METHOD USED TO ALLOCATE UTILITY CHARGES

Check the box or boxes that describe the allocation method used to bill tenants.

X Occupancy method: The number of occupants in the tenant's dwelling unit is divided by the total number of occupants in all dwelling units at the beginning of the month for which bills are being rendered.

	Number of Occupants	Billing Purposes
The number of occupants in the tenant's dwelling unit	1	1.0

Occupancy and size of rental unit percent (**in which no more than 50%**) of the utility bill for water/wastewater consumption is allocated using the occupancy method checked above. The remainder is allocated according to either:
