**Independent Auditor's Report on Internal Control Over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements Performed
in Accordance With *Government Auditing Standards***

Board of Directors
Greater Texoma Utility Authority
5100 Airport Drive
Denison, Texas 75020

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the business-type activities of Greater Texoma Utility Authority (the "Authority") as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements, and have issued our report thereon dated January 8, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Greater Texoma Utility Authority
Page 2

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in black ink that reads "Haskins, Eastup, Denton, Tom & Son".

Independent Auditor's Report on Compliance for Each Major Program and on Internal Control Over Compliance Required By the Uniform Guidance

Board of Directors
Greater Texoma Utility Authority
5100 Airport Drive
Denison, Texas 75020

Report on Compliance for Each Major Federal Program

We have audited Greater Texoma Utility Authority's (the "Authority's") compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Authority's major federal programs for the year ended September 30, 2017. The Authority's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Authority's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Authority's compliance.

Opinion on Each Major Fund Program

In our opinion, the Authority complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2017.

Greater Texoma Utility Authority
Page 2

Report on Internal Control over Compliance

Management of the Authority is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Authority's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weakness or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

**GREATER TEXOMA UTILITY AUTHORITY
Notes to Schedule of Expenditures of Federal Awards
For the Year Ended September 30, 2017**

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of Greater Texoma Utility Authority (the "Authority") under programs of the federal government for the year ended September 30, 2017. The information in this schedule is presented in accordance with the requirements of *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the Authority, it is not intended to and does not present the financial position, changes in net position or cash flows of the Authority.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available. Expenditures do not include the use of an indirect cost rate.

NORTH TEXAS MUNICIPAL WATER DISTRICT

**LAVON WATER SUPPLY CORPORATION
POTABLE WATER SUPPLY CONTRACT**

THE STATE OF TEXAS §
 §
THE COUNTY OF COLLIN §

THIS CONTRACT (the "Contract") made and entered into as of this the 15th day of December, 2005, by and between the North Texas Municipal Water District, hereinafter called "NTMWD", a conservation and reclamation district created under Article 16, Section 59, of the Texas Constitution, and the Lavon Water Supply Corporation, hereinafter called "Customer".

W I T N E S S E T H:

WHEREAS, NTMWD and Customer are authorized to enter into this Contract pursuant to NTMWD's Enabling Legislation, Chapter 791 of the Texas Government Code, (the "Interlocal Cooperation Act") and other applicable laws; and,

WHEREAS, Customer is desirous of obtaining an adequate and dependable water supply; and

WHEREAS, Customer and NTMWD are parties to a potable water supply contract dated March 25, 2004 under which NTMWD agreed to tender and make available to Customer and Customer agreed to purchase from NTMWD water in accordance with the provisions of said contract; and

WHEREAS, NTMWD currently delivers potable water to Customer at a point of delivery located on NTMWD's twelve inch (12") Rockwall to Royse City Pipeline and a point of delivery located on NTMWD's twenty inch (20") Wylie to Rockwall Pipeline; and

WHEREAS, NTMWD and Customer desire to relocate potable water delivery from NTMWD's twenty inch (20") Wylie to Rockwall Pipeline to NTMWD's thirty-six inch (36") Wylie-Rockwall-Farmersville Pipeline; and

WHEREAS, it is deemed necessary and advisable by the parties hereto that the existing potable water supply contract date March 25, 2004 be amended and completely replaced with this Contract so that the entire relationship between NTMWD and Customer with respect to potable water service will be set forth in this Contract.

