INFORMATION ON UTILITY SERVICE													
Tenants are billed for X Water X Wastewate					r		X	Submet	ered <u>OR</u>		Al	located ★★★	
Name of utility providing water/wastewater													
Date submetered or allocated billing begins (or began) 02/10/2019 Required													
METHOD USED TO OFFSET CHARGES FOR COMMON AREAS Check one line only.													
X Not applicable,	le, because X Bills are based on the tenant's actual submetered consumption												
							n areas <u>nor</u> an		alled irri	gation sy	ysten	n	
All common areas and the irrigation system(s) are metered or submetered:													
We deduct the actual utility charges for water and wastewater to these areas then allocate the remaining charges among													
our tenants.													
This property has an installed irrigation system that is <u>not</u> separately metered or submetered:													
We deduct percent (we deduct at least 25 percent) of the utility's total charges for water and wastewater													
consumption, then allocate the remaining charges among our tenants.													
This property has an installed irrigation system(s) that <u>is/are</u> separately metered or submetered:													
We deduct the actual utility charges associated with the irrigation system(s), then deduct at least 5 percent of the utility's													
total charges for water and wastewater consumption, then allocate the remaining charges among our tenants.													
This property does <u>not</u> have an installed irrigation system:													
We deduct at least 5 percent of the retail public utility's total charges for water and wastewater consumption, and then													
allocate the remaining charges among our tenants.

METHOD USED TO ALLOCATE UTILITY CHARGES

Check the box or boxes that describe the allocation method used to bill tenants.

ancy method: The number of occupants in the tenant's dwelling unit is divided by the total number of

Occupancy method: The number of occupants in the tenant's dwelling unit is divided by the total number of										
occupants in all dwelling units at the beginning of the month for which bills are being rendered.										
Ratio occupancy method:		Number of Occupants for								
	Number of Occupants	Billing Purposes								
The number of occupants in the tenant's dwelling unit	1	1.0								
is adjusted as shown in the table to the right. This	2	1.6								
adjusted value is divided by the total of these values	3	2.2								
for all dwelling units occupied at the beginning of the	>3	2.2 + 0.4 for each additional occupant								
retail public utility's billing period.										
Friends No. 10 Company										
Estimated occupancy method:	Number of	Number of Occupants for								
	Bedrooms	Billing Purposes								
The estimated occupancy for each unit is based on the	0 (Efficiency)	1								
number of bedrooms as shown in the table to the	1	1.6								
right. The estimated occupancy in the tenant's dwelling unit is divided by the total estimated	2	2.8								
occupancy in all dwelling units regardless of the actual	3	4.0 4.0 + 1.2 for each additional bedroom								
number of occupants or occupied units.	>3									
	<u> </u>									
water/wastewater consumption is allocated using the occupancy method checked above. The remainder is allocated according to either: • the size of the tenant's dwelling unit divided by the total size of all dwelling units, OR • the size of the space rented by the tenant of a manufactured home divided by the size of all rental spaces.										
Submetered hot water: The individually submetered hot water used in the tenant's dwelling unit is divided by all submetered hot water used in all dwelling units.										
Submetered cold water is used to allocate charges for hot water provided through a central system: The individually submetered cold water used in the tenant's dwelling unit is divided by all submetered cold water used in all dwelling units.										
As outlined in the condominium contract. Describe:										
Cinc of manufactured have madel made.										
Size of manufactured home rental space: The size of the area rented by the tenant divided by the total area of all the size of rental spaces.										
Size of the rented space in a multi-use facility:										
The square footage of the space rented by the tenant div	vided by the total square fo	potage of all rental spaces								
The square rootage of the space rented by the tenant div	raca by the total square it	orage or an remai spaces.
