Statement of Position

Docket #50200

I am filing this document as my statement of position that I don't agree with Undine's proposed sewer rate increase in my subdivision of The Biscayne which is comprised of 242 households. The Biscayne cannot opt out of using this service. We are billed usage and a base monthly rate. I have made the decision to not landscape due to the water bill which runs about \$800 a month if the sprinkler system is operated. Households in other neighborhoods pay a minimal charge. Mr. Rick Melcher with Undine has stated that our rates will double from \$70 to \$140 due to the fact that the company must upgrade the system that they purchased. Undine should not hold the residents responsible to cover the cost of their acquisition of aging systems based on their negligence. Please consider denying Undine's application.

Sincerely,

Marie Butler