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein contained, NTMWD agrees to furnish water, and Customer agrees to pay for water upon the terms and conditions and for the consideration hereinafter set forth, to wit:

Section 1. DEFINITION OF TERMS. The following terms and expressions as used in this Contract, unless the context clearly shows otherwise, shall have the following meanings:

- (a) "Annual Payment" means the amount of money to be paid to NTMWD by Customer during each Annual Payment period.
- (b) "Annual Payment Period" means NTMWD's fiscal year, which currently begins on October 1 of each calendar year and ends on September 30 of the next following calendar year, but which may be any twelve (12) consecutive month period fixed by NTMWD.
- (c) "Contract Date" means the effective date of this Contract as executed by both parties.
- (d) "Customer" means Lavon Water Supply Corporation, the contracting party.
- (e) "Customer City or Cities" means any customer other than the Member Cities with which NTMWD contracts with to furnish water.
- (f) "NTMWD" means the North Texas Municipal Water District as defined in the preamble to this Contract.
- (g) "Member City or Cities" means the Cities of Allen, Farmersville, Forney, Frisco, Garland, McKinney, Mesquite, Plano, Princeton, Richardson, Rockwall, Royse City and Wylie.
- (h) "MGD" is an abbreviation for "million gallons of water per day" and means a quantity of water during a period of time expressed for convenience in terms of an average annual daily quantity during an Annual Payment Period.
- (i) "Regional Contract" means the "North Texas Municipal Water District Regional Water Supply Facilities Amendatory Contract" dated August 1, 1988 together with all similar contracts between NTMWD and contracting parties.
- (j) "System" means collectively the existing system and the future improvements and water of NTMWD included as part of the System under the Regional Contract for projects, water storage, treatment, transmission and supply, including all dams, reservoirs, and other properties or interests therein wherever located. Said terms do not include any of NTMWD's facilities that provide wastewater treatment or disposal services, or solid waste disposal services, of any kind. Said terms do not include any facilities acquired or constructed by NTMWD with the proceeds from the issuance of "Special Facilities Bonds", which are payable from any source, contract, or revenues whatsoever, other than revenues from the System.
- (k) "Water Year" means the period of August 1 of each calendar year through July 31 of the next following calendar year or such other twelve (12) month period designated by NTMWD to all Member Cities and customers.

Section 2. QUANTITY. NTMWD agrees to sell and to deliver potable water under this Contract to Customer at its Point of Delivery as described in Section 5 hereof, and Customer agrees to take at its Point of Delivery all water required for use by Customer during the term of this Contract, including all potable water for Customer's own use and for distribution to all customers served by Customer's water distribution system, or within Customer's existing Texas Commission on Environmental Quality ("TCEQ") certified service area. It is specifically

provided, however, that after the Contract Date, unless required to do otherwise by the TCEQ or a court of competent jurisdiction, Customer shall not enter into, renew, or amend with regard to volume of water to be supplied, any agreement to provide wholesale or retail potable water for use outside its boundaries, its extraterritorial jurisdiction, or its certified service area unless each such agreement is approved by NTMWD (which approval shall not be unreasonably withheld unless the projected additional volume affects NTMWD's ability to provide service to others or conflicts with law or NTMWD policy). Customer shall not become a party to any contract for the sale of potable water, which would violate or be inconsistent with the provisions of this Contract. NTMWD will use its best efforts to furnish and remain in a position to furnish potable water sufficient for all reasonable potable water requirements of Customer, but its obligation shall be limited to the amount of potable water available to it from the System during routine operation.

The maximum volume allowed shall be that volume capable of being supplied by the routine operation of NTMWD's System utilizing the meter and meter sizes as described in Section 5, POINT(S) OF DELIVERY, at the defined Point of Delivery.

Section 3. OTHER CONTRACTS. NTMWD reserves the right to supply potable water from the System to additional parties as determined by the Board of Directors of NTMWD.

Section 4. QUALITY. The water to be delivered by NTMWD and received by Customer shall be potable water. Customer has satisfied itself that such water will be suitable for its needs, but NTMWD is obligated to treat such water so as to meet the standards of all State and Federal agencies having jurisdiction over water quality. NTMWD and Customer shall cooperate, each within its legal powers, in preventing, to the extent practicable, the pollution and contamination of the reservoirs and watersheds from which water is obtained.

