**ORDER NO. 15
CLARIFICATION RESPONSE**

This Order addresses Commission Staff's November 12, 2019, request for clarification of Order No. 13 filed on September 25, 2019.

In Order No. 13, the administrative law judge (ALJ) directed Commission Staff to file a supplemental Texas Water Code (TWC) § 13.246(c) analysis of 306 acres of uncertificated area the applicant requested to add to its service area, along with a supplemental motion to admit evidence. However, Commission Staff states that the ALJ did not expressly require Commission Staff to file an amended proposed order. Commission Staff requests clarification regarding whether the filing should include an amended proposed order approving the transaction to proceed, and if so, whether the proposed order must be jointly proposed by the parties.

The ALJ finds an amended proposed order not necessary. Once Commission Staff files its supplemental analysis, along with a joint supplemental motion to evidence, the ALJ will continue processing the present docket.

Signed at Austin, Texas the 13th day of November 2019.
