14. (a) Provide a detailed description of the Applicant's technical qualifications to provide the local exchange service, basic local telecommunications service, and/or switched access service proposed in this Application.

Gtek Computers, LLC has established and operated an interconnected VoIP and broadband Internet access service in South Texas since 2003 and provides that service to more than*BEGIN CONFIDENTIAL***
[REDACTED] ***END CONFIDENTIAL*** Residential, Commercial, and Multi-Dwelling customers using fixed wireless technologies. The Gtek network consists of more than 500 access points and more than 100 backhaul radios between towers. Gtek is the largest VoIP and broadband**

Internet access service provider in the Corpus Christi-Victoria, Texas area.

(b) If the Applicant plans to rely upon a consultant to meet the technical qualifications requirements, provide the following information:

(1) name, address, and phone number of consultant

**The FiberSmith Company
10283 685th St.
Blooming Prairie, MN 55917
(507) 261-1854**

(2) a copy of the contract between the principals and the consultant

See attached Exhibit 1, Contract between Gtek Computers, LLC d/b/a Gtek Communications and The FiberSmith Company [filed under seal].

(3) consultant's resume or a detailed description of the consultant's experience

The FiberSmith Company ("FiberSmith") currently has 17 full time employees as well as an additional 12 contracted positions. FiberSmith also has affiliations with additional companies, most notably Joseph D. Fail Engineering, that provides access to an additional 30 employees. The team members hold a wide variety of skills and expertise. This is an aggregate summary of how long these companies and their personnel have been performing various industry and consulting services:

- **Over 40 years of consulting to the ILEC industry**
- **Over 20 years of consulting to the ISP and CLEC industries**
- **19 years of experience programming telephone switches**
- **18 years of experience programming fiber termination and access equipment**
- **40 years of outside plant design**
- **40 years of inside plant design**
- **25 years of programming and provisioning Internet protocol networks and hardware**

- **18 years of Interconnection and regulatory affairs**

(4) information regarding any professional registrations or certifications that the consultant holds

FiberSmith's Professional Employees hold certifications in ten states, including Texas. These certifications include various Cisco, Calix, Adtran, Fiber Design, and Microsoft Certifications.

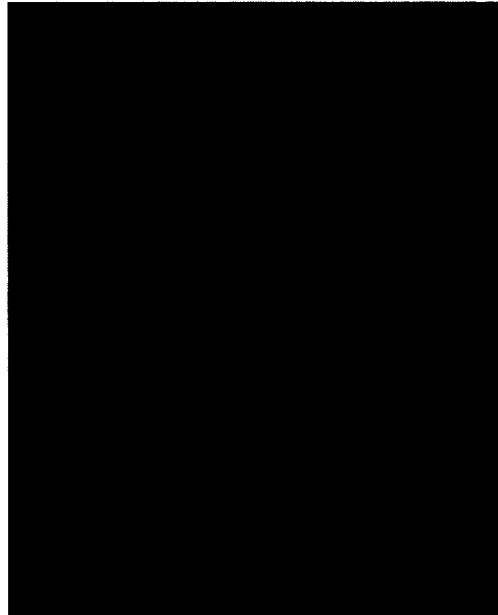

(5) percentage of the consultant's time being contracted

The Engineering Service Contract does not call for a specific amount of dedicated time but rather calls for services as needed. With over 60 people to draw upon, the appropriate person will be available for the particular service required. As a consultant, the FiberSmith Company expects that the need for its services will vary based on Gtek Communications' needs at a particular time. It is estimated that Gtek Communications may need 150-500 hours the first year, which is less than 1% of the consulting firm's time.

(6) a list of other telecommunications companies served by the consultant and the percentage of time allotted to each company.

Below is a list of the companies that currently take 1% or more of FiberSmith's time and the estimated percentage of time allotted to each company [see Exhibit 6 filed under seal]:
