Subject:

Checks needed for Water Meter service

ENTERED MAY 12 28.

CK 5468

Mike.

I need to get a check to cover the cost to have water service installed at the following addresses:

2487 Audubon Ave-Gilchrist (Lift Station 15)

\$1510.

2383 Audubon Ave-Gilchrist (Lift Station 16) 2925 Hwy 87-Crystal Beach (Ramada Beach frac tank) \$1510. \$1510. - 19

2375 Hwy 87-Crystal Beach (Big Store LS 9)

\$1510.

\$6040. total

Once I get the accounts all set up, payed for and notarized, I'll scan each and send you copies.

Thanks,

GinGee Stewart

APPLICATION OF BOLIVAR UTILITY SERVICES, LLC FOR A RATE/TARIFF CHANGE

PUBLIC UTILITY COMMISSION FILING CLERK

**OF TEXAS** 

#### **ORDER**

This Order addresses the application of Bolivar Utility Services, LLC (Bolivar) for a rate/tariff change for areas served within Galveston County. A unanimous settlement was executed that resolves all issues among the parties. Consistent with the settlement, the application is approved.

The Commission adopts the following findings of fact and conclusions of law:

#### I. Findings of Fact

#### **Procedural History**

- On July 7, 2015, Bolivar filed an application for a rate/tariff change for areas it serves within Galveston County under certificate of convenience and necessity (CCN) No. 20126.
   Bolivar proposed a \$10.00 increase to the sewer monthly minimum charge.
- 2. On July 14, 2015, the Commission issued Order No. 1, requiring comments on administrative completeness and addressing other procedural matters.
- 3. On July 30, 2015, Bolivar filed supplemental and additional information to the application.
- 4. On August 6, 2015, Commission Staff filed a response to Order No. 1, recommending that the application and notice be deemed administratively complete and sufficient for filing.
- 5. On August 10, 2015, the Commission issued Order No. 2, finding the application to be administratively complete and establishing a procedural schedule.
- 6. On September 25, 2015, Commission Staff filed its first request for information (RFI) to Bolivar.
- 7. On September 30, 2015, Bolivar's proposed rates went into effect.
- 8. On October 12, 2015, Bolivar responded to Commission Staff's first RFI.

### **Tariff Authorizing Developer Fees**

PUC Docket No. 44911 SOAH Docket No. 473-16-3635.WS

Order

Page 2 of 5

- 9. On December 10, 2015, Commission Staff filed its second RFI to Bolivar.
- 10. On December 15, 2015, Commission Staff filed its third RFI to Bolivar.
- 11. On December 29, 2015, Bolivar responded to Commission Staff's second and third RFIs.
- 12. On January 19, 2016, Bolivar filed supplemental responses to Commission Staff's second RFI.
- 13. On January 19, 2016, Commission Staff filed its fourth RFI to Bolivar.
- 14. On January 28, 2016, Commission Staff filed a request for hearing.
- 15. On February 11, 2016, Bolivar responded to Commission Staff's fourth RFI.
- 16. On April 11, 2016, the Commission referred this proceeding to the State Office of Administrative Hearings (SOAH).
- 17. On April 21, 2016, SOAH issued Order No. 1, noticing a prehearing conference and addressing jurisdiction and procedural matters.
- 18. On April 28, 2016, Commission Staff filed a list of issues.
- 19. On May 12, 2016, Commission Staff filed its fifth RFI to Bolivar.
- 20. On May 19, 2016, SOAH issued Order No. 2, memorializing the prehearing conference and establishing a procedural schedule for the docket.
- 21. On May 23, 2016, the Commission issued the preliminary order designating the issues to be addressed in this proceeding.
- 22. On May 25, 2016, Bolivar responded to Commission Staff's fifth RFI.
- 23. On August 23, 2016, Bolivar and Commission Staff (collectively, signatories) filed a settlement and motion to admit evidence and to remand the proceeding to the Commission. The filing included an agreed tariff.<sup>1</sup>
- 24. On August 24, 2016, Commission Staff filed a recommendation in support of the settlement.

<sup>&</sup>lt;sup>1</sup> The CCN No. 20126 service area extends into Chambers County; however, Bolivar serves only in Galveston County.

## **Tariff Authorizing Developer Fees**

PUC Docket No. 44911 SOAH Docket No. 473-16-3635.WS Order

Page 3 of 5

25. On August 25, 2016, SOAH issued Order No. 3, admitting evidence, remanding the case to the Commission, and dismissing the proceeding from the SOAH docket.

#### Description of the settlement

26. Consistent with the settlement, the signatories agree to the following retail sewer utility rates:

Meter Size	Minimum Charge (includes 999 gallons)	Gallonage Rate (per 1,000 gallons)
5/8" or ¾"	\$40.00	\$4.00

27. Consistent with the settlement, the signatories agree to the following miscellaneous rates:

2	
Tap Fee	\$550.00
Reconnect Fee:	\$ 25.00
Non-Payment (Maximum \$25)	
Customer's Request	
Transfer Fee	\$ 0.00
Late Charge	\$ 5.00
Returned Check Charge	\$ 25.00
Customer Deposit	\$ 50.00
Meter Test Fee	\$ 0.00

#### Consistency of the settlement with the Texas Water Code and Commission Requirements

- 28. Considered in light of Bolivar's application, responses to discovery requests, and information exchanged through confidential privileged settlement negotiations, the settlement is the result of compromise from each party and these efforts, as well as the overall result of the settlement, support the reasonableness and benefits of the terms of the settlement.
- 29. Consistent with the settlement, the rates, terms, and conditions of the tariff, included with this Order as Attachment 1, are just and reasonable when the benefits of avoiding the expense of a contested case hearing are considered.

#### Administrative Review

30. More than 30 days have passed since the completion of all notice requirements.

### **Tariff Authorizing Developer Fees**

PUC Docket No. 44911 SOAH Docket No. 473-16-3635,WS Order

Page 4 of 5

31. This matter has been fully settled so that there are no issues of fact or law disputed by any party.

#### II. Conclusions of Law

- 1: Bolivar is a sewer utility that serves areas in Galveston County.
- 2. The Commission has jurisdiction to consider Bolivar's application for a rate/tariff change for areas it serves within Galveston County and conduct both formal and informal ratemaking hearings pursuant to Texas Water Code §§ 13.041, 13.181, and 13.187 (TWC) using procedures set forth in 16 TAC Chapter 24.
- 3. This docket was processed in accordance with the requirements of the TWC, the Administrative Procedure Act, Tex. Gov't Code Ann. §§ 2001.001-.902 (West 2016), and Commission rules.
- 4. Bolivar provided proper notice of the application as required by TWC §§ 13.1871 and 13.1872 and 16 TAC § 24.22.
- 5. The settlement and this Order resolves Bolivar's request for a rate change pursuant to TWC Chapter 13 and 16 TAC Chapter 24.
- 6. The settlement, taken as a whole, is a just and reasonable resolution of all of the issues it addresses, results in just and reasonable rates, terms, and conditions, is consistent with the relevant provisions of TWC Chapter 13, and should be approved.
- 7. The rates agreed to in the settlement are just and reasonable, comply with the ratemaking provisions in TWC, Chapter 13, and are not unreasonably discriminatory, preferential, or prejudicial.
- 8. The requirements for informal disposition under 16 TAC § 22.35 have been met in this proceeding.

## **Tariff Authorizing Developer Fees**

PUC Docket No. 44911 SOAH Docket No. 473-16-3635.WS Order

Page 5 of 5

#### III. Ordering Paragraphs

In accordance with these findings of fact and conclusions of law, the Commission issues the following orders:

- 1. Consistent with the above findings of fact and conclusions of law and the settlement, Bolivar's application is approved.
- 2. Bolivar's tariff setting out the agreed rates, terms, and conditions for retail sewer service, included as Attachment 1 to this Order, is approved.
- 3. Entry of this Order does not indicate the Commission's endorsement or approval of any principle or methodology that may underlie the settlement. Entry of this Order shall not be regarded as binding holding or precedent as to the appropriateness of any principle or methodology underlying the settlement.
- 4. All other motions, requests for entry of specific findings of fact, conclusions of law, and ordering paragraphs, and any other requests for general or specific relief, if not expressly granted, are denied.

Signed at Austin, Texas the 28th day of September 2016.

#### SECTION 1.0 RATE SCHEDULE

#### Section 1.01 Rates

Meter Size Monthly Minimum Charge

Gallonage Charge

5/8' or 3/4'

\$40.00 (per connection for all water meter sizes)

\$4.00 per 1,000 gallons

FORM OF PAYMENT. The utility will accept the following forms of payment:

Cash X, Check X, Money Order X, Credit Card X, Other (specify)X-Prearranged

Automatic Bank Draft the utility May require exact change for payments and may refuse to accept payments made using more than \$1.00 in small coins. A written receipt will be given for cash payments.

#### REGULATORY ASSESSMENT

1.0%

Ġ

PUC RULES REQUIRE THE UTILITY TO COLLECT A FEE OF ONE PERCENT OF THE RETAIL MONTHLY BILL.

#### Section 1.02 Miscellaneous Fees

TAP FEE (Gravity Sewer).

.\$550.00

TAP FEE COVERS THE UTILITY'S COSTS FOR MATERIALS AND LABOR TO INSTALL A STANDARD RESIDENTIAL CONNECTION. AN ADDITIONAL FEE TO COVER UNIQUE COSTS IS PERMITTED IF LISTED ON THIS TARIFF.

TAP FEE (Large Meter)

.Actual Cost

TAP FEE IS THE UTILITY'S ACTUAL COST FOR MATERIALS AND LABOR FOR TAP SIZE INSTALLED.

TAP FEE (Pressure Sewer)

.Actual Cost

TAP FEE IS THE UTILITY'S ACTUAL COST FOR MATERIALS AND LABOR FOR TAP SIZE INSTALLED.

#### RECONNECTION FEE

THE RECONNECT FEE MUST BE PAID BEFORE SERVICE CAN BE RESTORED TO A CUSTOMER WHO HAS BEEN DISCONNECTED FOR THE FOLLOWING REASONS (OR OTHER REASONS LISTED UNDER SECTION 2.0 OF THIS TARIFF):

a) Non payment of bill (Maximum \$25.00).

.\$25.00

b) Customer's request that service be disconnected.

.\$45.00

#### TRANSFER FEE:

N/A

THE TRANSFER FEE WILL BE CHARGED FOR CHANGING AN ACCOUNT NAME AT THE SAME SERVICE LOCATION WHEN THE SERVICE IS NOT DISCONNECTED.