Section 5. POINT(S) OF DELIVERY. The Point of Delivery for Customer shall be as follows:

1. A three inch (3") meter and three inch (3") tap located at pipeline station 325+20 on the Rockwall to Royse City twelve inch (12") Pipeline.
2. A six inch (6") meter and eight inch (8") tap located at pipeline station 274+00 on the Wylie-Rockwall-Farmersville thirty-six inch (36") Pipeline.

Customer shall construct, maintain, and operate, at its own cost and expense, all facilities and equipment necessary to receive and take all potable water delivered to it under this Contract. All facilities and equipment must be inspected and approved by NTMWD and any construction from NTMWD's pipeline through the air gap connection must meet NTMWD standard specifications. No change in the type or size of meters, or size of the tap, shall be allowed unless this Contract has been amended as set forth in Section 10, MODIFICATION.

Section 6. MEASURING EQUIPMENT. Customer shall furnish, and install at its own expense at the Point of Delivery the necessary rate of flow equipment of a standard type approved by NTMWD for measuring properly the quantity of potable water delivered under this Contract and such meter and other equipment so installed shall become the property of NTMWD. Customer shall have access to such metering equipment at all reasonable times, but the reading, calibration, and adjustment thereof shall be done only by the employees or agents of NTMWD. For the purpose of this Contract, the original record or reading of the meter shall be the journal or other record book maintained by NTMWD in its office in which the records of the employees or agents of NTMWD who take the reading may be transcribed. Upon written request of Customer,

NTMWD will provide a copy of such journal or record book, or permit it to have access to the same in the office of NTMWD during reasonable business hours.

Not more than once in any six (6) month time period, NTMWD shall test its meter if requested in writing by Customer to do so, in the presence of a representative of Customer, and the parties shall jointly observe any adjustments which are made to the meter in case any adjustments shall be necessary, and if the check meter hereinafter provided for has been installed, the same shall also be calibrated by Customer in the presence of a representative of NTMWD and the parties shall jointly observe any adjustment if necessary. If Customer shall in writing request NTMWD to calibrate its meter, then NTMWD shall give Customer notice of the time when any such calibration is to be made and if a representative of Customer is not present at the time set, NTMWD may proceed with calibration and adjustment in the absence of any representative of Customer.

If either party at any time observes a variation between the delivery meter and the check meter or meters, if any such check meter or meters shall be installed, such party will promptly notify the other party, and the parties hereto shall then cooperate to procure an immediate calibration test and joint observation of any adjustment and the same meter or meters shall then be adjusted to accuracy. Each party shall give the other party forty-eight (48) hours notice of the time of all tests of meters so that the other party may conveniently have a representative present.

If upon any test, the percentage of inaccuracy of any metering equipment is found to be in excess of two percent (2%), registration thereof shall be corrected for a period extending back to the time when such inaccuracy began, if such time is ascertainable, and if such time is not ascertainable, then for a period extending back one-half (1/2) of the time elapsed since the last date of calibration, but in no event further back than a period of six (6) months. If for any reason any meters are out of repair so that the amount of water delivered cannot be ascertained or computed from the reading thereof, the water delivered through the period such meters are out of service or out of repair shall be estimated and agreed upon by the parties hereto upon the basis of the best data available. For such purpose, the best data available shall be deemed to be the registration of any check meter or meters if the same have been installed and are accurately registering. Otherwise, the amount of water delivered during such period may be estimated (i) by correcting the error if the percentage of the error is ascertainable by calibration tests or mathematical calculation, or (ii) estimating the quantity of delivery by deliveries during the preceding periods under similar conditions when the meter or meters were registering accurately.

Customer may, at its option and its own expense, install and operate a check meter to check each meter installed by NTMWD, the measurement of water for the purpose of this Contract shall be solely by NTMWD's meters, except in the cases hereinabove specifically provided to the contrary. All such check meters shall be of standard make and shall be subject at all reasonable times to inspection and examination by any employee or agent of NTMWD, but the reading, calibration and adjustment thereof shall be made only by Customer except during any period when a check meter may be used under the provisions hereof for measuring the amount of water delivered, in which case the reading, calibration, and adjustment thereof shall be made by NTMWD with like effect as if such check meter or meters had been furnished or installed by NTMWD.

