customer Service – Fuel Factor, 350 Pine Street, Beaumont, Texas 77701, or call 1-800-368-3749 (once you hear: "Welcome to Entergy" select option 1, then press 5, then press 7) during normal business hours. A complete copy of this petition is available for inspection at the address listed above.

The Commission has assigned Docket No. 47520 to this proceeding. Persons who wish to formally participate in this proceeding, or who wish to express their comments concerning this petition should contact the Public Utility Commission of Texas, Office of Customer Protection, P.O. Box 13326, Austin, Texas 78711-3326, or call (512) 936-7120 or toll-free at (888) 782-8477. Hearing and speech-impaired individuals with text telephones (TTY) may call (512) 936-7136 or use Relay Texas (toll-free) 1-800-735-2989.

INVITATION TO BIDDERS

The City of Silsbee, Texas will receive sealed bids for furnishing necessary materials, equipment, superintendence and labor for the City of Silsbee, Texas; 2017 Road Rehabilitation Program. The project is generally described as the rehabilitation of selected asphalt City Streets through the installation and placement of base materials and road surface materials as required in the contract documents. Bids will be received until 5:00 p.m. on Monday, August 21, 2017 at the City of Silsbee City Hall, 105 South Third Street, Silsbee Texas 77656. The bids will be publicly opened and read aloud at an office of the City's scheduled Council Meeting that begins at 6:00 p.m. on Monday August 21, 2017. Any bids received after 5:00 p.m. will be returned undecoded.

The right is reserved by the City of Silsbee, as the City's interest may require, to accept or reject any or all bids, and to waive any informality in the bids received.

There will be a non-mandatory pre-bid conference with the Engineer, Owner, and Prospective Bidders at 10:00 a.m. on Wednesday, August 09, 2017 at the City of Silsbee, City Hall Council Chambers 105 South Third Street, Silsbee Texas 77656.

The Contract Documents, including the Plans and Specifications are on file and may be examined at the City of Silsbee City Hall or in the office of LJA Engineering, Inc. 3120 Fannin Street, Beaumont, Texas. Copies may be secured from LJA Engineering, Inc. for a non-refundable payment of $100.00.

Bid Security only in the form of 1) a certified or cashier's check drawn on a Texas bank and made payable to the City of Silsbee or 2) a bond executed by a surety company authorized to do business in Texas, in the amount of not less than five (5%) percent of the total bid, must accompany each bid at the time it is submitted. Bids must be submitted on the form shown in the Contract Documents. A Contractor Qualification Statement must also accompany each bid.

Bids may be held by the City of Silsbee for a period not to exceed 60 days from the date of the bid opening for the purpose of reviewing the bids and investigating the bidder's qualifications prior to the contract award.

Upon award, the successful bidder will be required to furnish payment and performance bonds.

City of Silsbee, Texas
DeeAnn Zimmerman
City Manager 322

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017 EntergyTexas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of the application is Docket No. 47105, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*.

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that ETI be cost-effectively AMS-capable of the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and directions of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.19
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.66
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive elective service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.130 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that choose installation of an advanced meter or any other retail customer who requests non-standard metering service:

Non-refundable, one-time up-front fees

Existing meter that must be upgraded to accuracy standards $142.95

Digital non-communicating meter requested before AMS is installed $157.05

Digital non-communicating meter requested after AMS is installed $20.10

Recurring monthly fee $20.71 per month

Persons who have questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (also 7 with 10 copies) to your letter to Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing-and speech-impaired individuals with text telephones (TTY) may contact the Commission at (512) 936-7136.

Game Warden field notes

The following items are compiled from recent Texas Parks and Wildlife Department law enforcement reports.

Too Fond of the Fawn

A Bexar County game warden was called by Alamo security about a woman walking a whitetailed fawn on a leash. When the arrived on the scene, the warden questioned her about picking up the fawn on the side of the road. The woman claimed she came to the Alamo to take Fourth of July family photos. The game warden tried to explain the state law forbidding possession of game animals but she would not listen and became very upset. The fawn was seized and taken to a licensed Texas Parks and Wildlife rehabilitator and charges are pending. Tourists were educated at the Alamo about attempting to take game animals as pets.