LATE CHARGE (EITHER \$5.00 OR 10% OF THE BILL)

.\$5.00

PUC RULES ALLOW A ONE-TIME PENALTY TO BE CHARGED ON DELINQUENT BILLS. A LATE CHARGE MAY NOT BE APPLIED TO ANY BALANCE TO WHICH THE PENALTY WAS APPLIED IN A PREVIOUS BILLING.

### **Tariff Authorizing Developer Fees**

Sewer Utility Tariff Page No. 4

#### SECTION 2.0 SERVICE RULES AND POLICIES

#### Section 2.01 Application for Sewer Service

The utility will have the most current Public Utility Commission of Texas (PUC or Commission) Rules, Chapter 24, available at its office for reference purposes. The Rules and this tariff shall be available for public inspection and reproduction at a reasonable cost. The latest Rules or Commission approved changes to the Rules supersede any rules or requirements in this tariff.

#### Section 2.02 Application for and Provision of Sewer Service

All applications for service will be made on the utility's standard application or contract form (attached in the Appendix to this tariff), and will be signed by the applicant before sewer service is provided by the utility. A separate application or contract will be made for each service at each separate location.

After the applicant has met all the requirements, conditions, and regulations for service, the utility will install service connections, which may include a utility cut-off valve, and/or take all necessary actions to initiate service. The utility will serve each qualified applicant for service within 5 working days unless line extensions or new facilities are required. If construction is required to fill the order and if it cannot be completed within 30 days, the utility will provide the applicant with a written explanation of the construction required and an expected date of service.

Where service has previously been provided, the utility will reconnect the service within one working day after the applicant has met the requirements for reconnection.

, , , ,

The customer will be responsible for furnishing and laying the necessary customer service pipe from the connection location to the place of use.

#### Section 2.03 Refusal of Service

and the state of t

The utility may decline to serve an applicant until the applicant has complied with the regulations of the regulatory agencies (state and municipal regulations) and for the reasons outlined in the PUC Rules. In the event that the utility refuses to serve an applicant, the utility will inform the applicant in writing of the basis of its refusal. The utility is also required to inform the applicant that a complaint may be filed with the Commission.

#### Section 2.04 Customer Deposits

If a residential applicant cannot establish credit to the satisfaction of the utility. the applicant may be required to pay a deposit as provided for in Section 1.02 of this tariff. The utility will keep records of the deposit and credit interest in accordance with PUC Rules.

Residential applicants 65 years of age or older may not be required to pay deposits unless the applicant has an outstanding account balance with the utility or another water or sewer utility which accrued within the last two years.

## **Tariff Authorizing Developer Fees**

Bolivar Utility Services, LLC. (Utility Name)

Sewer Utility Tariff Page No. 5

#### SECTION 2.0 SERVICE RULES AND POLICIES (Cont.)

Nonresidential applicants who cannot establish credit to the satisfaction of the utility may be required to make a deposit that does not exceed an amount equivalent to one-sixth of the estimated annual billings.

Refund of Deposit. If service is not connected, or after disconnection of service, the utility will promptly refund the customer's deposit plus accrued interest or the balance, if any. in excess of the unpaid bills for service furnished. The utility may refund the deposit at any time prior to termination of utility service but must refund the deposit plus interest for any customer who has paid 18 consecutive billings without being delinquent.

## Section 2.05 - Meter Requirements, Readings, and Testing

It is not a requirement that the utility use meters to measure the quantity of sewage disposed of by individual customers. One connection is required for each residential, commercial, or industrial facility in accordance with the TCEQ Rules.

#### Section'2.06 - Billing

Bills from the utility will be mailed monthly unless otherwise authorized by the Commission. The due date of bills for utility service will be at least sixteen (16) days from the date of issuance. The postmark on the bill or, if there is no postmark on the bill, the recorded date of mailing by the utility will constitute proof of the date of issuance. If the due date falls on a holiday or weekend, the due date for payment purposes will be the next workday after the due date.

A late penalty of \$5.00 will be charged on bills received after the due date. The penalty on the delinquent bills will not be applied to any balance to which the penalty was applied in a previous billing. The utility must maintain a record of the date of mailing to charge the late penalty.

Each bill will provide all information required by PUC Rules. For each of the systems it operates, the utility will maintain and note on the monthly billing a telephone number (or numbers) which may be reached by a local call by customers. At the utility's option, a toll-free telephone number or the equivalent may be provided.

In the event of a dispute between a customer and a utility regarding any bill for utility service, the utility will conduct an investigation and report the results to the customer. If the dispute is not resolved, the utility will inform the customer that a complaint may be filed with the Commission.

#### Section 2.07 - Service Disconnection

Utility service may be disconnected if the bill has not been paid in full by the date listed on the termination notice. The termination date must be at least 10 days after the notice is mailed or hand delivered.

## **Tariff Authorizing Developer Fees**

Bolivar Utility Services, LLC. (Utility Name)

Sewer Utility Tariff Page No. 6

#### SECTION 2.0 SERVICE RULES AND POLICIES (Cont.)

The Utility is encouraged to offer a deferred payment plan to a customer who cannot pay an outstanding bill in full and is willing to pay the balance in reasonable installments. However, a customer's utility service may be disconnected if a bill has not been paid or a deferred payment agreement entered into within 30 days from the date of issuance of a bill and if proper notice of termination has been given.

Notice of termination must be a separate mailing or hand delivery in accordance with PUC rules.

Utility service may also be disconnected without notice for reasons as described in the PUC rules.

Utility personnel must be available to collect payments and to reconnect service on the day of and the day after any disconnection of service unless service was disconnected at the customer's request or due to a hazardous condition.

#### Section 2.08 Reconnection of Service

Service will be reconnected within 24 hours after the past due bill and any other outstanding charges are paid or correction of the conditions which caused service to be disconnected.

The state of the second of the

#### Section 2.09 Service Interruptions

Commence of the second second

The Utility will make all reasonable efforts to prevent interruptions of service. If interruptions occur, the Utility will re-establish service within the shortest possible time. Except for momentary interruptions due to automatic equipment operations, the Utility will keep a complete record of all interruptions, both emergency and scheduled and will notify the Commission in writing of any service interruptions affecting the entire system or any major division of the system lasting more than four hours. The notice will explain the cause of the interruptions.

<u>Prorated Bills:</u> If service is interrupted or seriously impaired for 24 consecutive hours or more, the Utility will prorate the monthly base bill in proportion to the time service was not available to reflect this loss of service.

## Section 2.10 Quality of Service

. . '

The Utility will plan, furnish, and maintain and operate a treatment and collection facility of sufficient size and capacity to provide a continuous and adequate service for all reasonable consumer uses and to treat sewage and discharge the effluent at the quality required by its discharge permit issued by the TCEQ. Unless otherwise authorized by the Commission, the Utility will maintain facilities as described in the TCEQ Rules and Regulations for Public Sewer Systems.

Docket Number: 44911

ŧ

Sewer Utility Tariff Page No. 7

SECTION 2.0 SERVICE RULES AND POLICIES (Cont.)

#### Section 2.11 Customer Complaints and Disputes

If a customer or applicant for service lodges a complaint, the Utility will promptly make a suitable investigation and advise the complainant of the results. Service will not be disconnected pending completion of the investigation. If the complainant is dissatisfied with the Utility's response, the Utility must advise the complainant that he has recourse through the PUC complaint process. Pending resolution of a complaint, the Commission may require continuation or restoration of service.

The Utility will maintain a record of all complaints which shows the name and address of the complainant, the date and nature of the complaint and the adjustment or disposition thereof, for a period of two years after the final settlement of the complaint.

#### SECTION 2.20 – SPECIFIC UTILITY SERVICE RULES AND REGULATIONS

This section contains specific utility service rules in addition to the rules previously listed under Section 2.0. It must be reviewed and approved by the Commission and in compliance with the PUC Rules to be effective.

The Utility adopts the administrative rules of the PUC, as the same may be amended from time to time, as its Company specific service rules and regulations. These rules will be kept on file at the company's offices for customer inspection during regular business hours. In the event of a conflict between the PUC's amended rules and the provisions of this tariff, the amended rules shall prevail. Where necessary any conflicting provision of this tariff shall be deemed to have been superseded by the PUC rule in question to the degree that the Utility may conduct its lawful business in conformance with all requirements of said rule.

All payments for utility service shall be delivered or mailed to the Utility's business office. If the business office fails to receive payment prior to the time of noticed disconnection for non-payment of a delinquent account, service will be terminated as scheduled. Utility service crews shall not be allowed to collect payments on customer accounts in the field.

Payment of an account by any means that has been dishonored and returned by the payor or payee's bank, shall be deemed to be delinquent. All returned payments must be redeemed with cash or valid money order. If a customer has two returned payments within a twelve month period, the customer shall be required to pay a deposit if one has not already been paid.

Customer shall be liable for any damage or injury to utility-owned property or personnel shown to be caused by the customer. his invitees, his agents, his employees, or others directly under his control.

Limitation on Product/Service Liability The Utility will not accept liability for any injury or damage to individuals or their property occurring on the customer's premises. The Utility makes no representations or warranties (expressed or implied) that customer's appliances will not be damaged by disruptions of or fluctuations in sewer service whatever the cause. The Utility will not accept liability for injuries or damages to persons or property due to disruption of sewer service caused by: (1) acts of God, (2) acts of third parties not subject to the control of the Utility if the Utility has undertaken such preventive measures as are required by PUC and TCEQ rules, (3) electrical power failures in sewer systems not required by TCEQ rule to have auxiliary power supplies, or (4) termination of sewer service pursuant to the Utility's tariff and the PUC's rules

If the services of a registered professional engineer are required as a result of an application for service received by the Utility for service to that applicant's service extension only. such engineer will be selected by the Utility and the applicant, and the applicant shall bear all expenses incurred therein.

If an applicant requires service other than the standard service provided by the Utility. such applicant will be required to pay all expenses incurred by the Utility in excess of the expenses that would be incurred in providing the standard service and connection.

### **Tariff Authorizing Developer Fees**

Bolivar Utility Services, LLC, (Utility Name)

SECTION 2.20 - SPECIFIC UTILITY SERVICE RULES AND REGULATIONS (Cont.)

Any applicant or existing customer required to pay for any costs not specifically set forth in the rate schedule pages of this tariff shall be entitled to a written explanation of such costs prior to payment and/or commencement of construction. If the applicant or existing customer does not believe that these costs are reasonable or necessary, the applicant or existing customer shall have the right to appeal such costs to the PUC or such other regulatory authority having jurisdiction over the Utility's rates in that portion of the Utility's service area in which the applicant's or existing customer's property(ies) is(are) located.

