Re: Celina Meeting
Jason Laumer
Jay Touchinian
Paul DeBuff

The City wants us to be conservative on our growth assumptions.

Building permits were up 50% last year. The population grew by 27% in 2017.

Celina's EDC has growth forecasts, but Jason considers those numbers to be very aggressive. He thinks our study should be more conservative.

The current population is 13,090. The population of the water and ww service area is 16,500.

The City is on track to add 1,200 permits in 2018. This is a pace of 100 permits per month. Jason expects this level of permits to continue for the next 2-3 years.

✓ The number of permits could reach 1,500 in 2019, and 1,800 in 2020. But Jason would be okay with leaving the permits at 1,200 in each of these years.

✓ The growth rate might start to receded after 2020.

The Council is comfortable with these growth rates.

ETJ Area

Light Farms is in the City's ETJ. The city provides water and sewer service.

23459

Green Meadows – also in ETJ, but service provided by Mustang.

Sutton Fields – also in ETJ, but service provided by Mustang.

There is a GIS map on the web site that will show the various CCNs in the City and the ETJ.

Jason also has a spreadsheet that shows all the growth in each of the City's sectors. He will send that to us.

Rate Plan

Jason thinks a 3 year rate plan would be most appropriate for the City.

✓ The wastewater usage cap is 14,000 gallons. However, the City is interested in looking at a winter average alternative.

✓ Commercial rates are tiered at present. The City wants to look at an option for a uniform commercial volume rate. Jason thinks it would be appropriate since it is not fair to have higher volume commercial customers who cannot conserve water pay higher rates. A uniform rate may also encourage more commercial development.

The two largest customers are a chemical plant and a TXI ready-mix plant.

The City does not have wholesale contracts at present.

✓ Light Farms currently pays a rate of 1.5 times the inside city rate. Jason wants to understand what the financial impact would be if they brought the rates down to the City rates.

✓ There are about 1,200 customers at present in Light Farms. Assuming the monthly charge premium is \$30, the impact is $30 * 1200 * 12 = 432,000$.

We might consider a plan that freezes the Light Farms rate and allows the residential rate to gradually catch up to Light Farms over the next five years.

Light Farms residents have given the City a lot of grief over the rate structure.

The City may enter a deal with Light Farms to reduce the rate to the City rate in exchange for a police and fire fee.

Other customers outside the City limits should stay at the 1.5 times rate.

The City's base meter size is now 1". There have been some concerns about the differential in monthly charges over a ¾" meter and a 1" meter. Jason wants us to address this as well.

✓ Should we reduce the 1" rate or gradually increase the ¾" rate to make it reach the 1" total.

People have complained that a house with a ¾" meter across the street from a house with a 1" meter pays a lower monthly charge.

At present there are approximately 1,800 ¾" meters and the rest are 1".

Personnel Increases

There are 25 FTEs in total, 21 in operations and 4 in utility billing.

Jason thinks a reasonable level of additions are:

✓ 2020 – 2

✓ 2021 – 2

✓ 2022 – 2

New personnel salaries are approximately \$40,000 -- \$50,000 per year.

We should assume 3.0% annual pay increases.

CIP and Master Plan

Garver did a water and wastewater master plan; finished in 2017.

The City will send us a spreadsheet showing CIP totals by year over next 5 years.

Some of the projects are speculative.

✓ The \$45 million trunk line to Mustang will probably not happen.

The City thinks that in 2018-2019 they will need to issue a \$36 million bond to cover water and wastewater projects.

Wastewater – they are building a new 1.0 mgd plant on the site of the existing wwtp. This plant can be upgraded to 5.0 mgd eventually.

They will serve the wastewater needs of the city as follows:

North City – will be served by the City primarily through wwtp that is being constructed.

South City – will ship to Upper Trinity's plant that is located off Hwy 380.

? West City – they may participate in another wwtp built jointly with Mustang to serve each's ^{needs} needs in that area

South East City – they may sign an agreement with NTMWD to serve that area. However there are a lot of engineering challenges for NTMWD to serve that area.

Water needs – they purchase all their water from Upper Trinity at this time. They have a wholesale contract that is take or pay which always increases.