Illegal Netting Isn't Easy

While patrolling Willacy County, a game warden received an Operation Game Thief crime stopper call regarding three individuals who were possibly working a gill net within a public waterway on the west side of the county. After arriving at the location, the warden witnessed two exhausted individuals putting the final touches on a freshly set gill net. After a few minutes, the fishermen finally noticed they were being watched by a game warden and one of the individuals immediately said, "Well sir, I'm not going to deny it, you caught me." The warden proceeded to inform the exhausted individuals that it was time to remove the illegal net from the water and receive citations. Cases are pending.

Hooping It Up

A game warden was patrolling north Toledo Bend Reservoir during the long Fourth of July weekend when he noticed two individuals in a small boat with what appeared to be hoop net, which is illegal for use in Texas waters. The warden observed the subjects through his binoculars for a while as it appeared they were trying to find a location to place the net. The teners spotted the warden and attempted to flee, but were overtaken. Upon questioning, the subjects admitted to having already placed a hoop net in Texas waters and were cited for illegal means and methods. The case is pending.

Fizzled Out

Game wardens were patrolling the annual Fourth of July fireworks shows on the Sabine River for water safety compliance. At the conclusion of the show, the wardens stopped a vessel for improper lighting. When the blue lights on the wardens' boat were initiated, the subject would not stop his vessel and neeelerated. Finally the wardens were able to get his attention to stop the vessel. The operator had an expired registration, one minor onboard was not wearing a personal floatation device and another was wearing a PFD improperly. The boat operator also exhibited signs of possible impairment and after failing a field sobriety test was arrested for boating while intoxicated. He also received a citation for child under 13 years of age not wearing a life jacket and multiple warnings. The case is pending.

Time for Plan B

A Real County game warden received a call near midnight from a ranch foreman about two kayakers who were stranded on the West Fork of the Frio River. The warden arrived on the scene and began visiting with the kayakers. They told him they put in around 4:30 p.m. and had only traveled approximately 6 miles. They told him they were planning to kayak to Concan. He advised them they were 25 miles from Concan by road. He also advised them to rethink their trip because they were going to have to drag their kayaks most of the trip due to the river being low because of the lack of rain. The warden took one of the kayakers back to their vehicle so they could load up their kayaks and come up with another plan. They were very thankful for the warden coming out so late to help them.

A, H, C, D, B, W, I

Travis County game wardens arrested two subjects for boating while intoxicated (BWI) on Lake Travis after observing the men switching driver's seats. One of the wardens asked the original driver, who was wearing an ankle monitor, to recite his ABCs. After reciting a portion of the alphabet he stopped and was asked to continue, but stated, "No, I can't actually." This subject was placed under arrest for BWI. The second driver, who was already on probation for DWI, was hiding in the cabin of the boat and was subsequently arrested as well. The cases are pending.

Jehovah's Witnesses convention in Lake Charles, Lousiana

Jehovah's Witnesses welcome the public to attend this year's three-day convention.

The 2017 convention of Jehovah's Witnesses, entitled "Don't Give Up!" shows how to enjoy a happy lifeeven and gain a real hope for the future.

The three-day program is set Aug. 4-6 at the Burton Coliseum, 7001 Gulf Highway, in Lake Charles, La.

The program will feature talk, sand interviews, multimedia presentations, a feature film presentation and a Public Bible discourse entitled "Never Give Up Hope!"

There is no charge, and admission and no collections will be taken.

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas Inc ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non Standard Metering Service Fees The style of the application is Docket No 47410, *Application of Entergy Texas Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130 In the most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under a proposed deployment plan The proposed AMS Surcharge would be in place for twelve years ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows

Residential	$3 18
Small General Service	$4 79
General Service	$4 74
Large General Service	$4 96
Large Industrial (non-transmission only)	$4 58

After the first five years of the surcharge period, and for the remainder of the surcharge period the residential surcharge rate would be $1,73 per month and the other surcharge rates listed above would be $0 00 per month ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018 The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission

Furthermore, ETI proposes to allow customers to choose to receive electric service through a non standard (non-approved) meter and to assess fees consistent with Commission Rule 25 133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service

Non-refundable, one-time up-front fees

Existing meter that meets applicable accuracy standards $142.95

Digital, non-communicating meter requested before AMS installed $157.05

Digital, non-communicating meter requested after AMS installed $204.60

Recurring monthly fee $29 71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc , Attn Customer Service – AMS Application, P O Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1 then press 0, then press 1, then press 3) during normal business hours A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701

Persons who wish to intervene in the proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to Public Utility Commission of Texas, Central Records, Attn Filing Clerk, 1701 N Congress Avenue, P O Box 13326, Austin, Texas 78711-3326 The proposed deadline for intervention in this proceeding is 45 days after the application was filed and the Commission should receive a letter requesting intervention no later than that date Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477 Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, EnergyTexas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No. 47418, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees.*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25.130. In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to defer any AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs. ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145.

