Re: Project No. 49621 - *Application of Hale Wind for a Renewable Energy Credit Generator Registration*

NOTICE OF APPROVAL

On June 11, 2019, Hale Wind filed an application to certify its facility as a renewable energy credit (REC) generator utilizing wind generating technology. Hale Wind is a power generation company and holds registration number 30153. The facility's total rated nameplate capacity is 478 megawatts (MW) and the metered generation eligible for RECs is 478 MW. On July 10, 2019, Commission Staff filed a recommendation on the application.

The application of Hale Wind includes the information required under 16 Texas Administrative Code (TAC) § 25.173(o). The facility is not ineligible for producing RECs under 16 TAC § 25.173(f). The facility satisfies the requirements under 16 TAC § 25.173(e)(1) and (4) as a new facility, capable of being metered and verified, and not powered by fossil fuel. Accordingly, the Commission certifies the facility as a REC generator.

Any subsequent changes to the information provided in this application must be filed with the Commission as supplements to the application within 30 days of such changes.

Signed at Austin, Texas the 11th day of July 2019.