Tap fees may be increased by unique costs not normally incurred as may be permitted by 16 TAC § 24.86(a)(1)(C).

The Utility adopts the Uniform Plumbing Code pursuant to TCEQ Rule 290.46(i). The piping and other equipment on the premises furnished by the customer will be maintained by the customer at all times in conformity with the requirements of the TCEQ, the Uniform Plumbing Code and with the service rules and regulations of the Utility. The customer will bring out his service line to his property line at the point on the customer's property mutually acceptable to the customer and the Utility subject to such requirements as may exist by TCEQ and/or PUC rule.

The Utility will have the right of access to the customer's premises at all times reasonable for the purpose of installing, testing, inspecting, or repairing sewer mains or other equipment used in connection with its provision of sewer service, or for the purpose of removing its property and disconnecting lines, and for all other purposes necessary to the operation of the Utility system including inspecting the customer's plumbing for code, plumbing, or tariff violations. The customer shall allow the Utility and its personnel access to the customer's property to conduct any tests or inspections required by law. Unless necessary to respond to equipment failure, leak or other condition creating an immediate threat to public health and safety or the continued provision of adequate utility service to others, such entry upon the customer's property shall be during normal business hours. The customer may require any Utility representative, employee, contractor, or agent seeking to make such entry to identify themselves, their affiliation with the Utility, and the purpose of their entry.

Threats to or assaults upon Utility personnel shall result in criminal prosecution.

Except in cases where the customer has a contract with the Utility for reserve or auxiliary service, no other sewer service will be used by the customer on the same installation in conjunction with the Utility's service, either by means of a crossover valve or any other connection. Customer shall not connect, or allow any other person or party to connect, onto any sewer lines on his premises. Two places shall not be permitted to be supplied with one service pipe where there is a sewer main abutting the premises.

Docket Number: 44911

C

## **Tariff Authorizing Developer Fees**

Bolivar Utility Services, LLC. (Utility Name)

Sewer Utility Tariff Page No. 10

#### SECTION 2.20 - SPECIFIC UTILITY SERVICE RULES AND REGULATIONS (Cont.)

No application, agreement, or contract for service may be assigned or transferred without the written consent of the Utility.

It is agreed and understood that any and all sewer lines, and other equipment furnished by the Utility (excepting the customer's individual service lines from the point of connection to customer's structures on customer's premises) are and shall remain the sole property of the Utility, and nothing contained herein or in a contract/application for service shall be construed to reflect a sale or transfer of any such lines or equipment to any customer. All tap and extension charges shall be for the privilege of connecting to said sewer lines and for installation, not purchase, of said lines.

Service applicants may be required to comply with any pre-condition to receiving service not printed herein as may exist under PUC rule, TCEQ rule (customer service, health and safety, sewer environmental), USEPA rule, TWDB rule, local regulatory district rule, or health department rule. Existing customers shall be required to comply with such rules, including modification of their plumbing and/or consumption patterns, after notice.

The disposal into the Utility's sewer collection system of bulk quantities of food or food scraps not previously processed by a grinder or similar garbage disposal unit and grease and oils, except as incidental waste in process or wash water, used in or resulting from food preparation by sewer utility customers engaged in the preparation and/or processing of food for other than domestic consumption for sale to the public shall be prohibited. Specifically included in this prohibition are grease and oils from grease traps to other grease and/or oil storage containers. These substances are defined as 'garbage' under Section 361.003 (12) of the Solid Waste Disposal Act. Texas Health and Safety Code, and are not 'sewage' as defined by Section 26.001 (7), of the Texas Sewer Code: The Utility only provides 'sewage' collection and disposal service to the public. This service is limited to the collection, treatment and disposal of waterborne human waste and waste from domestic activities such as washing; bathing, and food preparation. This service does not include the collection, treatment or disposal of waste of such high BOD or TSS characteristics that it cannot reasonably be processed by the Utility's state approved waste water treatment plant within the parameters of the Utility's state and federal waste water discharge permits, THIS SERVICE DOES NOT INCLUDE THE COLLECTION AND DISPOSAL OF STORM WATERS OR RUN OFF WATERS, WHICH MAY NOT BE DIVERTED INTO OR DRAINED INTO THE UTILITY'S COLLECTION SYSTEM:

Pursuant to 16 TAC § 24.87(o), the Utility may charge for all labor, material, equipment, and other costs necessary to repair or replace all equipment damaged due to service diversion or the discharge of wastes which the system cannot properly treat. This shall include all repair and clean up costs associated with discharge of grease and oils, except as incidental waste in process or wash sewer, used in or resulting from food preparation by sewer utility customers engaged in the preparation and/or processing of food for other than domestic consumption or for sale to the public discharged from grease traps or other grease and/or oil storage containers. The Utility may charge for all costs necessary to correct service diversion or unauthorized taps where there is no equipment damage, including incidents where service is reconnected without authority.

Docket Number: 44911

ŧ

#### Auachment 2-22

### **Tariff Authorizing Developer Fees**

Bolivar Utility Services, LLC. (Utility Name)

Sewer Utility Tariff Page No. 11

#### SECTION 2.20 - SPECIFIC UTILITY SERVICE RULES AND REGULATIONS (Cont.)

The Utility may not charge any additional penalty or charge other than actual costs unless such penalty has been expressly approved by the regulatory authority having rate/tariff jurisdiction and filed in the Utility's tariff.

Pursuant to 16 TAC § 24.86(b)(3)(A) and (B), the customer's service line and appurtenances shall be construed in accordance with the laws and regulations of the State of Texas, local plumbing codes, or, in the absence of such local codes, the Uniform Plumbing Code. It shall be the customer's responsibility to maintain the service line and appurtenances in good operating condition, i.e. clear of obstruction, defects, or blockage. If the Utility can provide evidence of excessive infiltration or inflow or failure to provide proper pretreatment, the Utility may, with the written approval of the Commission, require the customer to repair the line or eliminate the infiltration or inflow or take such actions necessary to correct the problem. If the customer fails to correct the problem within a reasonable time, the Utility may disconnect service after proper notice.

In accordance with the requirements of Utility's Wastewater Discharge Permit, any and all repairs and maintenance of Utility's lines, tanks, pumps and equipment located on Customer's premises shall be performed exclusively by the Utility Copies of the Utility's state and federal waste water discharge permits shall be available for public inspection and copying in the Utility's business office during normal business hours.

Non-residential customers electing the pretreatment option for sewage with non-standard characteristics may be charged those costs set forth in the Utility's extension policy if such pretreatment fails or otherwise causes the Utility's facilities to violate their waste-water discharge permits.

#### RESIDENTIAL SINGLE FAMILY GRINDER / SEWAGE STATIONS

Prior to the installation of a grinder / sewage station, the Utility must be given a complete listing of all materials and equipment that will be used.

In order to prevent inflow and infiltration, the materials must comply with standard specifications, approved by the TCEQ.

After the Utility has approved the proposed grinder / sewage station, the construction may begin. Once the work has been completed, the Utility will do an inspection of the grinder / sewage station to ensure the complete installation was as specified.

The customer will retain ownership of receiving tanks or lift stations on the customer's property and all maintenance, repairs, and replacement are the customer's responsibility. The repairs may be performed by anyone selected by the customer, who is competent to perform such repairs. The Utility requires that parts and equipment meet the minimum standards approved by the TCEQ, to ensure proper and efficient operation of the sewer system.

Docket Number: 44911

Sewer Utility Tariff Page No. 12

億

SECTION 2.20 - SPECIFIC UTILITY SERVICE RULES AND REGULATIONS (Cont.)

MULTI-FAMILY AND COMMERCIAL RECEIVING TANK / LIFT STATIONS

Prior to the installation of a grinder / sewage station, the Utility must be given a complete listing of all materials and equipment that will be used, along with the storage for that development.

In order to minimize inflow and infiltration into the collection system, the installation and materials must comply with standard specifications approved by the TCEQ.

After the Utility has approved the proposed grinder / sewage station, the construction may begin. Once the work has been completed, the Utility will do an inspection of the grinder / sewage station to ensure the complete installation was as specified.

Prior to acceptance of an existing receiving tank or lift station that is being used as an interceptor tank for primary treatment, waste sewer storage or pump tanks prior to discharge into an alternative or conventional sewage system must be cleaned, inspected, repaired, modified, or replaced if necessary to minimize inflow and infiltration into the collection system.

Jan Jan Marin Carlotte Commencer

Existing pumps and tanks must be of adequate size to ensure proper pumpage in the event of high flow or if one pump is out of service. If the existing pumps and receiving tanks or lift stations are of inadequate size the Utility will not accept liability for backups due to: high flows, one pump out of service, rainfall causing inflow or infiltration, power outages, lack of proper storage capacity etc.

If the collection system that discharges into the receiving tank / lift station has an inflow or infiltration problem and collects rainfall discharge; the owner or P.O.A. will correct it within 90 days of written notice from the Utility. If no action is taken to correct the problem within 90 days, the Utility may take the responsibility to make corrections at the owner's / P.O.A.'s expense.

The Utility is not responsible for the collection system that discharges into the receiving tank / lift station.

The owner / P.O.A. shall be responsible for the monthly electric bill.

An adequate easement must encompass the receiving tank / lift station by a 15 foot radius and also a 15 foot access easement to the receiving tank / lift station site. If this easement does not exist, one must be created and filed of record.

#### SECTION 3.0 - EXTENSION POLICY

#### Section 3.01 Standard Extension Requirements

LINE EXTENSION AND CONSTRUCTION CHARGES: No contribution in aid of construction may be required of any customer except as provided for in this approved extension policy.

The customer will be given an itemized statement of the costs, options such as rebates to the customer, sharing of construction costs between the Utility and the customer, or sharing of costs between the customer and other applicants before beginning construction.

The Utility will bear the full cost of any oversizing of mains necessary to serve other customers in the immediate area. The individual residential customer shall not be charged for any additional treatment capacity or facilities. Contributions in aid of construction may not be required of individual residential customers for treatment capacity or collection facilities unless otherwise approved by the Commission under this specific extension policy.

COST UTILITIES SHALL BEAR. Within its certificate area, the Utility will pay the cost of the first 200 feet of any sewer collection line necessary to extend service to an individual residential customer within a platted subdivision. However, if the residential customer requesting service purchased the property after the developer was notified of the need to provide facilities to the Utility the Utility may charge for the first 200 feet. The Utility must also be able to document that the developer of the subdivision refused to provide facilities compatible with the Utility's facilities in accordance with the Utility's approved extension policy after receiving a written request from the Utility.

