PUBLIC UTILITY COMMISSION  
FILING CLERK

Dear Sirs:

We received Order No. 6 requiring additional information regarding the need for service. The City of Marshall has requested the proposed service area outside their city limits due to the city population growing for needing water service and planning for future water improvements. No other retail public utility is currently serving in the proposed areas. Landowners within the area description will benefit by having the option of receiving a safe and reliable water source and service.

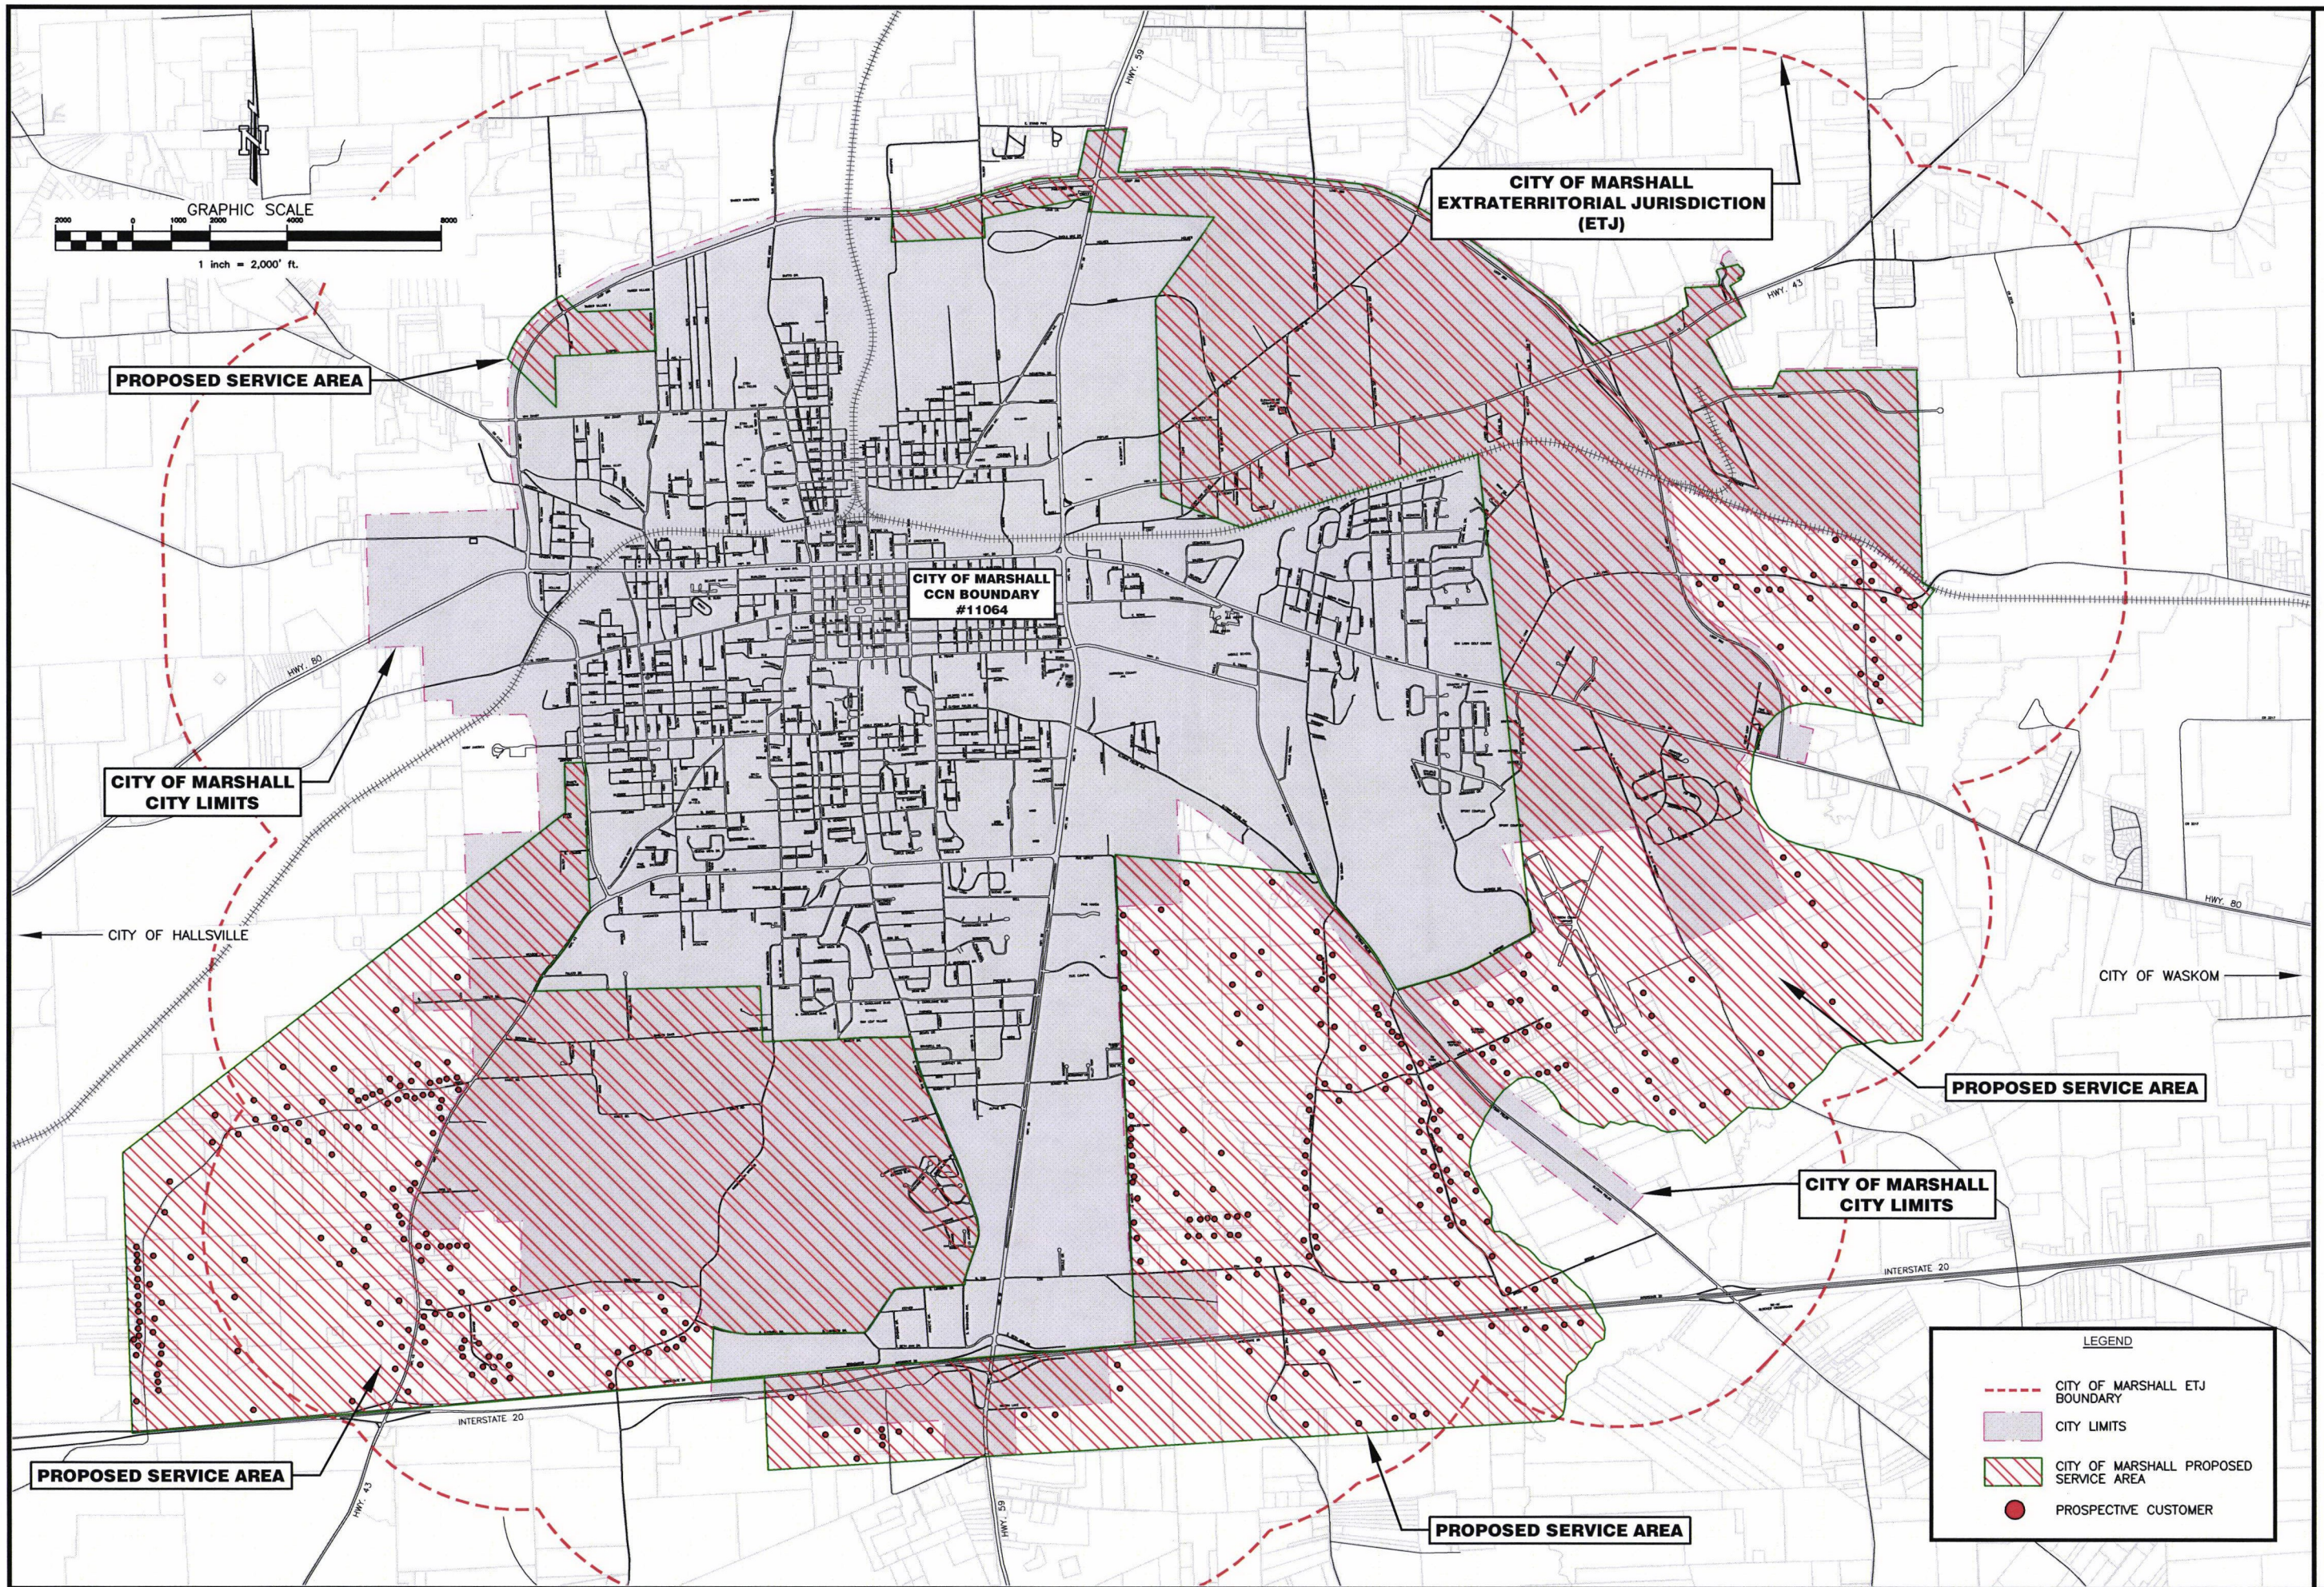

Please find enclosed an updated map depicting the proposed service area, the City of Marshall's city limits, the City of Marshall's extraterritorial jurisdiction, all city, county, state, federal and highway roads, and approximately all prospective customers the City of Marshall could potentially serve.

If you require any additional information, please advise.

Sincerely,  
HAYES ENGINEERING, INC.
