PERMIT NUMBER: 2501A
APPLICATION AND PRELIMINARY DECISION. Valero Refining-Texas, L.P., 9701 Manchester St, Houston, TX 77012-2408, has applied to the Texas Commission on Environmental Quality (TCEQ) for an amendment to Air Quality Permit Number 2501A, which would authorize existing emissions of hydrogen cyanide from the Fluid Catalytic Cracking Unit within the Houston Refinery located at 9701 Manchester St, Houston, Harris County, Texas 77012. In addition to hydrogen cyanide, the existing facility emits the following contaminants: organic compounds, carbon monoxide, sulfur dioxide, nitrogen oxides, sulfuric acid, and particulate matter including particulate matter with diameters of 10 microns or less and 2.5 microns or less. This application was submitted to the TCEQ on February 10, 2014.
The executive director has determined the application is administratively complete and has completed the technical review of the application and prepared a draft permit which, if approved, would establish the conditions under which the facility must operate. The executive director has made a preliminary decision to issue the permit because it meets all rules and regulations. The permit application, executive director's preliminary decision, and draft permit will be available for viewing and copying at the TCEQ central office, the TCEQ Houston regional office, and at the Park Place Regional Library, 8145 Park Place, Houston, Harris County, Texas beginning the first day of publication of this notice. The facility's compliance file, if any exists, is available for public review at the TCEQ Houston Regional Office, 5425 Polk St Ste H, Houston, Texas.

This notice concerns the 2018 property tax rates for Harris County Department of Education. It presents information about three tax rates. Last year's tax rate is the actual tax rate the taxing unit used to determine property taxes last year. This year's effective tax rate would impose the same total taxes as last year if you compare properties taxed in both years. This year's rollback tax rate is the highest tax rate the taxing unit can set before taxpayers start rollback procedures. In each case these rates are found by dividing the total amount of taxes by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per \$100 of property value.

Last year's tax rate:	
Last year's operating taxes	\$23,219,449

Undergrads swap Shakespeare for stats

Share of graduates in computers, math rises, while fewer studying literature, languages

By Jordan Yadoo
BLOOMBERG NEWS

Follow the money. At least that's what America's college students are doing when it comes to choosing majors.

The share of bachelor's degree holders in the U.S. age 25 and over who majored in computers, math or statistics rose to 4.7 percent last year from 4.2 percent in 2009 — an increase of nearly 1 million students over the period, and 224,000 alone in 2017, according to Census Bureau data released last week.

The proportion who concentrated in literature and languages meanwhile dropped from 4.6 percent to 4.2 percent, while the number who studied liberal arts and history was down 0.7 per-

centage point as a share of the total.

The changes may help the U.S. labor market amid a shortage of science, technology, engineering and math talent.

The government projects faster-than-average employment growth in such so-called STEM fields.

The shifts may also reflect a growing awareness among students in the years following the 2007-09 recession about the value of a college degree and its relevance in the workforce. The average published price of tuition and fees alone at public and private nonprofit four-year colleges rose to \$9,970 and \$34,740, respectively, in the 2017-18 academic year, figures from the College Board show.

Bradley Leeb / Associated Press

College students are following the money with their choice of majors, with more opting for STEM fields and fewer focusing on the humanities.

Majoring in math and technology-related subjects leads to the biggest salaries, while the value of arts and humanities degrees is less clear, according to a report

from Bankrate.com.

Among other findings, the Census data show that business remains the most popular field of study, consistently attracting a

fifth of undergrads. The share of students who pursued education, meanwhile, took a sharp fall over the period, dropping from 13.7 to 12.2 percent of the total.

2018 Property Tax Rates in San Jacinto Community College District

This notice concerns the 2018 property tax rates for San Jacinto Community College District. It presents information about three tax rates. Last year's tax rate is the actual tax rate the taxing unit used to determine property taxes last year. This year's effective tax rate would impose the same total taxes as last year if you compare properties taxed in both years. This year's rollback tax rate is the highest tax rate the taxing unit can set before taxpayers start rollback procedures. In each case these rates are found by dividing the total amount of taxes by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per \$100 of property value.

Last year's tax rate:	
Last year's operating taxes	\$67,384,415
Last year's debt taxes	\$28,510,280
Last year's total taxes	\$95,894,695
Last year's tax base	\$52,305,721,766
Last year's total tax rate	\$0.183335/\$100
This year's effective tax rate:	
Last year's adjusted taxes	\$95,795,279
(after subtracting taxes on lost property)	
÷ This year's adjusted tax base	
(after subtracting value of new property)	\$53,418,711,560
= This year's effective tax rate	\$0.179329/\$100
(Maximum rate unless unit publishes notices and holds hearings.)	
This year's rollback tax rate:	
Last year's adjusted operating taxes	\$67,314,555
(after subtracting taxes on lost property and adjusting for any transferred function, tax increment financing, state criminal justice mandate, and/or enhanced indigent healthcare expenditures)	
÷ This year's adjusted tax base	\$53,418,711,560
= This year's effective operating rate	\$0.126013/\$100
x 1.08 = this year's maximum operating rate	\$0.136094/\$100
· This year's debt rate	\$0.052119/\$100

Persons who wish to intervene in the proceeding or comment upon action sought should contact the Public Utility Commission, P.O. Box 13326, Austin, Texas 78711-3326, or call the Public Utility Commission at (512) 936-7120 or (888) 782-8477. Hearing- and speech-impaired individuals with text telephones (TTY) may contact the commission at (512) 936-7136. The deadline for intervention in the proceeding is (30 days from the mailing or publication of notice, whichever occurs later, unless otherwise provided by the presiding officer). You must send a letter requesting intervention to the commission which is received by that date.

If a valid public hearing is requested, the Commission will forward the application to the State Office of Administrative Hearings (SOAH) for a hearing. If no settlement is reached and an evidentiary hearing is held, SOAH will submit a recommendation to the Commission for final decision. An evidentiary hearing is a legal proceeding similar to a civil trial in state district court.
