ATTACHMENT # 1 FOR LARGE ITEMS FOR SCH. II-3

1. (631-636) Operator to oversee the water supply 14,400.00
2. (631-636) secretary to do the billing and the required paperwork
\$23,865.00
3. (631-6360) Administrator/operator is required to oversee the entire
office and plant operations. \$25,000.00
4. (650) Transportation is required to oversee the operations of the
plants. \$8834.00
5. (678) Professional. An engineer is needed to draw plans for a water
storage tank as required by TCEQ. \$3500.00

RECEIVED

PUBLIC AFFAIRS DIVISION
TULSA COUNTY

ATTACHMENT #2 FOR SEC II-3 known and measurable

1. (631-636) I had to replace my operator and I'm having to pay my current operator \$4320.00 per year more.
2. (631-636) In the past, I never paid myself for any of the work I did on the Water Systems. This included managing and operating the company. I am now going to draw \$25,000.00 per year from the company for an administrator / operator.
3. (631-636) I'm now having to pay my meter readers an annual increase of \$2880.00. This is because my previous meter reader was associated with the previous operator.
4. (631-636) Contract labor to replace 96 old "potatoe" meters. These meters are over 30 years old and are not accurate. Two different contractors have said it would cost approximately \$100.00 per meter because new meters will have to be retrofitted. That calculates to \$9600.00.
5. (677) Billing software and compatible printer. The cost is \$3450.00. This is the same software used by many public water supply systems to print the bills on postcards. This will make billing more efficient.
6. (677) Office rent (\$500.00/month), Water (\$75.00/month) and phone (\$80.00/month) for expenses of \$7860.00. This is a new allocation for Crystal Clear. In the past, I have personally absorbed these expenses.
7. (615.2) This is a new allocation for Crystal clear for office electric. \$75.00 per month. This expense was personally absorbed in the past.
8. (615.1) \$2574.00 This is an increase electricity for the water production of Crystal Clear water plants. This calculation came from past history. I looked at the last 3 years of electric costs and averaged the 3 years of increase.
9. (678) \$3716.00 This is the estimate of hiring an engineer to draw the plans for a water storage tank as required by TCEQ. This estimate was based on the last cost to do this that we had to do only a year ago.
10. (618) \$401.62 This is the estimate of 15% increase of chemicals as anticipated by my chemical provider.
11. (667) \$1500.00 This is the increase of additional sampling required by TCEQ for copper and iron and the 3 year intervals.
12. (650) \$8834.00 Transportation. This is a new allocation for Crystal Clear. I drive approximately 16,400 miles a year overseeing the water plants three times a week. They are located over 25 miles apart. I calculated the mileage at .54 a mile as allowed. Please see the additional attachment labeled Attachment # II-3 Item # 12

13. (664) \$672.00 Other plant maintenance as anticipated of 10% increase as reflected from past history.
14. (675) Misc. \$1200.00 This is the estimated expense for the liscenses and ceu's as required by TCEQ. This includes motels, travel and meals
15. (620) materials. \$9964.00 This is the estimated cost of the materials to replace the 96 meters. This includes the meter boxes(\$25.00 Ea.) meters(\$58.00 ea.) and supplies (\$21.80 ea.).

EXPLANATION FOR TRANSPORTATION COSTS

The transportation costs are based on mileage to oversee and check on the water plants.

1. Whispering Ridge is located approximately 5 miles away.
2. Airport is located approximately 6 miles away in a different direction.
3. Glen Shores is located approximately 26 miles away in a different direction.
4. Lake Line is located approximately 4 miles from Glen Shores.

