METERING SERVICE FEES §

PUBLIC UTILITY COMMISSION
OF TEXAS

**COMPLIANCE REPORT OF ENTERGY TEXAS, INC. PURSUANT TO THE
COMMISSION’S ORDER ISSUED IN DOCKET NO. 47416**

TO THE HONORABLE PUBLIC UTILITY COMMISSION OF TEXAS:

Entergy Texas, Inc. (“ETI”) files this compliance report as required by the Public Utility Commission of Texas (“Commission”) in Docket No. 47416 and respectfully shows the following:

I. DESIGNATED REPRESENTATIVES

For purposes of this filing, ETI’s designated representatives are:

solson@dwmrlaw.com

II. BACKGROUND AND REASON FOR FILING

On July 18, 2017, ETI filed a request for approval of its Advanced Metering Service (“AMS”) deployment plan and request for AMS surcharge. In its Deployment Plan (Attachment A to ETI’s Application), ETI stated that it would begin filing monthly status reports in compliance with the requirements of 16 T.A.C. 25.130(d)(9) (the Advanced Metering Rule) in February 2019.¹ The Commission approved ETI’s Deployment Plan in its Final Order dated December 14, 2017, consistent with a settlement agreement filed on October 17, 2017.² This compliance report covers the period ending January 31, 2019 and complies with the requirements of the Advanced Metering Rule.³

III. REPORT

- (1) Number of advanced meters installed with geographic identification.

Through the end of the reporting period, no advanced meters had been installed. The advanced meters are scheduled to begin installation in March 2019. Please see below an updated Deployment Schedule, and an estimated Deployment Schedule by geographic region is attached.

ETI AMS Estimated Deployment Schedule		
2019	2020	2021
181,000	249,000	42,000

- (2) A description of significant delays or deviation from the Deployment Plan and reasons for delay or deviation.

There have been no significant delays or deviations from the Deployment Plan.

¹ Deployment Plan, page 6.

² *Application of Entergy Texas, Inc. for Approval of Advanced Metering System (AMS) Deployment Plan, AMS Surcharge, and Nonstandard Metering Service Fee*, Docket No. 47416 (Dec. 14, 2017).

³ ETI received a waiver from compliance with certain requirements in 16 TAC § 25.130 that involve retail electric providers (REPs) and are only applicable in a deregulated retail electric market in which REPs provide retail electric service to customers and/or are specific to the Electric Reliability Council of Texas (ERCOT) markets and its protocols. (See Docket No. 47416 Final Order at Finding of Fact 28; Ordering Paragraph 4.) For example, 16 TAC §25.130(d)(9)(A) requires providing a report of the number of meters installed, listed by ESI ID. ETI’s service area does not utilize ESI IDs, as that is a feature unique to ERCOT.

- (3) A description of significant problems experienced with the AMS, with an explanation of how the problems are being addressed.

There have been no significant problems experienced with the AMS.

- (4) Number of advanced meters that have been replaced as a result of problems with the AMS, if any.

None.

- (5) Status of deployment of features identified in the AMS deployment plan and any changes in deployment of these features.

The Company plans to implement Green Button Connect My Data with the Customer Engagement Portal Release 2.

Dated: February 15, 2019

Respectfully submitted,

George Hoyt
