**RED RIVER AUTHORITY'S FIRST SUPPLEMENTAL RESPONSE TO COMMISSION
STAFF'S SECOND REQUEST FOR INFORMATION**

QUESTION NUMBER STAFF 2-1

Red River Authority of Texas provides the following Supplemental Response to Question Staff 2-1. This Supplemental Response is a supplement to the response to Question Staff 2-1 filed on May 14, 2018. This response was prepared under the direct supervision of **Randy Whiteman**, General Manager of Red River Authority, who is the sponsoring witness for the response.

RESPONSES

Staff 2-1

Reference Red River Authority's Response to Commission Staff's First Request for Information (RFI), filed on March 26, 2018. Provide plan approvals from the Texas Commission on Environmental Quality for the ongoing improvements at Red River's water treatment plants as identified in the response to Staff RFI 1-1.

**Supplemental
Response:**

Attached as Exhibit A is the letter that was sent to the TCEQ on April 30, 2018. Red River Authority has still not received a formal response from the TCEQ as of the date of this Supplemental Response. The TCEQ has indicated that a response is forthcoming.

Respectfully submitted,

SHERRILL & GIBSON, PLLC

RE: Red River Authority of Texas
Hinds-Wildcat Water System
TCEQ PWS No. TX2440005
CCN No. 10202

Dear TCEQ Staff:

Enclosed for your review and comments is one (1) set of plans and specifications for the proposed water facility improvements to the Red River Authority of Texas Hinds-Wildcat Water System. The purpose of this project is to provide the Hinds-Wildcat & Northside Water System with a new water supply that fully complies with the water quality standards regulated by the Texas Commission on Environmental Quality (TCEQ) and the Environmental Protection Agency (EPA) as mandated by an EPA Administrative Order (Docket Number: SDWA-06-2013-1236).

The proposed project generally includes the construction of a 8" PVC transmission line (approximately 21,000 linear feet), 6" PVC transmission line (approximately 31,000 linear feet), two pump stations, metering facilities, and associated valves (refer to enclosed Design Memorandum). These improvements will convey treated water from the City of Vernon to the new Hinds-Wildcat Pump Station. This pump station will then provide/convey water to the Hinds-Wildcat distribution system and the new Northside Pump Station.

Please contact me if you have any questions or concerns regarding this project.

Regards,

BIGGS & MATHEWS, INC. (F-834)

Kerry J. Maroney, Jr., P.E.