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan. The proposed AMS Surcharge would be in place for twelve years. ETI's proposed monthly AMS Surcharge rate for each rate class for the first five years of the surcharge period are as follows:

Residential	$3.18
Small General Service	$4.79
General Service	$4.74
Large General Service	$4.86
Large Industrial (non-transmission only)	$4.58

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service. The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission.

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and to assess fees consistent with Commission Rule 25.130 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that request installation of an advanced meter or any other electric meter who requests non-standard metering service.

Non-refundable, one-time up-front fees

Existing meter that meets applicable accuracy standards $142.95

Digital, non-communicating meter requested before AMS installed $157.05

Digital, non-communicating meter requested after AMS installed $204.60

Recurring monthly fee: $29.71 per month

Persons with questions or who want more information regarding this application may contact EnergyTexas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704, or call 1-800-368-3749 (select option 1 then press 3, then press 3) during normal business hours. A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should address requests to intervene or their comments (along with 10 copies of your letter) to: Public Utility Commission of Texas, Central Records, Attn: Filing Clerk, 1701 N. Congress Avenue, P.O. Box 13326, Austin, Texas 78711-3326. The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date. Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512) 936-7136.

Texas dove hunting season outlook promising

Southeast Texas included in early Special Whitewing Days

AUSTIN – For the first time since dove conservation measures were established in Texas nearly a century ago, hunters statewide will have an opportunity to pursue the popular game birds during the first weekend of September.

While the traditional September 1 opener will still be limited to Texas' North and Central Dove Zones, hunters in the southern region of the state will be able to join in the action the following afternoon thanks to an expansion of the Special White-winged Dove Area across the entire South Dove Zone. Previously, these early 4 days of dove hunting were restricted to an area roughly west and south of San Antonio and Corpus Christi.

"The expansion of early white-winged dove hunting during the first two weekends in September, in effect, create early September hunting opportunities statewide for the first time ever," said Dave Morrison, Texas Parks and Wildlife Department Wildlife Division deputy director.

The regular season opening day in the South Dove Zone will be Sept. 22, the earliest date possible this year under federal guidelines.

Roughly 15 percent of the nation's 300 million mourning dove reside in Texas, along with about 15 million white-winged doves at the beginning of September. Each fall, over 300,000 Texas dove hunters take to the field in pursuit of these acrobatic, fast-flying game birds. Based on field observations by TPWD wildlife biologists, prospects for the 2017-18 hunting season are fair to excellent across the state as habitat conditions vary depending on scattered precipitation and timing of plants seeding out.

"Texas had above average mourning dove production early in the spring with continued good production where precipitation occurred through the spring and summer," said Shaun Oldenburger, TPWD Dove Program Leader. "Good croton, sunflower, ragweed, and other highly-selected dove foods were found statewide this year. Where good water conditions and timing of seeding in these plants coincide, hunters should find good hunting in September for mourning doves."

White-winged doves were observed flocking in late July in urban areas across the state with good numbers starting to move to more rural areas in early August, according to Oldenburger. Mourning dove populations are concentrated around water and food resources in August during the traditional hottest part of the year. See the Youtube link at for more dove hunting season details.

2017-18 Dove Season Calendar

North Zone: Sept. 1 – Nov. 12 and Dec. 15-31.

Central Zone: Sept. 1 – Nov. 5 and Dec. 15 – Jan. 7, 2018.

Special White-winged Dove Days (entire South Zone): Sept. 2-3, 9-10.

South Zone: Sept. 22 – Nov. 8 and Dec. 15 – Jan. 21, 2018.

The daily bag limit for doves statewide is 15 and the possession limit is 45.

During the early two weekends for the Special White-winged Dove Days (in the South Zone), hunting is allowed only from noon to sunset and the daily bag limit is 15 birds, to include not more than two mourning doves and two white-tipped doves. During the general season in the South Zone, the aggregate bag limit is 15 with no more than two white-tipped doves.