They may buy water from NTMWD after 2022 when the water comes available. This is an option they will explore.

? They do have impact fees that they use to fund a portion of these capital improvements. → ^{Need} for it

The City's bond advisor is Jason Hughes of First Southwest.

We should assume the following financial ratios:

1.25 – debt coverage

120 day operating reserve

60 days cash on hand

✓ All outstanding debt is CO and GO guaranteed. They have a bond book that they will share the water and sewer portions of with us.

Mr. Jason Laumer
City Manager
City of Celina
142 N. Ohio
CelinaTX 75009

Dear Mr. Laumer:

Thank you for allowing **Willdan Financial Services/Economists.com** the opportunity to present this engagement letter to provide a water and wastewater rate analysis and long-term financial plan for the City of Celina ("The City"). Willdan Financial Services is one of the largest public sector financial consulting firms in the United States. Our company has helped over 800 public agencies across the United States successfully address a broad range of financial challenges, such as financing the costs of growth and generating revenues to fund desired services.

On April 6, 2015, Willdan merged with **Economists.com**, a Texas-based economic and financial consulting firm established in October 1997. Our combined firm specializes in municipal and public sector utilities and our principal clients are national, state and local governments. Each of our clients is served directly by our senior level professionals with decades of experience in utility consulting and economic/financial management. We are proud of our history of building long term relationships with clients based on affordability, professionalism and performance. We have served as consultants to the City of Celina for various projects since 2006 and are grateful for the opportunity to continue to provide service to the City.

Our specific services include:

- **Water and Wastewater Rate Studies**
- Sanitation Rate Studies
- Economic evaluation of water resources
- Water Planning and Management
- Connection and Impact Fee Studies
- Privatization Analysis
- Expert Witness Testimony on Reasonableness of Rate Structure
- Resource Allocation Studies
- Economic Impact and Development Studies

More information is available on our firm and professionals at our web sites, www.economists.com and www.willdan.com.

In the past five years, we have performed similar rate studies for Frisco, Plano, Richardson, Garland, McKinney, Princeton, Fairview, Rowlett, Little Elm, Coppell, Cedar Hill, Midlothian, Balch Springs, Hutchins and Royse City, along with 50 other cities in Texas and other cities across the USA. I have managed every one of these projects, and as Vice President of Willdan/Economists.com, I will manage and have primary responsibility for preparing this study for the City. I will be assisted by Mr. Dan Lanning, Project Analyst, and Ms. Tara Hollis, Project Analyst.

It is our understanding that the City is interested in developing a water and wastewater financial and rate plan that will enable the City to fund all ongoing operating expenses as well as funding long-term water and wastewater capital improvement projects. Our objective is to develop a long-term rate plan that will enable the City to fund these obligations and any assumed debt service and coverage requirements, while at the same time minimizing the impact of any potential rate adjustments on the ratepayers. We will work closely with City staff and council to ensure that the rate plan alternatives reflect the preferences of the ratepayers of the City.

Our workplan includes the following specific assistance:

- 1) A detailed analysis and comparison of the City's current and proposed rates to the state average as well as other surrounding communities.
- 2) Using current budget, volume and CIP data, the project team will prepare a comprehensive ten-year water and wastewater cost of service forecast model. The model will identify current and forecast operating expenses, capital outlays and debt service for the period 2018 – 2027. The model will functionalize costs between water treatment, distribution, administration and customer billing, and wastewater treatment, collection, administration and customer billing. The model will contain an interactive dashboard for ease of use in evaluating alternative rate and funding scenarios. The model will adhere to AWWA ratemaking standards to ensure that the cost of service is just, reasonable and accurate.
- 3) The project team will prepare a water and wastewater long-term rate plan for the City Council to consider. The rate plan will enable the City to recover sufficient revenues to fund operating and capital costs. The project team will prepare additional alternatives and scenarios should the staff or council so desire in order to choose which is the most just and reasonable.
- 4) The project team will present its analysis in the form of a PowerPoint presentation that will provide background analysis, along with relevant documentation supporting the calculations and rate alternatives. The project team will prepare a detailed written report that will document all findings and conclusions.
- 5) We will conduct the following meetings: an initial meeting with City staff to review data and objectives for the analysis, a meeting with staff to go over preliminary findings and recommendations, a workshop with the City Council to review our findings and results, and a final meeting at which the chosen rate plan is adopted. Any meetings beyond these four identified meetings will be on a time and expense basis.

