Docket NO. 50038

RECEIVED

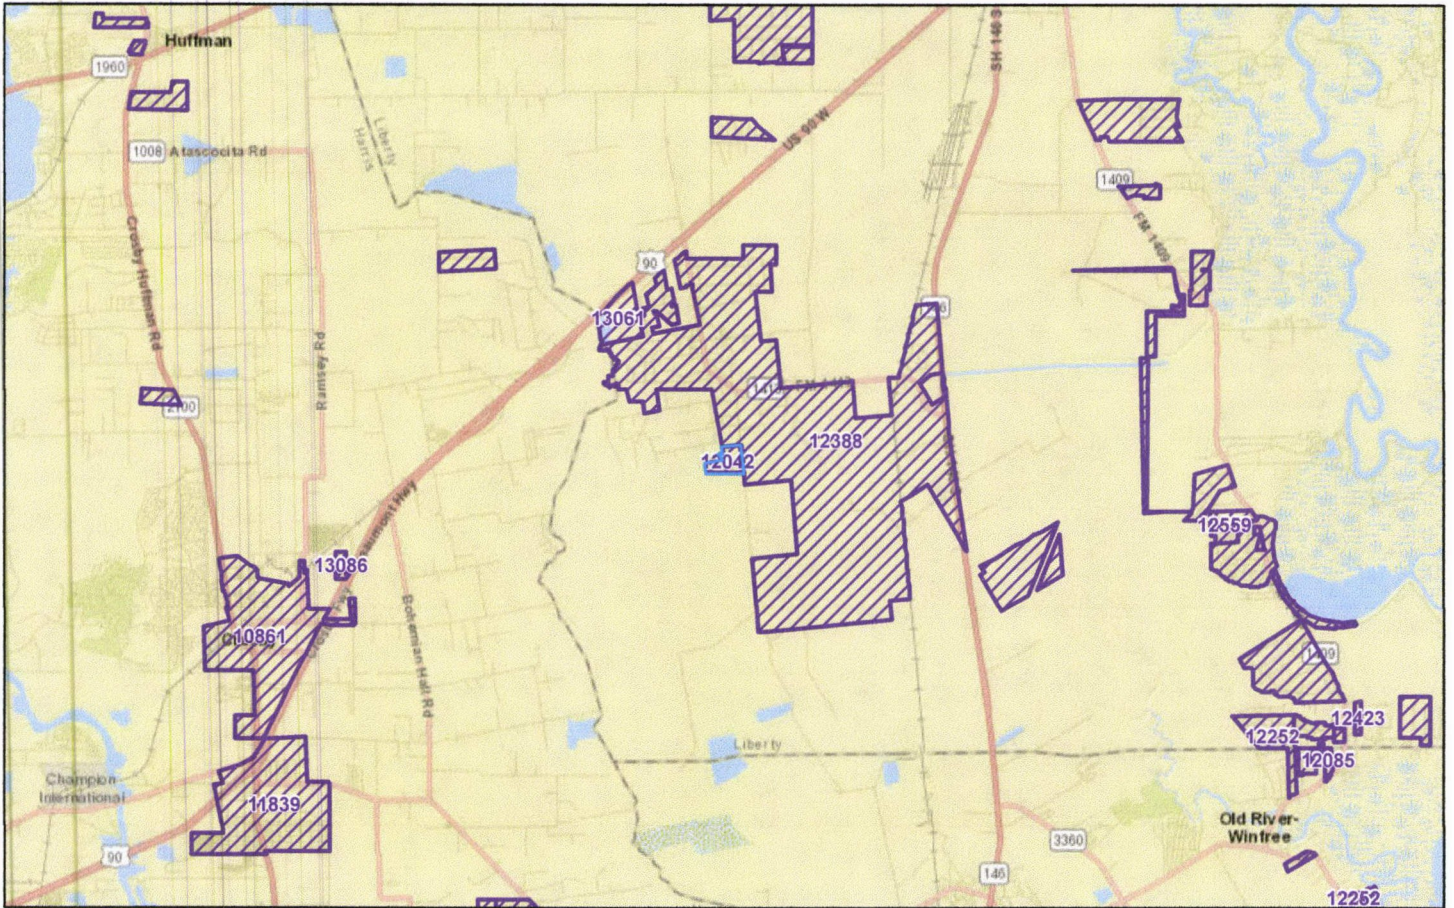

2019 NOV 19 AM 9:06

1. The corporation number for the purchaser is **32044712753**.
2. Gum Island has submitted the drought contingency plan with the regional office, as well as the monitoring plan and notification of installed plant.
3. The physical address for the location where the STM map can be viewed is 11015 Sheldon Rd. STE 102 Houston, TX 77044
4. We will need a waiver for the sellers oath, considering that the seller has recently passed away.
5. Financial information; I'm not understanding what exactly we need to provide as far as financial information.
6. The facility was sold for \$2,000 several years ago. The \$10,000 Promissory Note was made recently to help pay for TCEQ requirements and upkeep, since the customers water bills are so low. So, the sales price and the promissory note are separate.
7. Maps will be provided with this via mail.

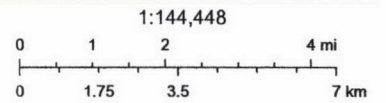

Thanks,
Hannah Krebs
Records Coordinator, EHU
