RE: BEC Communications, LLC  
Supplemental Information to Application for a Service Provider Certificate of Local Exchange  
Operating Authority  
Docket No. 50457

Dear Sir or Madam:

Enclosed for filing please find the original and six (6) copies of the supplemental information to the Application for a Service Provider of Local Exchange Operating Authority submitted on behalf of BEC Communications, LLC in the above referenced docket. This filing submits additional information to Attachment C (Management Profiles) of the original application based upon discussions with staff.

Any questions you may have regarding this filing should be directed to my attention at 407-740-3005 or via email to swarren@inteserra.com. Thank you for your assistance in this matter.

Sincerely,

Sharon R. Warren  
Consultant

**BEC Communications, LLC**

**Attachment C**

**Management Profiles**

BEC Communications, LLC is a broadband solution provided by Bartlett Electric Cooperative, a local electric co-op. The electric cooperative has been providing services since 1936 in the following Texas counties - Bell, Burleson, Milam and Williamson. While their telecommunications division is in their start-up phase they will utilize the expertise and services of their underlying wholesale provider for access to the public switched network and for numbering resources. This provider is well versed in all aspects of telecommunications, and can provide BEC the guidance they require in the first phase of their deployment. BEC will also be relying heavily on the broad range of experience provided by the executive team provided by the National Rural Electric Cooperative ("NRTC"). NRTC's focus is to work extensively with telephone and electric members to build fiber and wireless broadband networks. The Broadband Solutions division works closely with its members in all phases of broadband deployment, including business planning, design, engineering, procurement, deployment, and operations. See more about NRTC at the following link <https://www.nrtc.coop/> . BEC will rely on the services of certain consulting firms, such as Inteserra Consulting Group, to manage their regulatory reporting obligations. The company is also in the process of onboarding an experienced Telecom Manager who will be responsible for the day to day management of its telecom operations, as well as managing the relationships with these third party vendors. These components, along with their extensive internal resources should satisfy the Commission's requirement for managerial/technical support with combined experience of at least 5 years.