82 miles x 3 times a week x 52 weeks = 12,792 miles

Average of once a month for a call out on water leaks = 900 miles

$$75 \text{ miles} \times \text{once a month (water samples to lab)} = 960 \text{ miles}$$

Average 15 trips to pick up major parts and supplies
in Waco and Stephenville (120 miles / trip) = 1,800 miles

Travel time obtaining CEU's (200 miles / trip x 3 = 600 miles

TOTAL MILES	17,052	Miles
-------------	--------	-------

I'll only calculate a total miles of 16,400 x .54 per mile = \$ 8834.00

TEXAS ASSOCIATION OF REALTORS®
COMMERCIAL CONTRACT - IMPROVED PROPERTY

USE OF THIS FORM BY PERSONS WHO ARE NOT MEMBERS OF THE TEXAS ASSOCIATION OF REALTORS® IS NOT AUTHORIZED
 ©Texas Association of REALTORS®, Inc. 2016

1. **PARTIES:** Seller agrees to sell and convey to Buyer the Property described in Paragraph 2. Buyer agrees to buy the Property from Seller for the sales price stated in Paragraph 3. The parties to this contract are:

Seller: The Estate of Aileen M. Foley, George Thomas Foley, Jr. Ind. Exec.

Address: 3331 Mitchell Rd, Waco, TX 76708-2327

Phone: (255)644-6884

E-mail: _____

Fax: _____

Other: _____

Buyer: Crystal Clear and/or assigns

Address: 122 S. Ave D., Clifton, TX. 76634

Phone: _____

E-mail: rpayneag@gmail.com

Fax: _____

Other: _____

2. **PROPERTY:**

- A. "Property" means that real property situated in Bosque County, Texas at Lakeline Acres Water Co. and Glenshores Water Co. (address) and that is legally described on the attached Exhibit _____ or as follows: Lots 240-245 in the Lakeline Acres Subdivision and all property, equipment, well, etc. that comprise Lakeline Acres Water Co.

Lot 29 at Glenshores Subdivision and all property, equipment, well, etc. that comprise Glenshores Water Co.

- B. Seller will sell and convey the Property together with:

- (1) all buildings, improvements, and fixtures;
- (2) all rights, privileges, and appurtenances pertaining to the Property, including Seller's right, title, and interest in any minerals, utilities, adjacent streets, alleys, strips, gores, and rights-of-way;
- (3) Seller's interest in all leases, rents, and security deposits for all or part of the Property;
- (4) Seller's interest in all licenses and permits related to the Property;
- (5) Seller's interest in all third party warranties or guaranties, if transferable, relating to the Property or any fixtures;
- (6) Seller's interest in any trade names, if transferable, used in connection with the Property; and
- (7) all Seller's tangible personal property located on the Property that is used in connection with the Property's operations except: _____

Any personal property not included in the sale must be removed by Seller prior to closing.

(Describe any exceptions, reservations, or restrictions in Paragraph 12 or an addendum.)

(If mineral rights are to be reserved an appropriate addendum should be attached.)

(If the Property is a condominium, attach Commercial Contract Condominium Addendum (TAR-1930).)

3. **SALES PRICE:** At or before closing, Buyer will pay the following sales price for the Property:

- A. Cash portion payable by Buyer at closing \$ 100,000.00
- B. Sum of all financing described in Paragraph 4 \$ _____
- C. Sales price (sum of 3A and 3B) \$ 100,000.00

Promissory Note

THIS PROMISSORY NOTE REPLACES THE ONE DATED JULY 1, 2018

\$513,250.82

July 1, 2019

FOR VALUE RECEIVED, the undersigned, Crystal Clear Water, Inc. promises to pay to the order of Robert Payne, at 122 South Ave. D Clifton, TX 76634 or such other place as the holder may designate in writing to the undersigned, the principal sum of FIVE HUNDRED THIRTEEN THOUSAND TWO HUNDRED FIFTY DOLLARS AND EIGHTY TWO CENTS, \$513,250.82, together with interest thereon from date hereof until paid, at the rate of six per cent per annum as follows: twenty, (20), consecutive installments of principal and interest in the amount of \$44,747.55 on the 1th of each year commencing July 1, 2020. The entire principal amount shall be repaid on July 1, 2040.

Payments shall be applied first to accrued interest and the balance to principal.

All or any part of the aforesaid principal sum may be prepaid at any time and from time to time without penalty.

In the event of any default by the undersigned in the payment of principal or interest when due or in the event of the suspension of actual business, insolvency, assignment for the benefit of creditors, adjudication of bankruptcy, or appointment of a receiver, of or against the undersigned, the unpaid balance of the principal sum of this promissory note shall at the option of the holder become immediately due and payable and the amount then due shall accrue interest until payment at the rate of eighteen percent (18%) per annum or the highest rate permitted by law, whichever is less.