Developers may be require the production of the system with all the transfer sand the system with all the transfer sand the conference of the system with all the transfer sand the conference of the system with all the transfer sand the conference of the system with all the transfer sand the conference of the system with all the transfer sand the conference of the confer

SECTION 3.20 - SPECIFIC UTILITY EXTENSION POLICY

This section contains the Utility's specific extension policy which complies with the requirements already stated under Section 3.01. It must be reviewed and approved by the Commission and in compliance with PUC Rules to be effective.

Residential customers not covered under Section 3.01 will be charged the equivalent of the costs of extending service to their property from the nearest collection line even if that line does not have adequate capacity to serve the customer. However, if the customer places unique; non-standard service demands upon the system, the customer may be charged the full cost of extending service to and throughout their property including the cost of all necessary treatment capacity necessary to meet the service demands anticipated to be created by that property

The Utility adopts the administrative rules of the PUC, as amended from time to time, as its company specific extension policy. These rules will be kept on file at the company's business office for customer inspection during normal business hours:

Non-residential customers generating sewage creating unique or non-standard treatment demands which might reasonably be expected to cause the Utility's treatment facilities to operate outside their current waste-water discharge permit parameters may be charged the cost of all studies; engineering plans, permit costs; and collection treatment or discharge facilities construction or modification costs necessary to enable the Utility to treat said sewage within permit limits acceptable to the TCEQ, EPA, and other regulatory agencies. In the alternative, the customer may have the option of pre-treating said sewage in such a manner so that it may not reasonably be expected to cause the Utility's facilities to operate outside their permit parameters. In such case, the customer shall be required to pay the Utility's costs of evaluating such pretreatment processes and costs of obtaining regulatory approval of such pretreatment processes. In the event the pretreatment facilities of a customer making this election fail and cause the Utility's facilities to operate outside their permit parameters, the customer shall indemnify the Utility for all costs incurred for clean ups or environmental remediation and all fines, penalties, and costs imposed by regulatory or judicial enforcement actions relating to such permit violations.

### **Tariff Authorizing Developer Fees**

Bolivar Utility Services, LLC. (Utility Name)

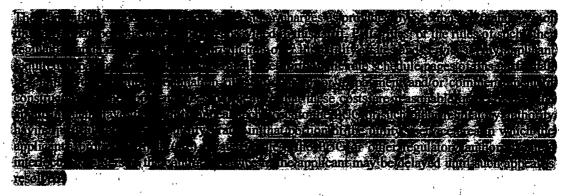

Sewer Utility Tariff Page No. 15

#### SECTION 3.20 - SPECIFIC UTILITY EXTENSION POLICY (Cont.)

Non-residential sewer customers producing water borne waste significantly different from waste generated by residential customers may be required to provide a suitable sampling point at the property line for testing the customer's waste for chemicals or substances, e.g. grease, oils, solvents, pesticides, etc. which can reasonably be believed to have an injurious effect on the Utility's plant and/or its ability to treat and dispose of such wastes within the parameters of the Utility's permit. Utility shall have reasonable access to the sampling point at all times.

The Utility will provide a written service application form to the applicant for each request for service received by the Utility's business offices. A separate application shall be required for each potential service location if more than one service connection is desired by any individual applicant. Service application forms will be available for applicant pick up at the Utility's business office during normal weekday business hours. Service applications will be sent by prepaid first class United States mail to the address provided by the applicant upon request. Completed applications should be returned by hand delivery in case there are questions which might delay fulfilling the service request. Completed service applications may be submitted by mail if hand delivery is not possible.

The Utility shall serve each qualified service applicant within its certificated service area as soon as practical after receiving a completed service application. All service requests will be fulfilled within the time limits prescribed by PUC rules once the applicant has met all conditions precedent to achieving 'qualified service applicant' status. If a service request cannot be fulfilled within the required period, the applicant shall be notified in writing of the delay, its cause and the anticipated date that service will be available. The PUC service dates shall not become applicable until the service applicant has met all conditions precedent to becoming a 'qualified service applicant' as defined herein or by PUC rules.

Docket Number: 44911

C

## **Tariff Authorizing Developer Fees**

Bolivar Utility Services, LLC. (Utility Name)

The state of the s

Sewer Utility Tariff Page No. 16

STATE OF

#### SECTION 3.20 - SPECIFIC UTILITY EXTENSION POLICY (Cont.)

The Utility is not required to extend service to any applicant outside of its certificated service area and will only do so, at the Utility's sole option, under terms and conditions mutually agreeable to the Utility and the applicant and upon extension of the Utility's certificated service area boundaries by the PUC. Service applicants may be required to bear the cost of the service area amendment.

A 'qualified service applicant' is an applicant who has: (1) met all of the Utility's requirements of service contained in this tariff, PUC rules, and/or PUC order. (2) has made all payments for tap fees and extension charges, (3) has provided all necessary easements and rights-of-way necessary to provide service to the requested location, including staking said easements or rights-of-way where necessary and (4) has executed a customer service application for each location to which service is being requested.

Where a new tap or service connection is required, the service applicant shall be required to submit a written service application and request that a tap be made. The tap request must be accompanied with a plat, map, diagram or written metes and bounds description of precisely where the applicant desires each tap or service connection is to be made and, if necessary where the connection is to be installed, along the applicant's property line. The actual point of connection must be readily accessible to Utility personnel for inspection, servicing and testing while being reasonably secure from damage by vehicles and mowers. If the Utility has more than one main adjacent to the service applicant's property, the tap or service connection will be made to the Utility's nearest service main with adequate capacity to service the applicant's full potential service demand. If the tap or service connection cannot be made at the applicant and the Utility. If no agreement on location can be made, applicant may refer the matter to the Commission for resolution. Unless otherwise ordered by the Commission, the tap or service connection will not be made until the location dispute is resolved.

Home to the fact of the first o The Utility shall require a developer (as defined by PUC rule) to provide permanent recorded public utility easements as a condition of service to any location within the developer's property. The Developer shall be required to obtain all necessary easements and rights-of-way required to extend the Utility's existing service facilities from their nearest point with adequate service capacity (as prescribed by TCEQ rules and local service conditions) to and throughout the Developer's property. The easements shall be sufficient to allow the construction, installation, repair, maintenance, testing, and replacement of any and all utility plant necessary to provide continuous and adequate service to each and every potential service location within the property at full occupancy. Unless otherwise restricted by law. sewage treatment, holding tank sites, and lift station sites shall convey with all permanent easements and buffers required by TCEQ rules. Unless otherwise agreed to by the utility: pipe line right-of-way easements must be at least 15 feet wide to allow adequate room to facilitate backhoe and other heavy equipment operation and meters to provide service. Easements must be provided for all storage, treatment, pressurization, and disposal sites which are sufficient to construct and maintain all weather roads as prescribed by TCEQ rules. All easements shall be evidenced, at Developer's expense, by recorded countyapproved subdivision plat or by specific assignment supported by metes and bounds survey from a surveyor licensed by the State of Texas.

#### SECTION 3.20 - SPECIFIC UTILITY EXTENSION POLICY (Cont.)

Prior to the extension of utility service to developers (as defined by PUC rules) or new subdivisions, the Developer shall comply with the following:

- (a) The Developer shall make a written request for service to property that is to be subdivided and developed. The Developer shall submit to the Utility a proposed plat on a scale of one inch (1') to two hundred feet (200') for review and determination of required easements, utility plant, and plant location. If sewer service is requested, the plat must contain elevation data. A reconcilable deposit in an amount set by the Utility may be required to cover preliminary engineering, legal, and copy costs to be incurred by the Utility in reviewing and planning to meet this service request. The plat and/or accompanying information shall identify the type, location, and number of houses and other planned structures that will be requiring utility service. If other than residential structures are to be located on the property. all other types of anticipated businesses and their service demands shall be identified with specificity. All areas requiring special irrigation and/or other unique sewer demands must be identified with specificity. All areas requiring special irrigation and/or other unique water demands must be identified. To the extent reasonably possible, this information must be precise so that adequate facilities can be designed and constructed to meet all future service demands without hazard to the public, other utility customers, and/or the environment.
- (b) After the requirements of easements and rights-of-way have been determined, a red line copy will be returned by the Utility to the Developer for final plat preparation.
- (c) Copies of all proposed plats and plans must be submitted to the Utility prior to their submission to the county for approval to ensure that they are compatible with the adequate long-term utility needs of potential service customers. Copies will be returned after review by the Utility so that necessary changes may be incorporated into the Developer's final submitted plat(s) and plans.
- (d) The Utility shall be provided with three (3) certified copies of the final plat(s) approved by the County Commissioners Court. At this time, the Utility will begin engineering the facilities necessary to serve the property. Plans and specifications will be prepared and submitted to the TCEQ by the Utility if required by law. If further plat or plans changes are necessary to accommodate the specific service needs of the property and the anticipated customer demands, the Developer will be so notified. Plat amendments must be obtained by the Developer. The Developer shall be notified when all required TCEQ or other governmental approvals or permits have been received. No construction of utility plant which requires prior TCEQ plans approval shall be commenced until that approval has been received by the Utility and any conditions imposed by the TCEQ in association with its approvals have been satisfied.

Bolivar Utility Services, LLC. (Utility Name)

Sewer Utility Tariff Page No. 18

### SECTION 3.20 – SPECIFIC UTILITY EXTENSION POLICY (Cont.)

- (e) The Developer shall be required to post bond or escrow the funds necessary to construct all required utility plant, except individual sewer connections, required to serve the property. Construction shall not commence until funds are available. If the construction is to be done in coordination with the phased development of the property funds must be provided in advance which are sufficient to complete each phase. No phase or facilities for any phase shall be constructed prior to the bonding or escrowing of all funds associated with that phase.
- (f) At the sole option of the Utility, the Developer may be required to execute a Developer Extension Contract setting forth all terms and conditions of extending service to their property including all contributions-in-aid of construction and developer reimbursements, if any
- (g) The Utility may require the Developer to commence construction of subdivision improvements within three (3) months of utility plans approval or the Utility may abate its construction activities until full development construction begins. If the Developer stops construction of subdivision improvements for any purpose, the Utility may abate its construction for a similar period.
- (h) As soon as the roads are rough cut and prior to paving, extension lines will need to be constructed at each road crossing. The Developer must notify the Utility sufficiently in advance of this development stage to allow for the necessary utility construction without disruption to other service operations of the Utility. Failure to provide adequate advance notice and cooperation in the construction of necessary utility plant may result in additional delays in obtaining service to the property. The Developer shall be required to pay for all additional costs of road boring or other remedial construction necessary to install adequate utility plant throughout the affected property.