Attached is a request for the information we will require to complete the initial analysis.

Table 1 presents a summary of hours and estimated professional fees by team member for each task associated with this project. As the table reveals, we project that approximately 256 hours of effort will be required for this engagement. Further, we are proposing to complete this engagement for professional fees and expenses not to exceed \$37,000. This total represents a discount of approximately 15.0% and is less than or equal to our fees for the similar studies we prepared for Rowlett, Prosper, Coppell, Frisco, McKinney, Little Elm, Plano and other similar cities.

SECTION 4
CUMULATIVE REPEALER CLAUSE

This Ordinance shall be cumulative of all other Ordinances and shall not repeal any of the provisions of such Ordinances except for those instances where there are direct conflicts with the provisions of this Ordinance. Ordinances, or parts thereof, in force at the time this Ordinance shall take effect and that are inconsistent with this Ordinance are hereby repealed to the extent that they are inconsistent with this Ordinance. Provided however, that any complaint, action, claim or lawsuit which has been initiated or has arisen under or pursuant to such other Ordinances on this date of adoption of this Ordinance shall continue to be governed by the provisions of such Ordinance and for that purpose the Ordinance shall remain in full force and effect.

SECTION 5
SAVINGS CLAUSE

All rights and remedies of the City of Celina, Texas are expressly saved as to any and all violations of the provisions of any other ordinance affecting fees which have secured at the time of the effective date of this ordinance; and, as to such accrued violations and all pending litigation, both civil and criminal, whether pending in court or not, under such ordinances same shall not be affected by this Ordinance but may be prosecuted until final disposition by the court.

SECTION 6
SEVERABILITY

The provisions of the Ordinance are severable. However, in the event this Ordinance or any procedure provided in this Ordinance becomes unlawful, or is declared or determined by a judicial, administrative or legislative authority exercising its jurisdiction to be excessive, unenforceable, void, illegal or otherwise inapplicable, in whole or in part, the remaining and lawful provisions shall be of full force and effect and the City shall promptly promulgate new revised provisions in compliance with the authority's decisions or enactment.

SECTION 7
PENALTY

Any person, firm or corporation violating any of the provisions or terms of this ordinance or of the Code of Ordinances as amended hereby, shall be subject to the same penalty as provided for in the Code of Ordinances of the City of Celina, and upon conviction shall be punished by a fine not to exceed Two Thousand Dollars (\$2,000) for each offense, and a separate offense shall be deemed committed upon each day during or on which a violation occurs and continues.

If the governing body of the City of Celina determines that a violation of this Ordinance has occurred, the City of Celina may bring suit in district court to enjoin the person, firm, partnership, corporation, or association from engaging in the prohibited activity.

SECTION 8
PUBLICATION CLAUSE

23481

The City Secretary of the City of Celina is hereby directed to publish in the Official Newspaper of the City of Celina the Caption, and Effective Date Clause of this Ordinance as required by Section 52.013 of the Local Government Code.

**SECTION 9 ENGROSSMENT AND
ENROLLMENT**

The City Secretary is hereby directed to engross and enroll this Ordinance by copying the descriptive Caption in the minutes of the City Council and by filing this Ordinance in the Ordinance records of the City.

**SECTION 10
EFFECTIVE DATE**

This Ordinance shall become effective from and after its date of passage in accordance with law.

AND IT IS SO ORDAINED.

PASSED AND APPROVED by the City Council of the City of Celina, Texas this 12th day of December, 2017.

Water and Wastewater Rates

During Fiscal Year 2018, the Celina City Council approved a water and sewer rate change based on a water and sewer rate study. The last rate change was done 5 years ago in 2012. The rates will go into effect on January 19, 2018, for the January 19-February 18 billing cycle that will be due on March 10, 2018. This rate change will ensure the viability of proprietary fund.