Borrower and all other persons who may become liable for the payment hereof severally waive demand, presentment, protest, notice of dishonor or nonpayment, notice of protest, and any and all lack of diligence or delays in collection which may occur, and expressly consent and agree to such and any extension or postponement of time of payment hereof from time to time at or after maturity or other indulgence, and waive all notice thereof.

In case suit or action is instituted to collect this note, or any portion hereof, Borrower promises to pay such additional sum, as the court may adjudge reasonable, for attorneys' fees in said proceedings.

This note is made and executed under, and is in all respects governed by, the laws of the State of Texas.

Crystal Clear Water, Inc.

MY COMMISSION EXPIRES Jan. 29th 2023

**NOTICE OF PROPOSED RATE CHANGE
PURSUANT TO
TEXAS WATER CODE §§ 13.1871 AND 13.18715**

Crystal Clear Water , Inc. Airport/Whispering

0180032 / 0180081

Company Name

CCN Number(s)

has filed a rate change application with the Public Utility Commission of Texas (Commission or PUCT). The application may be reviewed online at interchange.puc.texas.gov. You may also inspect a copy of the rate change application at your utility's office at the address below or at the Commission's office (1701 N. Congress Ave, Austin, TX 78701). The proposed rates will apply to service received after the effective date provided below, unless modified or suspended by the Commission. If the Commission receives a sufficient number of protests, separately or in a combined protest letter, from at least [number of] ratepayers (10 percent of the utility's customers over whose rates the Commission has original jurisdiction) or from any affected municipality before the 91st day after the proposed effective date, the matter will be set for hearing. **See Protest Form on the next page for instructions on how to protest.**

EFFECTIVE DATE OF PROPOSED INCREASE: July 1, 2020

(must be at least 35 days after notice is provided to customers and 35 days after application is filed)

(Proposed rates requested by the utility are not final. The Commission may modify the rates and order a refund or credit against future bills all sums collected during the pendency of the rate proceeding in excess of the rate finally ordered plus interest.)

Reason(s) for Proposed Rate Change:

Generate enough revenue to pay expenses and maintain a constant and safe water supply

** (e g pass-through rate change or temporary water rate provision)

Class C RATE/TARIFF CHANGE APPLICATION

This application can only be used by Class C and Class D utilities. Class C utilities have connections counts from 500 to 2,299. Class D utilities have connections counts from 0 to 499. The application contains schedules for the calculation of rates for one type of utility service (water or sewer). While the instructions that follow relate to only one set of schedules, they apply to each type of utility service that you are providing. Remember that, if applicable, costs should be directly assigned to water and sewer functions. In the event that direct assignment is not possible, allocate expenses between water and sewer as accurately as possible, using cost-causation principles. Complete a set of operational information for each type of utility service provided. For instance, if the utility provides water and sewer service, but is only requesting a change for water service, the utility will also need to complete a set of operational information for sewer service.

These schedules are organized in a manner whereby the user can work through each section in the following order:

- 1st Record historical test year data on Schedule I-1, Column D.
Enter your test year end on the table of contents.**
- 2nd Provide historical revenue information on Schedule 1-2.**
- 3rd Record historical operating expenses and make known and measurable adjustments.
(Section II)**
- 4th Calculate return for rate making purposes (Section III).**
- 5th Calculate adjusted taxes other than income (Section IV).**
- 6th Calculate federal income taxes (Section V).**
- 8th Determine revenue requirements (Schedule I).**
- 9th Design proposed rates (Section VI).**
- 10th Calculate the increase (decrease) in revenue for the notice.**

INSTRUCTIONS REVENUE REQUIREMENT

UTILITY NAME: CRYSTAL CLEAR WATER, INC

SCHEDULES - CLASS C RATE/TARIFF CHANGE

SECTION I - REVENUE REQUIREMENTS AND REVENUES

The purpose of Section I is to summarize the revenue requirement and provide revenues and meter information for the test year.