Within its certificated area, the Utility shall bear the cost of the first 200 feet of any sewer main or sewer collection line necessary to extend service to an individual residential service applicant within a platted subdivision unless the Utility can document:

English grand of the control of high which

- a) that the developer of the subdivision refused to provide facilities compatible with the utility's facilities in accordance with the Utility's approved extension policy after receiving a written request from the Utility: or,
  - b) that the Developer defaulted on the terms and conditions of a written agreement or contract existing between the Utility and the Developer or the terms of this tariff regarding payment for services, extensions, or other requirements; or in the event the Developer declared bankruptcy and was therefore unable to meet obligations; and

### SECTION 3.20 – SPECIFIC UTILITY EXTENSION POLICY (Cont.)

- c) that the residential service applicant purchased the property from the Developer after the Developer was notified of the need to provide facilities to the utility. A residential service applicant may be charged the remaining costs of extending service to his property: provided, however, that the residential service applicant may only be required to pay the cost equivalent to the cost of extending the nearest water main or wastewater collection line, whether or not that line has adequate capacity to serve that residential service applicant. The following criteria: shall be considered to determine the residential service applicant's cost for extending service:
  - (1) The residential service applicant shall not be required to pay for costs of main extensions greater than 2' in diameter for pressure wastewater collection lines and 6' in diameter for gravity wastewater lines.
  - (2) Exceptions may be granted by the PUC if:
    - (A) adequate service cannot be provided to the applicant using the maximum line sizes listed due to distance or elevation, in which case, it shall be the Utility's burden to justify that a larger diameter pipe is required for adequate service;
    - (B) larger minimum line sizes are required under subdivision platting requirements or applicable building codes.
  - (3) If an exception is granted, the Utility shall establish a proportional cost plan for the specific extension or a rebate plan which may be limited to seven years to return the portion of the applicant's costs for oversizing as new customers are added to ensure that future applicants for service on the line pay at least as much as the initial service applicant.

For purposes of determining the costs that service applicants shall pay. commercial customers with service demands greater than residential customer demands in the certificated area, industrial, and wholesale customers shall be treated as developers.

Docket Number: 44911

### APPENDIX A SAMPLE SERVICE AGREEMENT From 30 TAC Chapter 290.47(b), Appendix B SERVICE AGREEMENT

- I. PURPOSE. The <u>Bolivar Utility Services</u>, <u>LLC</u> is responsible for protecting the drinking water supply from contamination or pollution which could result from improper private water distribution system construction or configuration. The purpose of this service agreement is tonotify each customer of the restrictions which are in place to provide this protection. The utility enforces these restrictions to ensure the public health and welfare. Each customer must sign this agreement before the <u>Bolivar Utility Services</u>, <u>LLC</u> will begin service. In addition, when service to an existing connection has been suspended or terminated, the sewer system will not re-establish service unless it has a signed copy of this agreement.
- II. RESTRICTIONS. The following unacceptable practices are prohibited by State regulations.
  - A. No direct connection between the public drinking water supply and a potential source of contamination is permitted. Potential sources of contamination shall be isolated from the public water system by an air-gap or an appropriate backflow prevention device:
  - B. No cross-connection between the public drinking, water supply and a private water system is permitted. These potential threats to the public drinking water supply shall be eliminated at the service connection by the installation of an air-gap or a reduced pressure-zone backflow prevention device.
  - C. No connection which allows water to be returned to the public drinking water supply is permitted.
  - D. No pipe or pipe fitting which contains more than 8.0% lead may be used for the installation or repair of plumbing at any connection which provides water for human use.
  - E. No solder or flux which contains more than 0.2% lead can be used for the installation or repair of plumbing at any connection which provides water for human use.
- III. SERVICE AGREEMENT The following are the terms of the service agreement between the <u>Bolivar Utility Services</u>, <u>LLC</u> (the Sewer System) and NAME OF CUSTOMER (the Customer).
  - A. The Sewer System will maintain a copy of this agreement as long as the Customer and/or the premises is connected to the Sewer System.
  - B. The Customer shall allow his property to be inspected for possible cross-connections and other potential contamination hazards. These inspections shall be conducted by the Sewer System or its designated agent prior to initiating new water service; when there is reason to believe that cross-connections or other potential contamination hazards exist; or after any major changes to the private water distribution facilities. The inspections shall be conducted during the Sewer System's normal business hours.
  - C. The Sewer System shall notify the Customer in writing of any cross-connection or other potential contamination hazard which has been identified during the initial inspection or the periodic re-inspection.
  - D. The Customer shall immediately remove or adequately isolate any potential cross-connections or other potential contamination hazards on his premises.
  - E. The Customer shall, at his expense, properly install, test, and maintain any backflow prevention device required by the Sewer System. Copies of all testing and maintenance records shall be provided to the Sewer System.

(

IV ENFORCEMENT If the Customer fails to comply with the terms of the Service Agreement, the Sewer System shall, at its option, either terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection. Any expenses associated with the enforcement of this agreement shall be billed to the Customer.

# CONTRACT/APPLICATION FOR SEWER UTILITY SERVICE

This Contract/Application for Utility Service ("Contract/Application") is by and between Bolivar Utility Services, LLC. a corporation organized under the laws of the State of Texas, its successors and assigns ("Utility") and the applicant ("Customer' or Applicant") whose name and signature is shown below on the last page of this document.

CUSTOMER LIABILITY Customer shall be liable for any damage or injury to Utility-owned property or personnel shown to be caused by the customer his invitees, his agents, his employees, or others under his control.

PLUMBING CODE: Utility has adopted the Uniform Plumbing Code. Any extensions and/or new facilities shall comply with that code and all standards established by the TCEQ. Where conflicts arise, the more stringent standard must be followed.

ASSIGNMENT: No application, agreement or contract for service may be assigned or transferred without the written consent of Utility.

RIGHT OF ACCESS AND EASEMENTS: Utility will have the right of access to the Customer's premises at all reasonable times for the purpose of installing, inspecting or repairing water/sewer mains or other equipment used in connection with its provision of water/sewer service, or for the purpose of removing its property and disconnecting lines, and for all other purposes necessary to the operation of Utility's system, including inspection the customers plumbing for code, plumbing or tariff violations.

SEWER REGULATIONS: The disposal into the utility's sewer collection system of bulk quantities of food or food scraps not previously processed by a grinder or similar garbage disposal unit and grease and oils, except as incidental waste in process or wash water, used in or resulting from food preparation by sewer utility customers engaged in the preparation and/or processing of food for other than domestic consumption for sale to the public shall be prohibited. Specifically included in this prohibition are grease and oils from grease traps to other grease and/or oil storage containers:

THE COLLECTION AND DISPOSAL OF STORM WATERS OR RUN OFF WATERS MAY NOT BE DIVERTED INTO OR DRAINED INTO THE UTILITY'S COLLECTION SYSTEM. NO GREASE, OIL, SOLVENT, PAINT, OR OTHER TOXIC CHEMICAL COMPOUND MAY BE DIVERTED INTO OR DRAINED INTO THE UTILITY'S COLLECTION SYSTEM.

Pursuant to TCEQ Rule 291.86(n), the utility may charge for all labor. material, equipment, and other costs necessary to repair to replace all equipment damaged due to service diversion or the discharge of wastes that the system cannot properly treat.

Pursuant to TCEQ Rule 291.85(b) (3), the customer's service line and appurtenances shall be construed in accordance with the laws and regulations of the State of Texas, local plumbing codes, or in the absence of such local codes, the Uniform Plumbing Code. It shall be the customer's responsibility to maintain the service line and appurtenances in good operating condition, i.e. clear of obstruction, defects, or blockage. If the utility can provide evidence of excessive infiltration or

ĺ

### **Tariff Authorizing Developer Fees**

inflow or failure to provide proper pretreatment, the utility may, with the written approval of the TCEQ's executive director, require the customer to repair the line or eliminate the infiltration or inflow or take such actions necessary to correct the problem. If the customer fails to correct the problem within a reasonable time, the utility may disconnect service after proper notice.

CUSTOMER AGREEMENT. BY SIGNING THIS APPLICATION FOR PUBLIC UTILITY SERVICE, I AGREE TO COMPLY WITH UTILITY'S RULES AND TARIFF AND ALL RULES AND REGULATIONS OF THE PUC AND OTHER APPLICABLE REGULATORY AGENCIES. I GUARANTEE PROMPT PAYMENT OF ALL UTILITY BILLS FOR THE SERVICE ADDRESS PRINTED ABOVE. I AGREE TO REMAIN RESPONSIBLE FOR UTILITY BILLS FOR THIS SERVICE ADDRESS FROM THE DATE SERVICE IS STARTED UNTIL THE DAY SERVICE IS TERMINATED AT MY REQUEST

I AGREE TO TAKE NO ACTION TO CREATE A HEALTH HAZARD OR OTHERWISE THREATEN OR ENDANGER UTILITY'S PLANT ITS PERSONNEL, OR ITS CUSTOMERS. I AGREE TO PUT NO UNSAFE. NON-DOMESTIC SERVICE DEMAND ON UTILITY'S SYSTEM WITHOUT NOTICE TO AND PERMISSION FROM UTILITY ANY ACTION BY ME OR OTHERS UNDER MY CONTROL IN VIOLATION OF THIS PARAGRAPH MAY RESULT IN THE TERMINATION OF MY UTILITY SERVICE WITHOUT NOTICE.

I HAVE BEEN SHOWN A COPY OF UTILITY'S PUC APPROVED TARIFF AND I AGREE TO PAY THE RATES IN THE TARIFF AND ABIDE BY THE REQUIREMENTS IN THIS APPLICATION. I ACKNOWLEDGE THAT THE RATES AND/OR TERMS OR SERVICE IN THE TARIFF MAY BE CHANGED BY FUTURE ORDER OF THE PUC OR OTHER REGULATORY AUTHORITY HAVING JURISDICTION OVER UTILITY'S RATES. I AGREE TO ABIDE BY SUCH CHANGES AS THEY OCCUR.

### AGREEMENT FOR SANITARY SEWER SERVICE

This agreement is made between BOLIVAR UTILITY SERVICES, LLC, hereafter referred to as "BOLIVAR," and SEAGRASS BEACH, LLC, hereafter referred to as "DEVELOPER."

WHEREAS, DEVELOPER has provided to BOLIVAR a plat and engineering specifications prepared by Coastal Surveying of Texas Inc.

