RE: Project No. 50211 - *Application of Pattern Gulf Wind LLC to Amend its Renewable Energy Credit Generator Certification*

NOTICE OF APPROVAL

This Notice of Approval addresses the November 6, 2019, application of Pattern Gulf Wind LLC to amend its certification as a renewable energy credit (REC) generator under 16 Texas Administrative Code (TAC) § 25.173(o). Pattern Gulf seeks to amend its REC generator certification to reflect a change in the manufacturer of its wind turbine generators from Mitsubishi to Siemens. The total rated nameplate capacity rating has not been affected (283.2 MW) and the total number of generating units remains unchanged (118 units at 2.4 each MW). Pattern Gulf is registered with the Commission as a power generation company under registration number is 20258.

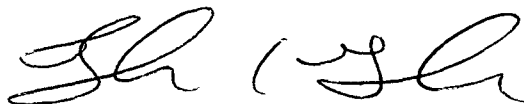

On November 22, 2019, Commission Staff recommended approval of the application, stating that Pattern Gulf has provided all of the information required under 16 TAC § 25.173(o).

The Commission approves the application. The Commission will revise its records to reflect the updated change in the manufacture of wind turbine generators from Mitsubishi to Siemens at Pattern Gulf's wind facility.

Signed at Austin, Texas the 4th day of December 2019.
