Re: *Application of CenterPoint Energy Houston Electric, LLC to Adjust its Energy Efficiency Cost Recovery Factor*, PUC Docket No. 49583; SOAH Docket No. 473-19-5243

Dear Chairman Walker, Commissioner D'Andrea and Commissioner Botkin:

This letter is in response to Chairman Walker's memorandum in the above-referenced proceeding dated October 9, 2019. Chairman Walker seeks information indicating the number of megawatts the demand reduction goal should be adjusted under 16 TAC § 25.181(u), and where this value may be found in the evidence in this docket. If the number of megawatts of lost load is not in the evidentiary record in the docket, Chairman Walker requests that CenterPoint Energy Houston Electric, LLC ("CenterPoint Houston" or the "Company") file information in admissible form stating the number of megawatts of lost load under 16 TAC § 25.181(u).

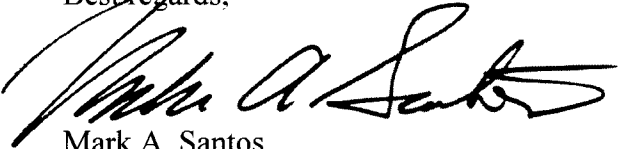

Following a review of the Company's schedules, CenterPoint Houston agrees that its workpaper supporting the megawatts of lost load under 16 TAC § 25.181(u) was not included with its EECRF filing package. The Company apologizes for this inconvenience and will take steps to ensure that the workpaper is included in future EECRF filing packages.

In accordance with Chairman Walker's instructions, the Company's workpaper demonstrating lost load associated with industrial customer distribution level opt-outs for the past five years, including the 129.8 MW referenced in Finding of Fact 64, is attached hereto and has been marked as CEHE Exhibit 5. An electronic copy of the workpaper will also be filed on the PUC Interchange.

CenterPoint Houston respectfully requests that CEHE Exhibit 5 be admitted into the evidentiary record in support of the settlement agreement and final order. CenterPoint Houston will have representative present at the Open Meeting to offer the information into evidence and answer any questions, if necessary.

Please do not hesitate to contact our office should you have any questions or concerns.

Best regards,

Mark A. Santos