WHEREAS, DEVELOPER has represented to BOLIVAR that the Plat has been approved by Galveston County and the approved Plat has been recorded into the deed records of Galveston County;

WHEREAS, DEVELOPER has represented to BOLIVAR that it intends to develop Lots 1-35 for the construction of residences.

NOW THEREFORE, DEVELOPER and BOLIVAR in consideration of the mutual promises herein contained, do hereby agree as follows:

### I. PURPOSE AND EXTENT OF AGREEMENT

- 1.01 BOLIVAR, or its assignee, hereby agrees to furnish sanitary sewer services to DEVELOPER for a subdivision located in Galveston County, Texas being developed by DEVELOPER commonly referred to as Seagrass Beach (the "Subdivision"). BOLIVAR will be ready to furnish and provide the sanitary sewer services beginning on or about June 12, 2015 (the "Start Date"). The Start Date will be extended for any delay caused by circumstances beyond BOLIVAR'S reasonable control.
- 1.02 DEVELOPER agrees on its behalf and on behalf of all owners of lots in the Subdivision to use the sanitary sewer services of BOLIVAR to dispose of all waste water and sewage from all of the lots being developed in the Subdivision. The estimated number of lots in the Subdivision is Thirty Five (35). This will be an exclusive agreement and DEVELOPER agrees that it and the Subdivision and all lot owners in the Subdivision and any homeowners association for the Subdivision shall obtain sanitary sewer services solely from BOLIVAR or its assignee.
- 1.03 BOLIVAR may impose reasonable rules and restrictions on the use of the sanitary sewer services provided by it and it may prevent any user from using the system to dispose of any commercial waste, hazardous substance or any other waste other than normal household waste water. Without limiting the generality of the foregoing, all wastewater must be solely domestic in nature and must comply with all governmental orders, ordinances, rules, and regulations. Discharge of industrial or chemical waste, wastewater in septic condition, or any other waste other than ordinary domestic waste is prohibited, and BOLIVAR reserves the right at any time to require the DEVELOPER to install grease traps at the DEVELOPER'S expense and to pretreat its wastewater discharge at its own expense if BOLIVAR reasonably determines that such procedures are necessary to avoid the discharge of industrial or chemical waste, wastewater in septic condition, or any other waste other than ordinary domestic waste. BOLIVAR shall be entitled to collect samples of waste from the Subdivision at or near the point of entry of such waste into BOLIVAR'S wastewater system and to cause the samples to be analyzed by American

Page 1 of 7

# Tariff Authorizing Developer Fees

Public Health Association standard methods or other appropriate methods, at the expense of DEVELOPER, to determine if the waste is within the qualities required hereunder.

### II. EFFECTIVE DATE

- 2.01 This agreement shall become effective immediately upon execution by the parties.
- 2.02 This agreement shall remain in effect for an initial term of thirty (30) years (the "Initial Term") and may not be cancelled or terminated during the Initial Term unless one party is in material default hereunder and the non-defaulting party elects to terminate the Agreement after providing the defaulting party with written notice of default and such default is not cured within thirty days. In the event of any such cancellation, the defaulting party shall be liable to the non-defaulting party for all damages incurred by the non-defaulting party as a result of the default by the defaulting party. After expiration of the Initial Term, this Agreement shall automatically renew and be extended for five year terms unless either party gives the other party at least 120 days advanced written notice of its intent not to renew.

### III. PAYMENT OF FEES AND EXPENSES

- 3.01 DEVELOPER agrees to pay to BOLIVAR the amount of \$175,000.00 (35 residential lots x \$5,000.00) (the "Capacity Fee") to assist Bolivar in financing a portion of BOLIVAR'S cost in the development of its sewer system and installation of a sewer line to provide service to the Subdivision. BOLIVAR agrees to issue DEVELOPER an initial Capacity Fee credit of \$45,000.00 simultaneously with the execution of this Agreement. The balance of the Capacity Fee will be paid by DEVELOPER to BOLIVAR in fourteen installments. The first installment shall be in the amount of \$65,000.00 and shall be paid by DEVELOPER to BOLIVAR simultaneously with the execution of this Agreement and prior to BOLIVAR connecting the Subdivision to the BOLIVAR main sewer line. The next thirteen installments will be in the amount of \$5,000.00 each and will be paid by DEVELOPER to BOLIVAR upon the closing of the sale of each of the first thirteen lots in the Subdivision by DEVELOPER.
- 3.02 DEVELOPER agrees to impose deed restrictions (and other similar covenants running with the land) upon each of the lots which are platted in the Subdivision, requiring that each purchaser of such a lot: (1.) Use the sanitary sewer system services provided by BOLIVAR (or its assignee); (2.) In addition, the deed restrictions shall obligate each owner to enter into a standard Residential Sewer Utility Service agreement and to pay monthly fees imposed by BOLIVAR to users of the sewer system. DEVELOPER shall provide a copy of the proposed deed restriction to BOLIVAR for approval and DEVELOPER shall make such changes to the deed restrictions as BOLIVAR may reasonably request. The owner of the lots may not choose to opt out of this agreement or exclude themselves from using the sanitary sewer services provided by BOLIVAR (or its assignee).
- 3.03 In addition to the Capacity Fee, DEVELOPER agrees that the lot owners in the Subdivision will be required to pay BOLIVAR or its assignee monthly fees based on the billing rates determined and placed into effect from time to time by BOLIVAR. Such rates will, to the extent required by law, be set by BOLIVAR based on the requirements of BOLIVAR'S Certificate of Convenience and Necessity ("CCN") issued to BOLIVAR by the Texas Commission on Environmental Quality.

- 3.04 All sums due and to become due are payable at the offices of BOLIVAR, P.O. Box 22858, Beaumont, Texas 77720, or at any other address that may be designated in writing at a later date.
- 3.05 All sums payable to BOLIVAR under this Agreement shall be paid without set-off, counterclaim, abatement, suspension, or diminution. BOLIVAR will have the right to suspend service if any amount due and owing to it is not paid and remains unpaid for more than 10 days after written notice is provided by BOLIVAR to the party owing such payment to BOLIVAR.

### IV. CONSTRUCTION OF SERVICE LINE AND UTILITY EASEMENT

- 4.01 BOLIVAR hereby agrees to construct and install a forced main line along State Highway 87 that provides sanitary sewer service to the Subdivision on or before the Start Date. DEVELOPER agrees to construct and install a connection point on the sanitary sewer system line, as engineering requirements necessitate, at or near the entrance of the Subdivision. For this purpose DEVELOPER agrees to grant to BOLIVAR, without cost, an easement on terms reasonably acceptable to BOLIVAR pursuant to which BOLIVAR shall be permitted to, operate, repair, maintain and replace the connection point. It is agreed that BOLIVAR is only responsible for constructing the forced main sanitary sewer system line and connection point, and that DEVELOPER shall be responsible at DEVELOPER'S expense for the construction, maintenance and repairs of all necessary lines to connect to the lift connection point. The easement to be granted by DEVELOPER to BOLIVAR shall include the following terms and provisions: (i) the area of the easement for the connection point and sewer lines will be located within a utility easement area shown in the recorded plat filed of record for the Subdivision, which plat shall be amended if necessary to have the connection point and sewer lines located in an area located within a platted utility easement; (ii) BOLIVAR and its employees, agents, contractors, subcontractors, operators, successors and assigns shall be granted access to the easement area and to use the roads located in the Subdivision to the extent necessary to obtain such access, and if required by BOLIVAR, DEVELOPER shall execute a road access agreement with BOLIVAR that will be filed for record.
- 4.02 BOLIVAR further agrees to make all necessary arrangements to accept and dispose of all wastewater and sewage from the Subdivision as of the Start Date in the event that the sanitary sewer system and line which are contemplated in this agreement are not completed.
- 4.03 DEVELOPER agrees to construct and install, at its sole cost and expense, the sewer lines, connection points, holding tanks, grinder pumps and all other lines and equipment within the Subdivision necessary to deliver the sewer wastewater from the Subdivision to a lift station and connection point tying into BOLIVAR's Wastewater Treatment Facilities (the "Subdivision Sewer System"). The design and specifications of the Subdivision Sewer System must be furnished by DEVELOPER to BOLIVAR for written approval prior to the start of construction of the Subdivision Sewer System. Such designs and specifications shall be approved by BOLIVAR if they are consistent with the design criteria of Title 30, Chapter 317 of the Texas Administrative Code and they are consistent with the standards adopted and approved by the Bolivar Peninsula Special Utility District. Such approval shall not be reasonably withheld.
- 4.04 DEVELOPER and BOLIVAR agree to conduct "Pre-construction meetings" prior to DEVELOPER beginning construction of the Subdivision Sewer System to establish time-lines and protocols for BOLIVAR'S representatives to conduct periodic inspections of the

Subdivision Sewer System during the period of construction. DEVELOPER agrees to construct such Subdivision Sewer System in accordance with the plans and specifications approved by BOLIVAR, and Developer agrees that BOLIVAR may condition its approval of getting approval of the plans and specifications from the Bolivar Peninsula Special Utility District. Once any phase of the Subdivision Sewer System is operational and is in substantial compliance with the design and specifications approved by BOLIVAR and has been accepted by BOLIVAR, DEVELOPER will, upon BOLIVAR'S request, transfer and convey ownership of such completed phase of the Subdivision Sewer System to BOLIVAR or its successors, assigns or other party designated by BOLIVAR, which transfer shall be without payment of any additional consideration or fees by BOLIVAR. At the time of transfer, DEVELOPER shall also arrange for and provide to BOLIVAR and its operators, successors and assigns a maintenance bond secured by an irrevocable letter of credit in an amount of at least 25% of the cost of construction of the Subdivision Sewer System, on terms reasonably required by BOLIVAR and its successors and assigns. BOLIVAR, may, in its sole discretion, waive the aforementioned bond. Additionally, at that time, DEVELOPER will grant or cause to be granted to BOLIVAR or its designated successors and assigns access on and across all private roads to or within the Subdivision and also such additional easements for access, ingress and egress as is reasonably requested by BOLIVAR to enable it and its successors and assigns to have access to, and ingress and egress from and across the Subdivision and the Subdivision Sewer System in order to enable BOLIVAR and its managers, operators, successors and assigns to own, maintain, repair, replace and service the Subdivision Sewer System. Such access and easements shall be granted pursuant to a written easement agreement on terms reasonably requested by BOLIVAR and shall be shown on the recorded plat for the Subdivision. Until ownership of the Subdivision Sewer System has been conveyed by DEVELOPER to BOLIVAR, DEVELOPER shall be solely responsible for maintaining the Subdivision Sewer System in good working order and repair. At the time ownership of the Subdivision Sewer System is transferred and conveyed to BOLIVAR, in the Bill of Sale or other instrument of transfer, the DEVELOPER shall warrant and represent to BOLIVAR that the Subdivision Sewer System has been constructed in a good and workmanlike manner, in accordance with the written plans and specifications that have been approved by BOLIVAR, is free from any defects and is in good working condition and not in need of any repairs or replacements. DEVELOPER shall further assign to BOLIVAR any and all warranties, express and implied, that DEVELOPER has from any contractor or other third party with respect to the Subdivision Sewer System. DEVELOPER further agrees that prior to BOLIVAR accepting ownership of the System, DEVELOPER will provide to BOLIVAR any and all information that BOLIVAR may reasonably request that concerns or relates to the Subdivision Sewer System and the construction and operation thereof. Once ownership of the Subdivision Sewer System has been transferred to and accepted by BOLIVAR, then at that point BOLIVAR shall be responsible for maintenance of the Subdivision Sewer System.

