This Notice of Approval addresses the application filed on December 9, 2019, by T & W Water Service for approval of a pass-through rate change for water fees assessed by the Lone Star Groundwater Conservation District (LSGCD). The proposed pass-through rate change will adjust T & W's pass-through rate to \$0.03 per 1,000 gallons effective January 1, 2020. The Commission approves the application to the extent provided in this Notice of Approval.

I. Findings of Fact

Water requests that the pass-through fee be reduced to \$0.03 per 1,000 gallons.¹ This includes compensation for line loss of 10.2% calculated in accordance with the pass-through equation listed on the tariff.

6. The application contained the affected CCN number, the affected subdivisions, the names of the affected public water systems and their corresponding number issued by the Texas Commission on Environmental Quality (TCEQ), a copy of the notice to the customers, documentation supporting the stated amounts of any new or modified pass-through costs, historical documentation of line loss for one year, all calculations and assumptions for any true-up of pass-through costs, the calculations and assumptions used to determine the new rate, and a copy of the pages of the utility's tariff that contains the rate that will change if the application is approved.
7. On January 17, 2020, Commission Staff recommended approval of the application.

¹ T & W Water only seeks to pass-through \$0.03 (\$0.025, rounded to the nearest one cent) of the total \$0.085 from LSGCD because the first \$0.06 of the fee was included in cost of service calculations previously approved in TCEQ Docket No. 2008-1402-UCR, effective February 1, 2009.