Complete this section using the instructions on each schedule.

Carefully complete the label for each workpaper. Your application docket number should be included on each page.

Instructions for Section I - Revenue Requirement and Revenues

This schedule will complete the utility's summarization of revenue requirement after all schedules except the rate design are completed.

1. Follow the instructions within the spreadsheet and complete the historical test year column (D) first using financial records. Historical data should be consistent with the applicant's annual reports and financial statements. Provide explanations and calculations for any inconsistencies.
2. Complete Schedules II-2, I-2, I-3(a) and I-3(b).
3. Complete the remaining schedules in Sections II through V using the instructions provided in the instruction worksheets for the section or schedule and in the spreadsheets themselves.
4. Complete Schedule I-1.
5. Complete Section VI Rate Design.

Insert and reference additional workpapers as necessary. For example, you may wish to add schedules that apply to unique situations in your utility.

The schedules are based on the National Association of Regulatory Utility Commissioner (NARUC) chart of accounts and include sub-accounts as necessary for detail needed to determine reasonable and necessary expenditures.

INSTRUCTIONS - OPERATIONS AND MAINTENANCE

UTILITY NAME: CRYSTAL CLEAR WATER, INC

SCHEDULES - CLASS C RATE/TARIFF CHANGE

SECTION II - OPERATIONS AND MAINTENANCE

Complete all schedules per instructions found in the column headers and reference column.

While working through Schedules II-3 and II-6 through II-8 transfer test year amounts to column F of Schedule I-1.

Insert and reference additional workpapers as necessary. For example, the applicant may use additional schedules that address unique aspects of the utility.

Schedule II-5 Known & Measurable Changes

A utility is allowed to recover reasonable and necessary expenses incurred during the test year. Certain expenses may have increased or decreased during the year, so the 12 months of test year expenses would be different from the amount you would have paid for the new level of expenses for the whole 12-month period. Additionally, the utility may know that a certain expense will be changing in the near future. If you know the amount the expense will be changing, then you can adjust your test year expenses to include the change. Known and measurable changes in expenses should be recorded if they occur, but it is possible that none have occurred. If the applicant has no known and measurable changes, simply put N/A on the appropriate schedule.

Some examples of generally allowable changes with documentation/support are:

- Electric rates went up or down during the test year.
- You hired a new employee during the test year or gave your employees a raise.
- You received notice that your chemical expenses will be going up by a specified amount.
- You received a written notice from your landlord that your office rent will increase by a specified amount.
- Your property tax is decreasing because the legislature passed a law that limits property taxes.

Some examples of increases that would generally not be allowed are:

- You are thinking about hiring an extra employee.
- You have heard that your rent might be increased in a couple of months.
- Projected inflation.

II-3 OPERATING EXPENSES

FOR TEST YEAR ENDED:

12/31/2019

INSTRUCTIONS: This page is required to support Schedule I-1 Rev Requirement. Complete the columns A and B with historical financial data for the last two record periods and column C with the actual financial data for the test year. Indicate the kinds of expenses included in this account by identifying all large* items in Schedule II-4 Large Items Identified. The known and measurable (K&M) change column represents the total change in expenses anticipated for the year after the test year. Identify all K&M expenses anticipated in Schedule II-5 Known & Measurable Revenues or Expenses Justifications. The K&M amount represents only the increase or decrease in line item expense from the test year.

If the actual for the Test Year is higher than previous years, explain the increase.

* A large item is more than 10% of the test year account balance and more than \$1,000

II-7 EMPLOYEE PENSIONS AND BENEFITS

FOR THE TEST YEAR ENDED: 12/31/2019

NONE

This page is supplemental information. It is required to complete Schedule I-1.

References below refer to Schedule I-1.

