**RESPONSE TO COMMISSION STAFF'S FOURTH REQUEST FOR INFORMATION
TO FOREST GLEN UTILITY COMPANY**

QUESTION NOS. STAFF 4-1 THROUGH 4-4

Staff 4-1: With regard to the \$0.18 per \$100.00 annual assessment fees, provide the amount of funds Forest Glen Utility has received from Potranco Public Improvement District for FY2015, FY2016, and FY2017. Provide documentation and a breakdown of the annual amount received for wastewater and reuse.

RESPONSE: FGU has received no funds from Potranco Ranch Public Improvement District.

Staff 4-2: As of June 1, 2018, how many Forest Glen Utility wastewater connections are actually occupied homes.

RESPONSE: FGU did not make an official count on June 1, 2018. However, on June 27, 2018, there were 242 sewer connections. Of those, 200 were billed to a homeowner and 42 were billed to a builder indicating the home is either under construction or has not been sold and occupied.

Staff 4-3: Indicate how much of Forest Glen Utility's wastewater plant cost should be attributed to reuse processing. Please provide the calculation and factors used to determine this amount.

RESPONSE: None. Costs for treatment that occurs in the WWTP is required to meet TPDES permit conditions and Texas Surface Water Quality Standards. Any additional filtration and chlorination that may occur after leaving the WWTP and before being distributed in the irrigation system is not part of the rate base.

Staff 4-4: Please indicate the total amount of wastewater and reuse connections respectively Forest Glen Utility will provide billable service too based on full build out.

RESPONSE: Unknown. FGU estimated that there would be 366 customers upon final build-out in Potranco Ranch Subdivision in its application; however, FGU has recently expanded its CCN area and may expand it again in the future.
