Reference: PUCT Docket NO. 50200

Dear Sir:

I would like to add some additional comments to my Ratepayer Protest Letter dated 12/30/2019.

Do not feel that this rate increase is justified. 1) to the best of my knowledge no meetings or discussions were held with the residents so that we could offer input prior proposed rate increase.

2) I understand that \$131.65 is the maximum amount allowed by law; a huge jump from the current \$70 per 5000 gal.

3) We are not full-time residents of Crystal Beach (approx. 10 days per month) and feel that a usage payment is much fairer than the proposed monthly flat rate payment for people in our situation. Currently we pay \$40-\$50 per month and a 100% plus increase is ridiculous.

4) Because of Hurricane IKE most of the sewer system is fairly new and should not need replacing or upgrading.

Thank you for your consideration.

David Ernst (512-809-8375)
