Re: Project No. 49681 - *Application of Post Wind, LLC to Amend its Renewable Energy Credit Generator Certification*

NOTICE OF APPROVAL

On June 26, 2019, Post Wind, LLC filed an application to amend its certification as a renewable energy credit (REC) generator under 16 Texas Administrative Code (TAC) § 25.173(o). On July 3, 2019, Post Wind filed an amended page six to the originally filed application. Post Wind seeks to amend its REC generator certification to reflect a change in the metered generation to 89.6 megawatts (MW). The metered generation eligible for RECs is 89.6 MW.

On July 16, 2019, Commission Staff recommended approval of the application stating that Post Wind has provided all of the information required under 16 TAC § 25.173(o).

The Commission approves the application. The Commission will revise its records to update the contact information and list of generating units.

Signed at Austin, Texas the 17th day of July 2019.
