Texas Public Utility Commission,

We are full time residents of the Bolivar Peninsula and we do not rent our home out to others.

I wanted to attach this to the proposed rate change protest for PUCT Docket NO. 50200

The provider Undine Texas has in my opinion misrepresented the rate increase on the attached in the following manner. They state that the current rate for 5,000 gallons is \$70/month and then they propose a Flat Rate of \$131.65/month. That would represent an 88% rate increase.

Per the attached, we normally average less than the 5,000 gallons/month. Analyzing the attached current bill for sewer which is \$64.64, the proposed rate increase would represent an increase of approximately 103%. In other months we have been much lower on our usage which would probably translate into a much greater percentage increase than even the 103%.

Please take these facts into account when considering any increase that you may grant.

Sincerely,

A handwritten signature in cursive script, appearing to read "Annice Richardson", written over a horizontal line.
