PUBLIC UTILITY COMMISSION  
FILING CLERK

Dear Sirs:

We had a conference call with PUC staff on December 9, 2019 talking about the City of Marshalls existing facility lines throughout their system. Staff has requested us to send in a digital copy of the existing facility map. The City of Marshall has oversize water lines to be able to feed off for the proposed service area for future customers when needed. Majority of the proposed service area the city is requesting they already serve and have existing water lines in place. Please see attached two (2) CD's with the existing facility map. We have also filed electronically with the tracking number #PMPQMHYR.

If you require any additional information, please advise.

Sincerely,  
HAYES ENGINEERING, INC.
