<b>APPLICATION OF FOREST GLEN</b>	<b>§</b>	<b>PUBLIC UTILITY COMMISSION</b>
<b>UTILITY COMPANY FOR</b>	<b>§</b>	
<b>AUTHORITY TO CHANGE RATES</b>	<b>§</b>	<b>OF TEXAS</b>

**DRAFT PRELIMINARY ORDER**

Forest Glen Utility Company has filed an application for a rate increase for sewer service under certificate of convenience and necessity number 21070. Forest Glen is a sewer-only utility with 129 unmetered connections in Medina County, Texas.<sup>1</sup> This preliminary order identifies the issues that must be addressed in this docket.

**I. Procedural History**

Forest Glen filed its initial application on December 21, 2017. On January 31, 2018, the Commission's administrative law judge (ALJ) issued an order finding the application deficient.<sup>2</sup> On February 23, 2018, Forest Glen filed additional information to rectify the deficiencies in its application.<sup>3</sup> On March 27, 2018, the Commission ALJ issued an order deeming the application administratively complete.<sup>4</sup> After its application was deemed complete, Forest Glen did not provide an updated statement of intent with a new proposed effective date.

As of March 22, 2018, approximately 79 ratepayers had filed protests in this docket.<sup>5</sup> Because more than 10% of Forest Glen's 149 ratepayers filed protests, Commission Staff recommended that the Commission refer this matter to the State Office of Administrative Hearings (SOAH) for an evidentiary hearing under 16 Texas Administrative Code (TAC) § 24.28(c).<sup>6</sup> The

<sup>2</sup> Order No. 2 Finding Application Incomplete. Establishing Opportunity to Cure and Suspending Effective Date (Jan. 31, 2018).

<sup>3</sup> Revised Application at 1.

<sup>4</sup> Order No. 3 Finding Application Administratively Complete and Suspending Effective Date (Mar. 27, 2018).

Commission referred this proceeding to SOAH on April 3, 2018. Forest Glen was directed and Commission Staff and other interested persons were permitted to file a list of issues to be addressed in the docket by April 24, 2018. Commission Staff and Forest Glen each timely filed a proposed list of issues.

At its May 25, 2018 open meeting, the Commission postponed adoption of a preliminary order in this proceeding until Forest Glen filed a proper statement of intent with a new proposed effective date as required by Texas Water Code (TWC) § 13.1871(e).<sup>7</sup> On June 1, 2018, Forest Glen filed an updated statement of intent with a new proposed effective date of July 6, 2018.<sup>8</sup>

## **II. Proposed Rates**

In its statement of intent filed on June 1, 2018, Forest Glen provided a billing comparison showing that under its proposed rate increase, its customers' fixed monthly rate for sewer service would increase from \$35.00 to \$65.00.<sup>9</sup> In addition, the late fee Forest Glen charges customers would change from \$5.00 to 10% of the delinquent amount.<sup>10</sup> Finally, Forest Glen's meter test fee would change from the actual cost to \$25.00.<sup>11</sup>

## **III. Issues to be Addressed**

The Commission must provide to the administrative law judge a list of issues or areas to be addressed in any proceeding referred to SOAH.<sup>12</sup> After reviewing the pleadings submitted by the parties, the Commission identifies the following issues that must be addressed in this docket:

1. What is the appropriate methodology to determine just and reasonable rates in this proceeding?

2. What are the just and reasonable rates for the utility that are sufficient, equitable, and consistent in application to each customer class and that are not unreasonably preferential, prejudicial, or discriminatory? TWC §§ 13.182, 13.1871(o); 16 TAC § 24.28(d).
3. 12. Is the utility seeking inclusion of construction work in progress? If so, what is the amount sought and for what facilities? Additionally, has the utility proven that the inclusion is necessary to the financial integrity of the utility and that major projects under construction have been efficiently and prudently planned and managed? TWC § 13.185(b); 16 TAC § 24.31(c)(4).

13. Does the utility have any debt? If so, what is the cost of that debt?

TWC § 13.185(i).
16. Has the utility acquired any sewer property from an affiliate? If so, do the payments, including any interest, for that property meet the requirements of TWC § 13.185(e)?

22. Are any expenses, including but not limited to, executive salaries, advertising expenses, rate-case expenses, legal expenses, penalties and interest on overdue taxes, criminal penalties or fines, and civil penalties or fines, unreasonable, unnecessary, or not in the public interest? TWC § 13.185(h)(3); 16 TAC § 24.31(b)(2)(I).
23. If the utility has a self-insurance plan approved by the Commission or other regulatory authority, what is the approved target amount for the reserve account, and is it appropriate to charge that amount? What is the amount of any shortage or surplus for the reserve account, and what actions, if any, should be taken to return the reserve account to the approved target amount?

24. What are the utility's reasonable and necessary expenses, if any, for pension and other post-employment benefits?
25. Has the utility made any payments to affiliates?
  - a. For affiliate transactions that affect the cost of service, are these transactions reasonable and necessary? TWC § 13.185(e).
  - b. For all affiliated transactions affecting the cost of service, what are the costs to the affiliate of each item or class of items in question, and is the price for each transaction no higher than prices charged by the supplying affiliate to its other affiliates or divisions for the same item or items, or to unaffiliated persons or corporations? TWC § 13.185(e).
26. What is the reasonable and necessary depreciation expense? For each class of property, what are the proper and adequate depreciation rates (including service lives and salvage values) and methods of depreciation? TWC § 13.185(j); 16 TAC § 24.31(b)(1)(B).

Does that amount include any prospective rate-case expenses to be incurred after the Commission's final order? Should the utility be able to recover its reasonable and necessary rate-case expenses from ratepayers? If so, how should such expenses, if any, be recovered by the utility?
