PUBLIC UTILITY COMMISSION
OF TEXAS

**APPLICATION OF G.S.E. ONE LLC §
FOR AN AMENDMENT TO §
ITS RENEWABLE ENERGY CREDIT §
GENERATOR CERTIFICATION §**

**PUBLIC UTILITY COMMISSION
OF TEXAS**

COMMISSION STAFF'S RECOMMENDATION

COMES NOW the Commission Staff of the Public Utility Commission of Texas (Staff), representing the public interest, and files this recommendation. Staff recommends that the Application be approved. In support thereof, Staff shows the following:

I. BACKGROUND

On June 18, 2019, G.S.E. One LLC (G.S.E. One) filed an application to amend its Renewable Energy Credit (REC) generator certification, pursuant to 16 Texas Administrative Code (TAC) § 25.173(o).

II. STAFF RECOMMENDATION

Staff has reviewed the application and, as supported by the attached memorandum of Grace Godines of the Competitive Markets Division, Staff has concluded that all of the information required under 16 TAC § 25.173(o) has been provided. Therefore, Staff recommends that the G.S.E. One's application be approved.

III. CONCLUSION

Staff respectfully recommends that G.S.E. One's application to amend its REC generator certification be granted.

Dated: July 10, 2019

Respectfully submitted,

Memorandum

TO: Justine Tan - Legal Division
FROM: Grace Godines - Competitive Markets Division
DATE: July 9, 2019
RE: Project No. 49640 - *Application of G.S.E. One LLC for an Amendment to Renewable Energy Credit Generator Certification*

STAFF RECOMMENDATION

On June 18, 2019, G.S.E. One LLC (G.S.E. One or the Company) filed an application to amend its renewable energy credit generator under 16 Texas Administrative Code (TAC) § 25.173(o). G.S.E. One stated that an amendment is necessary to update a change in facility/output capacity change from 82.3 MW to 82.5 MW. G.S.E. One is registered with the Commission as a power generation company and its registration number is 20496.

After reviewing G.S.E. One's application, Staff finds that the Company has provided all of the information required pursuant to 16 Texas Administrative Code (TAC) § 25.173(o). Therefore, Staff recommends that the G.S.E. One facility application for an amendment to its REC generator certification be granted. The Commission records should be revised to reflect the updated change in facility/output capacity change from 82.3 MW to 82.5 MW.

Any subsequent changes to the information in the application are to be submitted to the Commission as supplements to this filing within 30 days of such changes.
