Re: CCN Application for Sale, Transfer, or Merger of a Retail Public Utility  
Monthly Status of Sale Report – October 2020  
Madera Valley WSC, CCN No. 10240  
Town of Pecos City, CCN No. 10945  
Docket No. 50122  
Reeves County, Texas

Dear Gentlemen:

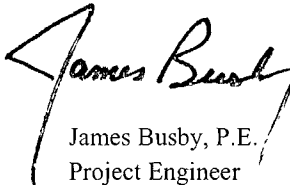

There have been no new developments since the last Monthly Status of Sale Report. Many activities continue to be delayed due to the COVID-19 pandemic and the related impacts of employees working from home and the various rules for office closures and public meetings. Additionally, the Town of Pecos City has had their primary staff member working on this project leave for other employment and new staff is being brought up to speed.

To date the applicants have completed the following:

1. The Town of Pecos City has made Payment to the Madera Valley WSC as required by the contract.
2. Madera Valley has collected the water service records of the accounts to be transferred.
3. The Town of Pecos City was presented an engineering services proposal on May 28<sup>th</sup> for design work related to disconnecting/interconnecting the water systems for the existing Madera Customers. To date, the City has not acted on this item.
4. The Town of Pecos City has extended new water lines that are not connected to the Madera WSC system into the transfer area and is actively providing service to new customers.

Once the engineering services contract is approved, plans will be prepared and sent to the TCEQ for review and approval. Existing Madera customers will not be transferred until the TCEQ approves the disconnection/interconnection plans and construction contracts are let.

Sincerely,

  
James Busby, P.E.  
Project Engineer
