**ORDER NO. 3  
REQUIRING ADDITIONAL INFORMATION AND SUPPLEMENTAL  
RECOMMENDATION**

This Order addresses the application of Titan Gas, LLC for a retail electric provider certificate (REP). After further review of the present docket, the administrative law judge (ALJ) finds that the application does not designate the requested service area for which Titan Gas wishes to be certificated. If Titan Gas wishes to be certificated in the geographic area of the Electric Reliability Council of Texas (ERCOT) system, as contemplated by Commission Staff, the third box of question B-1(a) must be selected and ERCOT specifically identified.

Additionally, Commission Staff's final recommendation does not provide an assessment regarding complaint history under 16 Texas Administrative Code (TAC) § 25.107(g)(2). Without this assessment, the ALJ cannot consider Titan Gas' application for approval.

By November 1, 2019, the ALJ requests the following: (a) Titan Gas must supplement its application to accurately answer question B-1, regarding requested service area, as contained in the Commission's application form for REP certification; and (b) Commission staff must file a supplemental final recommendation that provides an assessment of complaint history under 16 TAC § 25.107(g)(2). Once these items are received, the ALJ will continue processing the present docket.