Section 7. UNIT OF MEASUREMENT. The unit of measurement for potable water delivered under this Contract shall be 1,000 gallons of water, U.S. Standard Liquid Measure.

Section 8. PRICE AND TERMS. The service to be performed under this Contract by NTMWD consists of the readiness of NTMWD to deliver to Customer upon its demand, water in accordance with the conditions, limitations and provisions of this Contract.

In return for such service Customer agrees to compensate NTMWD by payment of certain minimum annual sums of money, for each of which said sums NTMWD agrees, if required by Customer, to deliver all, or so much thereof as Customer may desire, of a certain corresponding volume of water as follows:

(a) For the First Annual Payment Period beginning October 1, 2005, Customer will take or pay for 148,610,000 gallons of water (407,151 gallons per day) at a rate of five cents (5¢) per 1,000 gallons above the rate established for Member Cities. Any water delivered in excess of the amount allowed for the annual minimum will be purchased at a rate of five cents (5¢) per 1,000 gallons above the amount charged to Member Cities for excess water, however the excess water provision shall not apply until Customer has established an annual minimum of 148,610,000 gallons. The maximum rate of delivery shall not exceed 2.5 times the daily average of water supplied to Customer hereunder, which is consistent with the capabilities and abilities of NTMWD facilities, and it is understood that NTMWD may from time to time adjust the maximum rate of delivery on an equitable and uniform basis to all Customer Cities. If potable water must be rationed, such rationing shall, within the limits permitted by law, be accomplished by NTMWD on an equal basis of the relative actual total amount of all potable water taken by each respective Customer City, respectively, during the last preceding Annual Payment Period in which rationing among said customers was not necessary. The minimum amount of water Customer will be required to purchase at the above rate, or such other rate, as may be from time to time determined by NTMWD, shall be calculated annually for each ensuing year and such amount shall be determined in the same manner as said amount is determined for the Member Cities. The annual minimum to be purchased during any ensuing year shall not be less than the highest total amount withdrawn by Customer during any previous year or 148,610,000 gallons, whichever is greater.

(b) The quantities and rates set forth in Section 2 and Section 8 hereof shall be reviewed at the end of the first full Annual Payment Period of service after the first delivery of water to Customer, and each year thereafter, and the minimum amount of water to be purchased, rate per 1,000 gallons and the maximum rate of delivery shall be re-determined by the Board of Directors of NTMWD at that time in the same manner as applied to NTMWD Member Cities.

(c) Payment of the minimum annual service charge listed above shall be made each year by Customer to NTMWD in twelve (12) equal monthly installments, each of which shall be due and payable on or before the 10th day of the month following the service.

(d) It is further agreed that, in addition to the amounts required to be paid by Customer herein, if during any Water Year Customer uses System treated water in excess of the minimum amount applicable to it for the Annual Payment Period which commenced during such Water Year, then Customer shall pay an "Excess Water Charge" equal to that part of the operation and maintenance expenses (e.g. electric power, chemicals, and other similar cost) directly attributable to supplying such excess treated water to Customer, all as determined by NTMWD. Such Excess Water Charge shall be billed by NTMWD to Customer as soon as practicable after the end of such Water Year and shall be paid to NTMWD as soon as practicable thereafter, and in all events prior to the beginning of the next Annual Payment Period. Such Excess Water Charge shall be credited to and be used to pay part of the operation and maintenance expenses for the then current

Annual Payment Period and reduce to the extent of such credits the amounts which otherwise would be payable by Customer during such then current Annual Payment Period.

(e) Liability for making payments, as herein set forth, shall commence on October 1, 2005.

