**ORDER NO. 1
REQUIRING COMMISSION STAFF'S RECOMMENDATION**

This Order addresses the November 29, 2017 filing of MSEC Enterprises, Inc. of a True-Up Report required by the Commission as part of MSEC's pass-through rate change request approved by the Commission in Tariff Control No. 46258.¹ As a result of this True-Up Report and starting February 1, 2018, MSEC is decreasing its authorized pass-through rate by \$0.18 per 1,000 gallons to address the over-collection from customers during the True-Up Period. MSEC stated the over-collection was due in part to customer growth during the True-Up Period and also due to MSEC's utilization of two different sources of water with different rates. Using the Commission approved tariff formula, MSEC proposes to issue the over-collection as a credit back to its customers by lowering the pass-through rate for the next year, and will be decreasing the pass-through rate for San Jacinto River Authority's Surface Water Fee from MSEC's currently authorized rate of \$2.93 per 1,000 gallons² to \$2.75 per 1,000 gallons.

Commission Staff shall file a recommendation on MSEC's True-Up proposal and notice or a procedural schedule no later than February 9, 2018.

Signed at Austin, Texas the 19th day of January 2018.
