RE: Docket No. 49223 – *Application of Karen Reeves DBA R & N Enterprises for a Price Index Rate Adjustment*

Dear Ms. Reeves:

On February 14, 2019, R & N Enterprises filed an application for a price index rate adjustment with the Public Utility Commission of Texas (Commission). In order to complete Staff's review of the application, Staff requests additional information. Specifically, Staff requests R & N Enterprises submit the following:

- See the revised gallonage rate in attached Excel document for Notice of Approved Utility Price Rate Adjustment (Revised Gallonage Rate). Does R & N Enterprises agree that the Revised Gallonage Rate accurately reflects the correct application of the price index adjustment to the current gallonage rate? And, does R & N Enterprises request approval of the Revised Gallonage Rate?
- Provide good cause as to why price index rate change is being filed outside of permitted quarter (Quarter 2).

Please do not implement the rate increase or provide notice of the rate increase to your customers until the Commission indicates that your application has been approved.

In order to ensure timely review of your application, please file the additional information requested above no later than 10 business days from filing. If you have any questions, please contact me at (512) 936-7275 or email me at creighton.mcmurray@puc.texas.gov.

I hereby certify a copy of this letter is being served on all parties of record. Thank you for your prompt attention to this matter.

Sincerely,

Creighton R. McMurray
Attorney-Legal Division

Explanation as to why the price index rate increase
is being filed outside of the permitted quarter (Quarter 2).

This application for a price rate index adjustment is being filed outside of the permitted quarter for the following reasons.

These are small Investor Owned Public Water Systems that have not had a rate increase since 2010 for Pleasant Ridge and 2013 for Timber Creek. The previous rate increase was filed back in 1996 I believe by the previous (deceased) owner.

As these are small systems an increase in revenue is detrimental and needed to help finance upkeep, repairs, monthly expenses, and other occurred expense and property taxes and lab and sample fees.

At this time these small systems even have a deposit of \$50.00 that does not even cover the amount of finalizing most accounts on rental properties where tenants vacate the properties with outstanding bills that cannot be disconnected until the disconnect date which is almost a full month more of service from the time the original bill was sent to the customer since bills are sent for water used previously before the bill is mailed to the customers/tenant.

Thank You,
Karen Reeves
R & N Enterprises