(f) In the event that Customer shall fail to make any such monthly payment or annual payment within the time herein in this section specified, interest on such amount shall accrue at the rate of ten percent (10%) per annum from the date such payment becomes due until paid in full with the interest as herein specified. In the event such payment is not made within thirty (30) days from the date such payment becomes due, NTMWD may at its option discontinue delivery of water to Customer until the amount due NTMWD is paid in full with interest as herein specified.

Section 9. TERM OF CONTRACT. This Contract shall continue in force and effect for a period of forty (40) years from the date of this Contract. This Contract shall be considered null and void if not executed by Customer by December 31, 2005.

Section 10. MODIFICATION. This Contract may be changed or modified only by written agreement of the parties and only after having obtained approval from the governing bodies of both NTMWD and Customer. No change or modification shall be made to this Contract which will affect adversely the prompt payment when due of all moneys required to be paid by Customer under the terms of this Contract.

Section 11. FORCE MAJEURE. If by reason of force majeure any party hereto shall be rendered unable wholly or in part to carry out its obligations under this Contract, other than the obligation of Customer to make the payments required under Section 8 of this Contract, then if such party shall give notice and full particulars of such force majeure in writing to the other party within a reasonable time after occurrence of the event or cause relied on, the obligation of the party giving such notice, so far as it is affected by such force majeure, shall be suspended during the continuance of the inability then claimed, but for no longer period, and any such party shall endeavor to remove or overcome such inability with all reasonable dispatch. The term "Force Majeure" as employed herein shall mean acts of God, strikes, lockouts, or other industrial disturbances, acts of public enemy, orders of any kind of the Government of the United States or the State of Texas, or any civil or military authority, insurrection, riots, epidemics, landslides, lightning, earthquake, fires, hurricanes, storms, floods, washouts, droughts, arrests, restraint of government and people, civil disturbances, explosions, breakage or accidents to machinery, pipelines or canals, partial or entire failure of water supply, or on account of any other causes not reasonably within the control of the party claiming such inability.

Section 12. INSURANCE. NTMWD agrees to carry and arrange for fire, casualty, public liability, and/or other insurance, including self insurance for purposes and in amounts which, as determined by NTMWD, ordinarily would be carried by a privately owned utility company owning and operating such facilities, except that NTMWD shall not be required to provide liability insurance except to insure itself against risk of loss due to claims for which it can, in the opinion of NTMWD's legal counsel, be liable under the Texas Tort Claims Act or any similar law or judicial decision. Such insurance will provide, to the extent feasible and practicable, for the restoration of damaged or destroyed properties and equipment, to minimize the interruption of the services of such facilities. All premiums for such insurance shall constitute just and reasonable operation and maintenance expense. The insurance coverage does not extend to any facility owned by Customer.

Section 13. REGULATORY BODIES AND LAWS. This Contract is subject to all applicable Federal and State Laws and any applicable permits, ordinances, rules, orders, and regulations of any local, state or federal governmental authority having or asserting jurisdiction, but nothing contained herein shall be construed as a waiver of any right to question or contest any such law, ordinance, order, rule, or regulation in any forum, having jurisdiction.

Section 14. NOTICES. Unless otherwise provided herein, any notice, communication, request, reply, or advice (herein severally and collectively, for convenience, called "Notice") herein provided or permitted to be given, made, or accepted by any party to any other party must be in writing and may be given or be served by depositing the same in the United States mail postpaid and registered or certified and addressed to the party to be notified, with return receipt requested, or by delivering the same to an officer of such party, or by prepaid telegram when appropriate, addressed to the party to be notified. Notice deposited in the mail in the manner hereinabove described shall be conclusively deemed to be effective, unless otherwise stated herein, from and after the expiration of three (3) days after it is so deposited. Notice given in any other manner shall be effective only if and when received by the party to be notified. For the purposes of notice, the addresses of the parties shall, until changed as hereinafter provided, be as follows:

If to NTMWD, to:

Executive Director
North Texas Municipal Water District
P.O. Box 2408
Wylie, Texas 75098

If to Customer, as follows:

President
Lavon Water Supply Corporation
P.O. Box 188
Lavon, Texas 75166

The parties hereto shall have the right from time to time and at any time to change their respective addresses and each shall have the right to specify as its address any other address by at least fifteen (15) days written notice to the other parties hereto.