### V. RIGHTS AND OBLIGATIONS ASSIGNABLE

- 5.01 It is understood and agreed that BOLIVAR may assign its rights and obligations under this contract to a utility services company at a future date, and that DEVELOPER may likewise assign its rights and obligations under this contract to a planned homeowners association for the Subdivision. BOLIVAR may also contract with any other company or entity for the maintenance and operation of the sewer system. Any such assignment or contract by BOLIVAR may be done without having to get the consent of the DEVELOPER or any of the owners of lots in the Subdivision.
- 5.02 Without limiting the generality of the provisions of Section 5.01 above, it is understood and agreed that the operation of the sanitary sewer system and line which are

contemplated in this agreement may be transferred by BOLIVAR at a future date to a Special Utility District in Galveston County, Texas, without having to get the consent or approval of the DEVELOPER or any of the owners of lots in the Subdivision.

### VI. TEXAS LAW TO APPLY

6.01 This Agreement shall be construed under and in accordance with the laws of the State of Texas, and the rights, duties and obligations of the parties under this Agreement shall be governed by the laws of the State of Texas. Any lawsuit arising out of this contract will be filed in a Court of competent jurisdiction in Jefferson County, Texas, and any such lawsuit shall be subject to the arbitration provisions in Article VII hereof.

### VII. ARBITRATION

7.01 Any and all disputes, controversies, claims or demands arising out of this Agreement shall be resolved by binding arbitration pursuant to the Federal Arbitration Act, in accordance with the Commercial Arbitration Rules then in effect with the American Arbitration Association. Any such arbitration proceeding shall be conducted in Jefferson County, Texas. This arbitration provision shall be enforceable in either federal or state court in Jefferson County, Texas pursuant to the substantive federal laws established by the Federal Arbitration Act. Any party to an award rendered in such arbitration proceeding may seek a judgment upon the award and that judgment may be entered by any federal or state court in Jefferson County, Texas having jurisdiction.

### VIII. PARTIES BOUND

8.01 This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, executors, administrators, legal representative, successors and assigns.

### IX. LEGAL CONSTRUCTION

9.01 In case one or more of the provisions contained in this Agreement shall for any reason be held to be invalid, illegal, or unenforceable in any respect, such invalidity, illegality, or unenforceability shall not affect any other provisions of the Agreement, and the Agreement shall be construed as if such invalid, illegal, or unenforceable provision had never been contained herein.

### X. MISCELLANEOUS

- 10.1 This Agreement constitutes the sole Agreement between the parties hereto, and supersedes any prior written or oral understandings between the parties regarding the subject matter of this agreement.
- 10.02 The failure of any party to insist upon strict performance of any provision of this Agreement shall not constitute a waiver of, or estoppel against asserting, the right to require that performance in the future, nor shall a waiver or estoppel in any one instance constitute a waiver or estoppel with respect to a later breach.
- 10.03 This Agreement shall be subject to change or modification only with the mutual written consent of the parties, except as expressly provided otherwise in this Agreement.

10 04 In the event any party is rendered unable, wholly or in part, by force majeure to carry out any of its obligations under this Agreement, other than the payment of money, then the obligations of that party, to the extent affected by the force majeure and to the extent that due diligence is being used to resume performance at the earliest practicable time, shall be suspended during the continuance of any inability so caused to the extent provided, but for no longer period. As soon as reasonably possible after the occurrence of the force majeure relied upon, the party whose contractual obligations are affected by the force majeure shall give notice and full particulars of the force majeure to the other parties. The cause, as far as possible, shall be remedied with all reasonable diligence. The term "force majeure," as used in this Agreement, shall mean acts of God; strikes; lockouts, or other industrial disturbances; acts of the public enemy; orders of any kind of the government of the United States or the State of Texas or any civil or military authority other than a party to this Agreement; insurrections; riots; epidemics; landshides; lightning; earthquakes; fires; hurricanes; storms; floods; washouts; droughts; arrests; civil disturbances; explosions; breakage or accidents to machinery, pipelines, or canals; partial or entire failure of water supply; and any other inabilities of any party, similar to those enumerated, that are not within the control of the party claiming the inability and which the party could not have avoided by the exercise of due diligence and care. It is understood and agreed that the settlement of strikes and lockouts shall be entirely within the discretion of the party having the difficulty and that the above requirement that any force majeure shall be remedied with all reasonable dispatch shall not require the settlement of strikes and lockouts by acceding to the demands of the opposing party or parties when settlement is unfavorable to the party having the difficulty, in the judgment of that party.

10 05 The provisions of this Agreement are severable, and if any word, phrase, clause, sentence, paragraph, section, or other part of this Agreement or its application to any person or circumstance shall ever be held by any court of competent jurisdiction to be invalid or unconstitutional for any reason, the remainder of this Agreement and the application of the word, phrase, clause, sentence, paragraph, section, or other part of this Agreement to other persons or circumstances shall not be affected.

The undersigned hereby certify and acknowledge that they have had the opportunity to read this Agreement, and that they have voluntarily entered into this Agreement with full awareness of its terms and conditions.

The Effective Date of this Agreement is 16th day of June, 2015.

### <u>Procedures and Instructions for Completing the Wastewater Capacity</u> <u>Reservation Application for Residential and Commercial Development</u>

- The Wastewater capacity Reservation Application for Residential and Commercial Development is a two page from
  with the wastewater discharge criteria sheet and instructions included. This application must be completed by the
  current property owner or by an authorized representative of the owner. Please note that if the applicant is not the
  current owner of the subject property, a notarized Letter of Authorization from the property owner must accompany
  the application.
- 2. When submitting the Wastewater Capacity Reservation Application, a processing fee of \$250.00 will be due. This is a non-refundable fee made payable to Bolivar Utility Services, LLC and covers the cost of processing this application only. Any utilization fees, Inspection fees, etc., are separate and are NOT included in this processing fee.
- A site plan or survey, indicating the dimensions of the property must be attached to the Wastewater Capacity Reservation Application for Residential and Commercial Development.
- 4. A location map must be attached showing adjacent and internal streets for the proposed development site.
- 5. The application must be filled out completely and accurately. The application will returned if the owner or agent is not able to personally correct the application. This will increase processing time for your application.

The following information is often missing:

- a. The street address is not indicated (page 1 of application).
- b. The tract size is not provided (Page 1).
- c. Survey and Location Map is not attached (Page 1).
- d. Appropriate information on high volume water users are not included (Page 2). See item 6 below.
- e. Prior letters regarding this site are not attached or, if attached, their relationship to the present request is not indicated.
- f. An acceptable form of proof of ownership of the property, i.e. warranty deed, deed of trust, title report, or title opinion is not attached.
- Include all site and building layouts or calculations showing square footage, occupancy loads, seats, beds, etc. for the uses specified so the service unit equivalency can be calculated based on the wastewater discharge criteria sheet.
- 7. An Original and one copy of the completed application and supporting documentation with the application fee shall be submitted to the following:

Bolivar Utility Services, LLC Attn: Manager of Operations P.O. Box 22858 Beaumont, TX 77720

Should an applicant need any additional information concerning the submittal of the Wastewater Capacity
Reservation Application for Residential and Commercial Development, please contact the Bolivar Utility Services,
LLC, office.

Bolivar Utility Services, LLC Ph: 409-924-9421 Fax: 409-861-4002

- 9. After this application is reviewed, any changes in use for the development from what is submitted in this application will require a new application with new attachments and another processing fee.
- 10. This application should be submitted and reviewed prior to any application for water or sewer taps.

### RESIDENTIAL LINE EXTENSION AGREEMENT

Name: First	Middle	Last	<del> </del>
Mailing Address	City	St. ZIP	
( )			
Telephone	E-mail		
PROPERTY			
Service Address	City	St. ZIP	
Lat Na(s) Rlack	Subdivision		

This Residential Line Extension Agreement is entered into by and between Bolivar Utility Services, LLC, a limited liability company organized under the laws of the State of Texas, its successors and assigns ("Utility"), and "Applicant" as indicated above.

PROPERTY OWNERSHIP: Applicant hereby represents that the Property described above is owned by Applicant and that Applicant has the requisite power and authority to enter into this Agreement.

REQUEST FOR SERVICE: Applicant hereby requests that Utility provide retail sewer utility service to Applicant's Property as defined above. Applicant agrees to submit additional documentation as required by the Texas Commission on Environmental Quality to allow Utility to amend its Certificate of Convenience and Necessity to include Applicant's property.

LINE EXTENSION CHARGE: Utility has assessed the cost of extending service to Applicant and other service applicants to be located on the same line(s) and has determined that with the sharing of allowable costs among service applicants, the cost to extend service to Applicant is \$5,000, which includes the tap fee as provided by Utility's tariff and the pro rata cost of the line extension to Applicant's property. Applicant agrees

to pay Utility \$5000.00 upon execution of this Agreement. Utility shall not be obligated to initiate sewer treatment service to Applicant's property until the Line Extension Charge has been paid in full. If for any reason Utility is unable to provide service to Applicant, the \$5000 fee will be refunded within 30 days from the date Applicant is notified that service can not be provided.

RIGHT OF ACCESS AND EASEMENTS: Utility shall have the right of access to Applicant's property at all reasonable times for the purpose of installing sewer lines or other equipment used in connection with its provision of sewer service and for all other purposes necessary to the operation of Utility's system. If recorded utility easements available to Utility do not exist on Applicant's property, Applicant agrees to grant a permanent recorded public utility easement dedicated to Utility which will provide a reasonable right of access and use to allow Utility to construct, install, maintain, inspect and test water sewer facilities necessary to serve Applicant.