Line No.	Account No.	Account Name
13.	604	Employee pensions and benefits

Employee pensions and benefits

List the amount spent on Employee's pensions and benefits for the last two record periods and estimate for the Test Year. Indicate the kinds of expenses included in this account by identifying all items by category. For example, Pensions includes such items as ESOPs and IRAs. The "Other" column includes such items as dental, vision, life insurance, etc. Also include the number of employees covered and charged to account 674 and indicate the cost per employee. As applicable, provide information on any qualified pensions offered to employees and documentation, such as actuarial studies, discussing net pension costs as well as current funding status of the utility's projected benefit obligation. If the Test Year amount is higher than previous years, indicate the reason for the anticipated change:

List types of Pensions & Benefits:

 II-8 RATE CASE EXPENSE

FOR THE TEST YEAR ENDED: 12/31/2019

INSTRUCTIONS: List the amount spent on rate case expense. Provide the items comprising the rate case expense claim (include the actual billings or invoices in support of each kind of rate case expense) and the items comprising the actual expenses of the prior rate cases. Invoices should include number of hours billed, hourly rate, and services performed for each block of time billed, and the name of the person providing the service. Include a detailed list of travel, entertainment, meals expense included in rate case expense specifically by item with an attached invoice, and summarized by type of expense. Record Commission filing fees or fees to consultants, attorneys, etc. in formal and informal rate cases, complaints, or other dealings with the Commission, which are not reported under Professional Services.

Typically, the commission allows recovery of rate case expense

through a surcharge

If the applicant does not file every year, the expense must be amortized over the time between filings and only one year's worth should be charged to customers. Add additional pages if necessary

INSTRUCTIONS SECTION III RATE BASE

UTILITY NAME: CRYSTAL CLEAR WATER, INC

SCHEDULES - CLASS C RATE/TARIFF CHANGE

SECTION III RATE BASE INSTRUCTIONS

Section III provides working tables to allow the calculation of rate base and return on rate base.

Round all cents to the nearest whole dollar. Round all percentages to two decimal places.

Fill out the schedules as listed below.

- 1** Complete Schedules III-3 through III-7 as they apply to your company. These tables will be used to fill out Schedule III-2.
- 2** Transfer resulting year end balances (See "References" column) to Schedule III-2.
- 3** Complete Schedule III-1

INSTRUCTIONS SCHEDULE III-1 RETURN

UTILITY NAME: CRYSTAL CLEAR WATER, INC

SCHEDULES - CLASS C RATE/TARIFF CHANGE

SCHEDULE III-1 RATE OF RETURN INSTRUCTIONS

Round all cents to the nearest whole dollar. Round all percentages to two decimal places.

Fill in the schedule using your financial information.

Determining an appropriate ROE percentage

As part of the cost that the utility passes on to its customers, a utility's ROE must be authorized by the PUCT. Other factors may be considered in establishing a ROE including, but not limited to company-specific business and financial risk factors. Return percentages should be calculated at a combined level and then applied to the rate-base amounts for water and sewer to produce the return dollars that the utility is requesting to include in the water and sewer costs of service.

Please see link below for examples of recent requests, testimonies, and Commission decisions.

http://www.puc.texas.gov/industry/water/reports/rates/ROR_Report.pdf

Note: If the utility is requesting a *hypothetical* capital structure for the determination of overall rate of return, enter the requested capital-structure percentages for equity and debt in lines 4 and 5 of Column C.

UTILITY NAME <u>CRYSTAL CLEAR WATER, INC.</u> SCHEDULES - CLASS C RATE/TARIFF CHANGE III-1 REQUESTED RETURN FOR THE TEST YEAR ENDED <u>12/31/2019</u>

RETURN ON RATE BASE:

Line No	Description	Amount
1	Test year end rate base (from Schedule III-2, Line 14)	\$ 333,158.21
2	Requested ROR (Column F, Line 7 below)	15.00%
3	Return on rate base (Line 1 x Line 2)	49,974

Rate of Return:

For col A line 2, actual equity should equal the amount the owner has contributed to the business to finance invested capital. However, if your actual debt percentage or equity percentage is greater than 60%, then use a 50/50% claimed capital structure.

Line No.	Description	Actual Amount	Actual Percentage	Claimed Percentage	Rate	Reference	Weighted Average Rate

INSTRUCTIONS SCHEDULE III-3 PLANT IN SERVICE

UTILITY NAME: CRYSTAL CLEAR WATER, INC

SCHEDULES - CLASS C RATE/TARIFF CHANGE

SCHEDULE III-3 PLANT IN SERVICE INSTRUCTIONS

Round all cents to the nearest whole dollar. Round all percentages to two decimal places.