Section 15. SEVERABILITY. The parties hereto specifically agree that in case any one or more of the sections, subsections, provisions, clauses, or words of this Contract or the application of such sections, subsections, provisions, clauses, or words to any situation or circumstance should be, or should be held to be, for any reason, invalid or unconstitutional, under the laws or constitutions of the State of Texas or the United States of America, or in contravention of any such laws or constitutions, such invalidity, unconstitutionality, or contravention shall not affect any other sections, subsections, provisions, clauses, or words of this Contract or the application of such sections, subsections, provisions, clauses, or words to any other situation or circumstance, and it is intended that this Contract shall be severable and shall be construed and applied as if any such invalid or unconstitutional section, subsection, provision, clause, or word had not been included herein, and the rights and obligations of the parties hereto shall be construed and remain in force accordingly.

Section 16. VENUE. All amounts due under this Contract including, but not limited to, payments due under this Contract or damages for the breach of this Contract, shall be paid and be due in Collin County, Texas, which is the County in which the principal administrative offices of NTMWD are located. It is specifically agreed among the parties to this Contract that Collin County, Texas, is a principal place of performance of this Contract.

Section 17. OTHER CONDITIONS AND PROVISIONS.

(a) Operation and Maintenance of System. NTMWD will continuously operate and maintain the System in an efficient manner and in accordance with good business and engineering practices, and at reasonable cost and expense.

(b) Title to Water: Indemnification. Title to all water supplied to Customer shall be in NTMWD up to the Point of Delivery, at which point title shall pass to Customer. NTMWD and Customer shall save and hold each other harmless from all claims, demands, and causes of action, which may be asserted by anyone on account of the transportation and delivery of said water while title remains in such party. As between the parties, Customer shall have the first right to use all effluent produced from its wastewater treatment plant for reuse solely for its own purposes. To the extent that effluent produced by Customer is discharged to water courses of the State, the right of Customer to reuse such effluent produced from its wastewater treatment is terminated, and NTMWD shall have the right as between the parties, and pursuant to any necessary authorization of the State, to appropriate and reuse such discharged effluent.

(c) Operating Expenses of Customer. Customer represents and covenants that all payments to be made by it under this Contract shall constitute reasonable and necessary "operating expenses" of its system, as defined in Section 1502.056, Texas Government Code, and that all such payments will be made from the revenues of its system. Customer represents and has determined that the potable water supply to be obtained from the System is absolutely necessary and essential to the present and future operation of its water system and is the only available and adequate source of supply of potable water. Accordingly, all payments required by this Contract to be made by Customer shall constitute reasonable and necessary operating expense of its respective system as described above, with the effect that the obligation to make such payments from revenues of such systems shall have priority over any obligation to make any payments from such revenues (whether of principal, interest, or otherwise) with respect to all bonds or other obligations heretofore or hereafter issued by Customer.

(d) Customer's Rate for Waterworks System. Customer agrees throughout the term of this Contract to continuously operate and maintain its waterworks system, and to fix and collect such rates and charges for water services to be supplied by its waterworks system as aforesaid as will produce revenues in an amount equal to at least (i) all of its payments under this Contract and (ii) all other amounts required to be paid from said revenues by the provisions of the ordinances or resolutions authorizing its revenue bonds or other obligations now or hereafter outstanding and to file appropriate financial reports related to the Customer's system including annual audits.

Section 18. WATER CONSERVATION. Customer agrees to adopt and enforce any and all ordinances generally related to water conservation as may be required by the rules of the TCEQ and/or as may be adopted or recommended by the Board of Directors of NTMWD.

Section 19. SPECIAL CONDITIONS.

(a) The meter size, location and any quantity set forth in this contract are intended to meet the water needs of Customer. The needs of Customer are independently determined by Customer, and NTMWD has conducted no independent evaluation of the Customer's water system.

