**ORDER NO. 13  
SOLICITING SUPPLEMENTAL ANALYSIS ON ADDITIONAL ACREAGE**

This Order addresses the need for the parties to provide additional information regarding the approximately 306 acres G-M WSC has requested to be added to its certificate of convenience and necessity (CCN) number 11393.

The memorandum dated August 9, 2019 and furnished by Commission Staff from Kathryn Eiland, while properly analyzing the requested area to be transferred of approximately 718 acres, does not apply the criteria under Texas Water Code § 13.246(c) to the additional area to be added of approximately 306 acres. Although the administrative law judge (ALJ) generally understands the desire of the applicants to connect the areas by adding the approximately 306 acres, a proper analysis is nevertheless needed.

In order to continue processing the present docket, the ALJ solicits an analysis of the addition of the approximate 306 acres to G-M WSC's CCN number 11393 under TWC § 13.246(c). The applicants must provide to Commission Staff, upon request, information necessary to conduct the analysis. On or before October 16, 2019, Commission Staff must file the analysis in the present docket, along with a corresponding supplemental motion to admit evidence.

Signed at Austin, Texas the 25<sup>th</sup> day of September 2019.