LOW PRESSURE GRINDER UNIT: Applicant shall purchase and allow installation on Applicant's property a low pressure grinder unit conforming to Utility's specifications. Applicant understands that the cost of the unit is in addition to the Line Extension Charge provided in this Agreement.

CONTRACT/APPLICATION FOR UTILITY SERVICE: Prior to the initiation of sewer treatment service, Applicant shall complete and submit to Utility a Contract/Application for Sewer Utility Service in the form provided in Utility's tariff. Applicant agrees to comply with all applicable provisions of Utility's tariff, including the payment of service rates as provided therein.

SITE READY INSPECTION: Prior to the start of construction, Applicant shall have their Contractor phone and arrange to meet on the property site with a representative from Bolivar Utility Services.

# CONTRACT/APPLICATION FOR RESIDENTIAL SEWER UTILITY SERVICE

This Contract/Application for Utility Service ("Contract/Application") is by and between Bolivar Utility Services, LLC., a limited liability company organized under the laws of the State of Texas, its successors and assigns ("Utility") and the applicant ("Customer" or "Applicant") whose name and signature is shown below on the last page of this document.

**CUSTOMER LIABILITY:** Customer shall be liable for any damage or injury to Utility-owned property or personnel shown to be caused by the customer his invitees, his agents, his employees, or others under his control.

**PLUMBING CODE:** Utility has adopted the Uniform Plumbing Code. Any extensions and/or new facilities shall comply with that code and all standards established by the TCEQ. Where conflicts arise, the more stringent standard must be followed.

**ASSIGNMENT:** No application, agreement or contract for service may be assigned or transferred without the written consent of Utility.

**RIGHT OF ACCESS AND EASEMENTS:** Utility will have the right of access to the Customer's premises at all reasonable times for the purpose of installing, inspecting or repairing water/sewer mains or other equipment used in connection with its provision of water/sewer service, or for the purpose of removing its property and disconnecting lines, and for all other purposes necessary to the operation of Utility's system, including inspection of the customers plumbing for code, plumbing or tariff violations.

**SEWER REGULATIONS:** The disposal into the utility's sewer collection system of bulk quantities of food or food scraps not previously processed by a grinder or similar garbage disposal unit and grease and oils, except as incidental waste in process or wash water, used in or resulting from food preparation by sewer utility customers engaged in the preparation and/or processing of food for other than domestic consumption for sale to the public shall be prohibited. Specifically included in this prohibition are grease and oils from grease traps to other grease and/or oil storage containers.

THE COLLECTION AND DISPOSAL OF STORM WATERS OR RUN OFF WATERS MAY NOT BE DIVERTED INTO OR DRAINED INTO THE UTILITY'S COLLECTION SYSTEM. NO GREASE, OIL, SOLVENT, PAINT, OR OTHER TOXIC CHEMICAL COMPOUND MAY BE DIVERTED INTO OR DRAINED INTO THE UTILITY'S COLLECTION SYSTEM.

Pursuant to TCEQ Rule 291.86(n), the utility may charge for all labor, material, equipment, and other costs necessary to repair to replace all equipment damaged due to service diversion or the discharge of wastes that the system cannot properly treat.

Pursuant to TCEQ Rule 291.85(b) (3), the customer's service line and appurtenances shall be construed in accordance with the laws and regulations of the State of Texas, local plumbing codes, or, in the absence of such local codes, the Uniform Plumbing Code. It shall be the customer's responsibility to maintain the service line and appurtenances in good operating condition, i.e., clear of obstruction, defects, or blockage. If the utility can provide evidence of excessive infiltration or inflow or failure to provide proper pretreatment, the utility may, with the written approval of the TCEQ's executive director, require the customer to repair the line or eliminate the infiltration or inflow or take such actions necessary to correct the problem. If the customer fails to correct the problem within a reasonable time, the utility may disconnect service after proper notice.

CUSTOMER AGREEMENT: BY SIGNING THIS APPLICATION FOR PUBLIC UTILITY SERVICE, I AGREE TO COMPLY WITH UTILITY'S RULES AND TARIFF AND ALL RULES AND REGULATIONS OF THE TCEQ AND OTHER APPLICABLE REGULATORY AGENCIES. I GUARANTEE PROMPT PAYMENT OF ALL UTILITY BILLS FOR THE SERVICE ADDRESS PRINTED ABOVE. I AGREE TO REMAIN RESPONSIBLE FOR UTILITY BILLS FOR THIS SERVICE ADDRESS FROM THE DATE SERVICE IS STARTED UNTIL THE DAY SERVICE IS TERMINATED AT MY REQUEST.

I AGREE TO TAKE NO ACTION TO CREATE A HEALTH HAZARD OR OTHERWISE THREATEN OR ENDANGER UTILITY'S PLANT, ITS PERSONNEL, OR ITS CUSTOMERS. I AGREE TO PUT NO UNSAFE, NON-DOMESTIC SERVICE DEMANDS ON UTILITY'S SYSTEM WITHOUT NOTICE TO AND PERMISSION FROM UTILITY. ANY ACTION BY OTHERS OR ME UNDER MY CONTROL IN VIOLATION OF THIS PARAGRAPH MAY RESULT IN THE TERMINATION OF MY UTILITY SERVICE WITHOUT NOTICE.

I HAVE BEEN SHOWN A COPY OF UTILITY'S TCEQ-APPROVED TARIFF AND I AGREE TO PAY THE RATES IN THE TARIFF AND ABIDE BY THE REQUIREMENTS IN THIS APPLICATION. I ACKNOWLEDGE THAT THE RATES AND/OR TERMS OF SERVICE IN THE TARIFF MAY BE CHANGED BY FUTURE ORDER OF THE TCEQ OR OTHER REGULATORY AUTHORITY HAVING JURISDICTION OVER UTILITY'S RATES. I AGREE TO ABIDE BY SUCH CHANGES AS THEY OCCUR.

### **PROPOSAL**

Proposal # 16-130-B September 20, 2016

To: Alico P.O. Box 3684 Beaumont, Texas 77704

Via email: bpatterson@allco.com

Attn: Mr. Billy Paterson

Engineer: NA

Project: Expansion to 100,000 GPD WWTP (Second 50,000 Plant)

We are please to quote the following equipment and services for the referenced project:

One (1) Wastewater treatment plant rated to treat 50,000 GPD of domestic wastewater containing 250 mg/l BOD<sub>5</sub>. Plant to be designed and built in accordance with current TCEQ 217 design criteria for effluent quality of 10/15 mg/l BOD<sub>5</sub>/TSS. Plant will ship in two major pieces, One (1) 44 long x 12' wide x 12' tall aeration tank and sludge holding tank, One (1) 17' diameter x 12' tall clarifier.

Generally plant to include the following items:

- One (1) Splitter box to divide flow equally between existing plan and new plant. To include One (1) Barscreen box inlet box designed for 100,000 GPD rating. Box to also have overflow back to lift station so existing tanks can be utilized as flow equalization.
- One (1) Main aeration tank 12' wide x 12'0" tall x 44' long to contain Aeration tank (26' long) and sludge holding tank (18' long). Tank will include air header and diffusers, and airlift pumps for RAS, Scum and WAS functions

- One (1) Clarifier tanks 17' diameter x 12' tall. Each tank to include mechanical sludge and scum collection, weir trough, and all components needed for complete clarifier system.
- Two (2) Blowers designed to provide all air required for plant at 50,000
  capacity. Blowers to match existing blowers and be installed on new plant.
   Piping included to tie to existing air header and complete with piping to hook up blowers to new plant, or to old plant.
- · Stairway to be installed on clarifier end of new plant
- · Walkway on aeration tank and clarifier.
- · Walkway and handrail to cross between existing plant and new plant
- All galvanized double handrail required for walkways and stairway
- Clarifier gear drive with controls in NEMA 3R enclosure
- Dual LMI pumps for chlorine feed capable of being paced by OCM III
  meter already installed in existing building
- · All hardware required for installation

### Notes:

- All fabrications not hot dip galvanized to be finish painted using Enduron coal tar based polyurethane specifically designed for wastewater service
- Customer to provide crane for unloading and all labor and equipment required for field assembly/installation.
- · Customer to provide piping to and from treatment plant after installation.
- · Customer to provide foundation (slab)
- · We will provide drawings

We estimate delivery after approval to be 16 to 18 weeks.

TOTAL PRICE, FOB jobsite \$208,871.00 plus any taxes which may apply.

Terms:

Prices are good for 30 days.

Payment to be as follows:

 10% when sellers drawings are approved for production of equipment

the first of the control of the control of the common and the control of the cont

- 30% 30 days from date of approval
- 30% 60 days from date of approval
- 20% on delivery of new equipment and assembly(approx 100 days from approval)
- 10% at final acceptance and startup

The right to make and invoice for partial shipment is <u>specifically</u> reserved. We anticipate invoicing for work performed on a monthly draw for material on hand and work performed.

Shop drawings and data for record will be provided.

Proposal includes all equipment startup by factory personnel and training of operators in operation and servicing all equipment

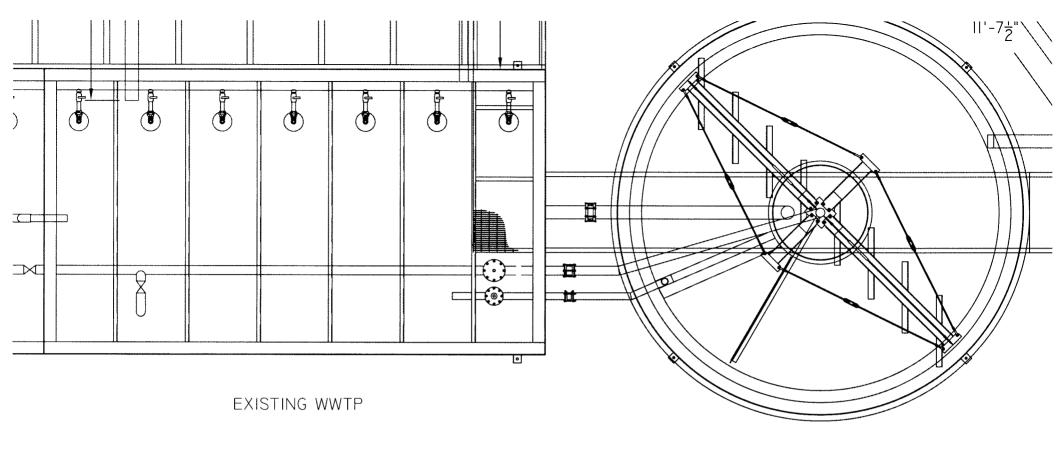

"As built" drawings, and operations/service manuals are included.