(b) Customer is utilizing this Contract to obtain funds from the United States Department of Agriculture Rural Development, Rural Utilities Service. NTMWD agrees that Customer may assign this Contract to the United States Department of Agriculture Rural Development, Rural Utilities Services.

(c) Customer agrees to use its best efforts to complete construction of metering facilities and control equipment necessary to utilize Point of Delivery No. 2, as set forth in Section 5, by June 30, 2007. Notwithstanding anything herein to the contrary, the parties understand that Point of Delivery No. 2 as established in the March 25, 2004 water supply contract shall remain in service until such time as Customer completes construction of the improvements described herein.

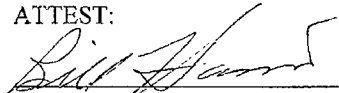

IN WITNESS WHEREOF, the parties hereto acting under authority of their respective governing bodies have caused this Contract to be duly executed in several counterparts, each of which shall constitute an original, all as of the day and year first above written, which is the date of this Contract

Project Description

Description of Project Need (for example, is the project needed to address a current compliance issue, avoid potential compliance issues, extend service, expand capacity, etc.): Project is necessary in order to provide a separate pump station and 2.0 million gallon ground storage tank for Pressure Zone 2. Pumps for Pressure Zone 1 and Pressure Zone 2 are currently located on top of an existing 500,000 gallon concrete ground storage tank. The pump stations at this delivery point account for 60% of the customers and is the only delivery site source for Pressure Zones 1 and 2. The lack of redundancy for delivery to the ground storage tank is unacceptable. The pump station at delivery point #1 would not have the capacity to support the system in the event of an outage at delivery point #1. In addition, the pump station needs to be moved off the top of the ground storage tank. The location of the pumps on top of the ground storage tank have proven to create maintenance issues and safety hazards. Proposed project will move pump station off of the top of the ground storage tank to an area at ground level, which will facilitate maintenance responsibilities associated with the pump station and limit the safety concerns associated with working on top of a ground storage tank. By the time the proposed pump station is constructed in 2020, the system will have approximately seven (7) hours of ground storage capacity available during a maximum day event for delivery point #2. This is unacceptable as it only achieves 58% of the engineer's recommendation for ground storage capacity. The proposed 2.0 million gallon ground storage tank will include yard piping and valving to allow for emergency interconnection between Pressure Zones #1 and #2. This capability will provide adequate ground storage capacity for emergency events at delivery point #2 when constructed in 2020. Proposed upgrades to delivery point #2 include 5,800 LF of 12-inch and 2,000 LF of 16-inch off-site water lines to serve Pressure Zone #1. The 16-inch water line will discharge from delivery point #2 north to SH 78. The proposed 12-inch water line will extend from Grand Heritage Boulevard to Bentley Drive. The proposed upgrades are necessary to provide both adequate facilities and improved water distribution.

Provide a detailed description of the proposed project. The description should include a discussion of the current service area, existing system facilities; and an adequate description of all proposed project elements (include a bulleted list of new project elements/components): The proposed project includes construction of a new pump station. Current pump station is located on top of the ground storage tank, and needs to be moved, due to maintenance issues created by this circumstance. In addition, the project includes construction of a 2.0 million gallon ground storage tank, yard piping, valving and associated water lines, to allow for emergency interconnection between Pressure Zones 1 and 2, allowing for storage capacity for emergency events at delivery point #2, and operational flexibility so capacity improvements are met. Project also includes water lines to serve Pressure Zone 1.

PROJECTED DRAW SCHEDULE FOR

Template must be downloaded and saved
prior to printing.

Entity Name: **GTUA/Bear Creek SUD**Project No.: **12892**Date Prepared: **7/25/2018**

Please complete all areas shaded
in blue.

Gray shaded areas will compute
automatically.

By my signature, I acknowledge I have reviewed the project draw schedule incorporated herein and to the best of my knowledge it is an accurate reflection of the anticipated project financial needs at this time.
