RE: Project No. 50341 - *Application of NRG Energy Services LLC to Amend its Self-Generator Registration*

### RECOMMENDATION

On December 11, 2019 NRG Energy Services LLC (NRG Energy or the Company) filed an application for an amendment to its self-generator registration (Application) pursuant to 16 Texas Administrative Code (TAC) § 25.109 NRG Energy stated that an amendment is necessary to update a change in new generating plant/facility. The Company's registration number is 70059.

After a review of NRG Energy's application, Staff has concluded that the applicant has satisfactorily completed the post-registration requirements under 16 TAC § 25.109(h) by notifying the Commission of any material change in the information provided on the registration form within 45 days of the change. Therefore, Staff recommends that NRG Energy Services LLC's application for an amendment to its self-generator registration be granted. The Commission records should be revised to reflect the updated change in new generating plant/facility.
