Today I investigated 2 wells that were reported to be used for Public Water System wells. The Owner of these wells is James Nelson. These wells are Reg ID 1517 and 1518. The GPS locations of these wells are as follows;

Reg ID 1517

33° 50.785'N

97° 40.155W

Reg ID 1518

33° 50.893'N

97° 40.101'W

There is a septic tank that is 63 feet from the well head of well #1.

These two wells are used to service people in the neighborhood. TCEQ visited the location on July 16, 2012 and determined that these wells are not Public Water Systems. They do not have enough customers. The wells are not tied together. One system has 11 customers and the other has 9 customers.

A copy of the TCEQ letter was submitted to the UTGCD.