Words from a Millennial

By Meagan Moore
reporter@silsbeebee.com

When I was younger, and I heard the word "baptism," I knew it meant being dunked in water, but I thought it was just for Baptists. I really had no idea what baptism really was about or what it truly stood for in being a Christian.

My father was a Jehovah's Witness (yes, I know all about the jokes surrounding this particular denomination) and as a result, my siblings and I were also raised as such, but we hardly ever attended church or really understood what it meant. Growing up, I just knew I wasn't allowed to participate in holidays.

I prayed a lot as a child and growing up. Somewhere between moving to Kountze and graduating from high school, I didn't as much. My life was going amazing for the most part as I was so focused on myself and going to college to leave home.

About four years ago, I started going through a rough time, as we all do at some point in our life, and about two years ago, I was encouraged to attend an Easter service at Journey Community Church in Lumberton.

I won't lie, I felt super awkward at first. I do remember how friendly everyone had been, going out of their way to show me around and welcoming to their church. If it hadn't been for the people I was going with, I probably would not have kept going.

I didn't really grow up going to church. My memories of church were with my late grandmother wearing scratchy dresses and singing songs I didn't know the words to. The more services I attended at Journey, the more I realized that so many of the messages hidden in the sermons I could relate to, as if the pastor was speaking solely to me.

I decided to become a member. I took the member class and was able to really meet the pastor, who is busy with a congregation of about 250, but he and his wife took the time to really talk to and get to know the new members. Once he found out what my college degree was in and that I was willing to volunteer, I started working on a newsletter and the bulletin for the church for about a year.

I now work and serve every Sunday in the sound booth, for

NOTICE TO IMPLEMENT REVISED FIXED FUEL FACTOR

Entergy Texas, Inc. hereby publishes NOTICE that, pursuant to Section 36.203 of the Public Utility Regulatory Act (codified in TEX. UTIL. CODE) and 16 Tex. Admin. Code § 25.236(k), it filed with the Public Utility Commission of Texas (the "Commission") on August 17, 2017 a tariff to implement a revised fixed fuel factor for all of Entergy Texas' retail customers whose fuel charges are calculated under the Texas fixed fuel factor tariff – including but not limited to Residential, Small General Service, Large General Service, Large Industrial Power Service, and Street and Outdoor Lighting Service – will be affected by the Commission's approval of the revised fixed fuel factor. The revised fixed fuel factor, if approved, will affect only the fuel portion of the rates charged by Entergy Texas and will have no effect on non-fuel base rates

Entergy Texas seeks Commission approval to revise the fixed fuel factor effective with the first billing cycle of the September 2017 billing month. Entergy Texas proposed that the fixed fuel factor be changed pursuant to a semi-annual filing to be made each February and August, with revised fuel factors to be effective with the first billing cycle of the March and September billing months, pursuant to a methodology that changes the fuel factor based upon changes in the published price of natural gas This methodology was authorized for use in Docket No 39915

The revised fixed fuel factor, differentiated by voltage level, is as follows

FACTOR BY VOLTAGE LEVELS

Delivery Voltage	Fixed Fuel Factor
Secondary	$0.03022/kWh
Primary	$0.02884/kWh
69kV/138kV	$0.02871/kWh
230kV	$0.02823/kWh

The revised fuel factor would result in a decrease in Entergy Texas' annual Texas retail fuel and purchased power revenues by approximately $30 million, or 15%, on an annual basis Compared to the fixed fuel factor approved by the Commission effective March 2017, a residential customer using 1000 kilowatt-hours (kWh) of electricity per month would see an approximate decrease of 18 1% annually, or $5.37 on average per month, on his/her electric bill. The fixed fuel factor rate is designed to pass through to customers the actual fuel costs incurred by Entergy Texas to serve customers Entergy Texas is not allowed to make a profit on fuel costs. Amounts collected from affected customers pursuant to the revised fixed fuel factor will be subject to final review by the Commission in Entergy Texas' next applicable fuel reconciliation proceeding before the Commission Entergy Texas expects the revised fixed fuel factor to be in effect for the billing period of September 2017 through February 2018

Persons with questions or who want more information on this petition may contact Entergy Texas at Attn: Customer Service – Fuel Factor, 350 Pine Street, Beaumont, Texas 77701, or call (1-800-368-3749 (once you hear "Welcome to Entergy" select option 1, then press 5 then press 7) during normal business hours A complete copy of this petition is available for inspection at the address listed above