Provide a Schedule III-3 for each public water system or wastewater system and a summary Schedule III-3 for the applicant including all utility plant in service. If more room is needed, you may add lines or make a separate table. The PUCT will accept your own schedules as long as it has the same information as Schedule III-3. Schedule III-3(a) (required) reconciles the utility's current plant balances to the previous case filed. The instructions are for listing only one item, and you should repeat the instructions for each item added to the table. The instructions can be used to set up your own table as long as it contains the same columns. See the "Attachments Required for Sufficiency" section above.

All the information needed to complete the table should be readily available to the utility. The information developed in this table will be used in other tables throughout the application. The instructions that follow this table will tell you where to transfer the information. The utility can include plant and equipment paid for by developer contributions in the depreciation schedule, but the utility cannot include plant and equipment paid for by customer contributions. Furthermore, when calculating the return on net invested capital, developer and customer contributions must be removed.

Column [A] – NARUC Account No./Item Description

Each asset should be listed individually in order to claim straight line depreciation. The description of each individual asset listed under its NARUC account in Column A must include the following in the description and identify its location by the public water system or subdivision for water assets and the wastewater system or subdivision for sewer, as applicable:

Water NARUC Accounts

- 303 Land
- 304 Structures: material type, function of each structure.
- 305 Storage Tanks: material type, capacity in gallons.
- 306 Intake Structures: quantity of pumps, horsepower per pump, capacity per pump in gallons per minute (gpm), wet well capacity in gallons.
- 307 Wells: design or rated capacity in gallons per minute (gpm).
- 310 Power Generation: size of generator in kW.
- 311 Well/Booster Pump: horsepower and capacity in gpm.
- 320 Water Treatment Equipment: type of treatment, design capacity in gallons per day (GPD).
- 331 Transmission/Distribution: material type, size of main in inches and length in feet.
- 333 Services: material type, size in inches and length in feet.
- 334 Meters and Meter Installations
- 335 Hydrants
- 340 Office Equipment
- 341 Vehicles
- 343 Shop Tools
- 344 Lab Equipment
- 345 Power Operated Equipment
- 348 Fencing & Other Tangible Plant

Column [B] – Date of Installation (MM/DD/YYYY)

The date of installation is the date the asset was installed or constructed and operated in the provision of water or sewer service.

Column [C] – Service Life (Years)

Column [D.1] – Original Cost when installed (\$)

This is the amount that was paid for when the asset was installed. The original cost must be supported by invoices or receipts and must match the amount that was booked in the utility's general ledger when the asset was installed.

Column [D.2] – Customer Contributions in Aid of Construction (CIAC)(\$)

Column [D] – Adjusted Original Cost Net of Customer CIAC (\$)

INSTRUCTIONS SCHEDULE III-3 PLANT IN SERVICE

UTILITY NAME: CRYSTAL CLEAR WATER, INC

SCHEDULES - CLASS C RATE/TARIFF CHANGE

SCHEDULE III-3 PLANT IN SERVICE INSTRUCTIONS

This amount is calculated by subtracting the dollar amount of CIAC (Column D.2) from the asset's original cost (Column D.1)

Column [E] – Economic Life (Number of Days)

Calculate the total number of days the asset has been in service since the date the asset was installed or constructed and operated in the provision of water or sewer service.

Column [F] – Annual Depreciation Expense (\$)

This amount is calculated by dividing the Original Cost when installed (Column D.1) by the asset's Service Life (Column C)

Column [G] – Accumulated Depreciation (\$)

This amount is calculated by multiplying the Annual Depreciation (Column F) by the Economic Life (Column E) and dividing the result by 365.25 days.

Column [H] – Net Book Value or Net Plant (\$)

This is the amount of the item remaining that has not been depreciated and is calculated by subtracting the Accumulated Depreciation (Column G) from the Adjusted Original Cost net of Customer CIAC (Column D).