The Commission has assigned Docket No 47820 to this proceeding Persons who wish to formally participate in this proceeding or who wish to express their comments concerning this petition should contact the Public Utility Commission of Texas, Office of Customer Protection, P O Box 13326, Austin, Texas 78711-3326 or call (512) 936-7120 or toll-free at (888) 782- 8477 Hearing and speech-impaired individuals with text telephones (TTY) may call (512) 936- 7136 or use Relay Texas (toll-free) 1-800-735-2989

NOTICE OF APPLICATION FOR APPROVAL OF AMS DEPLOYMENT PLAN, AMS SURCHARGE, AND NON-STANDARD METERING SERVICE FEES FILED WITH THE PUBLIC UTILITY COMMISSION OF TEXAS

On July 18, 2017, Entergy Texas, Inc. ("ETI") filed an application with the Public Utility Commission of Texas ("PUC" or "Commission") for Approval of an Advanced Metering System ("AMS") Deployment, AMS Surcharge, and Non-Standard Metering Service Fees. The style of this application is Docket No 47416, *Application of Entergy Texas, Inc. for Approval of an Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Non-Standard Metering Service Fees*

ETI is seeking approval from the Commission for its AMS deployment plan consistent with Commission Rule 25 130 In its most recent regular session, the Texas Legislature approved Senate Bill 1145, which extended mechanisms that support deployment of AMS to ETI and directed that if ETI elects to deploy AMS, it shall deploy the network as rapidly as practicable to allow customers to better manage energy use and control costs ETI is therefore submitting its application for Commission review and approval consistent with the support and direction of the Legislature as provided in Senate Bill 1145

ETI requests approval of an AMS Surcharge for recovery of the reasonable and necessary costs that ETI will incur under its proposed deployment plan The proposed AMS Surcharge would be in place for twelve years ETI's proposed monthly AMS Surcharge rates for each rate class for the first five years of the surcharge period are as follows

Residential	$3.18
Small General Service	$4.73
General Service	$14.74
Large General Service	$44.86
Large Industrial (non-transmission only)	$458

After the first five years of the surcharge period, and for the remainder of the surcharge period, the residential surcharge rate would be $1.73 per month and the other surcharge rates listed above would be $0.00 per month. ETI proposes that its AMS Surcharge will go into effect with the first billing cycle of January 2018. The AMS Surcharge will apply to electric service to residential customers and non-residential customers, other than those who are served at transmission voltage or take unmetered service The costs recovered through the AMS Surcharge will be reviewed by the Commission in a reconciliation proceeding to be held in the future on a schedule to be determined by the Commission

Furthermore, ETI proposes to allow a customer to choose to receive electric service through a non-standard (non-advanced) meter and reasonable fees consistent with Commission Rule 25 133 to recover the costs associated with providing the non-standard metering service from a customer who elects to have a non-standard meter. The following fees will only affect those customers that refuse installation of an advanced meter or any other retail customer who requests non-standard metering service

Non-refundable, one-time up-front fees

Existing meter that meets applicable accuracy standards	$142.85
Digital, non-communicating meter requested before AMS installed	$167.05
Digital, non-communicating meter requested after AMS installed	$201.60

Recurring monthly fee: $29.71 per month

Persons with questions or who want more information regarding the application may contact Entergy Texas, Inc., Attn: Customer Service – AMS Application, P.O. Box 2951, Beaumont, Texas 77704 or call 1-800-368-3749 (select option 1, then press 0, then press 4, then press 3) during normal business hours A complete copy of the application is available for inspection at ETI's Beaumont office located at 350 Pine Street, Beaumont, Texas 77701.

Persons who wish to intervene in this proceeding or comment upon the action sought, should mail their requests to intervene or their comments (along with 10 copies of your letter) to Public Utility Commission of Texas, Central Records, Attn: Fang Clark, 1701 N. Congress Avenue, P.O. Box 13326 Austin Texas 78711-3326 The proposed deadline for intervention in this proceeding is 45 days after the application was filed, and the Commission should receive a letter requesting intervention no later than that date Further information may also be obtained by contacting the Public Utility Commission at (512) 936-7120 or (888) 782 8477 Hearing and speech-impaired individuals with text telephones ("TTY") may contact the Commission at (512)936-7136
